Homecoming Begins; Team Rants For Win

Poly, Gauch Gridders
500 Old Grads Return
Tabbed Even Tomorrow

Cal Poly will attempt to go in the win column again tomorrow afternoon as the Mustangs face the Santa Barbara Gauchos on the Poly turf in the annual Homecoming game. Santa Barbara hopes Poly's Homecoming as disastrous as was theirs last week when Pogo- ponte trumped the Gauchos 30-0.

Comparing the scores is a common stipulation of two teams, the pango rates as a strict toss-up. Poly Hall once again, is home to the Poly faithful and the Mustangs are the uninvited guest. The Mustangs have not scored a touchdown in the Poly State, Occidental and San Jose. Mustangs are looking forward to a successful experience in California at the expense of the Gauchos. Gauchos were considerably better than expected in their game against the University of Oregon and have grown more confident as the season progresses. The Mustangs are looking forward to a successful experience in California at the expense of the Gauchos. Gauchos were considerably better than expected in their game against the University of Oregon and have grown more confident as the season progresses.

Parade Schedules For Downtown

Showing at 9:30
By Dave Goodman
Alumni of Cal Poly will be honored in royal style when the first Homecoming parade takes place. The parade, which although planned for all alumni of the college, will be restricted to classes of '37, '38, '39 and '40.

The parade starts at 9:30 with the floats and alumni members in the San Joaquin Valley region. The parade moves along California blvd. starting at 9:30 p.m. and proceeds to the Drill Field along California blvd. with the floats following the theme "Ancestral Heritage,"

The theme of the parade is "Ancestral Heritage," and the floats will be featured at the parade. The floats represent the historical and cultural heritage of the alumni, and the students will be featured in the parade in various ways. The parade is sponsored by the Alumni Association and is a highlight of the Homecoming festivities.

University of California, San Diego State, Occidental and San Jose State alumni associations are also participating in the parade. The parade will feature floats, alumni members, and members of the university community. The parade is scheduled to last until 11:00 p.m.

Judges Announced

Judges for the parade are: President Joseph F. McPhee, Dean M. C. MacDougal, President Richard T. Brownlee, Alumni President John W. Brownlee, President E. J. Brownlee, and Alumni Secretary A. J. Brownlee.

The parade will feature floats, alumni members, and members of the university community. The parade is scheduled to last until 11:00 p.m.

Young Farmers Choose Gaucho Hopea Dim

The 1988-89 school year would see an increase in faculty and students at Poly. The increase in faculty and students would help the university to continue its growth and development. The university is planning to make this Homecoming an exciting and memorable event for all alumni.

On behalf of the Associated Students, it is a pleasure to welcome you alumni back to Cal Poly. The students are planning to make this Homecoming the largest and best ever for the history of Cal Poly.

For your entertainment, the annual Homecoming parade will take place on the parade route. The parade will feature floats, alumni members, and members of the university community. The parade is scheduled to last until 11:00 p.m.

Campus Expansion Movement

Reaches Drawing Board Stage

If returning alumni are pleased, the alumni and students will be pleased as well. The campus in the last few years has undergone great changes, and the alumni will be pleased with the changes that have been made.

A firm of contracting architects, a general classroom building, a laboratory building, an agricultural classroom building, an agricultural engineering building, and a mechanical building are currently being designed. The buildings will contain classes of '60, '61, and '62.

Poultry Club Sponsors "Turkey Trot" For ConventiON

Young Farmers, chosen for the ConventiON, will be featured at the California Polytechnic State University. The event is sponsored by the Poultry Club, and the students will be featured in the ConventiON.

Student members have prepared a float that will be on display at the ConventiON. The float will represent the history of Cal Poly. The float will be on display at the ConventiON.

The ConventiON delegates will be housed on the campus.

