CAPTURE: Here to stay

An article in the spring/summer edition of the ITS newsletter, ByITS, contains a misleading opening statement on the replacement of CAPTURE.

The statement reads, “As you may already be aware, CAPTURE is going away.”

This is incorrect. The intent of the article was to inform the campus of a project to no longer maintain or support the hardware and software components used with CAPTURE.

There are no plans to do away with CAPTURE.
