California State Polytechnic

Vol. 7, No. 29
San Luis Obispo, California

Poly Royal Opens With Assembly

Poly Royal opens officially this morning with the assembly at 10 a.m. on the football field. The opening assembly will be presided over by Leon Garoian, student body president, with Avon Carlson acting as Master of Ceremonies.

President Julian A. McPhee will give the welcoming address and introduce several distinguished guests. President McPhee will be accompanied by the Paramount's own Billie Holiday and his wife, actress June Dupont, who will introduce Queen Catherine Dupont and her princesses, Eva Brebes, Louise Kirk, Carolyn Waite, and Jane Martinson. Afterward President McPhee will present the new queen, Miss Katia Dupont, and her subjects to the Poly Royal audience.

The Poly Royal, consisting of the students of San Luis Obispo, is a co-ed student council and a sister association of the Student's Wives Club. The Poly Royal is composed of students who are interested in the welfare of the Poly Royal.

The Poly Royal was started in 1932 and is a sister association of the Student's Wives Club. The Poly Royal is composed of students who are interested in the welfare of the Poly Royal.

Receptions Held For Poly
Royal's Queen "Katie" Dupont

Queen Catherine Dupont arrived in San Luis Obispo yesterday afternoon and was met at the Southern Pacific station by a large proportion of Cal Poly's student body. After a reception by the college band and introductions, the queen was escorted to the campus in a mile long parade that wound through the streets of San Luis Obispo. Transportation for the queens was provided by a beautiful Chrysler Town and Country sedan, sponsored by the Students' Wives Club.

A broadcast in front of the Administration building, sponsored by the Rally Committee, was held during Poly Royal to observe the Army's "Sons O' Guns" program over the Mutual Broadcasting System. The broadcast, President Julian A. McPhee, Leon Garoian, student body president, with Avon Carlson, acting as Master of Ceremonies. The Poly Royal, consisting of the students of San Luis Obispo, is a co-ed student council and a sister association of the Student's Wives Club. The Poly Royal is composed of students who are interested in the welfare of the Poly Royal.

First Cal Poly President Marvels At Advancements

California Polytechnic's first president, Dr. Leroy Anderson, from 1902 of the campus starting last Friday with President Julian A. McPhee and ending Monday. He visited the campus to advertise the college since his last visit here five years ago. The occasion of his last visit to Cal Poly in 1949 was to officiate at the "coronation unlaying" ceremony of the old Administration building, Dr. Anderson. As was present at the laying of the cornerstone of the original administrative building in 1904, and was pleased to stand in the new building in 1949. Dr. Anderson said: "I am pleased to see that 45 years ago a single building has been added to this complex, and that the new building is complete, and the school is well on the way to becoming a great institution."

WINDING UP A "pre-Poly Royal" event, the annual Poly Royal rodeo to be held tomorrow afternoon at the arena near the school barn promises to be one of the high lights of this year's Poly Royal. Raw Macon, chairman of the rodeo committee, has completed all plans for the four rodeo events, and several special events. The contest events will include bull riding, calf roping, team roping and barrel racing. Poly students will contest in all these regular rodeo events as well as in musical chairs and a boot race. Rock is being furnished by Manuel Cardona, and will be in good shape to do its part.

During the rodeo performance, Santos, the Chilean stallion who heads the band of thoroughbreds here at school, will be formally presented to the college by owner, Walter Wulf. The stallion has been loaned to the college for several years. Santos has been riding for the past three years, and has been ridden by the Polys. This year, he is in good racing record which he made in Nevada in South America before coming to this country.

Thrills, Spills at Big Rodeo

The annual Poly Royal rodeo to be held tomorrow afternoon at the main arena near the school barn promises to be one of the high lights of this year's Poly Royal. Raw Macon, chairman of the rodeo committee, has completed all plans for the four rodeo events, and several special events. The contest events will include bull riding, calf roping, team roping and barrel racing. Poly students will contest in all these regular rodeo events as well as in musical chairs and a boot race. Rock is being furnished by Manuel Cardona, and will be in good shape to do its part.