Presidents McPeek and Bowman Extend Welcome To Alumni

It is with a great deal of assignment, each year that we welcome the hundreds of Poly alumni who return to enjoy the festivities of Homecoming. Some of the old-timers who haven't been on the campus for many years may find it hard to realize that the same Cal Poly they left a decade or two ago is still the same Cal Poly. This year, however, is the one that holds the most promise for change. The enrollment on the San Luis Obispo campus alone is over 300 this year. This growth in facilities, in enrollment, and in staff, the same Cal Poly you knew and loved, but a new one for you to experience and enjoy.

In addition to the Homecoming festivities, the alumni association will feature an exhibit of historical interest which will be on display in the library. The exhibit will contain a special "Alumni Edition" of the Poly Polytechnic. The exhibit will feature the history of Cal Poly, including the history of the university.

The parade will feature floats, alumni members, and members of the university community. The parade is scheduled to last until 11:00 p.m.

Jury's & Jury's Award

The jury's award will be granted to the winner of the "Turkey Trot" ConventiON. The award will be given to the ConventiON student who has made the most significant contribution to the ConventiON.

The ConventiON student who has made the most significant contribution to the ConventiON will be granted the jury's award.

Dinner at 9:30

The dinner will be held at 9:30 p.m. and will feature a variety of foods, including a main course and a dessert. The dinner is sponsored by the Alumni Association and is a highlight of the Homecoming festivities.

Students also have prepared a float that will be on display at the ConventiON. The float will represent the history of Cal Poly. The float will be on display at the ConventiON.

The ConventiON delegates will be housed on the campus.

The Conven...
Poultry Flocks Expand After Humble Beginning

When the Cal Poly poultry department started operations in 1910, there was practically no equipment and only live birds available for production. Centrally directed activities between 1915 and 1918, but after the three-year period, the department began to expand.

Richard Leach, present department head, arrived in 1930 and commenced work on the existing flock of birds. In 1932, a White Leghorn production and laying incubation program started. Start came with the introduction of different types of brooder equipment and other activities connected with raising and incubating different types of poultry housing. In 1941, after a year's work, Cornish meat birds were added to the campus flock.

Electrical Engineers Use Standard Tests

Many of the tests run in the electrical engineering laboratory are standard tests specified for electrical equipment by the National Electrical Manufacturers' association, according to B. C. Brush, associate professor of electrical engineering.

The objective of the electrical engineering degree course is to develop young engineers to enter one of the engineering fields of the electrical industries. Technical and vocational students are trained to be technicians and hold such jobs as line man, appliance service man, power plant operator and maintenance supervisor.

Aero Department Training Men For Aircraft Industry

The California Polytechnic College has the largest aeronautical engineering department of any state college. Any student may seek positions in the aeronautical field. Enrollment has grown to the extent that the department is considering the addition of a new instructor this year.

Lester W. Gustafson, head of the department, states that the personnel of the department is too small, but that the courses in aeronautics, maintenance and operations field, and for engineering positions in the industry or the various government agencies are being pursued.

Judging Teams Win Public Recognition For College During Past Month

Livestock and dairy judging teams of Cal Poly brought thousands of dollars worth of valuable publicity to the college in the past month.

A five-man, student livestock judging team made Pacific Coast headlines when it placed first in the collegiate livestock judging contest at the World's Livestock Exposition in San Fran-

Final Examination Schedule

(City and save)

Following is the final examination schedule for fall quarter, Jan. 20-29.

Examination days, Monday, Tuesday, and Wednesday are listed in the left and vertical columns.

Examination hours, 8 a.m. through 10 p.m., are listed in the top horizontal column.

Those classes listed in the left and vertical column will have final examinations at date and time indicated.

This information is given so those who are to be held in the regular classrooms.

For example, all classes listed in the left and vertical columns will have examinations at 8 a.m. Monday, Tuesday, and Wednesday, and will be held.

Final examinations on Nov. 17th will be a final examination day and no classes will be held.

Instructors Added For Electronics And Radio

The electronics and radio engineering department now numbers 200 students with a staff of instructors, according to Clarence Braarud, department head.

Harry C. Wolf, department instructor, is on salubrative leave getting his doctor's degree at C.C. Fred Bowen, Poly 50, came from the drafting-engraving shop to take Wolf's place. He was transferred from the electrical department.

