V.A. Reverses Supply Ruling

Vernon H. Meacham, member of the faculty at California State Polytechnic college since 1925, has been appointed to succeed Eugene A. Egan as dean of student welfare, it was announced today by Julian A. McPhee, president of the college.

Egan, who had been dean of student welfare since last March, resigned, the position at Cal Poly, to accept a position as director of Veterans Administration, San Francisco.

Meacham received his Bachelor of Science degree from the University of California in 1924 and immediately accepted a position as agriculture instructor at Gilroy high school, where he stayed until 1939. From Gilroy he went to Manteca, where he was assistant director of agriculture from 1939 to 1941.

Joining the Cal Poly faculty in 1941, Meacham has held several positions on both the San Luis Obispo and San Dimas campuses, producing area of southern California. Meacham was transferred there as an instructor in Pesticide and disease control.

The following year he was placed in charge of the Veterinary Science program, which position he held until the Eighth unit was closed in 1943 because of the war drop-in on campus. After the Eighth unit was folded, he joined the Naval Flight Preparatory school at Orlando, Florida, was placed in charge of the Navy's basic training unit program and was later appointed, as the NPF's new president, Meacham was placed in charge of the physical education program.

He was named assistant to the director of student welfare and is the first assistant to a dean of student affairs in the university's history.

Meacham is married and has four children, a daughter, 18, and three sons, 12, 14, and 16. His wife, Mrs. Burma E. Meacham, is assistant librarian and English instructor at the San Luis Obispo high school.

Dinner at Cal Poly for Tuesday, September 26.

Student Body Card Sales Announced

Don Seaton, vice-president of the Associated Student Body, announced today that the student body office, room 31, Baseman Building, will be open for student body card sales during the following hours:

Tuesday: 8 a.m. to noon
Wednesday: 1 p.m. to 4 p.m.
Thursday: 8 a.m. to noon
Friday: 1 p.m. to 4 p.m.
Saturday: 1 p.m. to 5 p.m.

All students who signed promissory notes for student body cards and who are now able to pay for the services they have been promised are requested to do so at their earliest convenience, said Seaton.

C.O.P. Tigers Start With New Grid Coach

When new coach of the Pacific football team, Larry Stempel, appointed assistant to Alvin Amos, stepped into the saddle for the first fall football practice, the C.O.P. Tigers will begin preparations for a ten-game schedule which includes the opener against Williams College, Saturday, September 26.

Three A. H. majors, Davis, Bates Bowsers and Don Bower won first place with a pen of three Duroc heavyweights, first place in the individual Duroc Heavyweights; and second place in the individual Duroc Lightweights.

Bolen Bowers won second place with his pen of three Duroc Heavyweights and third and fourth places in the individual Duroc Lightweights; and third place in the individual Duroc Heavyweights.

John E. Jones, acting student body manager for athletics, announced that the drive for the sale of student body cards will continue until the budget quota is reached.

Registration Cards Due Saturday Noon

Saturday is the last day for handling in registration cards with the deadline for the registrar's office.

All students must hand in complete sets of registration cards to the registrar's office Tuesday or on before noon Saturday, September 26, in order to complete a $25.00 late registration fee.

Inter-Club Council Meets Monday Evening

Don Seaton, chairman of the Inter-Club Council, announced today that the first regular meeting of this newly-formed group will be held Monday evening at 7:30 p.m. in room 21 Admissions Building. Began in the week. The registrar's office returned and completed registration later.

President Julian A. McPhee addressed the freshmen class in an assembly held in the football stadium Tuesday at 10 a.m. The senior president, student body president, and Don Seaton, second class president, presided over the assembly.

Longer P.O. Hours Ease Congestion

William Troutner, director of residence life, announced today that the time of the division of residence life and the saying office will be extended to 7 p.m. in the building of this division.

He added that the present arrangements were made to provide for emergency situations and that plans are underway to provide for hours for all students. Both plans are on the availability of a larger building to house the business and the college at its current location.

Troutner said that a committee is studying the problem and that an early solution is expected.

McPhee Greets Forty New Instructors to Campus

For the benefit of 40 new members of the faculty of California State Polytechnic college, President Julian A. McPhee Saturday reviewed the history and objectives of the college at the first faculty meeting for the fall quarter. More than 150 members of the college faculty attended the meeting.

Explaining how the college has risen from obscurity to a position of prominence as a leader in vocational education, on a college level since 1927 when the Bureau of Agricultural Education took over the administration of the school, McPhee emphasized the importance of continuing the philosophy of providing instruction in a practical field.

