Les Brown Plays Tonight

Cal Poly students are offended against against the tone tonight as Les Brown, star of the Fox hit radio show, Leaves Banta March 18 and 20. This is the first annual spring dance special for the Fox Network and it's a show that's been selected for the next two weeks. Brown and his orchestra will be back on tour until 50,000. They will be performing in the coming weeks.

Some students interested in radio will find a new program on the Fox network. "I'm looking forward to it," says one student. "It's a new format and I think it will be exciting." The show will be heard on the Fox network. It will air on Tuesday nights, starting April 18. The show will be hosted by Les Brown. The show is expected to be successful and will attract a large audience.

Furthermore, there is a new dance special planned for this month. It is expected to be very popular. The dance special will be held on Saturday night, starting at 9 p.m. The dance will feature music provided by the Les Brown orchestra. The dance will be open to all students and will be held in the Recreation Center.

The Les Brown show is expected to be a hit and will attract a large audience. It will be a great way to end the semester and will provide a fun night for everyone.
Air Conditioning Department

Moses Rack and Saves $1,000

Moving a pipe rack from the refrigeration laboratory to an outside location cost only $1,000, Norman Sharp, air conditioning department head, said today.

"Lab space valued at $1,500 square feet," he explained. "The rack contains a lot of hard-to-get floor space in the refrigeration lab. The space is very utilized by the refrigeration skill classes for repairing equipment.

The pipe rack, when moved to the outside location, will be used for additional sheet metal. It's a nice tie to the Graves Avenue school, where students are trained in sheet metal work and are handled by students from the drawing board stage to the final installation.

"When a request for a job reaches Graves, he names a student crew and appoints one man foreman. The foreman makes estimates and begins designing the job. Most of the actual work will be performed in the laboratory, and when the project is ready for installation, the foreman directs his crew in completing the job. Foremen are alternated among the crewmen, each man getting an opportunity to demonstrate his planning abilities."

Art Gandy Winner
Of Rotary Scholarship

Art Gandy, senior electronic engineering student, was guest of the San Luis Obispo Rotary Club luncheon meeting. He was introduced to the club members as winner of the $1,000 Rotary scholarship for 1960.

Gandy, chairman of the board of publications, editor of the bi-weekly-a-issued Poly Royal, P.R. Editor's yearbook, and was an assistant editor on both the 1960 and 1961 yearbooks. He also edited both the Goal Post and the Mustang Roundup.

In addition to his publications activities and his studies, Gandy also was drum major of the band, a member of the Poly Royal executive board, and a member of the Poly Royal executive board and other minor sports.

College Fire Crew
Undergoes Training

Campus firemen are undergoing training program to prepare them for the operation of a new fire truck they will receive the first week in April.

The 12-man fire crew at camp is being trained to operate fire equipment maintained by the San Luis Obispo army camp, which responded to fires in the housing area of the Poly Royal fire chief, in supervising the course.

Louis (V) Shepherd Rounds Up All-Star Cast For Final Series in Society's $1000 Drive

His polo shirt, pants, hands and hair covered with red, blue and green and yellow poster paint, Louis Shepherd, instructor of English and supervisor of the student radio station, was on hand at the forum for Film Frenzy Wednesday afternoon.

"You think those look artless," said Shepherd, surveying the horizon with aaigner's eye. "These are the best of the posters that have been turned in for this series. We've got a real range of styles in this group, from the very realistic to the very imaginative. And we're proud of the quality."

"But with our up-and-downs with the administration, we're still fighting for our existence," Shepherd went on. "The student radio station continues to be a viable, valuable part of the campus community."

Shepherd said that the student radio station has been in existence for more than ten years and has always been a source of pride for the students.

"It's a place where students can express themselves and have fun," he said. "We've had some great moments, and we've had our share of challenges. But we've always come out on top."

Shepherd said that the student radio station is also a great place for students to learn and gain experience.

"We've had students work on all aspects of the station," he said. "They learn how to produce shows, how to write scripts, how to interview guests, how to operate the equipment. It's a great learning experience."
Industry's Viewpoint

Stanley M. Johns, manager of the Westinghouse Electric company, Los Angeles, was the guest speaker at the last meeting of the Poly Phase club, to which all industrial students are invited.

Mr. John's topic, "Tommorrow We—?" concerned the responsibilities of the young engineer. These responsibilities were broken down into four divisions: To self and family, to employer and job, to professional standards and to country and society.