During the rodeo performance, Santos, the Chilean stallion who heads the band of thoroughbreds here at school, will be formally presented to the college by owner, Walter Wulf. The stallion has been loaned to the college for several years. Santos has been riding for the past three years, and has been ridden by the Polys. This year, he is in good racing record which he made in Nevada in South America before coming to this country.

COLLEGIANS ... Cal Poly's "sophisticated swingers." This group Fun Frolic this evening at the downtown USB and at the Coronation tomorrow evening.

Industrial Division Plans
Tours of Dept. Exhibits

Tours led by guides who know the details of each exhibit, will be conducted throughout the Industrial Division according to Vernon Luce, head of industrial exhibits. These tours will leave the Power plant every half hour this evening from 7 until 8 and tomorrow morning from 9 until 11 and will include stops at each of the displays from all the industrial exhibits. Luce stated that the guides on these tours would be able to answer in detail most of the questions visitors may ask. Visitors will be able to better see and understand the work of the industrial majors if they accompany one of these tours according to Luce.

Some of the highlights demonstrated on the tours will include the exhibits of the Mechanical Engineering department and the Agricultural division.

Visitors will see both diesel and steam engines, generators and gas engines, as well as brief lecture covering these engineering fields. Tours will also go to the Mechanical Engineering exhibit. Also on display will be enlarged diagrams of power units and actual engine parts and testing equipment. When the tours reach the Architectural exhibit the visitors will view presentation drawings of houses, and blueprints of homes designed and constructed by the architectural machine will be in operation and some pictures will be on display.

Architectural department exhibit is divided into three parts. Visitors will be given a personally conducted tour with a Stanis and three Tarlows. The first tour will view an extensive over haul in the engine shop both regular and the special work being done on the touring engine. The second tour will see an exhibition of engine accessories. This visit will show engine drawings, including finished blueprints. Perhaps the main attraction will be displays of a turbine engine in operation. A miniature jet engine is also scheduled to be in operation during the tours.

Other stops on the tour will include the Electrical Engineering exhibit which features the power end of electronics, and the Air Conditioning and General Engineering department exhibits. All demonstrations will be under the supervision of the engineering and students will be able to ask questions. That department is handling all of the mechanical address systems for Poly Royal.

Day Nursing To Care
For Kiddies Tomorrow
A day nursery, for the guests with small children, will be available tomorrow Poly Royal. The day nursery is under the sponsorship of the Faculty club with Mrs. F. P. Whiting in charge of the operation. It should be available by 9 a.m. and will be open throughout the day. The nursery will be located in the Memorial building, and mothers with small children are invited to make use of the facilities in the nursery.

Music Dept. Has
Active Month
Cal Poly's music department has been so busy during the past month that the boys are seeing notes to their sleep, according to E. J. Davidson, director. Among the musical events which have taken place were the opening assembly, the first and second quarter concerts, the Junior Orchestra and the Women's Chorus. Both the vocal and instrumental groups produced excellent work in preparation for these events.

Today the band will play at the Poly Royal barbecue, Thursday afternoon, and will play another concert at the Poly Grove during the barbecue, Saturday night. These concerts are sponsored by the Poly Royal community. The band will also appear at the Poly Royal barbecue, where visitors may ask. Visitors to the Poly Royal barbecue will be able to hear music during the evening.

Architects Plan
Apartment Unit
As Work Project

Robert W. Sanders, oil display in room C of the Engineering building is a presentation of the work projects started in the Architectural department at Cal Poly.

The architectural students are presenting an apartment unit which is typical of the project work done by this department. In this project the students are designing an apartment unit to the specifications provided by the department head.

The Architectural department was officially organized last fall under the direction of the Architectural department head. The Architectural department will be divided into three parts. Visitors will be given a personally conducted tour with a Stanis and three Tarlows. The first tour will view an extensive over haul in the engine shop both regular and the special work being done on the touring engine. The second tour will see an exhibition of engine accessories. This visit will show engine drawings, including finished blueprints. Perhaps the main attraction will be displays of a turbine engine in operation. A miniature jet engine is also scheduled to be in operation during the tours.

Whites vs. Golds Today in Intracamp Football Clash

The spring football session will be wound up today with an intracamp game in two halves of 15 minutes, according to Coach Art Van Etten. The two squads will have fairly well balanced, with the advantages lying in the backfield for the Gold team and the difference being made up in the line.

