Position vacancies

STATE: For a complete list of employment opportunities for state staff and management positions, you can:

- Check the Human Resources and Employment Opportunity Web site at www.calpoly.edu, under Employment Opportunities.
- Come to the HIREE office, Adm. 119, and view the posted positions.
- Call the HIREE Job Line at ext. 6-5533.

For a listing of new openings, check The Tribune's Sunday edition. Please note that applications for job openings must be received in the Human Resources and Employment Opportunity office, Adm. 119, by 5 p.m. on the closing date. Envelopes postmarked by the deadline will not be accepted.

If you have questions, please call HIREE at ext. 6-2357.

FOUNDATION (Foundation Adm. Building, job ext. at 6-7107). All Foundation applications must be received (not just postmarked) by 5 p.m. of the closing date. (No fax.)

Senior Investment Accountant/ Analyst: $36,400-47,294/yr. Closing date: open until filled; review of applications begins Dec. 21.

FACULTY Candidates are asked to contact the appropriate department office at the phone number listed for the position, or to request an application. Additional information and qualifications for each position may also be obtained online at http://www.academic-personnel.calpoly.edu.

Please submit all application materials to the department headchair unless otherwise specified in the ad. Rank and salary are commensurate with qualifications and experience (and time base where applicable), unless otherwise stated.

#13846: Tenure-track Counselor (SSP-AR), Health and Counseling Services Department (ext. 6-2511).

ASSOCIATED STUDENTS INC. is accepting applications for the following positions:

Complete position descriptions and applications are available at the ASI Business Office, University Union, Room 212, M-F, 8 a.m.-5 p.m., ext. 6-5500. All applications must be received by 5 p.m. of the listed closing date, AA/EEO.

Public Relations Assistant, $27,655, 10 months, 2-year appointment. Open until filled, review of applications begins Dec. 18.

Christmas trees for sale

The Cal Poly Logging Team is holding its annual Christmas tree sale from 3 to 7 p.m. weekdays and 10 a.m. to 7 p.m. weekends.

Nobles fir, Douglas fir and Fraser firs are available at the tree farm, located on Steen Creek Road off Highway 1, about half a mile north of Highland Drive.

The team is hoping to raise money to compete against other forestry schools in the American Western Forestry Club competition in Washington.

For more information, call team president Jacques Emperius at 547-1078 or the president Nicolas Valente, 784-0289.

Traffic restrictions apply during class passing time

Vicki Stover, chair of the Campus Safety and Risk Management Committee, reminds faculty and staff members that campus protocol restricts vehicular traffic on Poly Vie Drive (Inner Perimeter) for the period of 10 minutes before the hour to 10 minutes after the hour. Exceptions are drivers destined for handicap parking, the Disability Resource Center (DRC) van, and emergency vehicles, including University Police and campus service vehicles responding to emergencies. The restriction is intended to ensure the safety of students on their way to class.

Agribusiness students win second in contest

A team from Cal Poly agribusiness students placed second in the recent Student Case Study Competition sponsored by the Food Distribution Research Society.

The competition was held in conjunction with the society's annual conference in Traverse City, Mich.

Approximately six teams competed from such schools as the University of Florida, Virginia Tech, Louisiana State University and Western Michigan University.

The students analyzed, developed strategic alternatives for, and recommended a course of action for a case that dealt with the Florida grapefruit industry's efforts at marketing development and promotion. Team members, all seniors, are Suzi Clark, Brian Kari, Molly Olson and Jenan Pobor.

Agribusiness Professor David Schaffner coached the team.

Kinko's founder gives $15 million to College of Business

A gift of securities worth $15 million has been made to Cal Poly by Kinko's founder Paul J. Orfalea and his family. The donation is earmarked for the College of Business to enhance the quality and scope of business education.

The gift will establish the Orfalea Family Endowment for Excellence, with a focus on the college's strategic initiatives in entrepreneurship, globalization and technology and through scholarships, faculty development and program enhancements. The contribution also includes a $5 million challenge gift to leverage additional private support for the college and the establishment of endowed professorships in critical areas.

University officials will request approval from the CSU Board of Trustees on Jan. 24 to name the college the Orfalea College of Business.

The $15 million contribution is believed to be the largest individual gift of cash or securities ever recorded in the 23-campus CSU system, and it brings the first named college to Cal Poly.

