**Poly Royal Queen Introduced At Valentine Dance**

By Eugene Kemper

Spotlight on the current social highlight of the Poly campus was the annual Valentine dance which was held Saturday evening at the city auditorium. The excitable students so prevalent around this institution of higher learning last weekend had either just seen or were anxiously awaiting the arrival of their queen.

Miss Walker's visit found more students with ties and clean noks on them than any previous occasion this year. She also saw more flash bulbs and cameras than any previous visitor to the campus. Student photographers are so eager to snap pictures of Miss Walker's image that they have cut off all connections with the faculty and are mostly found to be out with her.

**Ballroom Dance Dates Set**

April 1 and 2 are red letter days for the Poly dance department as well as for those people who are awaiting the annual Home Concert of the campus club and Colleges.

The men are to be well pleased with the experience gained on their annual tour which starts March 17. This year's tour will take them to the Sacramento valley.

Each year N. F. Davidson, the chairman of the music department, selects a program varying from the classic to the latest popular song. In order to present the best entertainment possible, many hours of varied amusement are spent in production and marketing the show.

Two nights have been chosen for the home concert in order to assure adequate seating accommodations.

**A ‘Swirl’ Dance To Be Presented**

By White Cap Tonight

The girls of the White Cap are preparing their annual swirl dance this Saturday evening at the city auditorium. The inclusion bodies are planning the attendance of all Poly students.

The dance, which will feature a novelty number in keeping with the theme of the dance, will start at 8:00 p.m. Admission will be $1.50 per person.

The dance arrangements are being handled by Miss Dora Byrd, general dance chairman.

Resolutions Accepted by Student Vote

The tabulation of the ballots concerning the Western College for Women's resolutions which were voted upon by women students two weeks ago, showed a general acceptance of the majority of the proposals, according to Bob Rivers. However, there were a few of the resolutions meeting with negative feeling with Western students.

Those failing to be accepted were: Art. 2, no. 4; Art. 4, no. 4 and Art. 6, no. 2. Art. 7, no. 2 and Opplon was more evenly divided on some of the other proposals.

The remainder of the resolutions passed by a majority of four or one higher. The total number of ballots cast came to 231, which is 14 percent of the student body. This is a relatively high portion of the eligible voters. It is an encouraging sign that there are many students at Poly who are interested in international politics.

Rivers "added that the results are in the process of being forwarded to Clifton Forster, chairman, Western College Congress, Stanford University, to be included with results from the 32 other western colleges. These final tabulations will be made public as soon as the information is received."

State Rehabilitation -- Veterans Notice

Students attending this college under the benefits of either the California State Veterans Assistance for the California State Bureau of Rehabilitation laws should take immediate steps to contact the proper office or agent and request a letter of authorization for the spring quarter March 15 to June 4. Winter quarter letters of authorization will expire, under both laws mentioned, on March 6.

Poultry Club
Talks Turkey
J. J. Mac Iraith, internationally known research worker in turkey breeding, will speak before the Poultry Club at a special meeting Feb. 24 at 7 p.m. in CR 14.

A field representative for the California Turkey Growers association, Mac Iraith will draw from his 18 years of supervisory experience of the Ontario Turkey Research farm, Ontario Agricultural college, Guelph, Ont., Canada and try to answer problems pertinent to the conditions facing prospective turkey men of today. He will also attempt to answer all questions put to him by the club members.

Mac Iraith has had practical experience as a breeder, exhibition judge and as well as field and research assistant at the turkey industry. One of his many accomplishments in the ability to detect fertility in a fresh turkey egg. Many of the club members are anxious to learn how he does it. Discussion of other problems will be delayed during the evening.

A short business meeting will precede the talk and there will be an opportunity to meet the speaker.

Shi Club Invades
Bedger Pass
Youmans' Bedger Pass was invaded by seventeen members of the Paly Ski club this past weekend. Leaving the campus Friday evening at 9 p.m., and officers will be elected.

After APO is accepted on the campus, come to our meeting on Friday, Feb. 24 at 7 p.m. in CR 14.