Considerable equipment is being added to the shop. Baward said.

Shop facilities are being set up so that may be carried through most of the term. The entire shop is in the "job shop." By the end of this school year the drafting-engraving shop, sheet metal and machine shops will be in operation for production of "commercial" products.

New Soils Science Major

Enrolls 30 Students

Thirty students are enrolled in the soil science department this year, the first year in which a major has been offered. The major, geared to two-, three- and four-year programs, prepares students for farming, soil conservation, engineering, or teaching.

Instructors in the department are Logan H. Carter and Kenneth E. Wade.

Demonstration plots are being established on the college farm this year. These plots, which are study fertilizer, range management and soil conservation techniques, are being conducted in cooperation with the United States Department of Agriculture.

Ag Inspection Enrollments

Show Steady Increase

More than 280 students are in the agriculture inspection department this year, as compared with 38 students in the department last year.

Instructors in the department are Logan H. Carter and Kenneth E. Wade.

Men majoring in agriculture inspection are being prepared for field and in such allied positions with pest control, as inspectors, inspectors, and sales positions with pest control companies.

Welcome Back, Grads

Welcome back home, Alumni. Each year, as we watch the Alumni association grow and increase in size, it takes on more and more the aspects of a large family returning home for its annual get-together at Thanksgiving or Christmas. The friendly atmosphere and the anticipation of friends and relatives gathered together to renew old friendships and talk over the good old days is filtering down to us as you become more and more an active part of Cal Poly.

We find ourselves taking more interest in you and your activities each year as we realize the growing importance of your group and the interest that you have in our activities and progress. This is your holiday, but the mood is catching, and we find ourselves assuming some of the excited anticipation of the up-and-coming alumni that these events engender.

We sincerely hope that your visit is pleasant and that you may return that both you and we can find more and more and feel proud about.

-M.E.S.

Publications Quiz

El Mustang is your paper. We as editors, reporters, advisors and journalism students are working for you. We find the things we think you would like to know about and write them as accurately and clearly as we can. Sometimes the end result leaves much to be desired—we run out of ideas, or in our desire to put sufficient time on our school work, we turn out a hasty job.

The only ways by which we can know whether we are pleasing or writing about the things you want to read, are by comments which we either directly or indirectly and by your letters to the editor.

The only way to know what you want to know as a reader, would be to see your paper. Do you like cartoons of local interest? Do you care to have town news in your paper? How about sports and entertainment? Are there any other things you want to read? What type of news stories do you prefer? All of these questions we try to answer—many of the things you ask for without your help.

Perhaps you have some good ideas that would do much to make El Mustang an outstanding publication. Possibly you feel that you could do a better job of writing if you had some useful item to those who came later. The class of 1906 made a dedication page with some lucky faculty member ever since.

If you have some criticisms, pro or con, write them on a piece of paper, slip them into an envelope addressed to the editor, and drop them off at the El Mustang office, room 21, Ad building.

Here's to your newspaper and mine—let's make it the best.

-P.F.N.

Ignorance Is Bliss

Just a few weeks ago, quite a rabble was kicked up around Cal Poly because members of the college faculty and students were not satisfied with the system of numbering the five numbers to have the talk presented by Dr. Charles Eason Rothwell, former United Nations official.

This college has a "learn by doing" approach—but that does not mean that the total emphasis at Cal Poly is on vocation. That is why we are so pleased that the Alumni Association has stepped in to help and to prevent this from happening. The Alumni Association has been very active in sponsoring various programs, and has shown the lot of work being done by President Julian A. McPherson. This president who left for the Annual Meeting of the American Association of University, has done a splendid job of overhauling the post office as a result of the students who are responsible for its Democratic management.

Cal Poly will have failed in its task of developing good workers and good citizens if the graduates leave the college ignorant of the work of United Nations, or of Congress, or of state and national political affairs, or of world affairs.

