Today is Last Day To Drop Courses

Today is the last day in the fall semester for a student to withdraw from courses without a grade being recorded. Students who wish to withdraw from courses must see the registrar's office by 4:30 p.m. today. This applies to all students, including continuing and new students.

Students who are considering withdrawing are encouraged to consult with their advisors before making a decision. The registrar's office can provide guidance on the impact of withdrawing on academic progress and financial aid.

Sign-Ups Required For Record Albums

The Collegians will be holding a sale of record albums this afternoon from 2 to 4 p.m. in the student union. All students are encouraged to stop by and sign up for the albums they are interested in.

Stamp For Wounded' Drive Begins At Cal Poly

The Wounded' campaign has been launched at Cal Poly to raise funds for wounded veterans. Students are encouraged to sign up for the stamp drive, which will run until November 15.

Today's Other Events

- Features Football: The Mustangs will take on the visiting team in a football game today.
- Poultry Club Members Buy Membership Cards
- In the College of Agriculture, the Poultry Club is selling membership cards to support their activities.
- Stamp Club Dance Features Football
- The Stamp Club will host a dance featuring football-themed activities.
- Film Society
- The Film Society will screen a selection of movies this afternoon.
- Sales Proponent Will Address ASB Assembly Oct. 5
- Walter M. Case, sales promotion manager, will address the ASB Assembly on October 5.

Passing Duel Probable—Mustangs Trek South For Tilt At Redlands

The Mustangs will travel to Redlands tomorrow to face the local team in a football duel. The Mustangs are currently ranked third in the conference and are looking to keep their high winning streak.

Dairy Fliers Fly to Iowa This Morning

Three dairy hucksters, Wesley Coats, Fred Vadas and Bob Strobel, will depart today for a dairy show at Iowa. They will be accompanied by dairy department head, left San Luis Obispo yesterday afternoon, to participate in the show.

Crops, Dub President, told today, that the 19th annual Dairy Cattle Judging contest at Iowa State University,举行 in Iowa, Thursday, will be sponsored by the Crops Club.

Dairying and the Southwest are further represented by syrup and Drum will be kept to TWA airlines in New York today.
Scholarship Awards

Granted 30 Students

Scholarship awards were made available to 30 students attending Cal Poly this year. These scholarships are awarded to individuals or organizations interested in providing students with outstanding merit with educational opportunities, or to those groups and individuals who may contribute to the development of an active program of scholastic achievement and co-operative association to students.

The Boar-Roebeck Foundation awarded the sum of $250 to sophomore students in the fields of business, economics, and law. The winners of the freshman scholarships are the following:

First Year—$35 each: James Lay Voorhis, San Luis Obispo; Donald Colussi, Alvin Warner, La Mesa; Richard Brown, Pomona. The sophomore award of $80 was presented to Edward Cowdry, Bakersfield; Alva Warner, La Mesa; and Union Pacific railroad scholarship to Thomas Moore, Lakeside.

Second Year—$50 each: George Loesche, San Diego; Richard Hill's, Glen; Jack Barreto, San Bernardo; Edward Coburn, San Bernando; Robert Cassan, San Fernando; and W. H. Brown, Pomona. The junior award of $100 was presented to James Welch, Willits, Gilbert, and Everett B. Nunn, Santa Paula, and Everett B. Nunn, Santa Paula.

Third Year—$100 to students in the fields of sciences and arts

The largest department in the college is animal husbandry with more than 80 students.

Warring Turkeys Become Docile After Capeting

Following considerable fighting among the campus turkeys, last week Instructor Bartie Bailey and his poultry class resorted to capeting in an attempt to stop economic losses due to skin abrasions and mortality.

Bailey explained that this process involves implantation of a capsule containing 80 mg. of stilbestrol into the neck tissue of a male turkey at the base of the beak. The first results of capeting are observed in about two weeks, which is 30 to 60 days after the time required for stilbestrol to take effect in the blood stream. The bird soon ceases to fight and strut, and develops many female characteristics.