Interesting program is planned. The regular meeting of the National Service fraternity held their meeting Feb. 4. Soroushian informed the national fraternity on the Poly campus, came to our meeting on March 22.

KALCHORZER SOORUASHAN, a student from Iran, spoke at the Crops club meeting Feb. 4. Soorashian informed the members on a number of things about his country that many of us in America were in doubt about. Iran was formerly called Persia. This nation is about 9,000,000 old, is three times as large as Texas, and is located in southwestern Asia. Most of the 25 billion people are Moslem and speak the Persian language.

Their government is a combination of the French and British systems. A king is at the head, but a parliament is elected by the people every two years. This parliament appoints the prime minister and governors of the ten provinces of the country. The central government also chooses the mayors for the cities. The capital is located in Tehran.

The third largest oil refinery in the world is located in Tehran, and as is all in free flowing, pumping is not necessary. This oil serves to be the cause of most of Iran's foreign affairs. Ignited Britain has the oil concessions in the south and Russia owns concessions in the north. This and other things led to an undeclared war on the country by Britain and Russia in 1941.

To help hold up the country and the educational system of Iran, the government is sending students to various countries. These students are to get doctorate degrees before returning.

"If they don't make it," he said, "it's the army for them when they return." The University at Tehran has about 15,000 students enrolled.

BULLDOGS TO BARK TONIGHT

Aztecs Encamp Tomorrow

The Bulldogs from the Valley move into the Polly gym tonight in an effort to find out what makes the Mustang run. Fresh from an upset victory over COP last week-end, the Fresno club will be out looking for the same this season.

But by Bob Velasquez at the press and Len Sondergard at one of the two, guards, the Bulldog defense, Dutch Warmoedt has come up with a sharp-shooting aggregation. This week's results earlier in the season, resulted in a 6 point loss from the Fresno club. The Poly Aggies are evidently recovering from their early season setbacks.

On the Poly side of the fence, the pastures look a little greener for the first time in weeks. After the 'kittens' against San Jose last Saturday, it looks like the night for Coach Jorgensen's boys to roll. The Poly lads are at top shape and with a couple of wise could pull themselves out of that cold dark alley.

True enough, only one win can be their goal tonight, but the San Diego Aztecs will pitch their wiggling crew against the Poly Aggies to see what kind of profit might happen against a friendly little campfire meeting.

The Aztecs gathered one more victory in the fold this week with the return of Dick Barnes to the line-up. Barnes has been high point man for the tribs all season and few teams will be able to hold him from return Aztecs eyes. Backing up Barnes will be Don Smith and Ken Wulfemeyer at guards; Tom Mott at center, and Val Happiness at wing ends.

All to give you a rough estimate of how sharp Coach Charlie Smith's mind will come between them.

In tonight's semi-windup, Coach Bob Mott will go to the Tri-County Tournament. The Poly won't go to the Tri-County Tournament. The Poly will be out against the Mustang Aggies.

Coach Mott has been high on his Poly team all season and will be looking for their best shot over the Poly against the Mustangs. Tonight will see the Native Blue team, face the Mustang juniors in the preliminary.

Grappers Travel To SF State Meet

Coach Carl Volmer's Poly twisters, on the heels of the state meet last Thursday night when the Pickle Packers edged them out 18-14 in the Washington Square bowl, are leading the Poly attack was Fred Acosta with 30 points, followed by Don BOUMANT in the 175 bracket, Poly's Bob Hunt with 30 points, and Jack Agawa with 29 points. Emphasis were placed on the Poly's scoring, upset Aggies in the 175 division, Jim Brown and Ross Chretienow who both took team honors.

The bout score stacked up 6-4 in favor of the Mustangs. Bob Hunt, with 30 points, is ranked in the 175 division, Poly's Bob Hunt won a good contest with Don BOUMANT, 30 to 29 in a hard fought contest. Saturday night will see the Poly Aggies at Ber Francisco where a crew will meet the Mustangs in a nice bout card.

