Position announcement for V.P. admin. and finance

Applications and nominations are invited for the position of vice president for administration and finance.

**THE POSITION:** The campus is seeking an experienced senior administrator with a successful record of leadership and management accomplishments and an energetic, entrepreneurial and collegial style to serve as a member of the senior leadership team with executive responsibility for ensuring quality administrative and fiscal services. As chief fiscal officer of the university, the vice president reports directly to the university president for all matters related to the management and oversight of the business and financial affairs of the university, including implementation of all fiscal policies and regulations, and the fiscal oversight of the university's auxiliary organizations. The vice president is responsible for developing and supervising quality service orientation and ethics within his or her areas of responsibility, which include: budget and analytic business services; administrative software systems implementation and operation; contract and procurement; real property and facilities management; planning, design and construction; facility maintenance; fiscal services; human resources and employment equity; repositioning and mail services; risk management; and university police. As one of four vice presidents, the vice president of administration and finance is a member of the president's executive management staff and plays a key role in the development of university policy; represents and acts for the president on matters of established policy within the university and The CSU system; represents the campus in all dealings with other universities and the local communities in matters of mutual interest and concern; serves as an advisor to the president's executive management staff and plays a key role in the development of university policy; represents and acts for the president on matters of established policy within the university and The CSU system; represents the campus in all dealings with other universities and the local communities in matters of mutual interest and concern; and accepts specific delegations and assignments requiring coordination at senior administrative levels.

**QUALIFICATIONS:** The successful candidate should possess a master's degree or higher in a relevant field, or an equivalent record of professional achievement and qualification. The successful candidate should demonstrate a record of progressively greater responsibility in a large complex organization (preferably in higher education or for managing one or more current technology and business functions and government and business accounting theory and practice, and familiarity with risk assessment and applicable laws and regulations relating to human resource management and the management of human resources, and/ or facilities management processes. Leadership in the development and implementation of processes, and facilitation of change in institutional practice associated with capstone senior project.
GrC receives equipment to upgrade web press lab

The Baldwin Technology Co. has donated web press equipment to the Graphic Communication Department that will help students achieve better quality in color printing and increase productivity in producing the daily student newspaper.

The gift, valued at approximately $75,000, will be used to upgrade the press that is used in the web printing technology course, a requirement of all students in the major.

The press will also be used by University Graphic Systems (UGS), the student-run printing and publishing enterprise that is part of the Graphic Communication program.

Extended Ed to offer three new courses

Extended Education is offering classes in information technology, business writing, and Adobe Photoshop.

- Introduction to Information Technology, 6:30–9:30 p.m. Mondays, beginning June 18–Aug. 20 (10 class meetings), $360. The fundamental concepts, theory and technology involved in information systems will be explored.

- Business Writing (part of the Management Certificate Program), 6:30–9 p.m. Tuesdays, June 26–Aug. 7 (seven class meetings), $155 for certificate enrollees; $165 for others. Students will improve their business writing by learning to create clear, concise, and effective communication. Participants will produce business letters and memos; create positive, negative and persuasive messages; develop flyers, brochures and news releases; and set up formats for agendas and minutes. Proper grammar and punctuation will also be reviewed.

- Adobe Photoshop 6.0 Unmanned, 6:30–9:30 p.m. Tuesdays and Thursdays, July 10–Aug. 2 (eight class meetings), $285. Participants will learn to use Adobe Photoshop 6.0, a powerful image-editing software program that uses painting, editing and image-composition tools for adjusting images for print and the Internet. The class provides a step-by-step overview of basic computer operating systems, basic file directories.

For complete course descriptions and to register online go to Extended Education's Web site: www.ExtendedEducation.calpoly.edu, or call ext. 6-2053.

sircraft designer and Cal Poly graduate Burt Rutan in 1987, the second in 1999 to
R.J. (Jim) Considine, also a Cal Poly alum and the former chairman of the
CSU Board of Trustees.

Veneman has served on the university’s advisory President’s Cabinet and has pro-
vided strong public support for Cal Poly.

“Throughout her distinguished career, she has fought to advance the interests of
America’s farmers in the world market-
place, while pioneering programs and partnerships to enhance food safety,
pest and disease prevention and control,
international trade, and agricultural edu-
cation,” says the citation she is to receive.
“Secretary Veneman embodies the inte-
grative vision, global reach and commit-
tments to excellence to which Cal
Poly’s ... century-old program in agricul-
ture has committed itself.”

