**Kimber Scholarship Goes To Meares**

Larry Royer, president of the campus poetry association, revealed yesterday that a Kimber poetry scholarship major at Cal Poly, was presented to Meares yesterday afternoon, making him the 98th Kimber scholarship recipient for 1967.

The award was presented by the university's poetry department president and presently a Kimber Farms employee.

Meares, also a member of the university's poetry department head, is the second of a state's largest poetry department to accept his present position during the current week and presently holding a position with the 98 Kimber Farms employees.

Also present during the presentation was Dr. J. R. Heise, former head of the Cal Poly university's poetry department who presently is on leave from the college.

Urgent Request For Blood Issued Today

A mysterious and possibly life-threatening
epidemic of blood has been reported by a blood bank official.

In a recent interview, the blood bank official said, "We have a severe shortage of blood today. We need immediate assistance to prevent a crisis." The official urged anyone with an available blood type to donate as soon as possible.

Andrews Hotel To Open

As Poly Rooming House

The Andrews hotel, one of the newest hotels in the downtown area, has been opened recently. The hotel features modern amenities and is conveniently located near the university.

**Poly UN Delegates Learn By Doing At Conference In SF**

Cal Poly's UN delegation won the policy of "safeguarding" at the model United Nations conference held at San Francisco State College last week.

As the official representatives of Poly, the delegates demonstrated their ability to solve problems and affairs of the state and national level. Their performance earned them accolades from other delegates.

The hotel is not prepared to receive Poly delegates until the present time. Lawson pointed out, "We have a few rooms available for the present time, but we are not prepared to accommodate more than 500 Poly delegates toward the end of the month.

The hotel will offer complete dining facilities, a swimming pool, and a recreation hall with facilities for tennis and other activities.

**Mustang Spotlight**

Hi John Jeffrey

Galloping off with the latest news from the Mustangs, John Jeffrey, active and talented, brings us the latest updates.

One of the all-around failures, Jeffrey has been a regular attendee at various activities. His presence is noted in several campus-wide activities, including the Mustangs' basketball games, and he also excels in his role as the RAC communications committee member.

Though not a Hollywood celebrity, Jeffrey does maintain a good reputation for his involvement in campus activities.

John Jeffrey, graduate of the department of journalism, is currently studying public relations at Cal Poly. Jeffrey is interested in broadening his experience in the field.

**Offender Picked Up On Morals Charge**

Picked up last week for a morals offense, the suspect was later identified as a resident of Cal Poly. The suspect was taken to the university police department for processing.

**John Jeffrey**

John Jeffrey, a resident of Cal Poly, is one of the active members of the RAC communications committee. Jeffrey is currently studying public relations at Cal Poly.

Jeffrey's role is to provide updates on the activities of the committee and to keep the Mustangs informed about upcoming events.

**News In Brief...**

**Farm Power Shifts**

The shift of farm power from manual labor to machinery has opened up unlimited possibilities for the future. "No more mule-power," according to Ray Fletcher, sales manager of Allis Chalmers Co. of Los Angeles. Fletcher spoke to over 150 Cal Poly agricultural engineering majors, their friends, and alumni who attended the banquet recently in the Anderson hall.

**Food For Poly Soldiers**

The "annual feed" for Poly Corps members sponsored by Student Council, architectural engineering department, will be held Thursday evening. The big work is F. K. B. R. E. (Berkeley) Africanus, and Richard W. Turk (Bakersfield) and Joe (Loma) Palma (Palmers 8 & 6 box 885).

**From Kool To Hot**

The Air Conditioning club expects to hold a hot election May 21st. Their candidates include George Black, director of publicity; Lloyd Lommer, director of publications; George West, director of publicity; George Gammage, director of publications; George Wasmamag, director of publicity; Charles Walling, director of publications; Skip Patau, and Gordon Chambers. Treasurer, Chambers, Lloyd Lommer; sergeant-at-arms, Don Love, 106B Poly Royal Up's.

**Love Looking For Poly Royal Board**

"Nominations are open for the 25th Annual Poly Royal board," Don Love, vice-president of Poly Royal executive, announced yesterday. "They can be submitted at the elections on May 14th," Mrs. Love. Officers available include: general superintendent, first assistant superintendent, second assistant superintendent, treasurer, recorder, director of special events, director of publicity, director of arrangements, director of agriculture, director of engineering, and director of liberal arts.

Nomination can be given to any member of the nominating committee, which includes Harry Smith, Jesse Evasco, Bill Angus, and Jim Yoho. They may be given to any person in Ad 130. Past experience is not a requirement.

"We've had an excellent board this year. Everyone has done his part. I only hope that we can get some of the same caliber on our board's next year's board and start planning the 24th Annual Poly Royal for first week in September," he concluded.