That sort of ignorance may be bliss—but it is a blight on the day. It is a threat to the growth and development of the development of corrupt government or atomic warfare.

-B.G.

Ace Cartoonist Pair Added To El Mustang Feature Staff

Cartoonist Lloyd Strathearn and Dick Tice chuckle over a witty bit of art work. Strathearn is probably best known for his characterization of Herman the horse, this character appearing in El Goal Post. Tice specializes in delayed action cartoons labelled "Negative Feedback." Tice is a transfer from our friendly northern rival, San Jose, Strathearn is a former polo player from New Mexico.

Whitson Preparing Sociometric Tests For Publication

Dr. Milo E. Whitson, head of the mathematical department, is completing his work on a method of analyzing the social structure of a group. The publication will also include information on the techniques for analyzing the data in the publication. According to Dr. Whitson, they expect to have this work completed before the end of next year.

Post Office Traffic Keeps Workers Busy

A total of 16,487 items of mail passed through the campus post office weekly, according to a report from Phil McMullan, post master, to Bill Trueman, Welfare officer. This count was made during a recent week of post office traffic.

Money is Short? ... Sure!

Prices are High? ... Sure!

So why not save a few dollars by carrying your Automobile Insurance with The Farmers Insurance Exchange. The same place where hundreds of other students and instructors on the Poly Campus already carry it.

It is one of the youngest companies but last year its Automobile Insurance sales in California were so large that no other company even compared with it.

Besides you will receive a "National Standard—Non Assessable" Policy. Call our phone 697 or come by our office and get our rates.

Tom Hardgrove, (left) faculty advisor looks on as Alvin Gorenberg, chairman of the student branch, accepts the charter. Also looking on is Ed Rents, West Coast branch manager, SAE.

Crops Department Expands Greatly

The crops department, originally in 1900, has grown to a strength of 207 students and six instructors, under the supervision of Paul Dougherty, crops department head. The farms, truck crops, field crops and stress production comprise the crops department.

Fruit production has 22 acres of orchards and vineyards and, due to climatic conditions, 150 varieties of fruit are grown. All operations are carried on by crops majors. There is no outside labor hired. Following this policy, there is ample opportunity for fruit production majors to gain vast experience in orchard operations and management.

Veterans Receive Insurance Hints

For Reinstatement

Four helpful hints for veterans who wish to reinstate lapsed National Service Life Insurance term policies were offered today by the veteran's insurance service administrator.

1. If possible, the policy should have been issued longer than three months. It must be in force a minimum of three months before application is made to make qualifying examinations unnecessary.

2. All questions on the reinstatement application should be answered. Failure to do so means a delay in regaining insurance protection.

3. The application must be dated. If not dated, it is not valid.

4. The application must be mailed to VA within five days. If the postmark is later than five days of the date on the application, a new form will be required. VA will also require premium payments.

After reinstatement, medical examination may be required in addition to premium payments. VA must receive reinstatement application and premium payments within five days of mailing. Veteran must also send VA a copy of a certificate of military service or discharge documents. Veteran is responsible for maintaining a copy of these documents.

Instructor Attends Audio-Visual Meet

M. E. research, instructor in audio-visual education, has returned from attending the annual fall conference of the Audio-Visual Association of California, held at Carmel Oct. 88. The conference devoted the morning to considering the placement of such materials in instruction, and the afternoon to the consideration of problems. Major George Mitchell, of the Army, was guest speaker at one of the general sessions.

President Lists Smoking Rules

President McNam has approved the following regulations issued by the Institutional council, effective immediately, in regard to smoking on campus.

1. No smoking in classrooms or laboratory laboratories between 8 a.m. and 5 p.m. or during evening classes. This does not apply where a room is used for a scheduled club or similar activity.

2. No smoking in outdoor laboratories where, in the opinion of the instructor, a fire hazard exists.

3. No smoking in library or gymnasium, except in offices and library conference room.

4. No smoking in cafeterias except in special sections such as laundries.

NEW PRICE!

