April 3, 1947

POLY WINS TWO BALL GAMES OVER C.O.P.

After winning two games from College of Pacific here yesterday on the high school field, 8-0 and 8-5, Cal Poly's Mustang diamond men were working for a double-header here Friday against the defending conference champions, San Diego.

Poly batters found the range in the first game of the double bill, but left 15 runners on base in last night's game. Poly's first two batters, the sixth and seventh, scored three runs in the third inning.

Eugene Frazier, former San Luis Obispo High School ball player, led off with a single, Chiltern Lass, first baseman, one out later, was another hit. George Lass, second baseman, and Bob Wcow got singles and Bob Carter, catcher, followed with a sacrifice fly to drive in the first run. Bob Collins followed with a two-run single and the Mustangs won, 8-0.

Where Poly won the second game, 8-5, Hoffman singled in the first inning for his 10th hit of the season, but failed to score. The Mustangs loaded the bases and scored three runs in the inning to take a 3-0 lead. Hoffman scored on a sacrifice fly by DuPlessis and Collins, the second baseman, and Schmitt, the shortstop, scored on a single to left by DuPlessis.

In the second inning, Hoffman scored again, on a sacrifice fly by Simons, the left fielder, and DuPlessis scored when Schmitt and Collins each homered. Poly batters were held scoreless in the third inning, but scored twice in each of the following three innings to win, 8-5.

Legislature Bill May Change Poly's Name

The 57th session of the California State Legislature has been in session since March 15. Among other bills, a bill proposing a change to Poly's name was introduced. The bill, introduced by Assemblyman J. W. Meehan, of San Francisco, was referred to the Committee on Education, and was then referred to the Committee on Governmental Organization.

Poly Young Farmers Meet

By Charles Schmitt

For the last few weeks their gatherings have been somewhat infrequent, but the Young Farmers once more met at Poly Wednesday evening. The meeting started off with a movie showing the life of a farmer. After this, a discussion of past activities and plans for the future were made in the course of the meeting. The list of activities approved by the Young Farmers would soon include a new film, the making of a hitlist of study study, this dance to be held on April 13, and an admission charge of $2.00. The film will be held to the limits. Everyone is welcome to attend. The dance will be held and it will be voted to continue.

Business pertaining to the Young Farmers was also taken care of. The meeting was turned over to the Farm Bureau, and they begin to carry their duties. The Farm Bureau is scheduled to be held on May 17.

Easter vacation will be observed on April 4. It. 4 and Thursday. There will be no classes held on either Thursday or Friday. The Festival will be closed Friday 1-3.

WANDERING MINSTRELS START TOUR SUNDAY

By William Nies

By William Nies

The Wandering Minstrels are being called back to San Francisco for a spring tour to begin Sunday. The group has been working on their repertoire of songs and music, and is ready to hit the road for the next few weeks.

The Wandering Minstrels have been performing in the San Francisco area for several years, and have gained a reputation for their lively and entertaining shows. They are known for their of their songs and music, and are always popular with audiences of all ages.

The group will be performing at various venues throughout the San Francisco Bay Area, and will be sure to delight audiences with their unique style and energy. So mark your calendars and don't miss out on this exciting spring tour with the Wandering Minstrels!
Notes on the Cuff

In order to facilitate the production of this, our Easter edition, and create some free space for the Fountaine Inn cafe, we will leave campus out. This way we are fairly certain to get it out before all of you leave for Balboa or wherever you plan to spend the long vacation.

We hope that your vacation is successful in every detail. We would like to know why so many of you have voiced a preference for Balboa. Is the air fresher, or what?

Miss Maraton gave us a big plug in one of her English classes last week, and then the bubble burst. This fellow A. M. "Bert" Fellow* got so much to write about he'll have borrowed someone else's article on the dead students, but we can not claim that he writes exclusively for El Mustang.

A girl with a beautiful set of teeth and nice figure told me that even with green floating around, her gums were so healthy she could eat a slice of garlic bread fresh out of the oven. She played a wonderful game—a tribute to our attendance and applause that we oould hardly hear the whistle our hand man, and "Curley" Wilson played a wonderful game—a tribute to our attendance and applause. Everyone interested in shooting under good conditions and firing the gun in matches on a good range should be made secretary-treasurer by the Poly rifle club.

The Hort club dance last Saturday night was really a swell affair. There was a nice sized crowd—well behaved too. The decorations were excellent, as they usually are at all Hort club dances. Even though the Hort boys couldn't start putting up the reels until noon they did a good job, and I understand that the F. E. classes (the reason for the delay in starting the dancing) amounted to ONE basketball player. That type of cooperation is what we don't want here at Poly. It was a good dance anyway.

I understand that this column was a topic for one of the English classes last week. I understand that it is not possible to suit one of our selected faculty members. I'm terribly sorry but I don't have the slightest idea of what the students were up to in these classes. I'm glad to see other schools are recognizing the virtues of Poly. We've all been working hard in support of our teams which show we are on the ball! Boy! Am I my sins full!

When they return to S. L. O. the announcement was made that the general blood drive would be held on the Poly campus on Thursday, April 24. The general blood drive will perform the same function as the blood drive at the gym last fall. The theme will be "Blood for Heroes," and admission will be used to help finance the trip through central California.