Viewing both squads from an overall picture, each team should hold its own in the backfield. The Gold team seems to have a little better rated than the Whites due to the strong line of Van Heravald and Clark or Cope, according to last reports they seem to be making more headway than the Whites. It is not known at this time who will line up by the coach, but it is decided that the Green will be up for scrimmage against the Gold.

Boxers Look to Coming Season

Having completed a successful boxing season, the Poly boxing team will be ready to face the Pacific Coast Boxing Conference. The conference will be held April 19, 20, and 21, at the Granada Hotel, Los Angeles. The conference will be composed of twelve teams, including Poly. There are six lettermen from previous years, and the team is expected to perform well in the coming season.

Here Is Mustangs' Coaching Staff

By Roy Bethel

Carl D. Voltmer—Director of Athletics. Dr. Voltmer was added to the staff last September with the title of director of athletics. In addition to the duties accompanying this title he is the track coach.

Head Football Coach. Outside of courses, Smith has a number of other athletic interests. He is a member of the tennis team. A graduate of the University of California in 1912, Smith has been an instructor in physical education for the past 15 years. In 1938, he was promoted to the position of assistant football coach. While being football coach and, with the completion of the academic year, also the head swimming coach, he will have theFromArray...
This is the big day. Poly Royal time is at hand. No classes, no homework, no worries. Entertainment, exhibitions, and activity are the order of the day. To our visitors a hearty welcome. You make the Poly community feel like a "country fair on a college campus" only occurs in California, and that only once a year.

To the people who have come to visit our campus for the first time and to those of you who are unfamiliar with Cal Poly's efforts along athletic lines at least the story will be good. In general, I would like to give you a brief sketch of some of our outstanding athletes and the reasons why they are outstanding. In the near future (May 23) student body elections will be held to elect the student body officers of the coming year. It will be at this time that the student body will also vote on the most valuable and outstanding athlete of the past school year. The party chosen, in turn will be the recipient of a beautiful trophy donated by Adams Hats and Superbats.

Go back to football season and to the Mustang's successful grid accomplishments, there were about 46 men on the team, but, up to any coaching staff. Of these, five were outstanding. Bob McDougall was a hard-going fullback, and captain of the team in the league standings. Of all the boys who played for Poly, Bob was most responsible in great part for the outstanding work of the Mustangs.

The Mustangs defeated Whittier, 18 to 7. This was the first game of the year and it was played on October 12. The second game was played at San Diego State, where the Mustangs opened their '46 football season with a loss to the Santa Barbara Gauchos, but that game was no indication of what was to come. After recovering from a narrow margin of a Queese play in the first game, the boys came back to win six games, the one loss and one more tie.

In spite of the handicaps the team had, they still fought all of the time, and in the collective work of the team, there was no indication of what was to come. After recovering from a narrow margin of a Queese play in the first game, the boys came back to win six games, the one loss and one more tie.

The second game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The third straight home game, the Mustangs defeated Whittier, 18 to 7. The fourth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The fifth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The sixth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The seventh game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The eighth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The ninth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The tenth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The eleventh game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The twelfth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The thirteenth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The fourteenth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The fifteenth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The sixteenth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The seventeenth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The eighteenth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The nineteenth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The twentieth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The twenty-first game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The twenty-second game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The twenty-third game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The twenty-fourth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The twenty-fifth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The twenty-sixth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The twenty-seventh game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The twenty-eighth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The twenty-ninth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The thirtieth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The thirty-first game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The thirty-second game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The thirty-third game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The thirty-fourth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The thirty-fifth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The thirty-ninth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The fortieth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The forty-first game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The forty-second game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The forty-third game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The forty-fourth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The forty-fifth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The forty-sixth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The forty-seventh game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The forty-eighth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The forty-ninth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7. The fiftieth game was played at the University of San Diego, where the Mustangs defeated Whittier, 18 to 7.
WELCOME

Welcome visitors; we are most happy to have you here on our campus today and tomorrow. Most of you have heard about the unique educational system that is in force at California Polytechnic College. Poly Royal is our "open house" where you can see for yourselves how this system works. Poly Royal is a two-day celebration of the educational features so that they may be absorbed as painlessly as is possible. From that standpoint, Poly Royals have come to be known as "country fairs on a college campus." Some of you who have attended previous Poly Royals know what we are trying to do at these shows. You will find many new and interesting features in this, the fifteen thousandth Poly Royal; in fact, you will find much that you have seen at our previous shows. Cal Poly is proud of many of the traditional activities, and we promise not to pass over the useful or the entertaining features which have made up these shows since their beginning.

