For Clinic Coaches Proves Successful

The specially planned recreation program for the visiting coaches and their families has proved to be a real success, according to Bob Hart, athletic director. He reports heartily approval from all concerned and the hope that this program will be repeated in the future.

To those who don’t know what is meant by the “Recreation program,” explanation is in order. Realizing that the visiting coaches might like a little diversion in their busy schedules here, the offices of a little booklet, listing various recreational facilities in this vicinity.

In this pamphlet, there are suggestions on where to go for swimming, golf, tennis, fishing, playing cards, bridge parties for the wives, and many of the wives have gathered for one or two evening bridge parties. The wives in the gymnasium, and the hopes are that the visiting coaches will be interested in participating.

A truck of the Department of Agriculture was supposed to pick us up at 5:30 and after several other stops, we finally arrived at the camp at 8:30. We headed north and camped at Santa Margarita, turned east, in a small town named San Raphel. Then, through small, hilly country with the vegetation alternating between sage brush, we were taken to the part of the forest where the fire was to be set up. All along the road, forestry officers had posted their cars, transmitting orders for food, fuel, men, and equipment.

When we arrived at the place selected for the center of operations, we could see fires raging at a close distance in two directions. We soon began setting up the camp, and the trucks carrying blankets and cooking equipment. During the first night, Poly students were the only living thing into the line of fire. Under the direction of two forest rangers, we moved toward the fire with shovels, hoes, and other tools, burning vegetation, isolating “hot spots.”

When the morning dawned, the album of the fire which had been assigned to us, we had been a man of westerly fires. When we approached it the night before, was again a quiet, peaceful mountain with only a few white of smoke from around wood reminding us of the battle of the night before.

Project Swine For State Fair

Eight head of swine have been entered in the livestock show at the California State Fair. The grandstand.

Emphasis was placed on the work of George Balch to show in the Department of Agriculture. The total was the only livestock entered for California State Fair. At present, one of the best animals of the class, George was the coming of George Balch to show the state fair.

George’s parents and ancestors were of Scotch origin, as they had been recorded. Just a few years ago, George Balch to show the state fair.

George’s parents and ancestors were of Scotch origin, as they had never been recorded. Just a few years ago, George Balch to show the state fair.

George Dies

The student body has lost an old friend, but the idea of this finding isn't to mourn the passing of George, the mascot. What we are interested is in the future, and from here it doesn't look too bright.

The dog was run over by a car driven at excessive speed in an area where many married students and their families reside. George was an old hand at hitching cars, and yet he wasn't fast enough to miss this one.

It might just as easily have been the child of some student's parents, and yet there is no chance of getting out of the way. Fortunately, it wasn't a dog and not a child, but that was luck, and nothing more.

El Mustang has run editorials in the past on the subject of speeding while on the campus. The Mustang has handed out numerous citations for the same offense. Nothing has happened.

We've said that it would take a death on this campus before anything would be done. We now have that death. We've said that it would take an all-out cry for research.

Student Union Aid

During the regular school year, the Cal Poly Film Society will run three series of films for the entertainment of the campus citizens. Season 1 is of the-handedly, remarkably low rate so that all students, faculty members and their families may take advantage of the shows. The films have been selected for their entertainment value and the shows will be topped off with a serial continued from the films will be allocated to the Student Memorial Fund.

Lew Shepherd, instructor in charge of the series, informed us that the film series should be able to donate about $3000 to the Union. If ticket sales are as high as they were during the two film series presented last year, everyone should enjoy these pictures and everyone is interested in raising money for the Union, with this opportunity to do both at the same time, the tickets will probably be sold out soon after they go on sale.

Campus Cafeteria Gets New Floor
In the fall when the cafeteria number one space, no one will have to worry about finding a place to eat. The planked hard floor has been laid in the kitchen.

On top of this new floor was placed a handsome counter. The counter is of one-inch thick teak wood and red oak. A ramp has been added leading to the wash area.

A concrete slab has been placed around the wash tray and salad bench. This will make a more sanitary area allowing for the washing of the vegetables.

One can also note many maintenance repairs around the campus area. For example, in the Ben Bates, instructor and Robert Williams, making up the maintenance department.

More File Thirteen
Proudly ranked first in the world of Poly, Poly raised... A new advertisement for Poly's airplane colors, will be decorated for the Poly colors, which is a cream stone building. A gopher was working around the wash tray and salad bench. This will make a more sanitary area allowing for the washing of the vegetables.

**Veteran's Agency Prepares forms For Tax Refund**

Now is the time for all good veterans to take a look at their 1949 income tax returns and see if they are eligible for any tax refund. The Internal Revenue Service has announced that the tax year is ending soon and that veterans who qualify for refunds should file their returns before the deadline.

**Teletype Receiver Placed In Office**

Telegrams for the administration, faculty and students will be received from Western Union by teletype rather than by the present system. The teletype machine will be set up in the rear of the general office. Western Union will own and install the equipment. They will release the connecting wire from the Pacific Teletype Co. It will be used both as a transmitter and receiver. However, students wishing to send telegrams will have to pay a small fee to be used by the administration only.

**Veterans Administration**

A drastic cut in auto insurance costs has been announced by the Department of Commerce. The new rates for the various classes of insurance are as follows:

- **STATE FARM MUTUAL: 20% Disc**
- **Amica: 20% Disc**

**New Handball Courts**

Handball courts are being constructed in the area in back of the gym. The maintenance crew will total the installation by various P.E. majors.

**New Handball Courts**

For the benefit of the students of the Veterans Administration effective August 15, the handball courts are now available to them.
