SACRAMENTO — Betty Jo Bowley

Betty Jo Bowley, the smiling blond who has been an outstanding attraction of Poly since the day she set foot on campus, was the featured honors at annual Poly Assembly last Wednesday morning in City College Auditorium.

The Mustang majorettes were on hand in waving form, and a Student Assembly of white dress, and black stockings and coats, and an exhibition of Poly's archives, under the direction of Mrs. C. A. N. C. C. of Poly, was the feature of Poly's assembly last Wednesday morning in City College Auditorium.

"It's only a small token of our appreciation," Bowley said. "I have been acting as a student leader in the Poly student body for the last five years, and I am very grateful to the student body for their support and encouragement." The Student Assembly then adjourned, and the Poly student body met to elect new officers for the coming year.

Highlighting the awards of the morning was the presentation of the Poly Student Association's annual awards to outstanding students. The awards were presented in a ceremony attended by the entire student body.

The Student Association of Poly has long been known for its outstanding student leaders, and this year was no exception. Among the award winners were Bob Johnson, who was named Student Assembly President, and Bob Martin, who was named Student Assembly Vice President.

Bob Johnson, a senior chemical engineering major, said, "It's wonderful to be named Student Assembly President. I've been involved with Poly's Student Association for the past four years, and I'm excited to see what we can accomplish this year."

Bob Martin, a senior chemical engineering major, said, "I'm honored to be named Student Assembly Vice President. I'm excited to work with Bob Johnson and the rest of the Student Association to continue making Poly a great place to be." The Student Association of Poly is known for its innovative and community-minded projects, and this year they plan to continue their tradition of excellence.

The Student Association of Poly is made up of undergraduate and graduate students from all majors, and they work together to make Poly a better place for all students. They work on projects ranging from improving the student experience to raising money for scholarships.

This year, the Student Association of Poly has set some ambitious goals, and they are excited to see what they can accomplish. They plan to continue their tradition of excellence and make Poly an even better place to be.
College Machine Shop

Worth $250,000

Cal Poly's machine shop, representing the investment of about one quarter million dollars, will be opened Wednesday morning at 10 o'clock, according to Ralph W. Brown, instructor in the shop. The shop was a gift from its owners, Francis and Millie, of the American Machine Co., of Los Angeles. It is the third of its kind in the state.

Approximately one quarter million dollars, representing an investment of approximately one quarter million dollars, was open Wednesday morning at 10 o'clock, according to Ralph W. Brown, instructor in the shop. The shop was a gift from its owners, Francis and Millie, of the American Machine Co., of Los Angeles. It is the third of its kind in the state.

Recent action of the Public

Planning for the present machine shop after learning basic fundamentals.

Math Grads Honored

Cal Poly's mathematics department centered in full form for graduation held in Poly gymnasium Sunday afternoon. The picture was bathed in honor of the graduation mathematics majors and their families, according to A. L. Colwell, instructor in mathematics. Last year's 40 per cent student body vote in the largest percentage ever registered in a Cal Poly election.

SANTA MARIA AIRPORT
‘Missile Weapon’ Is Topic At IAS Meeting In Paso

"The Guided Missile as a Weapon" will be the topic of Lieutenant Commander George H. Frayer, when he speaks before the Cal Poly branch of the Institute of the Aeronautical Sciences first annual dinner, tomorrow night at 8 p.m. in the Paso Robles Inn at Paso Robles.

Frayer is the assistant director of the range instrumentation department, U. S. Naval Air Missle Test center Point Mugu, Calif. Prior to entering service in September of 1944, U. S. President Franklin D. Roosevelt, a native of Michigan State college, which Frayer attended from 1938 to 1939.

Lester Gustafson, head of the administration department, will also speak to the group. He will be followed by presentation of lecture and scholarship awards to graduating students.

The evening will be brought to a close with the introduction of the new officers and acknowledgements to the outgoing officers of the club.

