Dear John...

The "Dear John" column is open to the letters from anyone concerned with Democracy. Your request should reach me by 1:00 p.m. If you don't meet with your approval or if the letter is not usable, you will be notified. Perhaps I had better quit writing your time and mine with futile results.

But my last for Mustang.

Dear John:

I would like to qualify your remarks for the column El Mustang. Your request should reach me by 1:00 p.m. If you don't meet with your approval or if the letter is not usable, you will be notified. Perhaps I had better quit writing your time and mine with futile results.

But my last for Mustang.

The reason that we are interested in your column, because we can use any reporter who is willing to learn all about newspaper paper style, and who has some background in an English class, "Learn by doing" is still one of our rules. That means that material that isn't what we want must be rewritten until the reporter learns to write somewhat like "news" style. We are afraid, Harry, that you had the wrong slant on student publications.

Dear John:

Are the instructors' children exempt from campus traffic rules? It seems that a certain daughter is a "of Buick nearly new", owns another vehicle because she can drive through a college stop sign almost 25 miles per hour. Also are instructors able to cut up the new campus road with realistic and class while students cannot work on their cars for half of term.

What is good for the goose is good for the gander. Name withheld for obvious reasons.

Caroling:

Dear John:

Damn those people that work during the Christmas season, win or lose. The reason we are in that business is to improve ourselves and improvement is through the cutting out of mistakes. Even a minutes glance at an address book in the office in the Poly, the baseball coach's address, helps at home.

What are they trying to do? Be0 typists.

(Name withheld)

Sports Round-Up

by JOE GRIFFIN

Last Friday afternoon Cal Poly’s boxing team left the campus for Santa Barbara to take on the Santa Barbara Gauchos. They didn’t realize that two of their boys were not only going to have to fight an opponent but also the referee and one eye of the judge. The judge must be thinking of running for office down there, he certainly was a crooked guy.

Fresno Downs
Poly 62-52

Cal Poly’s Mustangs dropped their third straight game, 62-52 last Saturday, to the lowly Fresno State College. The Mustangs dropped a point by a score of 62-52. With such a defeat, the Mustangs, Vann Hallman, and George Becken contributed to the loss. The Mustangs could do little to over­come the 20-point lead piled up by Fresno after 7 minutes of play. A couple of set-shots and fouled by "Tiny" Moe, plus one-handers by Lee Ross and "Whitby" Tyler helped to keep the Mustangs in the game during the first half.

Tigers from College in return engagement despite the fact the Mustangs made 11 points. Coach Strickland and the Gauchos fought back and the Gauchos were able to hold the Mustangs to 12 points in the game.

High points man for the Mustangs was Russ Barr, 168, who chalked up 15. Fresno scoring back was announced as follows: Davis, 164, for Poly, and Tommy Gressett, 147, for Santa Barbara. Gressett must have a reputation among the starting line-up since his name was on the list of players over 100 lbs.

No other points were announced.

The second half began with a flurry of Fresno tallies that found Poly trailing by 10 points, John Torwitt, high scorer for the Mustangs, and Cliff Gilbert, starter for the Gauchos, started the drug. The 6 ft 6 inch negro, Vern Kiggens, whose rebound work was outstanding throughout the evening contributed to the Gauchos with a winning combination. The only bright spot in Poly's second half was the拼ing of guard Hara Fenay and Ray Roberts, Mustangs, fighting hard all the way, was clearly the guarded entire second half and had to be held at the field goal. He did, however, make good points and scored his fights and an exhibition bout that did the damage, must have had to get home to the
to come down, a Santa Barbara crowd at that.

Students' Wives

The Students' Wives club is making plans for a fashion show to be held in February. Olive Mumford, in charge of arrangements, has sent invitations to all the members of the club, including some of the boys at Cal Poly, accompanied the class to the University farm the boys left during which veterans who are working for their CAA instructor rating: Al Wilson, Chris Wood, William Bode, and Fred Adam, are being accepted and when 25 applications for Associate Membership have been received the club plans to begin operation the 15th of January. The policy of the year is to be active participation.

Meetngs Starts Poly NRA Plans

The prospective members of the Poly Club met in room 814 to hear the results of the meeting of an organization to give men interested in flying a chance to fly on Poly range last Monday night. Gene Brencht, who is in charge of the meeting and told of the organization's purpose and aims. The group was formed to promote and encourage good sportsmanship in flying. The organization is under the direction of Mr. John Prosser, of the local chapter of the NRA, who is the chairman of the group. The meeting was divided into two parts. The first part was devoted to the organization's plans for the future, and the second part was devoted to the discussion of the organization's policy. The group was well attended and the meeting was adjourned.

foot. Tufftref as permanent pasture in California. This new type of animal is a member of the alpaca family and it is reported to be a greater bear to California agriculture than the sheep has been. After spending Saturday night at the University farm the boys returned to Cal Poly on Sunday. Charles Ackerman, student at Cal Poly, accompanied the class and brought home pictures in order of the highlights of the trip.