Campus Botanical Gardens To Be Dedicated Friday

An extensive botanical garden in Poly Canyon, which has been under development for nearly two years, will be dedicated to President Julian A. McPhee next Friday afternoon at 4 o'clock, it was revealed this week.

Located about a half mile up the canyon to the northwest of the immediate campus, the project is a project of Tri-Beta, which has spent over 700 man-hours constructing walks, setting out plants and trees, and erecting signs. George Khairis, president of Tri-Beta, estimates the garden is about 10 acres in extent. Part of the natural vegetation in the garden, particularly along the stream that runs down the rear of the campus, gives the area a natural scenic appearance, says Richard Warrick of Los Angeles, who is handling the development this year as part of his senior project.

Students are invited to inspect the garden and take in the dedication ceremonies, which will be conducted in the garden next Friday just west of the Pederson Ranch, about 5 miles up the canyon from the upper wades. Parking facilities for cars, however, are quite limited. Additional preparations for establishing the garden were started back in 1953 by Dr. Robert F. Bentsen, who was president of Los Angeles, and recognized as one of the foremost plant pathologists on the west coast.

The garden site was granted by the college farm committee in early 1955, and in late 1955, Bentsen of Los Angeles, who is heading the development this year, according to Richard C. Wiley, who is in charge of the garden project, points out that the garden will be available for both recreational and educational purposes, and that it will provide an excellent area for plant study.

The garden contains yucca and cacti, permanent moisture plants, native bulb, evergreens, deciduous, and shrub. Additional plants for the garden were recently imported from the Santa Barbara botanical garden and growing area.

Both students and instructors have been adding to the garden last year, Kemnitz brought back from Sequoia a number of young trees, including Locuscope pines, Ponderosa pines, Giant Sequoia, and Sierra Juniper.

**Annual Math Award Goes To John Clark**

John C. Clark, a freshman mathematics major from Mount View, is shown above at the annual Math award, presented by the American Chemistry Publishing company. John C. Clark received the recognition for his achievements in mathematics as a freshman at Cal Poly. He was presented an engraved hand-bound book of mathematical tables, furnished by the company.

Netmen Compete For CCAA Honors

Coached by Ed Jorgensen, the Cal Poly tennis squad journeyed to Fresno for the Tuesday-Colo-
fornia Collegiate Athletic assoca-
tion playoffs yesterday and today.

The Mustang netmen have a six
won, two lost record for the current
season. They opened the season
against the San Luis Obispo tennis
club and defeated them, 6-1.

The racquetmen will be making
their bid for championship honors
in the important matches.

The Mustangs are Vern Hobson
and Mark Huffaker and finish the
tournament play but the Mustangs are
ranked as a top contender.

Coach Jorgensen listed four letter-
man on the squad in Dave Elm-
ton and Mark Huffer and finished
third in the CCAA over last sea-
son. Returning letterman for the
Mustangs are Vern Hobson and
Javier Alvarado.

Jorgensen listed the tentative
lineup as follows: Vern Hobson,
first singles and Roger Sling, sec-
ond singles. Chuck Hutter and
Javier Alvarado make up the
third doubles.

Following the four straight wins
with respective scores of, 0-1, U-l,
and B-4.

Cal Poly tennis squad journeyed
to Fresno for the two-day Cali-
ifornia Collegiate Athletic associa-
tion playoffs yesterday and today.

Their last two matches saw vis-
its over San Jose State, 6-4,
and Santa Barbara, B-4 and 8-1.

Westmont Next

Fresno Hosts Mustangs In CCAA Conference Play

California Poly comes back into CCAA conference play today when the Bulldogs of Fresno State host the Mustangs in a doubleheader on the Fresno diamond. At present the Bulldogs and San Diego State are leading the league with Cal Poly in third place.

Following the Fresno tilt, the Green and Gold baseball club of Tom Lee travels to Santa Barbara to meet the Westmont Wildcats on Tuesday, May 17. Cal Poly has beaten Westmont previously by a 3-2 score and dropped a game to the Bulldogs, 6-4.

The doubleheader against the Aggies of San Diego State last weekend was ruined out and the Mustangs dropped a game to San Diego State and will choose to play Westmont when the series is resumed. The Bulldogs and San Diego State are leading the league with Cal Poly second in their region and these two teams are the likely candidates for the finals. Upon entering the finals the teams that earned the highest percentages in their respective regions will be chosen to play for the championship.

Rodeo Squad Travels To Provo, Utah For Fifth Meet

Competing in their fifth meet of the 1955 "Roping and Riding" season the Cal Poly Rodeo team will travel to Provo, Utah to try to regain their standing as a top rodeo squad in intercollegiate competition.

