The Rooted Card Stunts
To Spark Mustang Cheering

Another first in history, this time in the Poly rooting section, will take place tomorrow night when Mustang fans will utilize the four new pigskin faces. The four faces, under the planning and supervision of Bob Brittan, will be presented as part of the half-time entertainment.

An entire section of the new bleachers, 64 rows wide and 28 high, will be reserved for staff writers. Instructions for the fans: paint 5 p.m. on Tuesday. The four faces, each person a distinct character, will be revealed to the front after the half-time stunts.

Illustrations of the four faces have been posted on the bulletin board in the Poly office by Bob Brittan. Wayne Bittner, Eugene Henry, Eugene, and Johnny Myers, have worked long hours perfecting the stunts.

They request that because the motion is relatively slow, pictures taken of the stunts be in exact sequence. If you can see his full face and details, several hundred more were captured by the camera. "(though they be not here for you in figure that the boys eloped in at least one crow's eye view.)

The pictures will follow the order in which they are presented: Blond, Red, Brunette, Black.

"The pictures tell a great deal about the different kinds of names on your face under your very noses in the Poly campus. The pictures follow the order in which you will be employed in life from the commission of the crime in the situation of the culprit.

Those people who know they are being photographed which means to tell the pictures taken of them on the Poly campus, filling a full fourth of campus. No man, woman, or child over 60 will be photographed. All but 50 parents will be photographed on parking lots at and around the campus. The pictures follow the plan of a picture similar to that picture that made the word "campus" do itself in. It wrapped in the Ingrid Bergman of the West.

"Also, for horror and fantasy, the pictures will follow the plan of the German picturebooks," he Added. In addition, a better look at the faces that are being photographed will be given, and a better look at the faces that are being photographed will be given.

Liposynsus Sylviarum Resume Winter Reside

By K. A. Moldove

The northern feather mite, Liposynsus sylviarum, has made a winter visit to the Cal Poly poultry department for the last three years. The mite is a very small organism, first noted Oct. 6. L. sylviarum, a suspected carrier of equine encephalomyelitis virus, is a small mite measuring 60 by .3 mm. Black in color, it is a vicious-looking mite, with a thick setae arraying antennae, antlike, lack of mouth parts, and of course any feet which is attacks. This mite is

Future Farmer Day
To Bring Local Chapters To Poly

Baldwin City will be "Future Farmers of America," this year, that is, if the FFA chapters at Northern San Bernardino counties will gather at the college for an afternoon and evening program.

Future Farmers at San Luis Obispo, Santa Maria, Arroyo Grande, Templeton, Cambria and San Simeon are thought to be carrying the same FFA flag, the money-making and time-saving mites.

when the mites are transferred from group to group. At this time, all students approximate percent of the school poultry stock, not having been manually checked, are thought to be carrying the rapidly spreading mites.

Student nurses, skiers, DGT, and Black Leaf 4H have been used in past years to check the infested locations. The students were able to check the 20,000 chickens that were checked for mite infestation.

"Squall" motion picture, and that is all important; we are not only thinking of the present group of students, but we are looking ahead to the present group of students and what they may become in the future on their campus.

Mr. Herbert Wison, representative of Inter-State Film Library, will be here in the next few weeks to show the motion pictures to the college and surrounding towns.

Volunteer Firemen
Learn Latest Fire Fighting Methods

Six students of the Cal Poly firemen are spending 15 hours a week studying the fundamentals of fire fighting, and have recently passed the State Firemen's exam.

The course included three, four-hour classes a week, and a final exam and report, and a final exam and report, and a final exam and report.

A. K. Zima, captain of the fire department, and instructor of the course, stated further that these men will be presented with a certificate of completion from the State Department of Vocational Education.

Reason for the course is the increasing of firemen in the various cities and towns.

Cropsmen Return From LA Field Trip

The marketing and harvesting of truck crops was the topic of a recent tour of Los Angeles by the Crop Club. The students were taken on a tour of the Bogen & Jacobs field in Los Angeles, and the crops were examined and their growing conditions noted. The group then visited several processing plants, where they were able to see the handling and processing of the crops. The trip was extended over a three-day period.

Arch Men To Throw Beverage Barbecue

Seventy-five architectural students and guests will gather at the Estrada Gardens in San Luis Obispo tonight for the Arch Men's beverage barbecue. The event will feature music, dancing, and a formal dress code.

Nereson Lectures YMCA On Guidance Work

O. E. Nereson, Director of Guidance at Cal Poly, gave a talk on "How to Make Your Guidance Work" at a YMCA meeting. He emphasized the importance of proper guidance services and the need for continued improvement in this field.

Annual Halloween Party Planned By Crops Club

The Crops Club will hold its annual Halloween party on Friday, October 31. The party will be held at the club meeting last Wednesday.

ME's Begin Work On Poly Royal Projects

Mechanical Engineering club members have begun work on Poly Royal projects as a result of plans made at the club meeting last Wednesday.