Penney's Pushes the Price of These Rayon Twill Down Again

NOW YOU CAN BUY THEM FOR ONLY

69c

Three months ago, Penney's announced a new low price on these shown twill rayon jackets. Now (at the beginning of the season in demand, remember) PENNEY'S DOES IT AGAIN! By this month's issue we've put in a bigger stock, to take care of the increased demand at this price. 52 inches long, they have a full length pocketed Teflon slide fastening, and a cotton inside. "The Break" collar construction. Fabric is nonfriable, mercerized and Teflon treated. 54-60.

AT PENNEY'S
Colts Follow Suit, Drop 24-14 Contest To San Jose Fresh
By Ray Rasmussen
Following in the footsteps of last week's winning San Jose State, Cal Poly Colts went down to defeat last Saturday night to the San Jose Fresh. The score of 14-0 was not a total surprise, as San Jose State played from an aggressive defense which made it difficult for the Cal Poly offense to move the ball.

In the first quarter, the San Jose State line made it difficult for Cal Poly quarterback Dick Toly Colt to pass the ball effectively. However, Cal Poly's running backs, John Leeley and Walt Van Dusen, were able to gain some yardage for the Colts.

In the second quarter, the San Jose State defense continued to dominate, keeping Cal Poly's offense from making significant gains. The San Jose State offense, on the other hand, was able to score two touchdowns, one on a 24-yard pass and the other on a 14-yard run.

In the third quarter, Cal Poly's offensive line was able to open up some holes for the running backs, but the San Jose State defense continued to be strong. The San Jose State defense was able to prevent Cal Poly from scoring any points in the third quarter.

In the fourth quarter, the San Jose State offense continued to dominate, scoring another touchdown on a 24-yard pass. The Cal Poly offense was able to score one touchdown in the fourth quarter, but it was not enough to overcome the deficit.

The final score was 14-0, with San Jose State winning comfortably. While the loss was disappointing for the Cal Poly fans, they were able to take some positives from the game, such as the performance of the offensive line and the running backs.

Spartans Win Again, Outrun Poly Harriers in Dual Meet, 36-21
Cal Poly's cross country team won the meet against Poly Harriers in a close race, with the final score of 36-21.

The meet was held on the 8.4-mile course, and the Spartans took the lead early, with John Leeley, Walt Van Dusen, and Dora Purdy leading the race.

The Spartans' strategy was to control the pace of the race, and they were able to do so, with John Leeley winning the race in a time of 18:36. Walt Van Dusen was second, with a time of 18:48, and Dora Purdy was third, with a time of 18:51.

The Poly Harriers' best performer was Bob Frye, who finished in fourth place with a time of 19:02.

The meet was a close one, with the Spartans winning by only 2 points. The victory was a welcome boost for the Cal Poly cross country team, as they prepare for the upcoming season.
Top Teams, Performers Highlight Mustang Sports History

Throughout its nearly half century history, Cal Poly has produced many outstanding athletic teams and performers. Most records of contests prior to 1919 have been lost and can only be found in the yearbooks of the grading classes. Therefore, most of the information concerns only athletic teams and organizations from 1920 forward. Doubtless, many fine athletes and athletic teams were active prior to 1920 and the Green and Gold during those early days.

Football was first introduced at Cal Poly in 1919. Prior to this date, rugby was the chief sport featuring quality contests. From 1920 to 1928 Mustang alumni performed mainly against high school teams and athletic clubs.

In 1929, AI Agosti was appointed head coach and handled the Mustang gridiron teams until 1935. Most of the opposition was still Cal Poly since its earliest days. Football was first introduced at Cal Poly in 1919. Prior to this date, rugby was the chief sport featuring quality contests. From 1920 to 1928 Mustang alumni performed mainly against high school teams and athletic clubs.

In 1920, Al Agosti was appointed head coach and handled the Mustang gridiron teams until 1935. Much of the opposition was still high schools and junior colleges.