When Noah sailed the ocean blue, he had his troubles as the Poly Aggies. For days and days he drove the ark Looking for a place to park.

Page Four

Crop Country Men Enter And Place

In Marathon

The Mustang diamond men turned out in full force this week for the first complete practice session of the spring season. Coach Bob Mott started the squad back into shape Monday evening and by Wednesday day had the men holding batting practice.

Some 45 men turned out for the various positions. From these men two squads will be formed with the varsity under the direction of Coach Mott and the JV's under the tutelage of Coach J. J. Del and Hank Moros.

Jorgensen, announced, the first track contest has been set for March 29th. The Poly's new track team the Mustangs against Westmont college of Santa Barbara. and he will note each man to begin workouts immediately.

Doubles Teams Enter Tri-County Tournament

Coach Edward Jorgensen was placed on the Poly Cal Poly—UCLA meet Feb. 28. rumoured to meet John Nikcevich, PCI heavyweight champion, at the Cal Poly—UCLA meet Feb. 28. "Rawhide" is a likely contender for the ECA heavyweight championship, and as far as he has been so far, it has been trouble in finding fighters to climb into the ring with him. Nikcevich may prove to be too much competition for him, and again he may not. This remains to be seen, but either way, it should be a good scrap.

Olympic weights will be used instead of the ECA weights. These weights run about the same, with the exception that the Olympic's have two smaller weights, 110 and 130.

Cornelius Is one of the best trainers on the Poly squad. For example, one of his students is a little point up to the "P" and back; he does this in 171 minutes. Not only does he run, but he works on the light and heavy bags constantly, sometimes in the morning and sometimes in the evening, or whenever the opportunity presents itself.

"Rawhide" is also a good wrestler. Besides boxing and wrestling, he is rapidly developing into a fine football on the football field.

With all this, it is only fair to warn Nikcevich to be in shape for their coming bout.

Intramural Tourney

By Culver

The intramural basketball season drew to a close this week with the Ball and Chain quintet capturing the championship berth by downing the Jolly J's quintet 30 to 29 in a hard fought contest.

The Ball and Chain "Champs" proved to have just too much heft for the scrappy Jolly J's. Continual pressure throughout by the victorious held the Jolly J's scoring chances down throughout the contest.

Harold Window was high scorer for the champs stump six field goals for 18 big points. Window's teammate, Carnahan, playing guard, followed with 10 points.

Playoff Semi-

(Louie tie playoff)

Play Off Semi—5 vs Ball & Chain, 6 vs Jolly J's—5 vs 8 vs 12—Club Div.

Close Encounters Repeated

As Mustangs Drop Two

By Bill Roth

The Mustang hoopsters did it again last weekend, losing to COP 66-52 and dropping a close one to San Jose State 56-53.

Both games were away from home and ended Cal Poly's road appearances for the season.

San Jose was the scene of the Saturday night game and the final score of the major upset of the year. With the victory, the Spartans at the half, Poly came back on the floor to almost bury the court with baskets in the second half as they scored 20 points to San Jose's 8. But the eight point lead at the half had built up at halftime was too much to overcome.

Bobby Coghlan made a lone stand to keep Poly in the game at intermission time with his timely shooting. All Bobby did was score 13 points in the first half. Hughes, leading point maker in the league, didn't do so badly himself as he dropped in 18 points in the first half to help San Jose's cause.

Spectacular Second Half

In the second half Coghlan and McConnell continually drew away from the crowd with their sensational play. McConnell, who was held to three points in the first stanza, began to get his eye in and Coghlan continued to hit the basket to run the Spartans a merry chase.

With four minutes left in the game, San Jose was able to hold on to two point lead. But the Mustangs and terrific pace began to tell and the hard fighting Mustangs could get no closer. San Jose did a good job of teasing the crowd for the last three minutes as the game ended 66-52.

COP wins by Twelve

A couple only games in the last San Jose encounter, dropped in 23 points to Hughes for the high scoring team. The same old story again as Poly got two point lead. But the Mustangs couldn't make up the 10 point deficit.