Krueger came to teach at Cal Poly in
1971 as he was completing his doctorate
in African and modern European history
from UC Davis. He has become perhaps
the best-known, contemporary historian of
San Luis Obispo County, writing a
weekly column for the San Luis Obispo
Tribune and serving as president of the
county Historical Society from 1978 to
Author of “Looking Backward into the
Middle Kingdom: An Illustrated History
of San Luis Obispo County” and co-au-
thor of “War Comes to the Middle
Kingdom: A History of the Central Coast,
1940-1953,” Krueger is also co-author, with
his wife, Liz, of numerous articles and two
books sections dealing with the Japanese-
American experience in California.
In his writings, Krueger has given spe-
cial attention to the place Cal Poly
occupies in the history of the Central Coast,
and, coinciding with the Centen-

Clarification

Food Science and Nutrition
Professor Mary Pedersen was the
faculty advisor to agricultural gradu-
ate student David Sellon, second-
place prize winner at the recent
CSU Student Research Competition
at San Jose. 0

Avancement wins third

international award

Cal Poly has won a top award from the
international organization of educational
fund-raisers in recognition of private,
corporate and foundation contributions
totaling $24.6 million during the 1999-
2000 year.

Cal Poly was one of only two universi-
ties of its type nationwide to receive a
Circle of Excellence in Educational Fund-
Raising Award from the Council for
Advancement and Support of Education
(CASE) for the campus’s overall perfor-
mance in development.

This is the third consecutive year Cal
Poly has won such an award.

“Since 1994-95 Cal Poly has increased
its annual private support 112 percent,”
said Vice President for University Ad-
vancement Bill Boldt.

“And this year, as we proceed into the
public phase of our $225 million Centen-

Quarter horses bring in

$52,000 for Rodeo Program

Cal Poly’s Rodeo Program has ben-
efited from the sale of nine registered
quarter horses.

The horses, donated by Jack and
Phoebe Hearst Cooke of Woodside,
were bought in more than $52,000 at a
quarter horse sale held recently at the
Madonna Inn.

The proceeds will be used to help stu-
dent rodeo athletes.

“We’re trying to build the program
back up to what it once was with the help
of generous individuals like Phoebe and
Jack,” College of Agriculture Associate
Dean Mark Sheltton said.

Jack Cooke was recognized as the San
Luis Obispo Cattlemen of the Year for his
management of the Hearst Ranch in San
Simeon and the Jack Ranch in Cholame,
the largest cow-calf operation in San Luis
Obispo County. He also was named Cali-
fornia Cattlemen of the Year.

CRP instructor, alum

-elected fellow

City and Regional Planning instructor,
Cal Poly alumnus, and former county
planning director Paul Crawford has be-
elected to the College of Fellows of the
American Institute of Certified Planners
(AICP), one of the highest honors that
can be bestowed on a member.

Crawford, the 1990 College of Archi-
tecture and Environmental Design
Honored Alumnus, was among 56 plan-
ners to be named as fellows.

Crawford is Cal Poly’s first graduate
of the City and Regional Planning Depart-
ment to receive the title of fellow.

The induction of Paul Crawford into
the College of Fellows of the American
Institute of Certified Planners is a fitting
recognition of the exemplary career Paul
fashioned as a city planner,” said City and
Regional Planning Department Head Bill
Siembieda.

Throughout his career as an urban
planner, Paul has shown great dedication
in achieving livable pedestrian-oriented,
distinct communities,” Siembieda said.

“The process and results of his planning
have benefited communities by linking
environmental and economic
sustainability with social equity,”

In addition to lecturing part-time at Cal
Poly, Crawford is president of Crawford
Multari & Clark, a planning consultant
firm he founded in 1990.

Crawford served as director of plan-
ning and building for San Luis Obispo
County from 1980 to 1990.

Fellowship is granted to an AICP
Honored Alumnus, was among 56 plan-
ners to be named as fellows.

New service window

now open for students

Please help spread the word: A new,
combined “Records and Evaluations”
window is now open at Adm ... 222.