UPSIDE DOWN

President McPhee called attention to the fact that many colleges and universities are today looking favorably upon the "upside down" educational pattern pioneered by Cal Poly. "Although much tradition must be broken to convince some educators that the policy of training a man for his occupation first and providing instruction for his culture secondary is the best method, much prominent educational authority admits that our 'upside down' pattern is the right side up," said McPhee.

C. O. McCorkle, assistant to the president and dean of instruction; Eugene A. Egan, dean of students; Donald 8. Nelson, comptroller; Oberlin B. Nora, assistant to the president in charge of admissions, guidance, veterans; C. Paul Winner, assistant to the president; and Howard Brown, director of guidance; John D. Lawson, director of veterans housing; Ed Jorgensen, director of athletics; and Leona Boerman, manager of the cafeteria.

The meeting of the faculty was called to the fact that the college is providing housing for over 500 students this year. More than 150 single students are living in single rooms on the campus or in the army camp, and Elmer N. Johnson, instructor of agricultural education, will have the campus within several weeks.

FACULTY INTRODUCED

Dean McClure introduced the entire faculty by departments. The faculty as introduced are: C. Nelson, comptroller; Chellis B. Mays, director of guidance; John Jones, placement secretary; Verd- H. Sheppard, assistant dean of agriculture; C. E. Knott, head of engineering; Elmer N. Johnson, head of economics; Robert H. Simmons, assistant dean of science and humanities; Vernon Maachen, registrar; Ainsley A. Whitman, head of literature; Wm. B. Trow- den, supervising residence student; J. G. Deuel, housing and student employment; A. L. Colwell, supervisor, residence housing projects; Erna B. Stocker, secretary to the president; and Ann H. Washburn, in charge, general office.

AGRICULTURAL DIVISION

Agricultural Engineering department: James F. Merren, department head; Eldi Campbell, Thomas Kelly, Henry Clay, Ray Parsons, Clive Harriman, Lee Bankoff, and Robert Wallace.

Animal Husbandry: M. R. Smith, head; Lyman Beeman, head of animal husbandry activities; Larry Lo, Emmett Bloom, Lyke Hoyt, Robert R. Batler, and Henry Parker.

Field, Fruit, and Truck Crops department: Paul McPherson, department head; Stanston Gray, Robert Leach, Robert Leach, and Dan Wade.

Dairy Husbandry and Dairy Manufacturing department: George McDonald, department head; Keith D. Easter, and Elmer M. Huffman.

Pasture Science: Richard E. Latch, department head; Benton E. Washburn.

Soil Science: Donald Bowls, department head; Howard R. Engle, and Robert H. Beane.

Veterinary Science: Dean C. H. McEwen.

ENGINEERING DIVISION

Architectural Engineering: Glenn W. Wagner, acting department head; Gerald E. Ellis.

Air Conditioning and Refrigeration Engineering: Norman Sharp, department head; Jess Darvick, Robert B. Koche, James M. Mc- Donald, James McGlath, R. H. Evans, and Franklin B. Shaler.

Printing department: M. Fau- towa, department head; Guy K. Culver.

SCIENCE AND HUMANITIES

Health, Physical Education and Athletic department: Carl Vollmer, department head; Carl J. Hohensee, Thomas Anderson, Edward Eggert, Robert Scott, Howard O'Danell, and Charles Pavelsi.

PHYSICAL SCIENCE department: (Continued on Page 8)

SCENE OF ACTIVITY... Poly campus undergoes extensive face lifting and remodeling to provide facilities for record breaking enrollment. When this aerial view was taken in February construction of the new athletic field was still incomplete. At the rate changes are being made aerial views will be needed each month.

Lawson to Speak At Y. F. Meeting

By Jim Jessup

John D. Lawson, assistant supervisor of the Bureau of Agricultural Education, will be the principal speaker at the first meeting of the California Polytechnic chapter of the Young Farmers, to be held next Wednesday evening, September 17, at 8:30 p.m. in room 214, Administration Building.

Also planned for the meeting will be the discussion of plans for the coming year and the outlining of a program of work. An objective of the chapter for this year is obtaining a membership of 800 and this will be one of the main topics of discussion at the meeting.

All Cal Poly students are invited to attend this meeting and a special invitation is extended to former members of the Future Farmers of California.

All of the construction now in progress will aid in reducing the present campus congestion.

FRESH OUT YOUR HAND- BOOK!
Rapid Growth Seen for Unique Industrial Dept.

Poly is one of the few colleges with a separate and complete department of Electronic and Radio Engineering. "We have passed the organizational stage, and we are now ready to operate," declared Clarence Radlitz, head of the department.