The Mustang team has placed first in the region of the Miller-Berkeley rules and will then go on to place second behind Pierce junior college, Pierce, in the national tourney. The Mustangs have scored 799 points in the four meets and Cal Poly has a total of 299 points in their six meets. The Mustangs have been bright young riders, including A. J. Momont, C. A. Aggie, M. San Antonio, Fresno State and Washington State University.

In the past the Mustangs have operated with one rodeo team entering in all the contests. Now as they plan for the future they have two teams, the second just recently formed, and both are strong. Among the stars on the team are Ed Harper, Ed Veal, Oly Copple, Joe Barnett, Ted Entner and Jim Lyons.

Lyons is a member of the first team but he is traveling with the second squad to keep up the rodeo barn with the Mustangs.

The Mustangs enter the contest as they have in any other past and they have started off with a bang by trouncing Santa Barbara, 85-64, Los Angeles, 12-6, and John Oakes, guard, and Duane Chadwick, right half; Marvin McGill, middle half; Art Sutliff, Phil Coffin, Dick Byllson and Bud Chadwick.

The Mustangs will probably be the following: Jerry Watts, full back; John Oakes, guard, and Duane Chadwick, right half; Marvin McGill, middle half; Art Sutliff, Phil Coffin, Dick Byllson and Bud Chadwick.

The Mustangs will be favored to cop the event but the team to show them the way will be the favored team for the Western states and the two top teams are picked from the California Poly and Pierce College teams. At present Pierce JC is first and Cal Poly second in their region and these two teams are the likely candidates for the finals. Upon entering the finals the teams that have earned the highest percentages in their respective regions will be chosen to play for the championship.

College Photography Contest Ends Monday

Over $900 in prize money is available in a nationwide photo contest for college photographers. The contest, sponsored by the College Bookstore of Santa Barbara, Calif., is called "Campus Stand-out." The subject of the photograph should be a personality standout representing a campus type. The contest closes May 18. Further rules are available through the journalism department.

Thornton Lee, one of the all-time great photographers for the Chicago White Sox, hoped for the Mustangs to make the grade. He was coached by Joseph Dewl.

Golf Championship Playoffs Underway In Los Angeles

Undisputed in dual play, Coach Don Watts takes his Mustang golfers to the Beverly Country Club in Los Angeles for a CCAA conference tourney today. Round-up to begin journey play yesterday, the action will continue today.

The Mustangs have competed in four meets and have emerged on top in three. Watts' greenhorns have run up some of the highest scores against opponents this season than in any other part. They started off with a bang by trouncing Santa Barbara, 85-64, Los Angeles, 12-6, and Pierce, 12-6. Now they are looking good but we don't need else than what we have entering in all the contests.

The Mustangs continue in all the contests.

More To Dorm Mgr. Job Than Turning In Time Card

"Top flight student dorm manager greatly assist in improving housing and study conditions. However, there are more duties than just turning in time cards," says Lambert Mayr as their senior project. "Pipes, valves, tanks and other gear making up the portable hydraulics Rube Goldberg Contraption 2 BLOCKS 30 HOURS of work, put in waa definitely not for contraption, but the 800 hours of labor, each piece designed and engineered for the project," says co-builder Lloyd.

"The contraption is a good practical answer to the instructional problem of explaining the theories pertaining to fluids flowing in piping systems," according to Army Chief Richard Man, ME department head. "Because of the many different combinations, the various effects are demonstrated visually. The entire unit is portably mounted on rasters for ease in moving to and from the classroom."

Co-builders Lloyd and Mayr used a design developed by Peter Lampman, 64 Poly MEng, now an engineer serving with the United States Navy.

"Minor changes in type of material that Lampman has specified were necessary because of difficulties in procurement," says Lloyd.

The assembly work involved turning, grinding, welding, and painting. The company handled the chrome beauty treatment.

The builders agree that fabrication of the plexiglass parts probably involved more problems than anything else. All joints had to be watertight.

"The pronouncement of item number one from the English language a brand new world. The shift had written a new interview without the knowledge, officially named "General Purpose Car." It was definitely not the initial, G.P., thus the expression, Jeep.

20,000 TINY FILTER TRAPS...

plus Richer, Smoother Flavor

Why do more college men and women smoke VICEROYS than any other filter cigarette?

BECAUSE ONLY VICEROYS GIVES YOU A PURE, NON-MINERAL, NON-TOXIC FILTER WITH 20,000 FILTER TRAPS IN EVERY FILTER TIP!

1. Yes, only Viceroy has this filter composed of 20,000 tiny filter traps. You cannot obtain the same filtering action in any other cigarette.

2. Besides being non-mineral and non-toxic, this cellulose acetate filter never sheds or crumbles.

3. The Viceroy filter wasn’t just whipped up and rushed to market to meet the pews of skyrocketers demanding for filtered cigarettes. Viceroy pioneered. Started research more than 20 years ago to create the pure and perfect filter.

