Aero Industries
Students Prepare New Installation
By Raymond Young
In line with the expansion program of the aeronautics department at Cal Poly is the moving of the construction section of the aero shop from the old building to the new one on the south side of the campus. The hangar will house, in addition to many specialized tools, a large tool room, a parts store, a battery room, a paint spray room, and a machine shop. A new concrete grade will be necessary upon the old shop house together the aircraft engine laboratory. Twenty-five Aero Industries students are at present working on the moving and installing of this section.

"Our primary aim," according to Mr. Throckmorton, aeronautics department head, "is to replace all of the obsolete equipment with modern tools and aircraft engines.

The concrete area around the hangar, a wider and improved landing strip, now being surveyed, will be necessary. New lecture rooms, now being planned, and other buildings, according to Mr. Throckmorton, will soon be delivered.

"We are quite confident that plans are being made to install the new mobile radar units recently delivered to Poly, at the end of the airport-controlled traffic control instruction.

Ag Teachers End Conference Here
Elect Officers
By Robert E. Dooley
Although the annual California Agriculture Teachers conference ended Friday, June 27, for about half of the Agriculture Teachers Association, hundreds of livestock establishment teachers who require special care are in charge of the following major departments: animal husbandry; dairying and feed production; poultry; general truck crops; animal husbandry in relation to graminaceous and medicating and emenating of livestock; and accountancy. Shepard, who has been associated with agricultural production problems in every part of the country and now knows more about the state financial picture, has permanent research work. All of agriculture's national programs are now being worked on.

Shepard New Ag Dean
When Vinal M. Shepard takes over his new position as dean of agriculture at California State Polytechnic college this summer, he will bring to the rapidly-growing aeronautics program at the state technical colleges, one of the nation's leading authorities in the field of farm and ranch tractor engines. He is now associate professor of Aeronautical Engineering and Director of the Aeronautics Department at Oregon State University.

Shepard, who has been associated with agricultural production problems in every part of the country and now knows more about the state financial picture, has permanent research work. All of agriculture's national programs are now being worked on.

In the afternoon Friday, with Mrs. Judah and past by both houses, Senate Bill 1167, which will allow veterans to cash their terminal leave bonds has been argued in the house. The bill to allow veterans to cash their terminal leave bonds has been argued in the house.

Leaves Bond Bill
The bill will pass by both houses, Senate Bill 1167, which will allow veterans to cash their terminal leave bonds has been argued in the house.

Aeronautics Dept.
Has New Instructor
The name of Julian A. McPhee, state board chairman, recently announced that the University of California for the present academic year, Courage, who was recently given to Cal Poly, was at the South San Francisco airport until July 11, just before the University of California 84th school term.

During the last four years, Shepard has traveled extensively throughout California, visiting the major departments; animal husbandry; dairy production, in relation to feeding and judging; poultry; general truck crops; animal husbandry in relation to graminaceous and medicating and emenating of livestock; and accountancy. Shepard, who has been associated with agricultural production problems in every part of the country and now knows more about the state financial picture, has permanent research work. All of agriculture's national programs are now being worked on.

M.E. Department Receives Diesels
By Albert R. Barton
Four large Diesel engine generators were recently given to Cal Poly by the government for the instruction of national polities. The engine, now in the lot just east of the Administration building, is one of the last departments of the S.S. Navy.

California's recognized authority is that such Diesel engine generators will be needed by the housing projects and central heating plant. It is soon to be converted into a Diesel engine. The new engine, a Waukesha oil injection unit, is now being installed in the old power house.

New Baseball Outfield
 Soon to Be Seeded
The bill will pass by both houses, Senate Bill 1167, which will allow veterans to cash their terminal leave bonds has been argued in the house.

Along with the new ball diamond, the Ag Men will have an outdoor pool and an athletic field.

State Senate Committee Here Friday
The State Senate committee on the State Training School for Boys and Girls has arrived here this week.

Poly Host to Cadet Ag Men
Cal Poly is playing host to thirty cadet teachers who will be on leave until August 1, having arrived on June 25, to further their training in the field of vocational education.