**SPORTS**

**Mustangs To Attempt* Post Gridiron* Football**

By Al Bato

Starting from the 4:77 pasting administered by San Jose State two weeks ago, Cal Poly hosts the Whittier Poets on the Poly-gridiron tomorrow night. The Poets hold the unenviable position of being the team most likely to absorb the wrath of the Mustangs.

Starting Line-Up Revised

Several new faces will appear in the existing lineup for Poly, in the backfield, Ray Stewart has been elevated to starting right half due to his fine backfield display against the Mustangs. However, he will appear in the backfield.

Tailback Buckner Hill Payne, a 236-pound package of power, will be utilized in his regular right and position.

Payne, third year of varsity ball for the Mustangs, was key to Saturday's victory. He was a two-tear letterman and the team's workhorse.

Captain at Pullarton J. C. S. is Husker, playing end. Husker and two latter are left half, but have been replaced by backflank, Poat Coach Nowlin.

The Mustangs are fired up for tomorrow's game. The victory last week against San Jose State, was the first victory of the season for the Poets.

**Waterbugs Sunk Three Times**

The Cal Poly waterpolo squad dropped three meets over last weekend.

In the first game on Thursday, the waterpolos were upset by Fullerton 11-2.

After two overtime periods, the men were edged out by the Cal Aggies 14-13 at Davis Pool.

At Stockton Saturday, Coach Dick Anderson's crew were downed 4-2 by College of Pacific.

The Mustang waterpoloers will meet Occidental College tomorrow afternoon at 2 p.m.

**Fighting Colts**

**To Face Fresno**

**Frosh Tomorrow**

The slippery Cal Poly frosh eleven travel to Fresno tomorrow where they will tackle the Fresno State okies. The Colts are fired up for this game and hopes to repeat the magical overtime victory of last Saturday, Mustangs against Fresno State.

Fresno State frosh will be the Colts toughest opponent to date. The Mustangs, made against Fresno State.

Fresno State frosh will be the Colts toughest opponent to date. The Mustangs, made against Fresno State.

**National Rating**

Places Bebernes Ninth On List

New York's National Collegiate Athletic Association which specializes in football statistician has mentioned Cal Poly in its latest compilation of grid tops. The meeting comes naturally through the efforts of the talented passing arm of Fink, the Mustang's quarterback. Cal Poly's Future

**Forward Passing Offensive**

Poly is hard hitting in the motion across smaller colleges. Individual passing and the run game is better developed in college ball than in the high school.

One of 12 games the Mustangs have attempted, 46 have been completed for a 38.9% completion. Bebernes has accumulated 215 yards against 183 of the 84.

Montgomery of Fresno State is rated thirteenth in passing completion and is the only other 2A team rated below the Mustangs.

COF'TP figures rank third in total passing offense according to the NCAA statistics, and are the only other 2A team mentioned in the release.

**Colts Take Fourth Straight Victory**

The Colts took their fourth straight victory last week by defeating Montana-Peoria college 64-6. The Colts are now the only school team in the San Luis Obispo county area which is undefeated this season.

Don Hafner, Mustang halfback, emerged as Cal Poly's leading scorer against Montana-Peoria.

Starting Line-up for Thursday:

Whittier will face Cal Poly tonight in the first of three games to be played this week. The Poets are off until next Monday.

Bob Redden, Poly's Ace Helm

For the second consecutive year, Bob Redden was named as Cal Poly's all-star at halfback, and number-one tackle player, as he did two years ago. Redden played a key role in the final round of the Ontario semi-final round, and was mentioned in the Mustang's victory over Santa Clara, 27-0 in the third round.

Results of previous played games were:

1. Poly lost to Occidental 40-0
2. Poly defeated Poly 30-12
3. Poly defeated Poly 46-12
4. Poly defeated Poly 42-0
5. Poly defeated Poly 30-12

Two strong teams: Santa Clara and Poly will play Saturday at 4 p.m.

The Student Wives club will meet on Thursday, Nov. 4 at 6 p.m. in Hillcrest lounge to hear a review on Queen Victoria by Mrs. Ladby Dash. She will discuss the play "Viktoria Regina" which featured Helen Hayes in the title role.

Lyman Strauss's biography of Queen Victoria will also be used by Mrs. Dart in her review.

Before the guest speaker the club will nominate their new officers in a short business session. Closing the meeting will be refreshments served by Mrs. Wilma Heinrich. Hostess for the event were Mrs. Gloria Stearn and Mrs. Barbara Brown.

Penguins Plan Cycle Run; Barbecued Featured

The Poly Pumas will make a fish run to the nearby parks Friday for an outing and practicing for a final game.

A barbecue has been arranged in conjunction with the match. Those interested in participating must sign up before this afternoon.

All cyclists are invited to make the run and enjoy the barbecue. The group will start from the college Cafe at 11 a.m.

Poly's Plant Nursery To Open For Sales

Poly's plant nursery will be open for sales every afternoon except Sunday, when it is closed. It is located at the corner of Palm and Olive streets. The nursery has a student body of 20 pre-school children. About half of the youngsters are Poly students attending school and half are children of faculty members.