"Cal Poly deserves recognition for en­couraging its students to gain experience thorough hands-on internships and collabo­ration with businesses, enabling graduates to be well equipped upon entering the business world. It is our hope that this gift will further enhance the mentoring between teachers and students that provides a life­time foundation for success," Orfalea said.

"Paul will also share his business acu­men with our students through lectures about his personal business philosophy and his 30 years of experience," Bill Pendegast, dean of the College of Business, said. "In 1970, he started Kinko's with one small storefront in Santa Barbara and built it into a 1,100-branch global business services chain. It is fitting that the college be named to honor the spirit of entrepreneurship and strength of character he has exhibited during his career."

"The Orfalea family's generosity will make it possible for students to gain experience and gain the talent of the faculty into broader oppor­tunities for students," Cal Poly President Warran J. Baker said. "This gift will enhance learning by doing and foster the development of programs that focus on globalization, entrepreneurship, tech­nology and the knowledge and skills students will need to be successful leaders in the business world."

A public ceremony for the naming of the business college will be in 2001.

Industry leaders to speak to graduation ceremonies

Saturday's three Fall Commencement ceremonies will have different speakers, each chosen for his expertise in one of the disciplines being honored at the particular ceremony.

About 3,200 family members and friends are expected at the Recreation Center. A total of about 1,040 candidates for graduation are to be hooded.

At 9 a.m. the colleges of Agriculture and Science and Mathematics plus the University Center for Teacher Education will hear W.R. (Reg) Gomes, University of California systemwide vice president for agriculture and natural resources. In that office, Gomes directs the state's Agricultural Experiment Station and Cooperative Extension and is responsible for the Natural Reserve System and for research and outreach efforts on the UC campuses, at nine field stations and in California's 58 counties. He earned his bachelor's degree at Cal Poly.

At 1 p.m. San Francisco Bay Area architect Gordon Chong will address candi­dates from the College of Architecture and Environmental Design and Liberal Arts.

Some of Chong's firm's recent com­missions include the new Sierra Club Headquarters in San Francisco, being designed with German architect Daniel Libeskind, and master planning for a new UC San Francisco...
Society of Women Engineers takes first in competition

Cal Poly's Society of Women Engineers won first place in a national "Team Tech" competition for a proposal that could save the lives of the women and men who fight wildfires.

The problem: Unpredictable winds and other factors can turn a brush fire on the firefighters themselves, an event known to burnovers. When this happens, the options have been to pitch a government-owned fire shelter or, if time permits, retreat to the truck. Both options have problems: The personal shelter cannot keep someone alive for long, and fire trucks contain objects that give off toxic smoke when the fire contacts them directly.

Team leader Jo Anne Alano, an architectural engineering senior, and eight team members developed an innovative design for a quickly deployable shield that protects the vehicle from rapidly escalating temperatures and allows firefighters to enter after deployment. Known as S.H.I.E.L.D. (Supplemental Heat Inhibitive Emergency Life Device), the spring-loaded design deploys in 10 seconds, provides a survivable environment in the vehicle for 10 to 15 minutes.

Vicki Stover called "outstanding" in aiding quality

Assistant Vice President for Administration Vicki Stover was recently named Outstanding Quality Improvement Facilitator at the CSU systemwide level.

She guided the customer satisfaction improvement symposium contributions to the campus. Stover was honored at the system's Third Annual Quality Improvement Symposium for her community involvement.

State Campaign forms due; pledges welcome anytime

Donation forms for the United California State Employees Campaign (United Way) are now past due, but they're always welcome. A donation form, submitted by Dec. 14, will be reviewed, and the pledge will be documented and submitted for publication the next feasible pay period.

In a drawing among donors whose forms were received by the target date, English Professor John Harrington and Jane Johnson in Career Services won skateboards donated by CCS Mail Order. "Thousands of motor vehicles on campus are contemplated to be opened in 100 years are contemplated as such."

Buy computers just got easier at Public Services

Information Technology Services, in conjunction with Contracts and Procurement, has made ordering college- and department-funded workstations easier through the Workstation Program.

The program goals are to promote volume pricing, adhere to campus computing policies, ensure effective use of funds, and streamline the ordering process. Visit the Workstation Program Web site at www.calpoly.edu/cdp/ITC/WS-PCSEL. Select the "Projects" link at the top, and then click on the individual student photos for more details. Click on "Feedback" to provide comments on the project.