The poultry instructor added that the castrated turkey soon increased in its fat deposition, and most of these turkeys is of a more tender and palatable nature. The results are only temporary, however, because the following year, the effect of castrating shows up, and at maximum peak, thus producing a better product for the market.

**Power Display Has Poly Model**

The Pacific Gas and Electric company is now using a full scale model of a Kern steam power plant, which was constructed by several M.E. majors for the organization. Warden Fullerstone, Fish and Game officer, said he will use the model for the evening's program. The model will be one of the topics for the evening's program.

**Article:**

A model steam power plant, which was constructed by several M.E. majors for the organization, Warden Fullerstone, Fish and Game officer, will be the same used for the evening and the topic will deal with wildlife protection problems.

More than 70 persons were in attendance at the last club meeting, Sept. 21. Fullerstone said he had a record for membership in interest.

In addition to the regular meetings held on the first and third Wednesdays of each month, many members are included in the club's activities, plus an annual Kodachrome slide contest and show.

"Best In Town"

1240 Monterey St.
Hazy Again

Most of us, we think, are strongly anti-Fresh-hating. It's been a custom and may not be revived. We felt that almost every other school in the nation was following a similar program. It was so with us, and true, if we had not in the past been in better living conditions in whichever way he saw fit.

Many of the caliper are turning up today in colleges throughout the nation. At least two of these men can be found here at Cal Poly. There are two brothers who worked all year, saved enough money to pay their transportation costs and tuition, and then found they had only enough left to pay the balance of fees for the year.

With no prospects of a job ahead of them, these two men have entered a world entirely unknown to them, in order to improve their way of life. They are true pioneers, starting all year, saved enough money to pay their transportation costs and tuition, and then found they had only enough left to pay the balance of fees for the year.

While men willing to try to improve things. They are true pioneers, starting all year, saved enough money to pay their transportation costs and tuition, and then found they had only enough left to pay the balance of fees for the year.

For what he has recently seen, there are sufficient reasons for all students who have to drive to the campus. The gripes come mainly from those who have disagreements with others (same widows).

Men of this caliber are turning up today in colleges all over the world. Some of them are likely to be the leaders of tomorrow. They are true pioneers, starting out in a field that he had no way to better his living conditions in whichever way he saw fit.

The student body has removed the faculty parking only signs. We'll be back to normal in no time flat. It doesn't mean anything to the Horticulture unit. At this rate we'll be back to normal in no time flat.

Dear Editor,

The project of the student wives for the fall quarter is to get an Incubator for the County. Are there any students on campus who feel that this isn't important?

The women of Poly are feminine. In a 10-page paper we ought to be there may be a few instructors who feel that this isn't important.

The women of Poly are feminine. In a 10-page paper we ought to be there may be a few instructors who feel that this isn't important.

The next argument will be that they are just hanky-panky on end of an importance. There is an argument that is just about as valid as some of Stalin's promises. The fashion show put on by the students is a fistful of money to the student loan fund. Are there any students on campus who feel that this isn't important?

Dairy Unit Entry
Records High Lactation Mark

BRATTLEROE, Vt.—Polytechnic Farm Beauty, registered Holstein-Friesian, now owned by California State Polytechnic college, has reared a very successful cow.
The cow, which is being considered for the national herd list, has just completed a 365-day test at the State Dairy Experimental farm where she was bred and raised.

The owner, Mr. and Mrs. J. W. C. Pugh of the University of California, has found that her milk production has averaged 700 pounds of milk per lactation.

The test was started last year and the cow has been in milk since then.

The cow is the subject of a study by the College of Agriculture and is being used in a dairy herd genetic improvement project.

Dairy Club Features Production Methods

Russell Nelson, new dairy instructor, spoke at the Dairy Club meeting on Friday night.

Mr. Nelson discussed the methods of production used in the dairy industry.

He spoke on the importance of proper feeding and milking techniques.

He also discussed the importance of record keeping and the use of modern dairy equipment.

Nelson has a long history in the dairy industry, having worked for several major dairy companies.

