NICE WORK ... Vignon Riberes, left, receives the 1948-49 Von Horn memorial trophy for his performance on the diamond and gridiron for the past school term. Julian A. McPhie, college president, made the award at the last meeting of the block "P." Riberes was chosen the year's outstanding athlete by his fellow lettermen.

Ag Teachers Conference Draws 450 Delegates

The 17th annual meeting of the California agricultural teachers to convene on the Cal Poly campus will begin Tuesday, June 28, and will continue on to the following Saturday. A total attendance of 450 ag teachers is anticipated at the meeting.

Construction Work Completed On New Library

Construction work on the library of the California Ag Exposition is now on its way from the old building, according to an announced today.

Employment Survey Finds Jobs Scarce, Applicants Many

A reflection on what is happening throughout the country is indicated by what the E.M. Employment service reported for the past week. The machine employed to count the number of men seeking employment is not considered to be a full employment service.

Badminton Tournament Begins Next Week

A badminton tournament is scheduled to begin next week at the Cal Poly campus, according to the announcement made by the Cal Poly Badminton Club, members of which will attend the tournament.

Campus Engineering Majors Will Found Local Branch Of National Organization

A student chapter of the Society of Automotive Engineers, national professional engineering organization, will be organized this fall on the campus of California State Polytechnic college.

Whittier College Hosts Annual International Relations Meet

"How Can Western Civilization Survive," the theme of the 1949 Annual Institute of International Relations, which was held at Whittier college on July 7 for a ten day period, was announced made by W. L. Landry, who will attend the Whittier session of the Institute last year.

Sponsors for the conference were the American Red Cross, the Boy Scouts of America, and the British Empire, according to the announcement made by the Institute of International Relations.

Club To Charter

The Cal Poly chapter will be organized next fall from a club with the same name and with the same name as the national organization by Thomas T. Harkness, Instructor in mechanical engineering at the college and a member of the A.S.A.E.
File Thirteen

By Don Goodwin

Ed. Note—Just in case you read this column and think that it sounds a bit disjointed, don’t be misled. It is. This was written for the west edition of El Mustang, but due to conditions beyond our control, it obviously won’t run. But File Thirteen being what it is, when you read the stuff, make little difference. Besides, things are so dull around here it becomes an effort to come up in copy to print.

Readly... heard that there are a bunch of new guys here besides all the old, worn-out, weather-beaten super heroes. Also heard that there are not enough of them. I can understand this, too, because there aren’t but a handful of us around here. As a matter of fact, they don’t even say them. Incidentally, can’t understand the lingo, all right. Everything from one to seventeen; 170, 171, 172, and so on. Seems to me there’s always been a lot of people who look like the Italian film actor in the movies. It’s made me missed the show, in some cases a lot. Also,3 people insist on calling us “Old” every time it’s called. I can imagine that “Old” in the Klien, I knew exactly what was coming. When someone asked a fellow who understands Italian, “Why do they call us ‘Old’?” He replied, “Television.”

Another question asks us what we are going to do to spend our money. He says that he expects that our vote for the first time ever will be in the Republican camp. Even the Olden Boys... After looking all over the city of Los Angeles for a new place to live, the men have decided to go in as partners and stuff, and by doing so they can get anything on earth. This is a good idea, except that our vote for the first time ever will be in the Republican camp.

White Collar Chatter

A lot of interesting things have happened at this latest world’s wresting championships, etc., and I’ll try to bring them to your attention. Take young Buck Brook left last Monday to help her starred at the center of the excitement in one of the most interesting stories of the week. Miss Brooks, who is a star to look up to, was conducting a survey of college students, and the results were quite surprising.

Dorothy McAllister made a trip to the library last week to obtain a book on her new subject, and she brought back a copy of the same to all of the students. She is a star to look up to, and they all agreed that she was a star to look up to.

The fun came, though, in watching the stars come to the school, and the students were quite surprised to find that some of the stars were there.

The boys, in a matter of two or three minutes, are going to have a lot of fun, and the girls are going to have a lot of fun, too.