To climax the music department's tour, I urge all Poly students to attend the home concert. Let's show them that we are as enthusiastic an appreciative audience as they are grateful at the Poly concerts. The concert will be held on Sunday night at 8:30.

Congratulations and best wishes to the General Administration of the Poly women's basketball team— Jack Welch and Russell O'Dell. Congratulations and best wishes to the Poly women's basketball team— Jack Welch and Russell O'Dell.

I'm glad to see other schools are recognizing the virtues of Poly. We've all been working hard in support of our teams which show we are on the ball! Boy! Am I my sins full!

My nerves to insinuate his columnist's name, but I will defend to the death your right to say it—T. F.terre.

Dear John...

Dear John, I was contemplating writing the following three lines when the 9:17 (teams without lunch) Louisville, Kentucky, called in the barracks laundry, which is supposed to serve the entire campus. Too many students, faculty members, wives, children, visitors, and gremlins leave their clothes plain sight daily. We are going to have to arrange a concentrated clean-up period prior to Poly Royal. Why not start now. It isn't much effort to field strip cigarette butts or to carry with the article on the dead students, but we can not claim that he writes exclusively for El Mustang.

My nerves to insinuate his columnist's name, but I will defend to the death your right to say it—T. F.terre.
The intramural track meet was scrubbed in the face of a double-header with the Tigers of College of the Pacific. The game was canceled, and the matches with the S.L.O. Tennis Club were cancelled. Nothing went to pot. Maybe it was all for the best, who knows? It does make it tough on the sports writers though. Jiro Kai, the sports editor, is sitting over to my left now, his head in his hands, sobbing something about lack of copy. Bob Kennedy and John Patterson are trying to console him with the fact that if it wasn’t for the rain the squash court would be ruined and the farmers would all go broke. Doesn’t seem to be much good. Anyway, things are tough all over.

BASEBALL

When the boys took the field against Fresno State they didn’t look like the same ball club that had played San Jose a few days previous. With Bert Haas on first, Wilbur Mayhew on second and the bases loaded he nipped the belated rally in the bud. Out of a total of 75 points the Tigers took 65 and the Wolf Pack 10. The meet was the first between the two schools and the Mustangs went up to Stockton last Thursday night to take on the Tigers of College of the Pacific. The meet was the first between the two schools and the Mustangs took 65 of the 75 points. When swimming against Poly, broke several pool records and in turn were broken by College of the Pacific. The class of competition is fast and furious in the meet. We will hold on every meet, whether a win or a loss, is a step up that ladder of experience.

SPRING FOOTBALL

At Poly the spring team was in for some good hard work come next week. scrimmages will start Monday or Tuesday and will continue through the remaining weeks of the season. Because of the shortage of time between the opening of school in the fall and the first ball game most of the groundwork will have to be cleaned up now.

The material looks good but just how good will come out when the boys start banging heads. According to Coach Pavelko, Mustang backfield coach, the backfield material is fair but there is a definite need for a couple of good scat backs.
Hort Club Studies L.A. Nurseries and Flower Mart

By Paul Tretinbach

A field trip to Los Angeles nurseries is scheduled for Tuesday, April 17, with Paul Tretinbach, instructor, and students leaving Tuesday afternoon for the weekends. Many of the largest nurseries will be visited during the three days. The Horticulture club's 'Bunny Hop' last Friday was enjoyed by an estimated 250 persons. Wilbur Howes, Gil Brown, who directed the dance, and Jim Coleman, club president, all termed it a fine success.

Favorable comment from many visitors went to the Coliseum, the band's call-by-background, the entrance, the rose in the center, and the Coke garden. The Coliseum, under the direction of Don Seaton, played beautifully and flawlessly, in their usual manner. Jack Anderson took a number of pictures of the affair for the Horticulture department. Labeling of suites and general condition of the gardens was praised by Ernest Stoker, security guard, a former student who announced his gratitude for the splendid cooperation of the G. H. men, most of whom worked all day Friday in the gardens.

The Hort club has changed the time of its meeting to 7 p.m. the day before Easter vacation. As this is a very important meeting, it is urged that all members attend. The present plan is to visit spots of interest in the vicinity of San Francisco, including the cyclotron at the University of California at Berkeley.

POLY PHASE CLUB PLANS BARBECUE AND FIELD TRIP

By Ed Dorka

The Poly Phase club is planning a barbecue immediately following the Easter vacation. The event will be held at the county park and transportation will be provided for all those students who do not have means of getting there. "The barbecue is expected to be a huge success," said Ed Dorka, an electrical student, and have some fun," said John Nelson, president.

There will be no Poly Phase meeting on Thursday following Easter vacation, but there will be a meeting on the Thursday preceding Easter vacation. At this a very important meeting. It is urged that all members attend. This meeting will be held in the A. C. Aud. at 4 p.m., Thursday, April 11.

In the very near future, electrical students are going to be asked whether or not they wish to go on the field trip which is being planned for the Electrical Dep't. If all the arrangements are successful, the club plans to leave for the school Wednesday, May 7. The present plan is to visit spots of interest in the vicinity of San Francisco, including the cyclotron at the University of California at Berkeley.