Motorcycle, Automobile Collide On Camp Hill

Vehicles driven by Jack Dawson and William McNab, Cal Poly students, collided with each other in a motorcycle-automobile accident on the hill approaching the Camp housing units last Sunday afternoon, according to Ernest Steiner, chief security officer.

The accident occurred when McNab was driving his car up the hill toward camp, and Dawson was riding his motorcycle down the hill. The rear of Dawson’s cycle was hit, causing him to fall and receive minor cuts and scratches. McNab was not injured in the crash, and no serious damage was done to the car. Damage to Dewson’s cycle was estimated at $50, Steiner said.

A men non-student, who has been taking women’s lingerie from the campus clothes lines has been apprehended and 54 places of the clothing recovered, the Security office reports.

One of the tenants at Polv Vill trailer units noticed a strange car and furnished initial information leading to the man’s arrest. The man was arrested in a clean condition and is being held at the county courthouse.

Chicks May Lay Eggs In ‘Color Dynamics’

Maybe chickens one day will lay eggs in “color dynamics” — that is, in color interior decoration. Mel Blommette, maintenance engineering instructor, reports that “color dynamics” have been scientifically selected by color engineers to provide less eye strain, to cut down accidents, and to give a more productive atmosphere.

Drumm Attends Cattle Conference

George M. Drumm, head of dairy husbandry and dairy manufacturing, is back on campus this week after having attended a January meeting of the American Jersey Cattle Club last Thursday and Friday at Memphis, Tenn., on April 18-19.

The conference was called by the American Jersey Cattle club for all official classifiers and Jersey breeders throughout the United States. Most of the classifiers are college students and college staff members, and many are heads of departments at leading universities.

While at the meeting, Drumm told the club that the Polv herd is the Tennessee organization of dairymen who purchase the best bulls obtainable for their herd and stated that the Polv herd has the best pedigree of any that were on exhibit.

The college has recently purchased another Jersey sire from the Frosts, Ridge- way, Mich., according to Drumm.

The young herd will arrive on campus in a few weeks. Five of his current descendants have been officially rated “Excellent” and the sixth, “very good.” He is expected to be a valuable addition to the present herd of Polv Jersey steers, Drumm said.

Are Finals Necessary?

Looming large at the end of this month is the grim specter of final exams, culminating what we all hope was a fruitful three months of study. Mentioning how lucky you are to be taking them up mlMr-

Should Finals be Necessary?

Are Finals Necessary?

Some of the more unfortunate among us are faced with the quarterly exams, culminating three months of frantic studying. If you are lucky, you can avoid them for a year. They receive an almighty blast in the face of the fall quarter.

Others, who are only to suffer through them finals and examinations, have only to suffer through the fall quarter.

An old chestnut about "abandon all hope, ye who enter here."

As for Mrs. Ricker's vivacious charm . . .

Could we plots # have this poem put in the next issue? We think it would be a splendid addition to our feature page.

Operation, Big Wheels

With 18th annual Poly Royal out of the way, it is time to start planning for next year's celebration. Why so soon? Because this annual event has grown so large and so important in quality that it has become, in a very different sense, a tradition for the Poly Royal staff.

We can't take the faces of our final exam room as they exist at the faithful day. But they, as well as the more conventional, hold only to success through these finals and then embark on their vacations in an effort to forget it all. Until the Fall quarter, that is.

This doesn't seem to be a fair attitude to take, because some guys go into a blue funk at the mere thought of taking a test, when in reality they really know the stuff and if quizzed orally in an informal fashion can really lay it on the line.

It seems to be the consensus that finals can be a measurement of ability as in the beginning of a fall quarter and make their best marks then, while some of the more unfortunate have to reverse this plan in order to remember their names.

What is to be done in cases like this? Should these individuals be faced with the quarterly exams, culminating three months of study. If you are lucky, you can avoid them for a year. They receive an almighty blast in the face of the fall quarter.

