SAC Lends Rodeo Team $150

For Contest Participation

The SAC this week allotted the rodeo team a $150 loan for the purpose of competing in the National Intercollegiate Rodeo Association's annual rodeo to be held in Phoenix, Ariz., Feb. 17 and 18.

The team will have to sign for the loan in the form of a letter from the Rodeo Finals Committee, stating that the loan is to be paid back to the SAC by the end of the current academic year. In the event that the team is not charged, it was agreed that the loan should be used for the good of the student body.

Former CP Student Returns To Tell Many Sea Stories  
By Bill Coney

Bob Holland was aboard the USS President Wilson, the American ship to pick up refugees in the port of Shanghai. Before the Communist armies marched into the city, President Wilson sailed to the Orient. For several days, thousands of refugees were shipped out of the city. Holland said he was glad when his ship started moving down the river toward the coast of China, according to Don Bower, former printing major at Cal Poly.

Holland visited the campus and printing department last March to take a position aboard the President Wilson as second printer. Ports of Call

During his absence from school, Holland saw many trips to the Orient. List of calls were Honolulu, Hawaii; Manila, Philippines; Kobe and Yokohama; Shanghai, China; and British Crown colony of Hong Kong. After signing off sea duty last October, Holland traveled in the East and South, by bus, train and also by thumb. He said he plans to return to college next fall. In the meantime, he may sign up for his last semester of study this week.

Yorkshire Boar Pig Donated

Yorkshire boar pig was donated to the swine department last week by R. R. Reynolds, of Denair, California, according to Don Bower, former printing major at Cal Poly.

Student-Owned Aero Projects Near Completion

Two aeronautical projects, the conversion of a glider into a powered plane and the rebuilding of a wrecked Piper Cub, are being carried on here at Cal State Fullerton. The projects, according to school officials, are being done in cooperation with the Civil Aeronautics Administration and are being supported by the Cal State Fullerton Flying Club.

The glider project is being done by two students, Don Jullie and Bob Aldredge. They purchased the glider in 1947 and have been working on it ever since. They have been testing it and are now preparing it for flight. They have replaced the engine with a Continental 80 engine and have added wings and other equipment. The plane is now ready for flight tests.

The Piper Cub project is being done by another student, Glenn Morris. He purchased the plane in 1948 and has been working on it ever since. He has replaced the engine with a Continental 80 engine and has added wings and other equipment. The plane is now ready for flight tests.

Both projects are being done in cooperation with the Civil Aeronautics Administration and are being supported by the Cal State Fullerton Flying Club.

Just Like New...Glenn Morris and Thomas Quintana are admiring a Piper Cub rebuilt by Leslie Quigg and Quintana. The plane was wrecked in 1947 and was classed beyond economical commercial repair. They purchased the gilder in 1947. The plane, a Piper Cub J-5, already has been trimmed. The three-pieced Tailorcraft airplane and the rebuilding of the plane have been going on ever since 1990, according to school officials.

Students Held Up

By R. L. Krich

Let's have a showing of hands. How many Poly boys have been in the dorms in the last four days? Not many. How many take pride in Poly? Not many. Boys don't wind up doing things like this, either. What protests, if any, advocated a fast track to the Lonely? That's right, a fast track to the Lonely. Nobody has secreted. Don't tell anybody but the College. The situation has become more critical now that the steel, the labor force, and the students who would normally go to the dances have been taken care of. Here's another reason: when the students have paid their dues, skates, band, Mustang Booster contributions, the tavern keepers would be a lot happier that they're not losing sales.

Did you notice all the stay-at home types at the Valentine's dance? There were at least 100 of them. And what happens? They all go home alone. Those puny, puny girls and the Poly balcony are just going out for air. What a perfect time to [cut out].

New's a good time to rehash the Mustang policy of not mentioning names. My feud with the Associated Students, California State Polytechnic College, San Luis Obispo, had just moved to the top bunk. He quickly thought out the proximate 2800 students. This breaks down to an average of 21.1 students. An attitude.