The nursery, under the supervision of Mrs. Gloria Stearn and nursery director, will provide a feature of the dormitory. People will be able to purchase the plants while their parents patronize the ice cream and hot dog booths.

A puppet show will be a feature of the dormitory. People will be able to purchase the plants while their parents patronize the ice cream and hot dog booths.

Every year at the time of the student election, the editor of El Swastik, Henry D. Kowalski, Jr., for other college rag dig-ups last year, pieces and relays the old formal editorial writing and the rights and duties of citizens. This year we go through the routine twice. Perhaps this is the first perhaps we have not been through adequate, we make a re-admission on national elections applicable.

Now you know as well as I do that my preaching to you to get out and vote is a waste of time. Just wait until you have a chance to get away from here. The way the thing holds true for the right to vote. Those of you who are law and order get out to the polls, the rest go and their thing isn't going to change.

From what I gleaned from news reports and nationwide polls, this is the year that the left will win. The experts are expecting a fairly low percentage of the votes to turn out. The race given in the Nov-Feb issue, 80 per cent of all the people, is getting back to the way he's been. The way the thing holds true for the right to vote. Those of you who are law and order get out to the polls, the rest go and their thing isn't going to change.

A Mustang reporter stood at the intersection of Campus way and California blvd. last Friday between 15:00 and 16:40, m. to observe how drivers negotiated the stop sign there. Forty-four cars made a legal stop—that is, came to a complete stop; 27 made a rolling stop; nine drivers totally ignored the stop sign. In short, well over a third of these drivers drove the law.

Several colleges in the state, according to our exchange editor, do not permit student automobiles on their campuses. These sections are due, and nothing against students who do—good or bad, no roads. We sincerely hope that such a rule will never be made here—but it would prove to any student who has had his car involved in an accident or stunt later to have a liability insurance policy.

The security board has no choice but to keep the road closed before the first morning class. Funds for additional law enforcement officers are not available at this time and campus drivers (students and faculty alike) continue to demonstrate that traffic laws will not be obeyed unless security officers are close by.

Dear Editor:

We have been talking about the problems of pollution and the city. Many people are concerned about the environment, but it is often difficult to take action. Here are some things you can do to help:

1. Use less electricity. Turn off lights and electronic devices when not in use.
2. Reduce, reuse, and recycle.
3. Use public transportation or carpool instead of driving alone.
4. Support local businesses and farmers to reduce the carbon footprint.
5. Wear fewer clothes. Many people buy more clothes than they need.

Thank you for your help in protecting our environment.

Sincerely,
[Your Name]
Movie Society Series

Sunday Evening

At Eng. Auditorium

"Only Woman," title of the first of the seven programs to be presented by the Cal Poly Film Society, will be shown next Tuesday, Nov. 8, at 7:30 p.m., in the Engineering auditorium. This first program will trace the development of the cinema arts from 1895 to 1916.

Seven short films, typical of the era, will be featured Tuesday evening. Two of the seven selections are British, one French, and the remainder are American films.

Louis B. Brown, supervisor for society, states that the films are being released from the Library of Modern Arts, New York, and that the film has been selected for them by six projectors. An effort has been made to omit much of the fluff, which was peculiar to early film programs.

Approximately 70 seats are still remaining for sale to students and faculty members. Brown also reports, Mrs. Rose Winn, student wife, will play piano accompaniment for the silent films presented in the first three programs of the series.

50-Day Schedule

Complete schedule will be announced by noted throat specialists of the American Lung Association. Due to smoking Camels!

These reports were based on a panel of 2,470 examinations by noted throat specialists of the American Lung Association. They examined 739 men and women who smoked Camels—and only Camels—for 30 consecutive days.

And these men and women smoked the average of one to two packages of Camels a day. Yes, Camels are soft, said these experts. But proves it for yourself. In your own circle—"T" for Taste and "Y" for YOU.

MILDNESS

30-Day test of hundreds of Camel smokers revealed NO THROAT IRRITATION DUE TO SMOKING CAMELS!

(Not a single case!)

See you at the game...
Big Time Calls Collegians; Band Hires Male Thrush

Nothing new about our music department; now that Poly is the third largest state college in California and the largest in percentage of male students... now that all that has happened, to say nothing of the new buildings being built. The music department has looked around for a way to improve their already tops college dance band.

What did they do—Put Buckets on a diet? No, they discarded that lacking in public appeal—Put Mouse on forced feeding? No, they discarded that too costly. Instead they located a song-spinner, a croaker, a singer... see what we mean. George Tollman, the poor man Franklin Sinatra is now fronting for the band, and in his own small way is attempting to give the female audience a large charge with his soft, vocalisations of not so old tunes.

The dove of peace may be hiding in a United Nations pigeonhole. Horses are no trouble if you monopolise the conversation yourself.

The dollar that I loaned to thee, for whose return I had great hope.

For dollars loaned to folks like thee, art not returned to fools like me.

Just like an optimistic dope;

For dollars loaned to folks like thee. For dollars loaned to folks like me, art not returned to fools like me. "The Spectator"
