Renovation plans ...
Continued from page 1

Cal Poly's Supplemental Instruction program, now in its 11th year, has helped nearly 8,000 students perform better academically in science and other courses. "The program provides an opportunity for increased concept mastery and academic excellence through twice-weekly discussion sessions led by a trained peer leader," said Bill Sydnor, coordinator of the program. "During the sessions, students solve problems, perform critical thinking, work as a team, and review course concepts. Supplemental Instruction promotes active participation and hands-on practice." Discussion groups are offered in biology, chemistry, physics, business statistics and soil science. "Almost 80 percent of the students who have enrolled in Supplemental Instruction have earned A's, B's or C's," Sydnor said.

Supported by Student Academic Services, the program is modeled after a program that was developed at the University of Missouri 25 years ago.

Academic program helps students achieve success

The full project is estimated to cost between $8 million and $10 million. "We are excited about the possibilities that exist for the renovation of Mustang Stadium," said Athletics Director John McCutcheon. "We will now take this information and see what potential there may be for funding the project in total or in phases." The project would require private funding because student financial support will not be available for new construction. No timetable has been established for the renovation. Phases of the project could be initiated as resources become available. "This is a very worthwhile and much-needed renovation," said President Baker. The stadium has supported many campuswide activities over the years, from our Centennial Celebration to commencement to athletic events. This project has my full support, and it is my hope that others will be as excited as we are about its potential." An Athletics Centennial Council has been formed to help with fundraising.

Employees win raffle

Twelve employees won prizes in the recent raffle held to benefit the Cal Poly cat program. The winners were Heidi Lorgé (Budget and Analytic Business Services), Gerry Mueller (President’s Office), Suzanne Kniekraut (Economics), Tom May (Facility Services), and Karen Aguilar (Foundation). Additional winners were Rose Bowker (Biological Sciences), Joan McCarthy (Speech Communication), Marcia Carter (English), Don Lumsden (Speech Communication), Ellen Nottelsm (College of Architecture and Environmental Design), Chris Leitz (Facility Services) and Ed Naretto (Facility Services).

Martin Almold, author of the Modern Languages and Literature Department, teaches classes in Spanish, Latin literature, war, and Chicano authors. In nominating Almold, a student said, "He challenges us to think for ourselves, to express ourselves, and to apply what we find to our own lives. He has a contagious passion for teaching and learning." Almold was included in the 2000 editions of "Outstanding People in the 20th Century," "Outstanding Scholars of the 20th Century," and "Who's Who in the West." He received the College of Liberal Arts Outstanding Service Award in 1998.

Leaves solicitation
Library assistant Kieit Shaughnessy has qualified for personal catastrophic leave. Eligible state employees may donate vacation credit and/or sick leave to help her remain in full-pay status during an extended absence.

Those interested in donating leave may request the Catastrophic Leave Donation form from solicitation coordinator Lynda Alamo in the Library at ext. 6-5785 or by e-mail: CSEA employees in units 2, 5, 7 and 9 plus "academic professionals" in unit 4 may donate up to 32 hours sick leave and/or vacation credits. All other state employees or state employees may donate up to 16 sick leave hours and/or vacation credits per fiscal year in increments of one hour or more.

 historia and serves as a tool for supporting diversity in the present and future. The Web address is www.academics.calpoly.edu/.

The President's Diversity Award recognizes campuses units that have "exhibited commitment to the value of diversity." The award includes $1,000 to augment the winning unit's budget for one year.

Staff members needed
State, Foundation and ASI staff members are invited to submit an application to fill the following vacancies on campus-wide standing committees. Most appointments are for 2001-2003, unless otherwise noted. The numbers in parentheses indicate the number of vacancies.

• Administrative Vice Committee on Computing (1)
• campus Diving Advisory Committee (1)
• Campus Fee Advisory Committee (2001-2002) (1)
• coordinating Committee on AIDS and HIV Infecc (1)
• Disabled Students Advisory Committee (1)
• El Dorado Advisory Committee (1)
• Registration and Scheduling Committee (1)
• Resource Use Committee (1)
• Substance Use and Abuse Advisory Committee (3)
• University Committee on Committees (2001-2002) (1)
• University Diversity Enhancement Council (1)

An appointment committee, chaired by Anna McDonald, director of human resources and employment, will screen applications and forward recommendations to President Baker.

Authorization candidates must submit a brief statement of interest, have satisfactory job performance evaluations and their supervisor's endorsement, and be a permanent or probationary employee.