The window will be open longer hours,
10 a.m.-4 p.m. Monday-Friday. Phone
hours will continue to be 10 a.m.
- 4 p.m. for students and 8 a.m.-5 p.m.
for the faculty and staff. 0

PAGE 3
Dairy students place first in regional show in Utah

The Dairy Cattle Judging Team claimed first place overall at the recent Regional Spring Show in Richmond, Utah, against teams from six other colleges and universities.

Michigan State and Oregon State finished second and third.

Team members were agricultural business junior Vicky Deniz, dairy science junior Rod Jorritsma, dairy science freshman Aaron Matheron, and animal science junior Susete Oliveira.

The Cal Poly team earned the top spot with a first-place tie in oral reasons and a second in overall placement of the dairy cattle.

Individually, Olivera was ranked third, Deniz fourth, and Jorritsma sixth. Dairy Science Professor Stan Henderson coached the team.

"This is the second competition of the season and the team has placed first in both of them," Henderson said.

Position vacancies

STATE: For a complete listing of employment opportunities for state staff and management positions, you can:

• Check Cal Poly’s Web site at www.calpoly.edu. Select “Employment” from the Cal Poly links drop-down box.
• Come to the HREE office, Adm. 110, and view the posted positions;
• Call the HREE Job Line at ext. 6-1533.

For a listing of new openings, check The Tribune’s Sunday edition.

Please note that applications for job openings must be received (not just postmarked) in the Human Resources and Employment Equity office, Adm. 110, by 5 p.m. on the closing date.

FACULTY Candidates are asked to contact the appropriate department office at the phone number listed for more information or to request an application. Additional information and qualifications for each position may also be obtained online at http://www.academic-personnel.calpoly.edu. Please submit all application materials to the department head/chair unless otherwise specified in the ad. Rank and salary are commensurate with qualifications and experience (and time base where applicable), unless otherwise stated.

Read advertisement #13134: Part-Time Lecturer Pool 2001-02, Soil Science Department (ext. 6-2251). Closing date: June 29.

Cal Poly to host third Energy Institute

High school and community college students and teachers as well as Cal Poly engineering students will participate in the third annual industry-sponsored Mechanical Engineering Energy Institute this month on campus.

The institute’s first session will be Sunday, June 17-June 22, the second, June 24-29, each attended by 26 participants.

Grants from the sponsors, Texaco and the Enron Wind Corp., pay the full cost of the institute, its activities, and room and board for all attendees.

As the institute students and teachers will learn about key energy issues, the current state of and future possibilities for energy sources, and energy conservation and use. Field trips will highlight cogeneration, fossil fuel, wind and solar power, fuel cells and renewable energy.

The field trips will be to Texaco’s Kern River oilfield in Bakersfield and Enron’s operating wind-power plant and wind-surface manufacturing facility in Tehachapi.

For more information about the workshops, call Mechanical Engineering Professor and program director Masoud Mehdizadeh at ext. 6-1345 or look on the Web at www.meei.net.

Architecture grad overcomes quadriplegia

A diving accident in the Malibu surf 13 years ago left contractor David Fowler a quadriplegic. At one point he was told he had 72 hours to live.

On June 16 McCormick will graduate with a degree in architecture, several job offers, and an ability, Architecture Professor Tom Fowler says, to draw building designs on a computer faster than most students using more-traditional methods.

Persistence and talent— as well as the support of his family and of teachers and administrators at Moorpark College and Cal Poly— brought McCormick close to his goal of “creating things mentally.” He first manipulated a computer mouse by turning his head and blowing into a tube.

Then new technology helped him to complete his degree—and made it possible for him to achieve what he’d never dared imagine: a kind of freedom from his disability.

Two years ago, Fowler and Computer Science Professor Lew Hitchner invited McCormick to don a set of virtual reality goggles and participate in the development of a project that was to become known as immersive visualization.

“I was apprehensive at first, not knowing what to expect,” McCormick said. “But it quickly became fascinating. I could just let go and not think about anything around me but what was in front of me. This gave me a wonderful sense of freedom and of being on my own.

“It was the first time I was able to have the feeling that I was immersed inside of a project that I designed,” he said. “As I moved, I started to cry.”

Having tasted the possibilities technology offers not just to the disabled but to everyone in his new profession, McCormick chose as his senior project to design a hypothetical virtual-reality research center for the College of Architecture and Environmental Design.

And now he’s working with the Computer Science Department to develop a “hands-free, voice-activated interface for moving through “immersive environments.”