He is knowledgeable about the latest trends in dairy production and is well respected in the industry.

Dairy Club members were impressed by his knowledge and dedication to the field.

They look forward to hearing more from him in the future.

The meeting was well attended and everyone was engaged in the discussion.

The club members appreciated his insights and were grateful for his time.

They hope to continue to learn from him in the future.

Morse, Wind, Bulldogs Edge Mustangs 20-7

By Al Barto

Cal Poly opened the 1949 CCAA season last Saturday night by gripping a hard-fought battle to site Fresno State Bulldogs 20-7, in Fresno. The Bulldogs made good use of a strong wind at their back for a first quarter as they scored 10 points and lead of a 1-point Mustang for 17-0. John Morse, halfback for Fresno, scored a touchdown for the Bulldogs to start things rolling, and then reversed his field and started a 47-yard drive ending in another TD. Morse and Halfback Ray Kellar for the decision.

The eight from where Morse spurred up, blocked, and the Bulldogs led, 0-0, for the decision. Dick Binma led a Fresno drive to the Mustang 87. Morse and Halfback Kellar for the decision.

On fourth down, Baldo Orgi Eddie Mack caught him from behind for a 100-yard punt 68 yards. Taking the ball on the 15, Morse led the Bulldogs to death. Heilman undoubtedly played the most important game of his career, while Howard Heilman as the outstretched lineman of the game.

The Mustangs started the second half if as if they intended to trample the Bulldogs to death. Heilman raced down the left sideline with a beautiful display of broken field running. This time the conversion was good, and Morse improved player on the squad was...
Yearling Season Begins Tonight

The Poly victors, coached by Bob Steele, open their 1949 gold season tonight against powerful San Francisco City college at Poly stadium.

San Francisco City college, on the heels of winning last year's collegiate games and the Northwest championship, is expected to maintain its A.C.C. crown, should its prowess be as powerful this year as it was in the previous rivalry.

This will be the first meeting of this fine team and Poly tonight, although a green team, boast many outstanding high school stars, players on Don Reed and Bain Debelli, fullbacks, and Ernie Briggs, tackles, will out down the Poly team offense and defense.

"We hope to beat them," declares Coach Bob Steele. "But regardless of the outcome, the team will gain some valuable experience tonight."

For the Colts tonight, the probable starting lineup is as follows:

Windset and Hbams, guards,

Mike and Grady, halfback,

Willard or Back,

Fullback, Agadoni.

The United Press named five gridiron heroes of CCAA in 1948 Little All-Coast team and five men to their second team.

SANTA MARIA OBSISPO
Dairy Wives Club
Elects Officers

Election of officers for the fall quarter was held at the Sept. 28 meeting of the Dairy Wives club, it was announced today by Maggia Calhoun, president of the club.

"Omitting this incubator is the Student Wives' way of showing appreciation to the county and city for the cooperation given us," stated Mrs. Calhoun. "This incubator already is owned by the hospital, but a second one is needed for special emergencies such as in the case of twins."

In order to solicit the help of all students, collection containers have been placed in El Cortez and other locations in the Administration Bldg.

Addition activities to aid the drive are being planned.

Ag Engineers Plan
Barbecue For Oct. 9

Ag engineers plan a barbecue to be held on Oct. 9, at the place to be announced later, will roll on the campus last year. In each case the apparatuses have been placed in El Cortez and other locations in the Administration Bldg.

There were seven accidents in- volving cars on the campus last year, in each case the fault resulted from inattention or carelessness.

Alumni Association
Banquets At Fresno

San Luis Obispo members of the California Alumni association were well represented at a regional meeting of the association in Fresno Saturday evening. More than 140 persons present at the banquet and at the banquet hotel more than 60 were from San Luis Obispo.

Carl Gill of Madera, vice-president for the San Joaquin region, presided at the meeting. Speakers included President Julian A. Mikesell, of the college; Herb Brown, president of the alumni association; Bob Bowman, president of the Cal Poly student body and Sheldon Harlow, San Joaquin.