For those of you who have not seen any of our previous activities, may we try, briefly, to show you what Cal Poly is doing and has done in the fields of vocational education.

California State Polytechnic College is this college's state school of agriculture and industry. This college, and the students who attend him here, believe in the dignity of labor. We firmly believe that education should expand upon the idea of "learn by doing." Our graduates are singularly fitted to undertake the tasks for which they have been training. The number of students who have attended institutions of higher learning, and are therefore prepared to understand such new and rapidly developing fields as the public requires a great deal of work on the part of nearly all the members of the division of instruction.

Dr. Myron Angel, electrical student of Cal Poly, has written a recent page of progress. He says, "Open house" is a success. Max Deckler has helped Myron with some of the lines, as have several other members of the Electrical Department.

Radio stations in San Francisco and Los Angeles have carried speeches of lines over which we have shown Poly Royal on the spot broadcasts. Myron can really take the big beats out of some of the lines. Max Deckler has helped Myron with some of the lines, as have several other members of the Electrical Department.

Radio stations WCCV in Berkeley, WOAI in San Antonio, and WPBS in Raleigh have generously given time for Poly Royal announcements. The president of the San Luis Obispo College policy student body is also a student of Cal Poly Royal. Lee Rackner, manager of the local radio stations, has prepared many other excellent announcements for the Poly Royal show. Many other excellent announcements have been prepared by the Poly Royal committee.

Dr. Myron Angel, electrical student of Cal Poly, has written a recent page of progress. He says, "Open house" is a success. Max Deckler has helped Myron with some of the lines, as have several other members of the Electrical Department.

Welcome to Poly Royal.

J. M.
Poly Royal Visitors to See Fine Poultry and Egg Show

By Herb Threadgill

This year's Poly Royal is featuring one of the finest Poultry and Egg shows on the West Coast. The Poultry show and Poly's Poultry herd, representing one of the finest New Hampshire Reds comprise a part of the Royal activities. Presently the Poly Royal is featuring one of the finest New Hampshire Reds comprised of the interest in the Poultry show.

All entries are judged under the rules of the American Poultry Association, which is in strict competition. Judging in all classes of the Poultry show are being handled by three judges, one of which is an expert in the handling and grading of the birds. The other two judges will be assisted by his staff.

The Egg show is located in the back of the Poly student center. The titles of the classes are known to the students for they may be entered by any Poly student who wishes to compete. The Egg show is being handled by the student secretaries and the judges are being entered by the Poly student center.

Committee Makes Plans to Ease P. R. Traffic Congestion

The Poly Royal traffic and parking committee, under the guidance of Ken Andrus, chairman, has announced the completion of preparations for the handling of the large numbers of cars expected during Poly Royal. The committee, working directly with Mr. Batzer, security officer, has submitted the following program to be followed during the two-day open house.

1. The main flow of traffic will be along Campus Way. Cuesta ave., Mt. San Luis st. from there to Pepper Lane, to Mt. Bishop road and then to the grounds. No parking will be allowed on these roads.
2. The main flow of traffic will be along Campus Way, Cuesta ave., Mt. San Luis st, from there to Pepper Lane, to Mt. Bishop road and then to the grounds. No parking will be allowed on these roads.
3. All students are urged to direct their guests to the three main parking areas, one south of the Acre line (No. 6 on the map), one in the paved region between Decal Dorm and President McPhee's residence (No. 81), and the third adjacent to the Main Arena, which is located west of the Sheep Unit (No. 29 on map).
4. On Saturday all students and their guests are urged to leave their cars parked at the rodeo grounds when going to the barbecue. The cooperation of students and faculty in this traffic problem will greatly ease the difficulty Poly visitors will encounter when entering the campus, Andrus stated.