The entire second floor of the new (now named) Ag Ed. building has recently become laboratory shop, and lecture rooms for the newly organized Electronics and Radio Engineering Department. The new installation, most of which was put into operation this summer, includes a receiver, transmitters, and public address system lab for teaching students a specific equipment lab used for mock-up installation of special equipment, such as micro-wave frequency and power measuring equipment, aerial radar, radio direction finder, and radiosonde; a repair and construction shop for lab equipment; a 900 cycle, 110 volt generator, and a 60-ohm D. C. generator.

Many new instruments have been added to the stockroom. During the next few months several new FM simulators, Q-meter, vacuum-tube voltimeters, and many other instruments will be arriving.

The two ten-ton vans trailing behind the Ag. Ed. building are not "hot shot" trucks, but contain a new U. S. Navy, Mark XVI radar unit. One van houses a 10 centimeter (3,000 megacycle) transmitter-receiver, indicator, and test equipment. The other contains the power plant for the unit. The 60 foot antenna tower for the unit will soon be erected. This unit, plus the recently ordered radar laboratory, gives Poly a really modern and up-to-date radar laboratory.

Here is a list of the most expressive words in every language, according to Dr. Wilfred Funk, lexicographer and dictionary publisher.

The most bitter is "scheine." The most shortsighted is "mother." The most tragic is "death." The most discouraging is "forgotten." The most beautiful, "love." The most cruel, "revenge." The most useful, "friendship." The oldest is "on." The most peaceful is "tranquility." — American Weekly

Library Expands; New Librarians, Books, Periodicals by Bob Crafter

Extensive increases in the purchase of books and magazines and in the addition of two, full-time librarians to the California Polytechnic State College staff during the summer months marked the expansion of library service during the summer vacation.

Taking over an assistant cataloging librarian is Miss Margaret Fernbach, a graduate of Wayne University, Detroit, and of the School of Library Science at the University of Southern California. Maurice Gold, graduate of the University of California School of Library Science, joined the faculty during the latter part of the summer and is the title of assistant's reference librarian.

Giving evidence of library expansion, Dr. Funk said that the school had acquired between the summer and fall, 1100 new books and received or received during the next six months, 3000 new magazines, chiefly in the scientific and technical fields. Poly has purchased or has been purchased, additional shelving has been installed to cope with the influx of periodicals in the main reading room. Periodicals are for reference only and may not be checked out. The fall quarter.

Both reserves and main reading rooms will be open during the same hours, eight to five Monday through Thursday, and seven to ten in the evening. Reading rooms will also be open during the day on Saturdays. Books may be checked out for two weeks and renewed if not in demand. Special art exhibits, loaned to the college by the San Francisco Museum of Fine Arts, will be on display in the art reading room in connection with Mr. James Smith's course in Art Appreciation.

The first edition for the first time during the fall quarter.

The midget, who was thirsty and who also has a sense of humor, had saved up enough money to buy a can of his favorite antacid. He decided he would pay the ingredients in advance...so he walked into the mortuary and said: "I'd like a short bier." — New Yorker

LUBRICATION GAS AND OIL
Mustang Grid Chances Good

No Pants Slow Mustag Varsity Contact Practice

Winded by the lack of equipment, the Mustangs began their second week of drills in preparation for their first contest September 28 against Arizona State college in Tempe, Arizona.

Coach "Howie" O'Danlela's team has been working out in a cramped twice a day waiting for arrival of practice and game grid outfits—probably the only team in the nation which had not set up and had contact practices by Sept. 6.

The Mustangs, strong in the air last year, are blessed with the return of veteran ends Don Dufke, Harold Winford, Jack Bolten, and Bill Hume. On the other end of the passing combination is Vernon "Pinky" Bebernes, a smart signal caller along with his passing powers.

To fill the fullback spot, vacated by the loss of Joltin' Jim Yates, O'Danlela and Backfield Coach Chuck Pavelko compiled a list of gridiron artists at the start of practice to round out a team to face the nearest schedule of any Poly eleven, for the Mustangs are a conference which is called the second toughest on the Pacific Coast. They will encounter machines from San Jose State, last year's Cali-Bowl champion, San Diego State College, Santa Barbara College, College of the Pacific, and Fresno State College. Some of these opponents are new to O'Danlelas and his men. Take San Diego State College, for instance. Last year, the Mustangs upset the Aztecs 21 to 0, and in the San Jose contest, lead out a 7 to 0 victory over the Aztecs of San Diego.

"What a marvelous opportunity for coach Pavelko to test some fellows never get to try out," coach O'Danlela stated. "Some fellows never get a chance to try out. Now they have a road to the top."