With his usual presence of mind, Joe leaped nimbly out of his bed. He concentrated on prying Ruaala exploding an atom bomb. He calculated the explosion to be approximately 2800 students. That would be a student body supposedly priding itself on its "home team" attitude.

American Cancer society, the Community YMCA and the American Cancer society. This joker reminds me of the buddies in the Freshmen classrooms. Anyhow, let's face it, their best isn't good enough. That's why? So far, the Poly Royal board is a pretty well-remodeled products sales room. I ask that you correct this unfortunate mis-

Architecture

A talk given by Harold Forgrove, architectural club meeting last Feb. 9. Rosalind Industry, lectured on perspective drawings. He explained the use of color in delineation, as applied to primary colors to obtain proper values of shades, shadows and hue. At the conclusion of his talk, Shepard distributed handouts containing 100 prospective questions most popularly asked for architectural students. He also gave a list of possible answers to various questions on the sheet.

The meeting was closed with the collection and the installation of the new Poly Phase FFA.

Warren, Carrillo To Visit County

Lee Carrillo, motion picture star and former member of California, was the latest celebrity to visit our county for the celebration of San Luis Obispo county's 100th birthday, tomorrow. It was disclosed this week by Judge B. Lee Ryan, chairman of the county centennial committee.

The need for more of such conservations, districts in California was stressed by the guest speaker. The meeting concluded over a period of three days and was ably assisted by a president's lunch among the soil science group from Poly attended.

Students, Cycle, Car Involved in Accident

Involved in a motorcycle and automobile accident on campus, Feb. 8, were two Poly students, Harry Snider, 16, and Lester Anderson, 15, of San Luis Obispo.

Keeler was riding his motorcycle north on campus when by Anderson collided at the intersection of California andCommerce way. Anderson was driving a car.

Keeler was thrown under his motorcycle in the crash, but it is reported by the Health center that he was only required bruises. Anderson was uninjured.

The Outlook

By Ed Iler

Now that Poly boasts the unanswerable record of having lost three football coaches in the last three seasons, the question that naturally enters everyone's mind is: What's wrong with the Cal Poly? Nobody knows all the answers to this question; but it doesn't take an Einstein to come up with a few equations that throw a little light on the problem.

For one thing, there is no separate athletic department and the physical education department is but a branch of the Science and Humanities division. Bob Mott is head of the P.E. department and is also director of athletics. Therefore, the football coach is actually controlled to a great extent by a "department". Not very much red tape, huh?

Chuck Pavelko was held answerable, or controlled by this chain. Sometimes, I think that Tom Kewton, the fellow who sweeps out the gym, actually boasted more authority than Pavelko.

Separate Departments Necessary

At many colleges, the director of athletics is also the head football coach. This eliminates much conflict. The actual fun of the fame does not belong to the athletic department but to the school.

The $2000 tentatively appropriated for football equipment and is also director of athletics. Therefore, there could be no assurance of employment—ask Chuck how many good ball players would enter a college at which there is no intercollegiate athletics get a fair break. A separate athletic department would go a long way toward clearing up the situation.

Another little problem brought to light in the fact that Pavelko could not guarantee any of his players jobs. How could good players enter a college at which there could be no assurance of employment? Ask Chuck how many of his boys still look for employment.

In case you didn't know, that's all handled through the chain of command, too.

Football Budget Pitiful

Poly's low athletic budget is no surprise. The 80,000 tentatively appropriated for football equipment only can be grossed with a snicker. Two thousand clams will not buy nuthin'.

The actual fun of the game disappeared when the game was lifted from the intramural class. As is, it's highly competitive—too much for the average basketball. Let's either run it there or forget the whole thing.

However, there is a little ray of sunshine. The Block "P" letterman society is working on a plan to increase the athletic fund, and a whole new budget that certainly deserves the wholehearted support of the school.

Needed—Self Respect

No doubt this message has been hashed and rehashed over several thousand cups of coffee in El Corral, as evidenced by the number of letters the paper has received.

"I'm not going to camp a long time camp in the same place."

In my way of thinking, this program is designed to make the players feel that they belong to the school. A school that at least has the chance to send a note of thanks.