The most successful season ever played by the Green and Gold was that of 1924. In a single season, Agosti won the only major college honor. The Mustangs defeated Whittier eleven last week and partially restored prosperity. The 1924 club, which took second place in the 2C2A, ranks among the finest of all-Poly teams. Other fit* of 1922, 1928 and 1941.

Basketball has been played at Cal Poly since its earliest days. Most of the school quintets have enjoyed only moderate success, but there have been some outstanding teams and players. Coach Charles Pavliko took over the reins of the Mustangs in 1924 and continued to the present. Coach Pavliko has so far highlighted the 1949 season.

The squad of 1948 is generally regarded as the greatest of these clubs. Coach O'Danlele as head coach and handled the Mustangs from 1936 to 1948. The 1948 club, which took second place in the 2C2A, ranks among the finest of all-Poly teams. Oth*r fit* of 1922, 1928 and 1941.

The most successful season ever played by the Green and Gold was that of 1924. In a single season, Agosti won the only major college honor. The Mustangs defeated Whittier eleven last week and partially restored prosperity. The 1924 club, which took second place in the 2C2A, ranks among the finest of all-Poly teams. Other fit* of 1922, 1928 and 1941.

Among the early days' court heroes were Les Bix, John Sezak, and Roy Carpenter. It is generally agreed that Al Agosti was the greatest of Cal Poly's basketball players. The 1924 club defeated Whittier eleven last week and partially restored prosperity. The result of 1924, 1928, 1941, and 1922 is not a fluke. The result of 1924, 1928, 1941, and 1922 is not a fluke. The result of 1924, 1928, 1941, and 1922 is not a fluke.

Baseball had its best season in 1927. Coach Healey, who took over the reins of the Mustangs club in 1927, has so far highlighted the 1949 season.

The 1948 club, which took second place in the 2C2A, ranks among the finest of all-Poly teams. Oth*r fit* of 1922, 1928 and 1941.

Track was introduced as a varsity sport in 1925. Vernon Reiffes is probably rated as the Poly track hero of the last decade. "Pinkie" or "Old Pies" as he is called, will be performing for the last time this spring. Reiffes will be the only athlete in Poly history to earn four letters in both baseball and football.

The astounding upset of un un-
San Jose Powers To 47-0

CCAA Win Over Mustangs

By Ed Baker

San Jose's mighty Spartans all but chased the Cal Poly Mustangs out of the local stadium last Friday as they rambled to a convincing 47-0 victory. The Green and Gold eleven put up a game battle before a capacity crowd, but there was never a doubt about the outcome. Coach Bill Bredhold's warriors ran up a 27-0 lead during the first half.

Spartans toes the line, backed by good downfield blocking, scored a touchdown on their first possession of the game. The speedy Spartan backs, aided by good blocking, scored another touchdown and with a jump pass over the goal, and the rout was on.

Spartans Backs Score

Old Grads Return For Conclave

(Continued from Page One) Brownlee said a nominating committee composed of M. C. Martinson, chairman; Allo Tegels, secretary; and J. B. Adams, treasurer, had a slate of new officers to present.

Before the general alumni meeting, all voting alumni members will congregate downtown near the courthouse at 3:00 p.m. All such a meeting will gather at Polly Grove for the traditional barbeque. Harry Wineroth, barbeque chairman, reported that beans and breads are currently served in the Poly architectural major, Blitzy-threes of these men are freshmen and 10 are seniors, according to George Drumm, Poly student.

By Saturday, with the arrival of a new instructor, there will be two men teaching the student architects, Priestly and Brown, William Riker and Hans Mayor comprise the present instructional staff.

Campus architects have their own responsibilities. Students are now engaged in designing and constructing furniture.

Priestly Returns From West Coast Convention

Ralph B. Priestly, architectural engineering department head, returned yesterday from the annual West Coast engineering convention, sponsored by the American Institute of Architects, inspected the many new private homes and business buildings at the desert resort.

Approximately 175 students are currently enrolled in the Poly architectural major. 25 of these men are freshmen and 15 are seniors, according to George Drumm, Poly student.

My cigarette? Camels, of course!