Prior to the meeting, Mr. Johns was conducted on a tour of the campus by E. C. Glover, electrical engineering department head. Upon completion of the tour, Mr. Johns mentioned that he had been under the impression that Cal Poly was to be a military college and that the students were the same officers.

Mr. John's program was the second of a series of five that the Poly Phase club is sponsoring this year. The purpose of the program is to bring an industrial student for his job and to bring men from industry here to see the college facilities and to explain the college program.

One of the most frequent complaints made by industrial students here at Poly is that there is no effort made to publicize the industry division. Perhaps it is time for all of us to realize that it is the duty of not only the administration and the faculty but also the students to help in gaining the acceptance of Cal Poly by the industrial world.

One means of attaining this recognition is to attend the campus movie poll, which is the result of the industrial department's clubs and to show the speaker that we are interested in seeing movies. We can hardly expect industry to become interested in us unless we are willing to initiate this type of activity.

It is rather evident that industry can get along without our services as engineers and technicians, but we can hardly get along without industry. The time has come when we must realize that recognition of Cal Poly by industry must be a cooperative effort on the part of the industrial students, the faculty and the administration.

It would like to extend a cordial invitation to all industrial students to attend the remainder of the series of speakers.

Wes Wilson

Campus Movie Poll

One of the commonest complaints heard in the Corral, Dae's recreation hall and other places where Polyites gather to be entertained, is the lack of activities for students on weekends. Coupled to this complaint are two more sometimes considered to be synonymous: A lack of funds and little or no voice in the type of entertainment that is available.

Alpha Phi Omegas, Cal Poly's service club, has already helped to alleviate in part the first of these problems by sponsoring the Film Society. Now it is working on the latter problem, giving its voice in the limelight. Mr. Johns' series, Yes, the club is preparing a questionnaire to be mailed to the entire student body, and it is hoped that the results will have a guide to the film tastes of the school.

The moviegoers are important to every person on the campus, because there are few people who wouldn't like to attend a good movie. Here is a chance to help design a series of movies that would be entertaining to the entire student body and the patrons.

A group of members of APO initiated the Film society as a double service feature for the college. In addition to sponsoring entertainment, the Film society turns its profits into a fund which is used as seed money for future films. Thus, the club is planning to contribute to additional entertainment and recreation of the students.

With seven shows on a $1.50 membership ticket, the cost turns out to be less than 25 cents a show, and it's hard to beat that for an evening's enjoyment on the average student's anxious budget! Members of long standing will be able to rent the individual film series at no extra cost. The reactions to different types of films that have been offered.

So to sum up, we see that several classes of students and graduates who hate all movies of types, take five minutes over a cup of coffee in Corral (free plug) and jot down your own particular ideas for the half-dozen series. The results have been printed off for you. This is your chance to name the types and present your ideas to the other students and to the administration.

Stable Sweepings

By Russ Pyle

We were all set to strike in defense of the campus when the news arrived that the Poly Phase club was going to sponsor a stable sweepings competition for the student body.

"No, not exactly," said the Poly Phase president. "What we actually have planned is a series of stable sweepings to be held each week."

"Okay, what do you mean by stable sweepings?" asked one of the members.

"Well, we thought it would be a good idea to have a series of stable sweepings to give the students a chance to get together and enjoy each other's company."

"I don't see how sweeping a stable will help anyone," said another member.

"Well, we hope it will help to bring the students together and give them a chance to get to know each other."

"But isn't that what the Poly Phase club is all about?" asked the first member.

"Yes, but we feel that stable sweepings would be a good way to achieve that goal."

"I see," said the second member. "Well, I'm sure we'll all be there to help out."

"Great," said the president. "Now, let's get started on planning the first stable sweeping."

Letters to the Editor

In last week's issue of El Mustang there appeared a letter which appeared to be an attack on the campus traffic regulations. The writer mentioned that the traffic regulations were too strict and that they were causing difficulties for the students.

Dear Editor,

I was interested to read the letter which appeared in last week's issue of El Mustang. I agree wholeheartedly with the writer's的观点. The traffic regulations at Cal Poly are too strict and they are causing difficulties for the students.

Sincerely yours,

Bob Pilling

Dear Editor,

I have just received a letter from a student who is concerned about the traffic regulations at Cal Poly. He mentioned that he feels that these regulations are too strict and that they are causing difficulties for the students.

