**Traffic Regulations**

Rigidly enforced

Traffic violations will be referred to the lettering next week. 

The appointments will become effective September 1.

**Poly Graduate**

Stars on Screen

Arnold Arneson, a California State Polytechnic college graduate and now starring in motion pictures, returned to San Luis Obispo last week—on the screen.

Arnold Arneson played the sergeant in Roman Polanski which at the Fremont theatre last week, previous to his appearance at the Kistick theatre.

Arnold Arneson graduated form Poly College in 1955 where he received his early military and dramatic training.

**Ag Instructor's Meet On Campus To 'Do Teaching by Doing'**

Approximately 250 instructors of vocational agriculture and related subjects, representatives of the state and federal agencies in the field, met on the Poly campus last week in order to discuss the practical aspects of the instruction and training programs.

California Polytechnic is also offering additional courses for credit to many of these teachers during the summer of 1956.

Robert A. Mott, Poly director of vocational agriculture, and the college's director of educational services, said the instructor's conference was an attempt "to eliminate all that has become too formal and mechanical in the educational process at Poly."

The conference will be held on the Poly campus during the week of June 30.

Dr. A. D. McPeek, president of Cal Poly, said the meeting was an attempt to make the Poly campus a center for the professional library.

The book collection is valuable to the Poly campus.

"It has a value over and above that a substantial number of books is big," said Dr. A. Seal, library director at Poly.

"The Poly library is a part of the state library system and it's a part of the United States Library of Congress," said Dr. A. Seal.

Dr. A. Seal said that the Poly library is the only one in the state that is able to obtain all the books that are available to it.

The Poly library is a part of the state library system and it's a part of the United States Library of Congress, said Dr. A. Seal.

According to Dr. A. Seal, the Poly library is a part of the state library system and it's a part of the United States Library of Congress.
IS WAR INEVITABLE?

The following quotation taken from Harvard University's American Foreign Policy Library edition of "The United States and Russia", by R. V. Huntington, bore the heading:

"War is never inevitable if by that phrase we mean that war is a natural phenomenon like a tidal wave that no amount of human knowledge and advance preparation can possibly avert. It becomes, or at least comes to appear, inevitable only when two nations that have no common interest have been allowed to pass through lack of information, heedlessness, and self-interest, into a state of mutual antagonism, or counter-aggressiveness, or conscious desire to have the conflict.

All of these phenomena characteristic of periods preceding the actual outbreak of war have become tragically familiar to the entire world achieved exactly the same level of political, economic, and military concern. What had seemed like security to the United States has looked like aggressiveness to Russia.

What has seemed like security to both now looks like mutual antagonism; and the United States has looked like aggressiveness to Russia.

Vera Dean, authoritative author of this book suggests four things to be done to prevent a conflict.

1....
Sports Personality

FRANK ROBB ... known for his quiet and unassuming manner. He is a man of few words, but his presence is felt in every aspect of the game. He is a great leader and a team player, always putting the needs of the team before his own. He has a strong work ethic and a competitive spirit that motivates his teammates to do their best. His dedication to the sport is evident in everything he does.

Harlem Nine Whips
Blues Squad 13-1
In Exhibition Tilt

The nationally known Harlem Globetrotters baseball team invaded San Luis Obispo last Wednesday night andcaptured the Blue night 13-1! In an exhibition game. The majority of the crowd witnessed the mighty contests of Ed Hamman, the baseball clown, and even though the entire team lost the game, a good time was had by all.

Starting for the Blue team in the field was Cal Poly's "Pee Wee" Fraser, who thrilled the crowd with his sensational catches in centerfield. Fraser also scored in the San Luis run in the first inning of the score. During the collegiate year, Fraser was chosen as an "All-Conference" centerfielder for the second consecutive year, and was elected team captain for 1946.

Don Garman started on the hill for the Blues, and for the first time in many weeks the little hurler was ineffective in a tang spree. Garman, who finished second in the league last season, received a berth on the "All-Conference" team of the "All-Conference" season.

FRANK ROBB ... known for his quiet and unassuming manner. He is an even six feet tall—a ground—halves 188 pounds—has dark brown hair cut in a crew style.

A member of last year's baseball squad—Block F member—Great things are expected of Frank next season.

MUSUNGL LEAGUE

Individual and team honors were divided among the CCAA, final figures revealed today. The championship College of Pacific, who defeated San Diego State, boasted the most of the titles were awarded among the other five teams.

In the game, captured by little Art Rhoads, San Francisco's left fielder, Washington drove in 18. Burnside base hit, little fall in Joe Brucker, and twenty-first centerfielder from Santa Barbara, with 12.

In figures, Cal Poly's Mustangs came from nowhere, broke a 2-2 tie, winning crown with a衔接88 average at the half-way mark, finished in a win to place second at .284. San Jose's last-place Spartans emerged the top defensive club with a fielding average of .288, just a shade above the Mustangs.

Prove that Cop's secret to muso lay in their pitching was born out in the fact that they finished last in team-building and fourth in team-fielding. Cal Poly, on paper, appears to have had the best balanced team. They were first in batting, second in fielding.

Severe Shortage Brings Plea For Qualified Teachers

A plea for qualified person to teach in San Luis Obispo county schools to help relieve a severe teacher shortage was made this week by the county school superintendent's office.

Mrs. J. T. Arsenio, working from the county office, is seeking persons preferably with a college degree, but no teaching credential, to fill vacancies in the county from one teacher schools to the city school of 16 or more teachers. Grades vary from the kindergarten to the sixth and seventh in most cases the salaries will be above the $4000 a year level.

Teachers are needed for the school term starting in September. Those interested are urged to contact the county superintendent's office in the county office. Mrs. Arsenio pointed out that a Cal Poly student worker with two years of college work, but no teaching credential would be accepted from the instructor. Permits to withdraw carrying a W or F grade only will be accepted from the instructor.

Permit To Withdraw Needed To Drop Class

Students will be allowed to withdraw from courses after June 23, 1948, by using a permit to withdraw from a course, which may be obtained in the Recorder's office, room 102.

This permit calls for the instructor's signature and an actual grade, which is given at the time the student leaves the course. This is a grade card and should be submitted to the Recorder's office by the instructor. Permits to withdraw carrying a W or F grade only will be accepted from the instructor.

Firearms Must Be Registered

All firearms, regardless of make, type, or condition must be registered with the security officer.

These firearms will be kept in special lockers in the power house. All firearms, regardless of make, type, or condition must be registered with the security officer.