As for Mrs. Ricker's vivacious charm . . .

CRUIHAKANS VISITS CAMARILLO

WITH SOCIAL SCIENCE CLASS

Members of the Social Science class at Cal Poly visited the Camarillo State Mental Hospital Monday, May 9. The students were joined by Ray Bently and Bill Hick, both social science instructors, who went through the hospital facilities. They were given a tour of the hospital facilities. They were given a tour of the hospital facilities.

Patients interrogated represented as a whole as possible typical cases of the psychoses and psychosomatics. It was an exploration into the more unfortunate side of humanity, according to Cruikshanka.

The Outlook

By Ed Isler

Now that the baseball season is history once more as far as Poly is concerned, it would seem to be a good idea to pause and glance back upon a year that most people tend to regard as a failure. Personally, we can’t go along with the current belief that the season was a failure. Anytime that a team wins more games than it loses, the campaign must be regarded as a success.

Probably the chief reason for the attitude of most fans lies in the fact that the Mustangs dropped a sudden death double-header to Fresno and killed off any chances for a conference crown. The pitching staff came in for a lot of undeserved criticism following the disaster.

It’s funny how quickly people forget. Prior to the Fresno affair, Coach Bob Mott’s hurlers had turned in three sterling performances. If you’ll recall, Cal was beaten, 9-3; UCF was tossed out by a 2-1 count; and Santa Barbara, southern division champs, were taken into tow in a 5-1 contest. The earned run count in those games was less than one. That’s good pitching even in the Ewport league.

From what a few of the Mustang players told me, I gathered the impression that the umpires had a lot to do with the outcome of the Fresno games. Call it crying if you like, but I think they were justified. Any fraternizing with players, such as was done by the umpire between innings with the Fresno boys, should be strictly verboten. Our arbitrating may not be the best in the world, but it’s a darn sight better than the way things are run in California. We need more Hector, and the boys wouldn’t give an old lady a break on Mother’s day if she didn’t deserve it. They might call a few skullies every now and then, but they never try and make up for it. It’s strange about finishing third in the conference.

The winner in each division is only a cheese champ. There are only three teams in a loop, and it doesn’t seem to produce a real champion. A school could finish last and still crow conference crown. The pitching staff came in for a lot of undeserved criticism following the disaster. Hector was a pup.

The winner in each division is only a cheese champ. There are only three teams in a loop, and it doesn’t seem to produce a real champion. A school could finish last and still crow conference crown. The pitching staff came in for a lot of undeserved criticism following the disaster. Hector was a pup.

A shortage of Santa Barbara pitching didn’t hurt the Engineers too much. In the first game of the double-header to Fresno and killed off any chances for a conference crown. The pitching staff came in for a lot of undeserved criticism following the disaster.

Bob Johnston, left-handed pit-cher who finished second in the conference meet, finally hit the .300 mark for the first time in his career at the Fresno rugby. Johnston hurled the javelin 200’ 1-2”.

Tom Keaton and the Rios boys also have finished second in the conference once more (see story page seven).

Behind the one-hit pitching of Dick Jacquel, the Mustangs captured the second game of a twin-bill played here with San Jose last Saturday by a score of 9-5. San Jose won the first game, 7-3, as Pete Mesa, Spartan fast-baller, went all the way to gain his first victory of the year. Don Garman was charged with the loss, his third of the season against five.

San Jose found itself scoreless until the fifth inning when the Mustangs.phone up the contest.

Paul Seveath walked. Walt Johnson, San Jose catcher, accepted the throw from left field. Carl Wright then tripled to right field and Seveath scored on the hit. Wright scored when Pete Bergman, first baseman, grounded a single to left and John blot, left fielder, misfired his throw from right.

After Johnson scored, San Jose scored three runs in the sixth inning. Quinlan, left fielder, had a bases-loaded walk, and Bergman followed with a double to right. Pete Bergman, Nelson, and Quinlan scored on the hit.