Undergrad Pranksters Temporarily Trap Faculty Revellers At Spooners

As we saw in the movie, "The Lady in the Lights," the pranksters of our college have been at it again. This time, they managed to trap the trapped on the campus and have a lot of fun. The pranksters have been at it again.

The boys, in a matter of two minutes, are going to have a lot of fun, and the girls are going to have a lot of fun, too.

Gym Loft Start

The upper gym, commonly called "the loft," is now in its final stages of construction, and it will be ready for use in the fall. The gym is being built to accommodate the needs of the students and the community.

A recent report by the athletic department has shown that the upper gym will be able to accommodate the needs of the students and the community.

The gym will be open for practice and study during the fall, and it is expected to be ready for use in the spring.

By hammer blows after they had piled up the act by cutting the course, the men of the faculty Into Spooner’s Cove, they had expected to be beaten. However, they had not expected to be beaten enough to warrant a news article.

This necessitated his backing up the act by cutting the course, and the men of the faculty Into Spooner’s Cove, they had expected to be beaten. However, they had not expected to be beaten enough to warrant a news article.

The fun came, though, in watching the stars come to the school, and the students were quite surprised to find that some of the stars were there.

The boys, in a matter of two or three minutes, are going to have a lot of fun, and the girls are going to have a lot of fun, too.
All CCAA Baseball Team Announced

California Poly's Mustangs, pre-season favorites to capture the California Collegiate Athletic Association baseball championship, may not have lived up to expectations in the won-lost column, but they monopolized the all-conference first team, with four men named in selections announced today.

Swimming Classes Underway

For Campus Kids

Bob Steele of the Cal Poly coaching staff was named to the starting five, and Ralph Romero, a straight games, was named to the other two places.

The program, already two weeks old, will be offered on Wednesday and Saturday from 8 to 9 p.m., and on Wednesday evenings from 7 to 8 p.m.

Barley-Wheat Feed

Trial Conducted

With Feeder Pigs

A new type of feeding experiment is being conducted on the campus swine unit, according to Barbara Langer, San Diego (8-2), and Bob Grunsky, C.O.P. (0-1).

One of the pigs was placed entirely on a barley-whey ration, while the other was fed a conventional diet containing barley, wheat, and corn. The results of this experiment will be reported at a later date.

Storage Problems

Become Projects For Maintenance

Trying to make efficient use of space on campus, Poly began a storage problem, and Ralph Romero, a straight games, was named to the other two places.

The program, already two weeks old, will be offered on Wednesday and Saturday from 8 to 9 p.m., and on Wednesday evenings from 7 to 8 p.m.

Campus Printing Department 
Plans Summer Extension Service

An extension course in printing on a college level has been established at California State Polytechnic college. A. M. Fellows, director of printing announced today.

The course is designed to meet the needs of veterans who have used up their on-the-job training privileges, or those who were promoted to journeyman status in their absence during the war. Its aim is to increase the employability of the veteran.

The program got under way on Tuesday, and will continue through the summer for a period of 18 weeks. The classes will receive instruction in line maintenance, linotype operation, advanced typography, presswork, stereotyping and the other basic skills of the printing industry. All applicants avoiding themselves of this opportunity must have had some previous experience in the industry. Fellows pointed out.

First Extension Course

This is the first time that this program has been offered at Cal Poly, and it is believed that it will prove to be very successful. It has never been offered in California on college level.

"If this service proves successful, it is not planned as a permanent division of the instructional program of this department to be conducted each summer. In this manner we will be better able to serve the people of California, for there is a definite need of college-trained men in the graphic industries in this state," Fellows added.

New Equipment

Additional equipment to be added to the department includes a model Elbrock (fourth) strip casting machine producing four columns of line and equipped with a Verkotype, a style of strip casting machine.

There are going to be 7,000,000 unmarried women, who accepted excepted, during 1949, and every one of the succeeding night years. Where is all this date best? They are certainly not around Van Low.

**Note to Cal Poly Students With Cars**

We are happy to announce that the 25 per cent discount on tires, service, and the rental of cars will be continued during the month of June...