Spring reception set for Sandy Harris

Payroll Services invites the campus to bid a fond farewell to Payroll technician Sandy Harris at a reception in Room 133 on Friday (Dec. 8) from 2 to 4 p.m. Harris has worked in the payroll since 1973. She earned a bachelor's degree in English from Cal Poly in 1972, and then worked two years in the Social Science Department.

She is retiring Dec. 31.

Item of the Week

A time capsule is being designed by the Cal Poly Kennedy Library, and invites the campus community to a reception from 10 a.m. to 11 a.m. Monday (Dec. 11) in the Veranda Cafe Conference Room. A time capsule is being designed by the Cal Poly Kennedy Library, and invites the campus community to a reception from 10 a.m. to 11 a.m. Monday (Dec. 11) in the Veranda Cafe Conference Room.
Friday reception to honor Mary Louise Brady

Mary Louise Brady in the library is retiring Dec. 16 and extends a campus-wide invitation to a reception from 10 a.m. to noon Friday (Dec. 8) in Room 511 in the library.

Brady came to Cal Poly as a curriculum librarian in 1968 and has served as head of the Learning Resources Curriculum department since 1975.

Friday reception set for Sandy Harris

Payroll Services invites the campus to bid a fond farewell to Payroll technician Sandy Harris at a reception in Admin. 133 on Friday (Dec. 8) from 2 to 4 p.m. Harris has worked in the payroll office since 1975. She earned a bachelor’s degree in English from Cal Poly in 1972 and then worked two years in the Social Sciences Division.

She is retiring Dec. 31.

Eric Rose to retire from Campus Catering

Eric Rose of Catering is retiring and invites the campus community to a reception from 10 a.m. to noon Friday (Dec. 8) in the Veranda Cafe Conference Room.

Rose has served as the catering chef for more than 20 years.

State Campaign forms due; pledges welcome anytime

Donation forms for the United California State Employees Campaign (United Way) are now past due, but they’re always welcome. A well-presented form turned in late will become effective in the next feasible pay period.

In a drawing among donors whose forms were received by the target date, English Professor John Harrington and Jane Johnson in Career Services won first place in a national contest.

For more information, call Vicki Siver.

Comments invited on time capsule design

A time capsule is being designed by architecture students, and the campus community can have a hand in selecting its contents and design.

Students in third-year design studios are participating in Cal Poly’s Centennial Celebration by creating a series of time capsule proposals for the university to consider. The proposed capsules will last 100 years and be opened for the university’s bicentennial celebration in 2101.

A selection of the capsule projects will be on exhibit through Friday (Dec. 8) in the Architecture and Environmental Design Building lobby.

The capsules differ from traditional time capsules in that they will incorporate innovative designs that propose to envelope the campus in a kind of time capsule like structure. Each of the 13 time capsule proposals on display will include a unique storage situation illustrated with physical and digital models and drawings, plus ideas about where it should be located, what should be stored in it, and how the university should go about selecting the information. Procedures on how it should be opened in 100 years are contemplated as well.

In preparation for their projects, students interviewed a cross-section of students, professors and staff members for their thoughts.

To view images of four of the proposals “moving,” go to the QuickTime-formatted compilations of the interviews, go to http://suntzu.larc.calpoly.edu/ pol2000/ESPCASELPLE. Select the “Projects” link at the top, and then click on the individual student photos for more details. Click on “Feedback” to provide comments on the project.

Vicki Stover called ‘outstanding’ in aiding quality

Associative Vice President for Administration Vicki Stover was recently named Outstanding Quality Improvement Facilitator for the CSU system.

Stover was honored at the system’s Third Annual Quality Improvement Symposium for her contributions to the statewide Quality Improvement (QI) Programs. Stover is responsible for the operation of quality improvement on campus and the communication link between the systemwide QI committees and Chancellor’s Office and Cal Poly.

She has guided the customer satisfaction initiative on campus and has been recognized with the Quality award for the 1999-2000 school year.

Buying computers just got easier for Cal Poly community

Information Technology Services, in conjunction with Contracts and Procurement, has made ordering college- and department-funded workstations easier through the Workstation Program.

The program goals are to promote volume pricing, adhere to campus computing standards, ensure effective reviews and streamline the ordering process. Visit the Workstation Program Web site at http://suntzu.larc.calpoly.edu/workstations/ to find out how to place an order.

For more information, contact Dale Kohler, workstation program coordinator, at ext. 6-6062 or via e-mail at dkohler@calpoly.edu.
