Homecoming Celebration Set For October 8 and 9

Rejuvenated Mustangs Face Fresno State

An improved Mustang slayer will meet the Fresno State Bulldogs in the Homecoming grid contest Saturday night, Oct. 9, and it promises to be a hard-fought affair matching last year's game. The 1947 Cal Poly grid was one of their best games of the season against the Fresno Bulldogs and they are set to give a repeat performance this year, hoping to change a certain item in their losing streak. Last year Fresno State won 24-6, but the Mustangs will have something to say about being on the losing end of the score this year. A big, fast-charging Mustang line is sure to give the Bulldogs trouble. Anchoring down the front wall is the veteran, aggressive tackle, Marshall Kemal, performer with him will be Lineman Don Chamberlain, John Fitzgerald, Joe Griffin, Don Dutta, Bill Hume, Dave Lee, Shon Nomura, and Jerry Oarter, Bob McCutcheon, Bob Steele, former Salinaa Junior and Veterinary Science—Dr. Roe-
Leach's Ten Year Plan To Attempt Super Chicken

1. B. L. Leach, poultry department head, is conducting an improvement program to develop a breed of chicken which he believes will take much longer for the cornish to ruin.

2. Leach plans to obtain an faster, growing bird and one that will have fewer pin feathers at hatching.

Although the Cornish breed will not produce other types of chickens at maturity, he has taken much longer for the cornish to ruin.

Each chicken in the program is scored at intervals for early mortality and fast feathering.

The experiment has been under way for a year with no significant results as yet.

TAKING THE DEFENSIVE ... two rattlers, a bleached and green, a keep a wary eye on the Boyle's king snake in their home in the Poly biology lab.

INSTRUCTOR FATTENS REPTILES FOR COLLEGE BIOLOGY MUSEUM

The huge angry water moccasin biased, formed a hasty loop and struck. His target was one John Klop, El Mustang photographer, and the strike netted a perfect bullseye.

This action took place some little time ago and Klop is now recovered. He has been nursed along a healthy respect for all poisonous reptiles since that day. It wasn't enough when assigned to snap some glamour shots of the reptile clan, was represented by a separate species of every gentlemanly rattlesnaketype — the two homed, one banded.

Hisses and savage displays of aggression are common to both rattlers; pushed obliquely by a Boyd's anguina, the traditional candle of venomous snakes, and a multitude of roughshorned scorpions.

Although the Cornish breed is not completed, the Freemeyers have moved in. This house is constructed over a cemented concrete block. One of the attractive innovations in this house is a combination kitchen and breakfast area, and one that is so designed that the garage can also be converted into a separate kitchen area.

Muscatine Enter Second 2C2A Season
As Dark Horse Candidates

Cal Poly enters another year, its second, as a dark horse in the California Collegiate Athletic Association.

With a set of new coaches, 15 returning lettermen plus some needed heavy and outstanding material from last year's freshman squad, the Mustangs should field a much better team than last year, which was last one game in 10 tries.

Leading the Cal Poly will be Head Coach Charles Pa-

kula, who assisted Coach R. O'Donnel last year, Pavelski, will be assisted by a fellow Cal-

an, Sheldon Heinert, and James

Conser, quarterback in the

last year's football team and a graduate of

State College.

This year will be working a full team of returnees

headed by Hal Watson and Man-

shall Samuels. Both gained re-

served honors for their standable line play last year. End Watson was named by teammates as 1947's

outstanding player and was given honorable mention on the 2C2A conference All-Star team. Samuels was a 200-pound tackle, was listed on

several all-opponent elevens.

state of assistant coach.

Dr. Carl Voltmer, retired state

director of athletics at Glendale high school.

The workshop, which attracted almost 200 high school and college coaches from throughout

the state, will continue until August 27. Every major and minor sport taught in high schools and col-

lege will be discussed in this two-week period by authorities in the field.