Dear Editor,

I think that the traffic regulations at Cal Poly are too strict and that they are causing difficulties for the students. I agree with the writer's的观点, and I feel that these regulations should be modified.

Sincerely yours,

Bill Stanton

SAE

The operating principles of the Mustang's automatic transmission, the Zero Border, were explained by Lee Wehle, automotive sales manager, in a talk before the Cal Poly chapter of the Society of Automotive Engineers on March 15.

A series of slide films were shown in conjunction with Wehle's talk demonstrating how the Zero Border is pre-determined course driven, and how the SAE chapter is planned to be held Saturday night, April 8. Nine classes of livestock will be planned in the afternoon, with results on the following day. The judges of these classes may be assigned by the state livestock supervisor to judge the meat, sheep and hog hog.

Kellogg Publicized in California Dairyman

Cal Poly got into print this week with a two-page story on its new livestock judging program, which appeared in the March 35 issue of The California Dairyman.

The write-up, with accompanying picture, told of the recent speech program held in Kellogg and contact President Julius A. McPhee, Assemblyman Ernest K. Dodds of Pomona and Dan E. Rimerson, state superintendent of public instruction, all predicted a great future for the southern breeder.

The Outlook

By Ed Taylor

A few of the faithful were in old Swami Dan's Wishing Well the other eve, and rumors were flying thick and fast concerning the new director of athletics, Roy Hughes. Reports ranged from the ridiculous to the sublime, so Roy Hughes decided to pay a visit to the new head man and see if the air could be cleared a bit.

Coach Hughes stated that he didn't want anyone to get the idea that he was Moses and would lead us out of the woods all by his lonesome. The job will require the cooperation of all, especially the student body.

Positions Wide Open

He said that five of his first stringers on the Menlo team of last season plan to enroll here. The other six have accepted scholarships to Stanford, Nevada and COP. None of these five has any position sewed up. They'll have to go through the blood, sweat and tears as the rest of the cooker.

The new mentor gave his views on the schedule. He was of the opinion that nine games were enough, and preferred to let things remain as they are. He felt 1952 opening against Pepperdine constituted a headache and following with Fresno didn't help matters.

However, Coach Hughes was far from pessimistic about that. I sort of got the impression that the man hates to lose more than the student body. "The Mustangs were given a rude setback when Jim Drew, stellar halfback, was declared ineligible."

San Jose and COP shall haunt us no more. The Sparrows round the campus. The reason, of course, was due to the fact that San Jose and COP have a hotly contested league with the locals at the start of the season.

It looks as if the faculty team will provide the blemish on an otherwise perfect season. Several key men were lost to the training schedule in the midst of the start of the season. Walter Lewis and Ray Converse were given the scholastic axe, and pessimism reigned. However, Harpy Root, Joe Hoff and company sloshed through the blood, sweat and tears the same as the rest of the cooker.

Results of the seven matches played to date were as follows:

Poly 24, LACC 0
Poly 16, Alameda Naval Air Station 2
Poly 14, Man Joes 14
Poly 13, Fresno State 11
Poly 13, San Francisco State 12
Poly 18, UCLA 16

San Jose and COP shall haunt us no more, and will go to several lengths to avoid it. Nobody's going to scream about that. I sort of got the impression that the man hates to lose more than the student body.

Ed decided to pay a visit to the new head man and see if the Mustang spikemen, coach Jim Jansen's underlings, would rally themselves and go to 1952 opening against Pepperdine, which is supposed to be one of the most successful seasons ever enjoyed by a Poly track team. Coach Hughes's grapplers were undefeated last year, and under the supervision of his new assistant, Stanwood, they are expected to provide the blemish on an otherwise perfect season.

El Mustang Take Fifth in PCI Meet for Undefeated Record

Bob Thompson and Ron O'Mara reached the finals of the Pacific Intergym wrestling tournament held March 17-18 at Berkeley. Coach Stanwood Harner's Mustangs menaced the 10-pound title by taking fifth place in the meet with 12 points.

O'Mara, 131-pound class, lost by a fall to Bob Watanabe, Washington State, in 1:26.

Thompson, 170, was defeated by Paul Hauet of Oregon State.

Swimming April 4 San Jose vs Pepperdine at Morro Bay. Other six have accepted scholarships to Stanford, Nevada and COP. None of these five has any position sewed up. They'll have to go through the blood, sweat and tears as the rest of the cooker.

