Fishing Possible
On Campus In ASB
Sponsored Waters

Unknown to many Cal Poly men, fishing can be done on campus in Drum lake, with a special permit from the Dean of Residence office. Says Walker Chandler, dean of students.

Provided by associated students. Drum lake is located near the east field. A number of simple rules should be followed, says Chandler, but they include:

All fish and same laws will be observed. The daily limit for bass is five, walley Is 45, The hilly Is 10, and the south side of the road above the hard top for movement of cattle and equipment.

Parking facilities have been provided along Poppy lane and on the north side of the road above the hard top. Since the south side of the road above the hard top is the only source of water, the students are reminded to observe the laws and have only easy access to the hike. Cattle will be allowed to pass through the north side of the road above the hard top for movement of cattle and equipment.

Garbage disposal cans are available in the areas marked "students only" on Drum lake. Garbage disposal cans are available in the areas marked "students only" on Drum lake.

Poly Golfers Meet Long Beach Today On Morro Course

Poly's golf team adds a busy athletic schedule today, when they tangle with the Long Beach State college linksmen on the Morro Bay course, Coach Don Watts announced that the golfers will step up to the first tee promptly at 1 p.m. Leading the Poly squad this year are Bob Whitman and Bill Wood, a pair of divot-diggers who continually shot around the 77 mark. Tom Paimeniuek and George Higman were in the second match, while Watts will have Jim Bryant and Gene Palmer take on Long Beach's third twosome.

The above sixsome scored a clean sweep over Pepperdine in their only start to date, but had a match with the Camp Pendleton Marines last Wednesday—too late for press time.

Beta Offers Speakers

Anyone interested in wildlife conservation should attend the Tri-Beta meeting, Ad bldg. Room 811, 7:30 p.m. April 16, according to Dr. Randy Bradley. There will be a slide talk and discussion period by Eben and Ian McMillan, Shandon.

Enrollment Figures

Spring quarter registration figures, released today by C. Paul Custer, admission officer, show 134 new students, 1740 old students and 37 graduate students are enrolled. Total number of students enrolled to 1951—all men.

What did we do with Miss Hidden's money?

1. In 1944 Miss Hidden bought 100 shares of Union Oil stock. Last year she invested in 80 more shares, bringing her total to 180, which is over shareowner's average. By these purchases, Miss Hidden became one of the millions of American stockholders. What did we do with her money?

2. Unlike the amounts entrusted to us by our 40,001 other shareholders (half of whom are women), Miss Hidden's money has gone mainly into her own name, and not into a trust fund for her benefit. It has been used to drill deep oil wells, buy new equipment, and in research laboratories and work that we do in developing new wells. All these things take money.

3. Because we put Miss Hidden's money to work in these productive ways, we were able, under the American system of free enterprise, to earn something with it. That is, we made a profit. Miss Hidden participated in this profit, along with our other shareowners. In 1953 she received dividends amounting to $80. She could sell her stock at any time, but chooses to remain a part owner of our business.

4. This example shows how most American industry is financed today. It also illustrates one of the great and fortunate facts of our economic system. In inventing with us, Miss Hidden is of course considering her own personal interests, but at the same time she is helping in the vital development of U.S. oil resources, the expansion of refining facilities, the making of new jobs, the increase of worker income, and the creation of more and better petroleum products for everyone. She is contributing to a higher standard of living and to a stronger America.
THERE The Money Goes

The board of athletic control made a big move forward recently when they set their 1953-1954 budget request at $18,804. Mustangs will long remember the 1962 original request of over $20,000, and the subsequent trimming to $13,885. At the time the BAC implied they couldn't field a croquet team with that amount of money. However, after a year's study with championships and honors here and there, they have come around.

They not only plan to operate on $18,800 of student body monies, they've enlarged the program by four sports.

Part of their proposed operating plan however, calls for the student body to act as the BAC's banker to the tune of a $1,000,000 guarantee. This means that the BAC's total expenditure will be around $55,000 for the entire school year. Estimated income will be around $21,900. BAC will turn over all income, from gate, concessions, guarantees, etc. to the student body for the overall guarantee. As we see it, this is not as bad as it sounds. Other state colleges follow similar plans, and the proposal is completely in line with the proposed new financial code, which calls for all activities to follow such practices.

Estimates were made on the basis of previous years' records and meet with the approval of graduate manager Larry Winther who serves as BAC secretary.

Our price conscious fans lost off to the BAC for showing the student body the athletic department is not always the traditional money grabbing bag-a-job.

Long Elected CIPA Prexy, El Mustang Given Honors

Bill Long, El Mustang managing editor, was elected state president of the California Intercollegiate Press association at the organization's recent annual convention in Fresno. Recently, Long, a freshman from Cupertino (Santa Clara county) is the third president from Cal Poly in the five year history of the CIPA. Long replaces Dan F. Earley, who resigned as state president of the California Intercollegiate Press Association (CIPA) after serving as a member of the Intercollegiate Press Association's national general council and helping plan the convention.

Long, an ex-Marine corporal from Monterey, is a member of the Intercollegiate Press Association. He is a member of the Intercollegiate Press Association. He is a member of the Intercollegiate Press Association.

Los Angeles State In Town For Spike Fiesta With Poly

Coach Jim Jenens Mustang Troubles upon their return from the recent trip to California, where they lost to Los Angeles State on the track oval. Prospects of a record and gold triumph appears as thin as the odds that Coach Jenens is working with.

Faced with UCLA and Santa Barbara (in Brivillela) and a trip to Stanford University, Mustangs have shown too much Poly power on the track to be taken lightly.

Jenens's lack of material stems from the day of several leading performers who dropped from the squad for various and sundry reasons. Among them are Alie Cart, outstanding miler, and a pair of terrific middle-distance men, Bruce Fage and Bill Quennell, both. the loss of hurdlers Marvin and Jerry Phillips, and the top midgets's long face of late.

Shaw Well

Freshmen Al Collins, Los Angeles, two miler, and Church Barbour, Phoenix, Ariz., an 800 man, have shown pretty well according to Jenens. He added, however, that every man on Los Angeles team should have enough talent to make an end.