Bob Bander, for the nice (?) things you wrote about old Ed. Ed. The appropriate thing for me to do is send a little smoke in your direction. However, if I did, people might get the idea that we are going steady. Shucks, that's just an old fairy tale, anyway.

Hearts and Flowers

Even in defeat, the Mustang cagers looked terrific against San Jose. Nobody will ever complain that you guys play like that.

**Mustangs Drop Thriller To Spartan Casabamen**

San Jose Closes Halftime Deficit To Defeat Locals In Close Contest

By Bob Hardy

San Jose’s Spartans overcame a halftime deficit and won the deciding third set of a tight Cal Poly 7-6, 6-4, 7-6 Fri night in Crandall gym. For Cal Poly it was the seventh reversal in a row in Cal Poly’s schedule. The Mustangs have maintained an almost perfect half in the second half. A 9-8 win over Stanford on the Mustang’s first outing in the half.

**Frosh Edge Viking Quizzed; Topped By Fresno Cagers**

Although they had to go overtime for a win, the Fresno quizzers emerged an earlier defeat by dumping the San Luis 2C Tigers, 6-3, in Crandall gym last Friday night.

The game was even from start to finish with the Tigers holding a slight, 3-2, lead at half-time. At the end of the regulation period, the score was knotted at 3-3. Four quick first-gig goals by Coach Bob Haynes’ cagers were enough to put the game in his favor. Larry Anderson and Steve Kuchar took high scoring honors for the Mustangs.

Maddock top the list. Don Maddox was followed by Paul Stinnett with 28. Alan Marden was top man in the third round. The Poly cagers took off to a 5-0 lead in the first period and held the edge (seven) 5-5 lead at half-time. At the end of the regulation period, the score was tied at 3-3. Four quick first-period goals by Coach Bob Haynes’ cagers were enough to put the game in his favor. Larry Anderson and Steve Kuchar took high scoring honors for the Mustangs.

**Coach Kuhne was pleased with the performances given by his chargers. The pair of victors were unable to take the match.**

**Spahtan Gymnasts Ease Past Locals**

San Jose’s Spartans nosed out the Mustangs in two sets, 16-9, and 16-9. The Mustangs were the deciding factors as Coach Sheldon Harden’s grapplers took over.

Heavyweight Bob Thomsen continued his winning ways as he registered two wins last Thursday and Friday nights. Thomsen’s wins were the deciding factors as Coach Sheldon Harden’s grapplers defeated the Mustangs.

New Vet Procedure

(Continued from Page 1717)

leased to him at the time he certifies that he is a member of the California state veteran branch of the American Legion. By all students enrolled under the law. When the student's certificate is approved and endorsed by the college, he may apply to the accounting office and obtain a supply card. The cost of fees for supplies and supplies must be shown on the certificate. Purchases for any other amount will not be covered by the supply card.

This will make it necessary for the student to register for courses, and obtain signed book, tool and supply forms, which should be taken to the Cerritos so that exact costs may be obtained. The total quarterly costs will then be entered by the recorder's office.

For the spring quarter 1949-50, students should show the following charges under the certificate form: tuition, $10; Б. Medical fees, $10; Student Body, $10; Breakage deposit, $10. Breakage deposit must be included by all students under the law for the first time.

NEW Art Show Opens Doors To Students, Faculty

Cal Poly students and faculty members are invited to the annual San Luis Obispo county art show at the city recreation center Feb. 22-24, Mrs. Stanton Gray, general chairman, stated this week.

This community show, which is sponsored by the San Luis Obispo branch of the American Association of University Women, features the works of many Cal Poly students. Also on display will be works by James Smith, Cal Poly English instructor.

The exhibit will be open from 3 to 5 p.m. during the five day show.

Cast for Play Includes Three School Members

For the Little Theater play, “Candle Light,” to be presented March 30, includes Les Davis and Dave Goodman, Cal Poly students, and Betty Anne Nilson, wife of student Alfred Nilson.

There has been the part of the chauffeur and Goodman the part of the butler. Miss Nilson will act the part of Isabelle, a former girl friend.
