Scooter Service Expedites Mail and Expendable Items

By Bob Dupuis

July 1, 1964, was the starting date of a new service to the faculty, staff, and students of Cal Poly. It was the day the scooter service began operation. The scooter service is a joint venture of the Physical Education Department and the Business Management Division.

The scooter service has been established to provide a more convenient and efficient means of transportation for the delivery of small packages and mail. The scooters are equipped with a small trailer for the transport of mail and are designed to be easily transported from one location to another.

The service is available to all faculty, staff, and students of Cal Poly. To use the scooter service, simply call the Business Management Division at 735-3000. The scooter will be delivered to your location within a reasonable time frame.

Familiar Commando Is Slated For Commercial Run

By William Chater

All the talk that's been going on at the hangar over the past two weeks has been preparation for the familiar twin engine Civil Air Patrol Commando. The airplane is currently scheduled for a test run from June 15 to July 15 and is expected to undergo extensive testing and evaluation.

The airplane will be used for various types of missions, including air transport, weather reconnaissance, and aerial photography. The Commando's capabilities will be thoroughly evaluated to determine its suitability for commercial use.

Visits Poly Campus

Dean Charles Noah Bapardan, dean of the school of agriculture, was on a tour of the Poly campus. The dean expressed interest in the agricultural facilities and was impressed with the overall progress of the Poly campus.

Familiar Commando test flights will be performed during the test run. The test flights will be aimed at determining the airplane's performance and capabilities. The familiar Commando is expected to be a valuable asset to the Poly campus and its mission.
Mustang Handbook Will Roll, 'Help Fresh' Ideas Welcome

The 1964-65 "Mustang Handbook" will go to press on July 18 and any information that will be of help to freshmen and returning students should be submitted no later than next week, announced Sally Stewart.

The handbook was designed with the idea of helping students with registration, housing, and all pertinent information that will be placed into this helpful booklet. The handbook, which will go to press on July 19, contains a wealth of information that even the old students will be interested in.

School clubs, department heads, and local color are contained in an easy-read, compact format of the college and will acquaint the student with Poly life.

Emergency phone numbers, phone numbers of the student offices and many others are also included, even the school Yale-and.

Many of the prominent local merchants and doctors are listed making for an excellent guide book of both Cal Poly and San Luis Obispo.

The layout of the booklet will be such that the same as last year's plus new information of value this year will be included.

Students or staff members who wish to help new students with various problems should submit requests to the Hoover house, with little delay. The handbook will be available on August 9th.

Olive Miller: Men never learn about women, but they have a lot of fun trying.

Local Lady Has Housed 149 Student In Past 23 Years

With many a New Los Angeles family coming Cal Poly students needing a place to stay, the Hoover house, 6th and Higuera boulevard, is generally credited with refining the "No. 1 Off-campus Mom.

"Boys are too hard to please, recalls, "I have housed 149 different students and each and every one of them without exception has been a kind of residents in my home." Mrs. Hoover, Sally Delany, her record includes being house mother at Woodford B. Dowling, who has been in Cal Poly tradition as member of the physical education, department. Mrs. Hoover, Allen Turner and E. D. Matthews, engineering instructors, were other homes. Also their presence in the personnel is the future of Mrs. Hoover's two sons, who are graduates at Cal Poly, now conduct the air service at the airport. Add. Adams, now assistant to superintendent of buildings and grounds, E. D. Matthews, said today there are still opportunities for residents wishing to house one or more single students. Those wishing to list their facilities or wishing a consultation should phone 2151 and ask for extension 3.

Heinz Named New Head of CATA for 1955

Ary Heinz, director of agriculture at Fresno high school, is 1955 president of the California Agricultural Teachers Association. He is the son of a 1910 graduate of Cal Poly. He has been with the faculty of the university since 1939 as instructor of agriculture.

In Tho Central Coast Area

Jole's named, then he'll easily do without. But most important of all, says the dean, it's the long-lasting friendships so many students have formed with their landlords. And married student facilities for married students. Those wishing to list their facilities should call the office (college 1025) and ask for extension 3.
### School Officials Teaching Graduate Courses at Poly

Poly is welcoming two prominent school administrators as guest lecturers during its annual summer session: Charles Webber, Ed. D., and Gilbert Rogers. Two new additions to the college faculty are being taught by Webber, Ed. D. 110 School Law, and Ed. 111 School Finance, which are graduate courses for teachers interested in school administration. Webber is teaching Ed. 208 and Ed. 209.

Palo Alto Nurseryman Stresses Value of California Industry

The net profits from our nurseries and gardens have risen from $250,000,000 in 1900, to $1,000,000,000 in 1930. This increase has been due to increased acreage and improved plant materials. There is now a great demand for California plants and materials. The nurseryman is playing a vital role in the economic development of California.

The nurseryman has a vital role in the development of California. He provides plants for landscaping, gardening, and horticulture. He is also a key player in the state's manufacturing and distribution industries. The nurseryman must have a strong understanding of horticulture and plant propagation to be successful. He must also have a strong understanding of marketing and sales to be successful.

The nurseryman must also be able to keep up with the latest trends in horticulture. This includes understanding the latest plant materials and techniques. He must also be able to keep up with the latest marketing and sales techniques.

The nurseryman must also be able to keep up with the latest regulations. This includes understanding the latest laws and regulations regarding the use of pesticides and other chemicals.

The nurseryman must be able to keep up with the latest technologies. This includes understanding the latest computers and software for horticulture. He must also be able to keep up with the latest technologies for plant propagation and distribution.