Applications are available on page 4 of this Cal Poly Report or from the Web at http://www.cjdp.calpoly.edu/three/index.html under "News and Information." Fax completed forms to ext. 6-1463 or send to Human Resources and Employment Equity, Adm. 116, by July 20. For information, call Deb Hobbs at ext. 6-2469.

First Alumnus College Summer Weekend planned
"Entrepreneurship, technology, and the "new" economy" is the theme for Cal Poly's first Alumnus College Summer Weekend, to take place July 13-14 on campus.
The event provides participants with an opportunity to learn about important economic trends facing business owners and those who are considering starting a new venture.

Speakers will include Patricia McQuaid from the Orfalea College of Business; Dennis Cagan, Santa Barbara Technology Group; and Paul Wargo, Wells Fargo Bank.

In addition, a special session will be offered on issues facing the Cal Poly Business Alumni organization. All sessions will be informal and interactive to allow for maximum participation.

"I think a lot of people are wondering, "What's next when it comes to technology and the economy?"" said Dennis "Skip" Parks, dean of extended studies. "With the collapse of the dot-com empire, investors and entrepreneurs are not sure if technology is still right away to sink dollars and human capital. This event is designed to help answer those questions."

The event is sponsored by Extended Studies and Alumni Relations with financial help from Wells Fargo Bank. Registration is open through June 27. The non-member fee is $175, which includes attendance at all sessions, continental breakfasts, two dinners and a continental breakfast.

Cal Poly Alumni Association members may register for $50. To register or receive a program invitation, call ext. 6-7434.

Cal Poly names 2000-2001 Outstanding Seniors
Cal Poly recognized 28 Outstanding Seniors for 2000-2001 during Spring Commencement ceremonies June 16. The six colleges selected students in four categories: academic excellence, contribution to the college, contribution to the university, and community service.

College of Agriculture
• Academic Excellence — Stacie Haller, major is crop science
• Academic Contribution — Kamina Rosendahl, major is crop science
• Community Service — Amy Christensen, agriculture science

College of Architecture and Environmental Design
• Academic Excellence — Steven Wallance, landscape architecture
• College Contribution — William Armstrong, construction management.
• College Contribution — Sheri Ruth, business administration
• College Contribution — Christopher Campbell, accounting
• University Contribution — Nathan Chapin, industrial technology

Course on permaculture, ecological design offered
Extended Education is offering a course on permaculture, a practical design process modeled on balanced ecosystems, 12 sessions, 9 a.m. to 3 p.m., Saturdays and Sundays, July 21-Sept. 9, in the Student Experimental Farm. The fee is $480 for the entire 12-part series if paid in advance or $50 per session.

Permaculture is a holistic approach to harmonizing human activity with the natural environment. In the past, permaculture has been used to improve air and water quality, increase food production, manage waste, promote biodiversity and strengthen community relationships.

Students will learn to interpret "patterns in nature" and to apply them with insight and creativity at home, at work and in their communities. The course is designed for gardeners of all levels, skilled or casual, interested in sustainable living practices, including gardeners, land managers, farmers, architects, planners, community service volunteers and environmental educators and students.

Hands-on workshops will be conducted at the Student Experimental Farm. Field trips to local sites will help illustrate ecological design principles in practice. For complete course description and to register online, go to www.ExtendedEducation.calpoly.edu or call ext. 6-2103.

Foundation Board to meet
The Foundation Board of Directors has called a special meeting at 11 a.m. Monday, June 25 in the Conference Room (#124) in the Foundation Administration Building. This is a public meeting. For more information or to obtain a copy of the meeting agenda, contact Executive Director Ed Martinez at ext. 6113.

A copy of the agenda packet is available for review at the Kennedy Library Reading Room and from the Academic Senate Office, Math and Science #143.

Civico appointed chair
Longtime Electrical Engineering Professor Michael Civico has been appointed to a three-year term as chair of the department, effective fall quarter.

Civil has been teaching at Cal Poly since 1968.
**Outstanding teachers. . . (Continued from page 1)**

Martinez is also editor of the Modern Languages and Literature Department, teaches classes in Spanish, Spanish literature, world literature, and Chicano authors. In nominating Martinez, a student said, “He challenges us to think for ourselves, to express ourselves, and to apply what we know to our own lives. He has a contagious passion for teaching and learning.” Martinez was included in the 2000 editions of “Outstanding People in the 20th Century,” “Outstanding Scholars of the 20th Century,” and “Who’s Who in the West.” He received the College of the Liberal Arts Outstanding Service Award in 1998. Students and alumni of the university nominate the distinguished teachers. Cal Poly has named 117 distinguished professors since the awards program began in 1964. 0

**CPR schedule**

The Cal Poly Report is published every other week during the summer.