McCormick was awarded a slew of scholarships and other honors during his academic career. He graduates armed also with confidence: “A few hundred dollars for adaptive equipment,” he said, “and I’m on my way to performing to, or better than, most able-bodied employees.”

PAGE 4
Cal Poly alumnus... Continued from page 1

opportunity to undertake truly cutting-edge projects, and especially multidisciplinary projects, because that’s what industry needs today.”

Bonderson is vice president of engineering for Brocade Communications Systems, a company he co-founded. He has more than 25 years of industry experience at Sun Microsystems, Data System Design and Elliot.

Anritsu to Retire; Department to be June 22

Anne Arnett, office manager for Transportation Services, is retiring after 28 years, and a reception in her honor is set for noon-3 p.m. June 22 at Transportation Services.

Arnett began her career at Cal Poly in 1973 as a clerk and was named to the General Office. She served as department secretary in Fiscal Operations and in 1978 was promoted to her current position. As the former coordinator of the campus Defensive Driving program, Arnett says she’s probably attended more than 100 of the training classes. She was involved in the now-defunct Staff Council and for years helped organize the annual faculty and staff Service Awards Luncheon, serving as chair of the public committee and as a member of several other committees.

Anritsu Co. donates test instruments to EE

Anritsu Co. of Morgan Hill has donated to the Electrical Engineering Department six test instruments that will help students gain a competitive edge in the field of wireless communications.

The donation, which is being used in the Microwave Lab, will allow students to create “real world environments” for the next generation of microwave-radio-frequency technology.

The gift, valued at $345,000, is part of Arnett’s engineering mentorship program. “It’s quite unusual for undergraduates to have access to this type of sophisticated, expensive equipment,” said Electrical Engineering Professor Chang Sun. “Our graduates will have a highly competitive edge in the growing areas of wireless communications.”

Anritsu’s engineering mentoring program.

Seven students, recognized for their ability to balance academics and community service, were awarded the Land Family Quest for the Best Award at a recent campus reception.

The awards, new this year, combine two previous university awards: the Mr. and Mrs. Jeffrey Land Outstanding University and Community Service Award and the Quest for the Best Award.

The Land award was established in 1986 by alumnus Jeff Land and his wife, Carla. The Quest for the Best Award was initiated in 2000 by the office of the Vice President for Student Affairs.

The awards recognize leaders in each of the six colleges and one in student government who exemplify the core values of excellence, stewardship, collaboration, integrity and community.

Students were nominated by faculty and staff members and campus leaders.

Paulo Youssef, a mechanical engineering senior representing the College of Engineering, received the University Honors award, the highest honor. He has worked in Student Community Services, founding two programs: Hunger and Homelessness Awareness Week, now a successful annual event, and the new Computer Friends program, which pairs Cal Poly students as tutors to homeless people and seniors who want to learn computer skills.

He has worked in Student Community Services, founding two programs: Hunger and Homelessness Awareness Week, now a successful annual event, and the new Computer Friends program, which pairs Cal Poly students as tutors to homeless people and seniors who want to learn computer skills.

Additional winners:
- Kamina Rosenstiel, a senior agricultural business major, won the College of Agriculture award.
- Rosenstiel has been a leader in the Ag Ambassadors organization, the Ag Student Council, and the Agribusiness Management Club.
- Craig Chinn, an architecture senior, was the recipient of the College of Architecture and Environmental Design award. He was honored for establishing a student chapter of the Construction Specifications Institute. He has also been active on the College of Architecture and Environmental Design Student Council and represented his college during Open House weekend.
- Melissa Vocar, a business administration senior, was honored by the Coll-eit of Business. Vocar is the current chair of the ASI Board of Directors and will serve on the executive board of the Poly Reps student organization in 2001-2002.
- Ryan Trammell, a senior social sciences major, won the College of Liberal Arts award in social justice and political causes. Trammell served as an officer of MECHA (Movimiento Estudiantil Chicano de Aztlán), an organization dedicated to promoting cultural, political and social awareness to the Chicano - and larger - community. He also was part of The Cultural Crisis Coalition, which helped organize students in support of a university outreach and retention program.

June 16 is last work day for Work-Study students

The last day students can work through the Federal Work-Study Program for 2000-01 is Saturday (June 16).

