NRA Chapter

To Organize

Next Monday

The organizational meeting for the Poly Royal Assembly will be held Monday evening in room 414 of the Administration building at 6 P.M. This meeting will be held to organize those interested in shooting into a regular N. R. A. chapter.

It is planned to organize departmental teams and also to start a shooting league which will complete with the rifle teams from other colleges. The number of participants will be limited to 30. All events will be started for beginners, small and heavy caliber; sket, trap, and trap shooting.

Other matters to be discussed at the meeting will include the availability of government arms and ammunition, and the use of the firing range at Poly and the cost of the proposed N. R. A. and forming a local chapter.

Everything is to be cordially invited to attend the meeting. Anyone who does not wish to own a gun is invited to attend. All matters will be taken up as the meeting progresses.

The program for the meeting will be as follows: 

8 a.m.—Student government meeting, Poly union.
10 a.m.—Meeting of the Secretary of the British Union.
11 a.m.—Meeting of the Secretary of the American Union.
12 noon.—Meeting of the Secretary of the Canadian Union.

The meeting will be held in the Poly union.

A large number of people are expected to attend the meeting. The meeting will be held in the Poly union at 3 p.m.

Dear John...

Dear John: I want to thank everyone for the responsible way in which you went about making the recent meeting of the California State Polytechnic Student Association hold on the campus a success. This is the largest group that has ever attended. Perhaps we should all express special thanks to our editor (a splendid manner), and to Ted Daves, and Howard Brown, who arranged the decorations for the school. We would like to thank in particular Dr. Suggs, and his staff for the fine manner in which he served the group, and to H. P. Davidson and his boys for the excellent musical entertainment.

Dr. F. H. White, Secretary of the Association, stated that the program was a complete success in San Luis Obispo, and it was pleased with the cooperation rendered at the school.

Dr. Dean C. Lindsey

Dear John:

As Mark Twain said about the weather, everybody gapes about going here at Poly but nobody does anything about it. We have had such a deluge of letters here in the office of El Mustang touting about what a helter skelter we are putting out, but so far I haven't seen anybody that can't name a full year for more on the staff. I have a responsibility of answering to our school board and to the students about how sad dead persons in the Department of the University. The students are all feverish, very seldom do a deserted thing. I think the ambition of the students is growing and that they are beginning to think that something more is being told than we are telling them. Everyone realizes this and I am sure that as soon as it gains more popularity there it will be easier to keep the mood up than before. It seems to me that the students are really reaching a point of improvement here at Poly at this year's present year, but there are still a lot of improvements that can be made.

Yours for a better Poly, Mr. Bill Claybaugh

School Spirit and Your Paper

We have heard more than a few comments about the amount and quality of the "school spirit" here at Cal Poly. Many people have deplored the lack of that spirit. They claim that Poly isn't showing the proper reaction to extra-curricular activities.

We feel that this is not quite the truth. That thing which is called "school spirit" is very much in evidence at Poly. We have a good deal of spirit in that college, and that spirit is increasing in quantity and in quality. We may point out two reasons for this:

First, the activities of the Poly Royal Executive committeee. This committee has had several meetings. The members have already put in more than a little time and effort to plan for the future of Poly on a College Campus. The men whom this school elected to take this responsibility are the ones who are chosen by the individual departments are now at work to make this coming Poly Royal the biggest and best one that we have ever had.

Another case in point is the activity of our athletic teams. From what we can see of the local schedules, the Poly hoop teams put up last Friday night could possibly say that we, or our teams, are dead. No one who saw the great show that our hoop team put on are going to say that we are dead. Our teams. No one who saw the great show that our hoop team put on last Friday night could possibly say that we, or our teams, are dead. The Poly Royal and this editor have been blamed at times for not doing their job. There have been several suggested solutions to the repair problem, and any other problems which they wish to discuss, is reached.

And that remark about our repair facilities, with the amount and quality of the "school spirit" here at Cal Poly. The Kick of the Mustang. We have stopped using the column running, as a regular feature, that the Kick violated the rules. In the past, this isn't the first time that the association to date. I want to thank everyone for their comments about the Kick. Many students have written letters about the Kick. Many students have written letters about the Kick. We have a lot of people who want to write, but no one who wants to write. We have received a lot of comments on Bedrock's work, and I am sure that our students will do their best to see that an equitable solution to the repair problem, and any other problems which they wish to discuss, is reached.

Why not stop ordinary griping and do a little constructive Nit. We have heard more than a few comments about the amount and quality of the "school spirit" here at Cal Poly. Poly Drops First 2C2A  
Hoop Match to Gauchos

Santa Barbara defeated Cal Poly's quintet last Friday night in a hard fought contest 50-47. The Gauchos, at game, carried the score 23-20 when the Mustangs pulle...
Poly Truck Drivers Hold Meeting

At a meeting of Poly truck drivers held last week, James Merson, farm supervisor, discussed with all truck drivers the regulations that apply to the vehicles. Special emphasis was placed upon state Automobile Accident Form 270, which must be filled out within 2 hours after an accident.

Merson also pointed out the low allowance the state vehicles have to operate on. Only one and one half cent per mile is allowed for oil and gasoline only 85¢ is allowed for maintenance and over repairs. As Merson stated drivers are warned not to use trucks or cars for non state business, especially for towing other cars. If an accident should occur during maintenance and overtime the driver may be held responsible for paying the cost of repairs.

GYM OPEN TO STAFF

Beginning January 15th the gymnasium will be open to staff each Wednesday evening at 7:30. Gymnasium will be open to staff and non staff.

3 Day Field Trip For Land Owners

Before dawn even thoughts of farming brought 27 animal husbandry students to the assembly room where they will make their first stop on a three day field trip. The 27 men, chauffeured by Poly truck drivers, Professor Spalding, and George Hovely are all sheep project students. Every one on the program will be marketing of lambs at a South San Francisco fair held by an inspection tour of the Swift and Co. plant which includes an invitation for luncheon.

The men will visit five farm producers including: Howard Vaughn, Dallas; Bill Campbell, Dixon; Frank Pulliam, Woodland; Fred Cole, Winters, and A.T. Spencer, Winters. They will stop on their way back at Michel Orland's ranch, San Ardo, and will arrive in San Luis Obispo sometime Sunday.

Senior Class Meets Tonight

The Senior class has had added to its roster some forty-five names when the completion of the Fall quarter. All seniors, including these new members of the class, are invited to attend a very important meeting tonight at 6 p.m. in the J.C. room of Cafeteria number one.

If you are in one of the following groups you are a senior and are requested to attend the meeting tonight. A vocational student in your fourth, fifth, or sixth quarter; A technical student in your third year; Or a degree student with two, two or three quarters left before you are awarded your degree.