No Yates, But Grid Squad Still Looks Excellent

The Mustangs this year face their first gridiron competition as a member of the California Collegiate Athletic Association.

A shadow falls over the Poly football team at the start of training—for Big Jim Yates, charging the tackle, is the only one of last year's successful team, failed to return to school.

O'Danlela admits the loss of Joltin' Jim from the squad as a setback of major proportions. O'Danlela states the former Porterville high school star was the best fullback on the土壤 last year—barren none.

Brushing aside the setback, Coach "Howie" and Line Coach Chuck Pavelko compiled a list of gridiron artists at the start of practice to round out a team to face the nearest schedule of any Poly eleven, for the Mustangs are a conference which is called the second toughest on the Pacific Coast. They will encounter machines from San Jose State, last year's Cali-Bowl champion, San Diego State College, Santa Barbara College, College of the Pacific, and Fresno State College. Some of these opponents are new to O'Danlela and his men. Take San Diego State College, for instance. Last year, the Mustangs upset the Aztecs 21 to 0, and in the San Jose contest, lead out a 7 to 0 victory over the Aztecs of San Diego.

The best and natural step for any coach is to load the one spot thought was well filled, and who'll replace Yates? Coach Howie, looking to the squad, has a "signal finger" on a man who may take Joltin' Jim's place. Possible starters are Stanley Nigg, 20 year old former University of California squad member, and Bob Bennett, 18 year old former Porterville Junior College player. More may come to light before the Mustang's first game September 20 against Arizona State college at Tempe, Arizona.

Also a feature of this year's Mustang squad is the forward wall. Last year he waa voted the most valuable man on the squad. Last year's outstanding players were Jerry Carter, quarterback and Don Dulits, Bill Hume, Jack Bolton, and Bob McCutcheon, Phoebe scholarships and football.

"Wall, some fellows never get a chance to try out. Now they have a road to the top."

"What a marvelous opportunity for coach Pavelko to test some fellows never get to try out," coach O'Danlela stated. "Some fellows never get a chance to try out. Now they have a road to the top."

"Kids can be divided into two classes—the good and the bad."

"So what?"

"Well, some fellows never get caught, with the good."

Unlock Fresh Grid Schedule
Dr. Carl D. Voltmer, director of athletics at Cal Poly and coach of the freshman squad, today announced the schedule for the fall gridiron program.

Thirty-six first year men turned out for practice this week.

The schedule:
September 15—Falcon's Junior college, night, there.
September 22—Santa Cruz League, Bay, there.
October 4—Presidio J. V. night, here.
October 11—Santa Maria A. C., night, there.
October 26—San Jose Frosh, night, here.
November 11—Open.

Prof: You mean you have neither a pencil nor paper? What would you think of a soldier who went to battle without rifle or ammunition?

Vet: I would think he were an idiot.

FALL BASEBALL START
Announced by Mott
Fall baseball plans will start Monday evening, September 12, in the gymnasium. Practice games will be played on the athletic field, according to Coach Bob Mott, who has received a report that everyone except football men, men in the reserve and students engaged in extracurricular activities, will be available.

The schedule for the first week will consist of two games a night. The expected varsity line-up will be notified later.

P. E. Department Expands Coaching Staff, Facilities
Julian A. McPhail, president of Cal Poly, this week announced the addition of two physical education instructors to meet the expanded program in that department.

They are Richard A. MacKem, graduate of University of Southern California graduate, and Edward Jorgenesen of Chico State.

In addition to physical education instruction, and will get swimming while Jorgensen will teach basketball, the department is urging all men interested to bring whatever they have in the way of shoes and gloves.

This addition boosts the number of instructors in athletic programs.

The college this year starts a four year physical education program, giving emphasis to teaching and coaching abilities. In line with the physical education conditioning program a new 50,000 athletic field was completed this year to accommodate P.E. classes and 5,000 returning servicemen.

Majoring in physical education, Anderson graduated from USC with a B. S. degree in 1942 and with an M. S. this year. He coached at USC last year where he assisted Fred Coats, Olympic diving coach. Anderson served in the navy from 1942-45 as a physical instructor at Norfolk, Va., and discharged a lieutenant. He is married and has a daughter who was 18 days old September 11. Jorgenesen graduated with an A. B. from Chico State in 1936. He was active in sports and was awarded the letter in physical education department.

He coached at Southfield, Pawtucket and Warwick high schools and Marin Junior College. After service in the navy, he returned to the college to be the head of basketball, track and assistant coach of football. He is married and has a son and daughter.