According to the script, Mustangs could get no closer. San Jose got the win 64-52.

San Jose's height advantage and terrific pace have given the Spartans the two mission times with their timely shooting. Everything has worked out so well in the last half of the game.

An Another Side of Cal Poly

Ed. Note: We reprint the following editorial from the Feb. 9 issue of the San Luis Obispo Telegram Tribune.

Attracts Wide Interest

The general consensus of opinion among the long haired bunch is that the cows have become well known to the public through its many organizations and appearances of its press stock at shows and fairs throughout the United States, America, and agriculturally generally, we suspect that Cal Poly and championships have been given a pretty good showing. It is nice to learn, therefore, that the electronics and radiation shows of the Polytechnic Institute of California have attained national recognition from the Institute of Physics. One of the great achievements of this national professional society puts the Cal Poly department on a par with the leading universities of the nation in this field. The most careful study of Cal Poly scholarship and methods was made before the department was accepted by the IRE.

At whatever expense they may have been, the cows and the bulls are not stealing the whole show at Cal Poly. The electronics and radio boys can't be left out of a party. They get around with a hair for everybody to see but they are not taking a back seat to anybody when it comes to department progress and national recognition.

Truman Signs Vet Bill

This being a "neighboring" school, we all go around calling everybody by their first names, or so they say, Harry, signed the Veterans training subsistance increase bill giving all veterans students a raise in their subsistance allowance.

For Country Printers

Student cigarette borrowers fall into four cate-

The scheme was voted on by their student body and the result was a 99% affirmative vote. The vote was run by the students and was taken on the following basis: a yes or no vote, where a yes was for the bill and a no was against it. The students voted in favor of the bill, and it was passed into law.

School For Country Printers

Publications weekly during the school year except holidays and examination periods by the Associated Students, California State Polytechnic College, San Luis Obispo, California. The paper for the year 1949-50 has been authorized for the year 1950.

Letters to the Editor

Dear Editor:

I do not know of any normal college which does not have a Student Union. I believe that this kind of building which you discussed in your editorial is necessary. We are so widely distributed as to living areas and need some kind of place where we can all meet, some kind of a central gathering place.

Furthemore it would be a good idea to be able to get all the news from all the various organizations through a different medium than the football field and the wrestling arena.

Dear Editor:

I believe we are living in the camp or downtown and whatever you do will not help those who live in the city. We are living in the city and downtown and we need a Student Union.

LETTERS TO THE EDITOR

Dear Editor:

I have talked to several people concerning Cal Poly. I feel that the students here are very happy because we have a place where we can go and dance and socialize with our friends. I also feel that the students here are very happy because we have a place where we can go and dance and socialize with our friends. I also feel that the students here are very happy because we have a place where we can go and dance and socialize with our friends. Accident in which there are medical bills up $1500.00. It would be appreciated if this box were left in a place where it could be seen and also in a box mail.

As long as I'm staying on the basement, I might as well talk about the coffee. The basement sandwich and coffee section of the line has been doing a pretty good business and has the good of getting a HOT cup of coffee.

Reading over the other school papers sent to me this week, I noticed that there are a lot of school trends around the nation. Notices are appearing in college papers, mentioning that they're starting a new plan for grading the students and also putting up new buildings.

The scheme was voted on by their student body and the result was a 99% affirmative vote. The vote was run by the students and was taken on the following basis: a yes or no vote, where a yes was for the bill and a no was against it. The students voted in favor of the bill, and it was passed into law.

Students of all ages are learning to read, write, and think critical thinking. It is a good system for the world to follow.

Union Pacific Ag Program
Aids California Students

Joe W. Jarvis, supervisor of agricultural development of the Union Pacific railroad, was the principal speaker at a banquet of the Cal Poly chapter of Young Farmers, held Thursday night, Feb. 12 at cafeteria No. 1.