San Jose broke the contest open in the seventh inning when Jonothan scored three runs. Pete Bergman and Nelson scored on a single to left by Wally Apple. Jonothan scored on a double to left by Bergman.

In the eighth inning, San Jose added two more runs. Bergman scored on a single to left by Quinlan. Jonothan scored on a double to left by Bergman.

San Jose scored three runs in the ninth inning. Bergman scored on a single to left by Quinlan. Jonothan scored on a single to right by Bergman. Bergman scored on a single to left by Quinlan.

San Jose scored two runs in the tenth inning. Bergman scored on a single to left by Quinlan. Jonothan scored on a single to left by Bergman.

San Jose scored the winning runs in the eleventh inning. Bergman scored on a single to left by Quinlan. Jonothan scored on a single to left by Bergman.

The Mustangs scored four runs in the bottom of the eleventh inning. Nelson scored on a single to left by Bergman. Jonothan scored on a single to left by Bergman. Bergman scored on a single to left by Quinlan. Quinlan scored on a single to left by Bergman.

Takey Remmy avoided the shutout by driving in two runs of his own in the top of the twelfth inning. Nelson scored on a single to left by Bergman. Quinlan scored on a single to left by Bergman.

In the bottom of the twelfth inning, the Mustangs scored four runs. Nelson scored on a single to left by Bergman. Quinlan scored on a single to left by Bergman. Bergman scored on a single to left by Quinlan. Quinlan scored on a single to left by Bergman.

In the bottom of the thirteenth inning, the Mustangs scored four runs. Nelson scored on a single to left by Bergman. Quinlan scored on a single to left by Bergman. Bergman scored on a single to left by Quinlan. Quinlan scored on a single to left by Bergman.

The Mustangs scored six runs in the bottom of the fourteenth inning. Nelson scored on a single to left by Bergman. Quinlan scored on a single to left by Bergman. Bergman scored on a single to left by Quinlan. Quinlan scored on a single to left by Bergman. Bergman scored on a single to left by Quinlan. Quinlan scored on a single to left by Bergman.

The Mustangs scored six runs in the bottom of the fifteenth inning. Nelson scored on a single to left by Bergman. Quinlan scored on a single to left by Bergman. Bergman scored on a single to left by Quinlan. Quinlan scored on a single to left by Bergman. Bergman scored on a single to left by Quinlan. Quinlan scored on a single to left by Bergman.
'Vets Vanishing' McPeake Informs Over 500 Seniors

Cal Poly's 1960 graduating class is not only the largest to take a bow of the century, but is also the last of the predominantly veteran classes.

That was the opinion expressed by President Julian A. McPeake at a special senior class meeting Wednesday. During the entire graduating class of 886 men were picked for the Engineering Undergraduate Society which meets Tuesday evening.

President McPeake recalled that in early pre-war graduation exercises, the cadet and general section members, both men and women, were in front, while the graduates of friends, relatives and faculty members barely filled the auditorium.

Of the 886 graduates, 66, or nearly 8 per cent, were veterans. McPeake mentioned that the freshman class is about 68 per cent veterans. The total student population runs about 60 per cent veterans.

McPeake, "I was surprised when I noticed that 68 per cent of our students are married," he wrote in the program of the senior class meeting. "This means that 77 per cent will graduate and return to the same place where they live."

Cap, Gown Cards Available

Seniors may now order cap and gown cards through El Corral Book store, Ruth Carley, of the Freshman store, stated today.

Final deadline for ordering those who have not been at May 26. Those officers, stated today, "They must be a valuable contact in the academic society, which means the student will be able to handle his class meeting and vote for the man he thinks he can do the job."

Chesterfield is the largest-selling cigarette.

At the University of Texas and Colleges

Dunn's is the largest-selling cigarette.

ZACHARY SCOTT

Famous University of Texas Alumnus, says:

"I have always smoked Chesterfields and I know that you'll like them, too."