The next issue will be July 5. Articles for that issue are due to Public Affairs by June 27. Items for the Report should be e-mailed to publicnews@calpoly.edu, faxed to 805-756-7081 or sent to Human Resources and Employment Equity, Adm. 116, by July 20.

For information, call Deb Hobbs at ext. 6-2469. 0
Renovation plans...

Continued from page 1

soccer requirements, and improvements to the existing east-side stands.

The full project is estimated to cost between $8 million and $10 million. The most visible piece of the renovation would be new west-side stands, which would span California Boulevard and provide approximately 2,800 chair-type seats.

"We are excited about the opportunities that exist for the renovation of Mustang Stadium," said Athletics Director John McCutcheon. "We will now take this information and see what potential there may be for funding the project in total or in phases."

The project would require private funding because student financial support will not be available for new construction.

No timetable has been established for the renovation. Phases of the project could be initiated as resources become available.

"This is a very worthwhile and much-needed renovation," said President Baker. "The stadium has supported many campuswide activities over the years, from our Centennial Celebration to Commencement to athletic events. This project has my full support, and it is my hope that others will be as excited as we are about its potential."

An Athletics Centennial Council has been formed to help with fundraising.

Employee win raffle

Twelve employees won prizes in the recent raffle held to benefit the Cal Poly cat program.

The winners were Heidi Lorge (Budget and Analytic Business Services), Gerry Mueller (President's Office), Suzanne Kirakosian (Economics), Tom May (Facility Services), and Karen Aguilera (Foundation).

Additional winners were Rose Bowker (Biological Sciences), Joan McCarthy (Speech Communication), Marcia Carter (English), Don Lumuten (Speech Communication), Ellen Notermans (College of Architecture and Environmental Design), Chris Leitz (Facility Services) and Ed Naretto (Facility Services).

Academic programs help students achieve success

Cal Poly's Supplemental Instruction program, now in its 11th year, has helped nearly 8,000 students perform better academically in science and other courses.

"The program provides an opportunity for increased concept mastery and academic excellence through twice-weekly discussion sessions led by a trained peer leader," said Bill Sydnor, coordinator of the program. "During the sessions, students solve problems, perform critical thinking, work as a team, and review course concepts. Supplemental Instruction promotes active participation and hands-on practice."

Discussion groups are offered in biology, chemistry, physics, business statistics and soil science.

"Almost 80 percent of the students who have enrolled in Supplemental Instruction have earned A's, B's or C's," Sydnor said.

Supported by Student Academic Services, the program is modeled after a program that was developed at the University of Missouri 25 years ago.

Diversity Award

The Industrial and Manufacturing Engineering Department has been awarded Cal Poly's fifth annual President's Diversity Award for its success in recruiting and retaining women and other underrepresented minorities.

"The IME Department has shown exceptional commitment to pursuing the value of cultural diversity," said President Baker in announcing the award. "Through its educational outreach programs and workshops, the department has made significant contributions to the university's recruitment of students from underrepresented groups and raised awareness among the campus community of the need for cultural diversity.

"And for the past 10 years the department's commitment to outreach and mentoring has been fostered and encouraged by two dedicated leaders," Baker said.

Professor JoAnne Freeman led the department from 1991 to 1997. Professor Sema Alptekin has served as chair since 1997. The department was recognized for a long history of presenting workshops and conducting outreach programs to increase student diversity, providing role models and mentoring for women, and increasing the number of degree awards to women by 10 percent in the last four years.

Recent diversity-related initiatives include: the development of an eight-week paid summer internship; the sponsorship of a student summit on diversity; and a recent double Ph.D. program with Cal Poly's in Chemical Engineering.

Diversity Award selection committee chairman Harry Hellenbrand, dean of the College of Liberal Arts, said the panel was impressed with "an array of excellent programs," both in engineering and other colleges. One he said the committee hoped would become more widely known is the Cal Poly diversity Web site, which chronicles the diversity in Cal Poly's academic programs.

Diversity Award selection committee chairman Harry Hellenbrand, dean of the College of Liberal Arts, said the panel was impressed with "an array of excellent programs," both in engineering and other colleges. One he said the committee hoped would become more widely known is the Cal Poly diversity Web site, which chronicles the diversity in Cal Poly's academic programs.

Cal Poly's Wine Industry Certificate Program and the Wine Marketing Program have also been recommended for the Diversity Award.

"The program is a model for how programs can incorporate diversity into their core curricula," said Diversity Award selection committee chairman Harry Hellenbrand, dean of the College of Liberal Arts.
