Background
EO 926, the CSU Board of Trustees Policy on Disability Support and Accommodations states: “it is the policy of the CSU to make information technology resources and services accessible to all CSU students, faculty, staff and the general public regardless of disability.” Coded Memorandum AA-2006-41 establishes a process for ensuring compliance with federal and state laws, and CSU policy regarding access to information technology and resources. One of the three priorities addressed in that plan includes instructional materials accessibility. Instructional materials, to the extent possible, must be accessible to students with disabilities at the same time they are available to any other student enrolled in that program. AA-2006-41 states, “By June 2007, following consultation with local senates as appropriate, each campus will create a plan to support faculty and staff practices that will ensure timely access to instructional materials. This plan will include: (1) Timely adoption of textbooks by faculty, and (2) strategy for identification of textbooks for late-hired faculty…” Timely adoption is important to allow time to work with vendors, publishers, and DRC staff to provide the necessary instructional materials.

Resolution on Timely Accessibility to Instructional Materials

This memo acknowledges receipt and approval of the above-referenced resolution.

Please extend my appreciation to those who worked so diligently to make certain that Cal Poly complies with federal and state laws to ensure that our students have timely access to instructional materials and to the Academic Senate for its prompt attention in this matter.