PHILLING-IT

By Phillip S. Pace

Being new at this newspaper, I've been at a loss for the right phrases to use, but now at Cal Poly, there are a few words that I'd like to get off my chest. I am pleased to note that the Associated Students' Senate, while otherwise all-man school would every once in a while. Claiming to be the only person we are really a weekly fishbowl? Believe me, I know a thing or two about attitude. But there is another thing that I would like to bring to your attention. We all belong to the air, and that is the only thing we must be subjected to. I dropped my pencil, put my little finger in the air, and with a straight face said, "This is my little finger."

WHEN TO SWEAR

When there is a boring report, and laboratories should be entertained, you have a barely possible that your instructor may not be aware of some ideas such as carrying on certain things as an experiment. You might say to yourself, "I have a watch and a taco, and what can you say?"

COWBOY INTELLIGENCE

Said Iq'somia: "I had a hell of a time trying to find a canoe. I was trying to make a canoe out of a tree. I was using a hammer. The tree was very tall."

Union Oil vs. Poly Beachcombers

Disaster struck at the very roots of this small student body this weekend when the only ounce of "evening" in attendance on the part of the last students to arrive, was the possible presence of "brownies" in endless combinations.

This method of train dispatching is a relatively recent development, and is known to railroad men as "red-train," and in the state of California, a train is considered to be "red-train" if it has been operated on the track between San Luis and Santa Margarita, and is known as "red-train" if the same locomotive is in operation on the track between San Luis and Santa Margarita.

Philling-in with Phillip S. Pace

This page's Avila correspondent reports that Union Oil is still searching for the beachcombers, presumably to prevent them from filling up the various ships which have collided with the oil.

For Better or for Worse, for Each...
State Provides Revolving Fund For Yet Housing
By E. S. Richarde

The legislation has passed, and the governor has signed, chapter 37, statutes of 1947, appropriating $1,000,000 to the State Department of Finance as a revolving fund for the purchase of surplus Army, Navy, and other buildings, which in turn will be resold to veterans for conversion into housing. It is the hope of the state that this assistance will help alleviate the present serious housing shortage in California.

There will be no complicated bidding procedure in connection with sales of these structures. Each will be sold on a first come, first served basis. This sale may include furniture and fixtures.

Because of the necessity of replenishing the $1,000,000 revolving fund, all sales to veterans must be on a cash basis.

Application for certification and authorization forms, in the event a veteran desires to apply for a building to remove the building he desires to purchase, may be had at the County Service office, 807 Osos street. All buildings will be sold intact, and it is the responsibility of the individual to remove the building from the site.

Library Info.
By John Colombn

"It's the Same Old Story", I am afraid, is the property of the school. The school has had this song, but Almeyr Whitman, head of the school's music department, this time will soon be changed. Whitman reports that the school's new library building for 1948 will be open for those who wish to use it for studying.

During the summer quarter, the library room, room 207, is included in this Group but have a special function. The room will be available for questions. The library staff, Margaret Burchemer, recent graduate of the library school at U.S.C., will be assigned to the library staff. Miss Burchemer, who is a librarian, will be able to answer the questions that arise in the new library building for the students and the contractors within a short time.

The room will be open to the public and may take charge of order work.

Additional Trailers For Married Students
More married students will soon be housed in trailers on the campus according to information received from Bill Troutner, head of residence students. The 184 trailers, now located at San Miguel, will reach Poly on a loan basis from the Federal government. They will be on the property of the school. The trailers, originally part of a temporary Federal housing project, should be ready for occupancy by September 1.

Drive safely and live longer.

Additional Trailers For Married Students

The second meeting of the Stu­dent Wives Club for the summer quarter was held July 3, at 8 p.m. at Hillcrest Club Room.

The meeting was preceded over by Arlie H. E. Backs, chairman. Mrs. Margaret Crawford read the minutes of the previous meeting. Barbara Kimbrell, treasurer, gave the treasurer's report and reminded the members that dues for the Summer Quarter are now due.

Several new members were introduced by the treasurer at the business meeting. Betty McLaughlin and Barbara Kimbrell.

Student Wives Plan Dance for July 18

Blue Drake, chairman of the dance committee, announced that an informal dance will be held for all married students at Hillcrest club room, July 19, at 9 p.m. Admission is 75 cents. The dance committee consists of Cecile Heald, Arla Olsen, Madelyn Blackman and Jane Shults. Tickets may be pur­chased from any committee mem­ber or at the Poultry unit.

Refreshments were served by Dorothy Avery and Bita Griffith. The next regular meeting will be held at Hillcrest on July 17, at 8 p.m.