The schedule:
September 15—Ballinas Junior college, night, there.
September 22—Santa Cruz League, Bay, there.
October 4—Presidio J. V. night, here.
October 11—Santa Maria A. C., night, there.
October 26—San Jose Frosh, night, here.
November 11—Open.

Prof: You mean you have neither a pencil nor paper? What would you think of a soldier who went to battle without rifle or ammunition?

Vet: I would think he were an idiot.

REFRIGERATION ISN'T NEW

By a unanimous choice, Oscar Luckinger was selected as advisor to one of its first undertakings for September 12, 1947. Flores mentioned that the goal of his choice.

By one of the leading publishers, which he devoted his full time to writing with the understanding that the book will be published by one of the leading publishers. This book was written for the purpose of making the student integrate principles and practice of the refrigerating industry.

Guidance Service Available To All Poly Students

A Guidance center to serve all students has been set up in the Administration building, with Veteran's personnel collaborating to provide more counseling services than heretofore have been available.

Will Troutner, newly appointed director of this service, will serve this campus with a sharply focused approach, while J. Paul Hilson will continue to serve as chief counselor for the V. A. Other personnel will be brought in to devote their time to counseling at the request of the student and James McGrath, both of whom will work with the guidance center.

The Guidance Center's sole purpose is to aid all students in solving their personal problems on a one-to-one basis. Consequently, each and every student is invited to use the center as his needs arise.

A sizable work of books, bulletins, pamphlets, monographs and other publications about various occupations will be available. Students will be able to evaluate job opportunities in matching experiences and training with qualifications desirable for a particular job. Frequently this information serves to confirm an occupational choice already made and helps the student to direct his efforts more effectively toward the completion of his choice.

Student Appointed Airline Agent

Ermelene Blake, advanced student in printing and business management of publications, has been appointed campus representative of Southwest Airways for Cal Poly, Joseph Gregory, Southwest's San Luis Obispo manager announced today. The appointment of Blake to this post is part of Southwest's bid to familiarize the various colleges and students on the line. Blake is in a position to sell Southwest products, to keep the students informed and make reservations for air travel for all members of the student body and faculty.

In his dual capacity of business manager and campus representative Blake sold himself an ad in the recently issued Fresh Handbook. This proof that the advertising manager believes in his own product was a full page listing the various services to be enjoyed throughout the coming school year and a tip hint that weekends in Los Angeles and San Francisco can be substantially enriched if one avail himself of the convenient schedules of Southwest Airways. Blake has given the Southwest line from Los Angeles to San Francisco numerous times and is qualified to answer almost any question about the schedules of his line.

He keeps the ticket book with him and is available anytime in the print shop or student publication office, room 16, Admin. Bldg.

Dink and Handbook

Rtquirad Equipment

Any freshman who did not purchase a "dink" and a handbook to flaunting tradition and laying himself open to possible action by upperclassmen was announced today by an unnamd apokesman for the sophomore class.

All freshmen should be anxious to obtain a copy of the handbook as the 80 page booklet contains much valuable information which every freshman should know. A limited supply of both "dinks" and handbooks are now on sale in El Corral.

MORE ABOUT FACULTY

Social Science department: Carl O. Beck, Phillip J. Bromley, Andrew W. Crulkshanka, Morrla Smith, F. C. Snow, Jamea St. Clair, Ralph Dilta, Ernest Steiner.

Music Department: Harold P. Davidaon.

Dr. Carl Voltmer, director of athletics, stated today that the Poly swimming pool will remain closed until chlorine can be secured for the water. Once the chlorine can be had, the pool will be opened to all students, he said.

PASO ROBLES FAIR

Judges Include Poly Instructors

By John Patterson

California Polytechnic instructors will judge many of the livestock classes at the Sixteenth Agricultural District Fair being held in Paso Robles this week, according to Herb Sutton, fair board president.

Vardi Beggand, Dean of Agriculture, is to judge Junior division beef cattle today; G. M. Drumm, head of the Dairy department, will judge Junior division dairy cattle; Lyman Bennlon, head of the Animal Husbandry department, judged open division, beef yesterday, and Drumm judged open division dairy cattle.

The annual sixteenth district fair which opened yestraday features all of the events of a typical country fair. Reports on the campus indicate that Paso Robles is the spot to be this weekend.

One of the feature attractions in the rodeo. Gene Rambo, world's champion cowboy, will be present: Roca and a horse show are daily attractions.

Jean Eversy, "Miss California," is among the many prominent guests slated for appearances, which should be recommendation enough for Poly bachelors. Extensive exhibits in domestic arts and sciences are available for inspection by married students and/or their wives.