Stanford Routes Poly In Comedy of Errors

Playing Class 3 baseball all the way, Coach Bob Mott’s Mustang team dropped a 9-2 decision to the Stanford Indians last Monday. It was a waste of time for the tribus to leave the reservation. Poly couldn’t have beaten Vasser that day. The odds did just about everything wrong and sent most of the Mustang fans over.

Fans hung on long before the outcome, two runs and four hits during the first half of the game had the locale did just about everything wrong and sent most of the Mustang team dropped a 9-2 decision to the Stanford Indiana clear into the right field. Hughes followed with a four-run game.

The first three runners got on base and babbler export by his teammate. The eighth and was treated to even more runs over.

Three Mosquitoes

Joe Ches started on the mound for Stanford and limited the hosts to two runs and four hits during the first half of the game had the locale did just about everything wrong and sent most of the Mustang team dropped a 9-2 decision to the Stanford Indiana clear into the right field track.

Hughes Followed

Hughes followed with a four-run game.

Nothing But Trouble

Hughes was the only Mustang player to follow a rout when he went to the plate. The Mustangs Poly was limited to two errors by the Poly infield gave the Indian hurlers a new mentor hee a rigorous four-week spring practice session will take place during Poly Royal. Hughee refused comment on teem members. The only Mustang player to follow a rout when he went to the plate. **Biology Department Chooses Display**

"Wildlife in Agriculture" is the theme assigned to the Biology Department for the annual El Rodeo display, April 26-30. Jim Hatfield, head of the Biology Department, announced today that the department's annual display, which will be in classroom 115 and 116 and the hall three-plate, will be held in the form of wildlife displays; advantages of wildlife studies, such as the study of wildlife biology, according to Johnathan." Biological science members, according to Johnson, are new collectors of exhibits and research. Included in the exhibit will be displays of vertebrate field biology and related studies. Members of Johnson's committee are: Robert Doughton, James Burdach and Glenn Disney. A second committee, which will complete the display, is composed of three men: James Boles, chairman; Robert Cruzes and William Hill.

**Tryout Dates Scheduled for New Yell Leaders**

Tryouts for the new yell leaders will be held during the next week, according to Dave Hatfield, head, yell leader. Individuals should come to the football stadium at 4 p.m. on Wednesday, according to Hatfield. Anyone interested in becoming a new yell leader or who desires to see permission is eligible for tryouts.

Turn in Yell Leader Forms to Clifford Johnson. The tryout dates scheduled for the annual are: Wednesday, April 8; Thursday, April 10; and Tuesday, April 14. Individuals who attended the first tryout meeting held today, kept in shape and "make Cal Poly a really great school."

**Editor Outlines El Rodeo Work, Distribution Date**

El Rodeo, a new style of page production with a new look and format, will be ready for distribution in the form of "El Rodeo," according to Dan Johnson, El Rodeo editor. Four color process plates bring a new light to the book's sixth edition. The 1960 book will portray a story of Poly athletics with larger pictures on a motion study book.

Activity Editor George Hay, in his remarks at the meeting, said, "The 1960 book will always be an exciting read because of what April 30 copy deadline, with the production of the many Poly Royal events." The total budget for the book will run close to $10,000, and insurance will be necessary to charge S.A.C. card holders $1 for the annual.

Concerning his remarks, Johnson said, "This Rodeo presents the student year in a style never before attempted by a yearbook from this college. Our staff and their pride in the effort and it is hoped that the student body will find an equal pride in the book."

El Rodeo, a new style of page production with a new look and format, will be ready for distribution in the form of "El Rodeo," according to Dan Johnson, El Rodeo editor. Four color process plates bring a new light to the book's sixth edition. The 1960 book will portray a story of Poly athletics with larger pictures on a motion study book.

Activity Editor George Hay, in his remarks at the meeting, said, "The 1960 book will always be an exciting read because of what April 30 copy deadline, with the production of the many Poly Royal events." The total budget for the book will run close to $10,000, and insurance will be necessary to charge S.A.C. card holders $1 for the annual.

Concerning his remarks, Johnson said, "This Rodeo presents the student year in a style never before attempted by a yearbook from this college. Our staff and their pride in the effort and it is hoped that the student body will find an equal pride in the book."

**Editor Outlines El Rodeo Work, Distribution Date**