During finals week, students may work up to 20 hours without that hour. The June Work-Study pay is due at State Payroll, Adm. 107-B, by 4 p.m. June 19. No late Federal Work-Study pay will be authorized.

Continued from page 4

The Baldwin Technology Co. has donated web press equipment to the Graphic Communication Department that will help students achieve better quality in color printing and increase productivity in producing the daily student newspaper.

The gift, valued at approximately $75,000, will be used to upgrade the press that is used in the web printing technology course, a requirement of all students in the major.

Continued from page 1

The press will also be used by University Graphic Systems and the student-run printing and publishing enterprise that is part of the Graphic Communication program.

Students working for UGS produce various printed projects that support educational activities, including the Mustang Daily student newspaper. Students in journalism and graphic communication produce the paper, the only full-color daily newspaper in the nation produced entirely on campus by students.

Baldwin Technology Co. provided ink bottles, a spray dampening system, and a fountain solution circulation unit for the Graphic Communication Department's web press.

During finals week, students may work up to 20 hours without that hour. The June Work-Study pay is due at State Payroll, Adm. 107-B, by 4 p.m. June 19. No late Federal Work-Study pay will be authorized.

The Work-Study program resumes Saturday, Sept. 1, for the 2001-2002 academic year.

For more information, contact Launn McDonald in the Financial Aid office at ext. 6-5885 or at lmcdonald@ calpoly.edl.

Cal Poly Report schedule

This is the final spring quarter edition of the Cal Poly Report. The first summer issue will be out June 20. Items for that issue are due 10 a.m. today to Public Affairs, Heron Hall.

The Baldwin Technology Co. has donated web press equipment to the Graphic Communication Department that will help students achieve better quality in color printing and increase productivity in producing the daily student newspaper.

The gift, valued at approximately $75,000, will be used to upgrade the press that is used in the web printing technology course, a requirement of all students in the major.

Extended Ed to offer three new courses

Extended Education is offering classes in information technology, business writing, and Adobe Photoshop.

- Introduction to Information Technology, 6:30-9:30 p.m. Mondays, beginning June 18-Aug. 20 (10 class meetings), $360. The fundamental concepts, theory and technology involved in information systems will be explored. Topics will include client-server technology, computer organization, operating systems, basic programming concepts, and Internet technologies.

- Business Writing (part of the Management Certificate Program), 7-9 p.m. Tuesdays, June 5-Aug. 7 (seven class meetings), $155 for certificate enrollees; $165 for others. Students will improve their business writing by learning to create clear, concise, and effective business messages; develop flyers, brochures and news releases; and set up formats for agendas and minutes. Proper grammar and punctuation will also be reviewed.

- Adobe Photoshop 6.0 Unmasked, 6:30-9:30 p.m. Tuesdays and Thursdays, July 10-Aug. 2, (eight class meetings), $260. Participants will learn to use Adobe Photoshop 6.0, a powerful image-editing software program that uses painting, editing and image-composition tools for adjusting images for print and the Internet. The course will allow those in attendance to gain the skills to produce materials from a computer. The class provides a step-by-step overview of basic computer operating system tasks, files and directories.

For complete course descriptions and to register online go to Extended Education's website: www.ExtendedEducation.calpoly.edu, or call ext. 6-2053.
Position announcement for V.P. admin. and finance

Applications and nominations are invited for the position of vice president for administration and finance.

THE POSITION: The campus is seeking an experienced senior administrator with a successful record of leadership and management accomplishments and an energetic, entrepreneurial and collegial style to serve as a member of the senior leadership team with executive responsibility for ensuring quality administrative and fiscal services. As the chief fiscal officer of the university, the vice president reports directly to the university president for all matters related to the management and oversight of the business and financial affairs of the university, including implementation of all fiscal policies and regulations, and the fiscal oversight of the university's auxiliary organizations.

The successful candidate must possess strong communication skills; a demonstrated commitment to promoting a diverse employee employment, and staff development; the ability to establish good working relations with faculty, staff, students, alumni, business partners and other constituencies; and the ability to effectively address public safety issues within the university and surrounding residential areas.

COMPENSATION: Salary is commensurate with the background and experience of the individual selected; however, the minimum salary is $150,000. Cal Poly offers excellent fringe benefits. The Management Personnel Plan, adopted by the CSU Board of Trustees governs all rights associated with the appointment.