Jeff Creeth head the discussions in football); Mike Price of Cal Poly, basketball; Bob Shpak of

Pomona, track and field; Dot Porter of San Jose, baseball; Mike Sanow of San Diego and Bob Altt

of Cal Poly, baseball; H. C. MacQuarrie, archery; Dave McBride of L. A. college, apparatus, and

gymnastics; Roberto Lopez of Los Angeles, first aid and training; Tom Stove, tennis; James Fullit

of Fullerton, swimming.

Physical Ed Coaches Praise Workshop

At Ariso, president-elect of the California Association for Health, Physical Education and Recre- tion, which spon-

sor the workshop for coaches and physical training in-

structors held at California State Polytechnic College, an-

ounced that the workshop would be conducted here again during the 1948 school year.

But "Cal Poly was an ideal location for a program of this sort. August 27 marked the close of the period of the year, given by some of the outstanding coaches in the state. All of the men who entered classes for the past four months prior to the sale. Don will

be listed on

several all-opponent elevens.

Land Grants Give

Former Students

Arizona Acreage

Two former Cal Poly students have been awarded permanent rights to 320 acres, each, in an outstanding project near Tuma, Arizona, where a government drawing down

made the land available for public sale.

The land acquired by Walter A. Wells and

Ernest "Les" Mason of Los Gatos were the highest bidders. Wells" application was one of the government reimbursement programs and the land was drawn for parcels of

measured area.

With a bigger and better pro-

gram being planned for next year Poly can look forward to seeing more of the coaches returning again.

Palace Livestock Show Preparation Begins As Students Gain Entries

October 16, opening date of the big Cow Palace livestock show, will soon be on hand. Stockmen all over the state are preparing to show the best animals for the important event which takes place each year in San Francisco.

In advance of the shows, a campaign of washing in beef. This is the bare minimum of what students learn the function of a working livestock show. In the backround of the beef is the fact that the cattle are being raised for the show.

Preparations are being made for the first six weeks of the show, which is the first time the show has been held since the war.

McPhee Announces Staff Changes For Library

New appointments to the California Polytechnic State College library have come about during the last six weeks under the direction of Julian A. McPhee, president of the college.

Appointed as assistant reference librarian is Winifred Garside, who has been assistant assistant to Julian A. McPhee for two years.

Fullerton Library

An exhibit of the history of the Fullerton Library was opened in the library of the Fullerton College in Fullerton.

The exhibit includes a display of the history of the Fullerton College and the history of its library.

A free guidance center for all students, veterans and non-veterans, is to be located on the campus to help students find their true occupations and to determine whether they should continue their education or leave school.

Construction Goes Into Final Stage As Memorial Library Nears Completion

To the straightaway and the nearness the finishing, Poly's Walter F. Dexter Memorial Library stands as a building and may be seen in its final form.

The building has been completed and is now in the final stages of construction.

The library building became apparent in 1946.

Plaque Lists Names Of 56 Poly War Dead

Names of 56 former California Polytechnic State College students who were killed in World War II are listed in a special section of the library of the Administration Building.

A sign indicating names of students killed in the war was placed in the lobby of the Administration Building.

Ceremony was held to place the names in the lobby of the Administration Building.

California Future Farmer Magazine Travels To All Corners Of Globe

One of the activities which helps spread the name of San Luis Obispo throughout the world is the California Future Farmer Magazine.

It has been the publication's goal for several years to bring the agricultural message to the world, and it has been successful.

The magazine is published monthly and is sent to every state in the United States.

McPhee appointed as dean of the College of Agriculture and Natural Resources.

He has been affiliated with the college since 1941 when he joined the staff as an instructor in agronomy.

The College of Agriculture and Natural Resources is the largest and most important college in the state.

The college offers a wide variety of courses in agriculture, natural resources, and related fields.

The college has a long-standing tradition of excellence in teaching and research, with a strong emphasis on applied sciences.

The college's success is attributed to the dedication and hard work of its faculty, students, and alumni.