Jarvis presented a picture of the late Carl Raymond Gray, originator of Union Pacific Aid to worthy agricultural students in California. Jarvis stated that California started in 1931, and that he was happy to hear approval of Gray scholarships—those generous gifts to worthy agricultural students in California boys and return them to the farm. Jarvis said, "The weakest point is in the program of other agricultural colleges in that sending farm boys to college is the quickest way to get them off the farm. Colleges should train them to return to the farm and I have observed that Cal Poly is doing that."

Jarvis reviewed the history of the Carl Raymond Gray scholarship plan. The scholarship plan started in 1931 in Nebraska and since that time has spread to every state served by the Union Pacific. Scholarships to worthy Future Farmers in California started in 1931, and it has now been used by California boys.

California Polytechnic President Julian A. McPhee thanked Jarvis and UP President George Aahby for the picture of Gray and for the program of other agricultural colleges.

Fridays of the Future Farmers and California students—those generous gifts to worthy Future Farmers and California students, are being used in the concrete floor. There will be natural gas, water, and electrical outlets in both houses. The versatile houses can be used for either brooding or laying depending on the season. Both houses contain the floor heating coils and the other will be completed soon.

Half Mile South on 101 Highway.

"I'll be up there soon!"

Up where the ceiling's unlimited and the horizon's as wide as the world! Up where there's freedom and adventure—and a man can dare to do what no man's done before!

You're on your way up there when you join the Aviation Cadets. After a year's pilot training, it's silver wings for you—and a commission as Second Lieutenant in the U. S. Air Force Reserve.

You are eligible if you're single, between 20 and 30, and have completed at least half the requirements for a degree from an accredited college or university (or can pass an equivalent qualifying examination).

You'll fly the very best planes during your 15 months of pilot-training. Then, after graduation, you'll pilot jet fighters and bombers. And you'll get a starting salary of $356 a month. During your three years on active duty you'll be given a chance to win a commission in the Regular Air Force.

This is a priceless opportunity for alert young men with the urge to carve their future in American aviation. Ask for details at your U. S. Army and U. S. Air Force Recruiting Station. Or, write to Headquarters, U. S. Air Force, Attention: Aviation Cadet Section, Washington 25, D. C.

Naval Reserve Unit
Enlarges Operations

A lively meeting of San Luis Obispo county's volunteers Naval Reserve battalion is planned for Monday at 8 p. m. in the Reg. Auditorium.

General interest Navy movies will be shown as an added feature and an opportunity for men to enlist in V-6 will be provided between 8:30 p. m.
SAC Okehs
Poly Royal
Subsidy Boost

An increase in the budget for the 16th annual Poly Royal was approved by the Student Affairs Council last Tuesday night. The increase boosts the subsidy from the Associated Students from $1400 to $1900 dollars. The additional funds were requested to meet rising costs in many phases of the show.

Major increases were made in the traffic control department, transportation costs for queens and princesses, and an additional outlay for more publicity. The latter was made necessary by the decision to publish an additional 3,000 copies of the Poly Royal Pictorial.

Other Business

Ed Durbell, member of the inter-departmental council presented a revised plan for the awarding of activity keys. Following discussion of the revisions, the plan was tabled until the next meeting.

John Connors, president of the Boots and Squires, presented a request to the SAC for partial support of the rodeo team for their forthcoming trip to the intercollegiate rodeo in Arizona. The Student Affairs council voted to authorize $800 expense money to each member of the team going, stipulating that there would be a maximum of six members on the team.

John Wright was authorized to investigate the costs and possibilities for cleaning and fixing many of the college trophies before they are put in the new trophy case.

“New Far East” To Be Discussed By Chinese Historian

Dr. Yu-Shan Han, eminent historian and orator, is in San Luis Obispo and will present an open forum tonight at 7:30 p.m. in the library of the local junior high school according to Fred L. Peterson, principal of the night school.

The topic for his discussion will be the “New Far East” and will incorporate the United States’ role in the Japan-China-Manchuria locality, explained Peterson.

Peterson added that Dr. Han is said to be well acquainted with Generalissimo Chiang Kai-shek and is at present on leave of absence from St. John’s University, Shanghai.