APPLICATIONS AND NOMINATIONS: The search committee will begin to review nominations and applications on July 9. The search will continue until the position is filled. Each application should include a current resume, letters of interest, and three professional references. Applications and nominations should be addressed to Dan Howard-Greene, Executive Assistant to the President, Cal Poly, Academicpersonnel@calpoly.edu.

Cal Poly is strongly committed to achieving a culturally diverse university and actively encourages applications and nominations of women, persons of color, and members of other underrepresented groups, including the disabled. Affirmative Action/Equal Employment Opportunity.

Promotion, tenure awards announced

President Baker has announced the promotion of 22 faculty members and the tenure of 18, effective in 2001-02. The promotions include eight to the academic rank of professor and 14 to associate professor. The faculty members receiving promotion and/or tenure are as follows:

Promotion to Professor:
College of Agriculture - J. Wyatt Brown (Crop Science); Louise A. Berner (Food Science and Nutrition).
College of Architecture and Environmental Design - William C. Epstein (Construction Management).

Promotion to Associate Professor:
College of Business - Cyris A. Ramezani (Finance).
College of Engineering - Lewis E. Hetchter (Computer Science).
College of Liberal Arts - Victor M. Valle (Economics); Michael J. Solty (Psychology and Human Development).
College of Science and Mathematics - Steve C. Davis (Physical Education & Kinesiology).

Promotion to Associate Professor: College of Agriculture - Lynn L. Hamilton (Agribusiness).

College of Architecture and Environmental Design - Clayton A. Pharaon.

College of Engineering (Architectural Engineering); Thomas Fowler (Architecture); Bruno Giberi (Architectural Science); W. Wuck (Regional Planning); Barbara J. Jackson (Construction Management); Gary R. Clay (Landscape Architecture).

College of Business - Chris A. Carr (Global Strategy & Law).

College of Liberal Arts - J. Wetzel (Art and Design), Johanna E. Rubba (English); Deborah B. Schwartz (English); Henry J. "Red" Heesch (Graphic Communication).

College of Science and Mathematics - Michael A. Sutliff (Physical Education & Kinesiology).

Tenure:
College of Agriculture - Andrew J. Russell (Animal Science); Louise A. Berner (Food Science and Nutrition).
College of Architecture and Environmental Design - Clayton A. Pharaon (Architectural Engineering); Thomas Fowler (Architecture); Bruno Giberi (Architectural Science); W. Wuck (Regional Planning); William C. Epstein (Construction Management); Gary R. Clay (Landscape Architecture).
College of Business - Cyrus A. Ramezani (Finance).
College of Engineering - Gregg L. Fiegel (Civil and Environmental Engineering); Rakhee K. Goel (Civil and Environmental Engineering); Irunpal Pal (Civil and Environmental Engineering); Lewis E. Hetchter (Computer Science).
College of Liberal Arts - J. Wetzel (Art and Design), Johanna E. Rubba (English); Deborah B. Schwartz (English).
College of Science and Mathematics - Christopher L. Kitts (Biological Sciences).

More than 3,200 degrees and certificates are to be symbolically conferred at the two ceremonies.

A Central Valley attorney raised on a peach farm near Modesto, Veneman in January became the first woman to hold the position of Secretary of Agriculture. She led California’s Department of Food and Agriculture from 1995 to 1999.

The honorary Doctor of Laws degree from Cal Poly will be presented Saturday, June 16, at 9 a.m., in recognition of her achievements in public service.

The honorary Doctor of Laws degree from Cal Poly will be presented Saturday, June 16, at 9 a.m., in recognition of her achievements in public service.

U.S. Agriculture Secretary to speak, receive doctorate

U.S. Secretary of Agriculture and former California Secretary of Food and Agriculture, Elaine Chappelle, will speak to candidates for graduation and receive an honorary doctorate at the morning ceremony of Spring Commencement Saturday (June 16). About 1,200 candidates from the colleges of Agriculture and Environmental Design, and Engineering, along with thousands of friends and family members, are expected at the 9 a.m. ceremony in Mustang Stadium.

The honorary Doctor of Laws degree from Cal Poly will be presented Saturday, June 16, at 9 a.m., in recognition of her achievements in public service.

The honorary Doctor of Laws degree from Cal Poly will be presented Saturday, June 16, at 9 a.m., in recognition of her achievements in public service.