4. Smokers and masse report that filtered Viceroyes have a finer flavor even than cigarettes without filters. Rich, satisfying, yet pleasantly mild.

5. Viceroy draws so easily that you wouldn’t know, without looking, that it even had a filter tip ... and Viceroyes cost only a penny or two more than cigarets without filters!

That’s why more college men and women smoke VICEROYS than any other filter cigarette ... that’s why VICEROYS is the largest-selling filter cigarette in the world!
The Offbeat

By Linch

The annual Music department barbecue to be held in Cuesta Park tomorrow will bring the glee club, Collegians, and marching band together for one last "how-out" before the summer vacation. Highlighting the sports scene will be the softball game between the glee club and Collegians. The glee club won last year, but there is a question whether the championship, indicates victory again this year. Well, look at the Brooklyn Dodgers!

With due respect to the farmers, the weatherman has already issued up two weeks in a row. Better lay off this year. Wouldn't want to miss those trash-stick Beans, beans, Santa, and smothered Squash. The barbecue is under the direction of Bob Fox and the membership is looking forward to its completion.

Today is the last day to order that 1963 Homecoming record. Better submit your order and down payment in the student body office immediately.

... Two old faces returned to the campus during Poly Royal. They were identified as Bob Benefield, Bob, who played trumpet in the Collognians, is now, working for an orthodontist in Pasadena. A new star player in the Collognians and former author of this column, is working for a broker at A.P.R., it does the heart good to see old friends return after year or two.

Waxing balsam ring soon for Larry Gindon and Ken Matson. Is it true what 10 or ladies have, anyway?

Larry, a social science senior outside, under the Barbers and Beauty, was engaged to Marilyn, another player on the Mustang baseball team. Larry, a pinkie, also of San Luis Obispo. Congratulations.

The Mistletoes of Cal Poly's basketball team are again. Water color paintings will grace on Hillcrest walls the near future.

So ends another week as "trial and error" editor of El Mustang. The honoraries who have fought a noble fight, just returned from his publicity duties at the Chewah Pitt. Will bring back next week with Dick Willcock who will have returned from the Rainbow Valley fair at King City.

That's "AO" for this week.

Thumbs-Down

Dear Editor: I would like to take the opportunity to thank the many kind people at Cal Poly for all the cards and flowers that have been sent to me. I am receiving them with great joy and thank you for your kindness.

Hello, Miss Plath, wife of Rob Benefield, Cal Poly's marching band director, has been there for several weeks now and will be there for the near future.

Sincerely,
Mrs. roses, wife of Robin Benefield (Mrs. Notus, Mrs. Plath, wife of Rob Benefield in the Music department, is in Letterman's general hospital recuperating from a serious operation that she has had there for several weeks. She was there for six weeks. Miss Plath is able to write, she asks me to thank the people here at Poly who have remembered her with cards and flowers.)

To the Students, Faculty and Hesperians of Poly Poly: I want to take this opportunity to thank you for your kindness and your generous offering to my children and I. It is wonderful showing each fine person as you exist. My sincere thanks to all of you who thought of us. Very truly, Toni Ziemer and girls.
Mrs. California Former Cal Poly Student Wife

Mrs. Samuel P. Girvan, former Poly student wife and the new Mrs. California, left early this week to compete in the Mrs. America finals held in El Toro Village, Glendora Beach, Fla. Mrs. Girvan’s husband attended Cal Poly as a dairy husbandry major from March, 1949 to December, 1960.

Selected by the China Young Homemakers to compete in the state contest, Mrs. Girvan captured the state title in Los Angeles last month.

To compete in the same ability that earned her the Mrs. California honor, she was “walking up” last week for “America’s three competition. Mrs. Girvan’s requirements included: (1) the merits of a complete meal which must be cooked in two hours or less with both the quality of the finished product and efficiency of work methods being evaluated; (2) sewing and sewing ability; (3) metric of the household, such characteristics as neatness, orderliness, efficiency, grooming, family patterns, community service, character, and friendliness. Moms winning the state title, Mrs. Girvan has made 24 personal appearances, has received gas rates, washer and dryer, a 10-place wardrobe, and a $50 savings bond. Mr. and Mrs. Girvan have four children, Mary, 17; Patrick, 15; Christine, 11; and Mike (a girl), 4.

Deadline Tomorrow For Activity Key

“Sunday, tomorrow at 1 p.m., is the deadline for having your activity key award applications turned in,” says Charles Anderson, chairman.

The award key, certificate and a box of stamps is the window outside the student body office. Any person interested, but in doubt of their eligibility, are urged to check their point-standing in the A.B.F office,” indicated Anderson.

Over 110 Waiting For Annals Unclaimed Within Next Week

Those who have failed to pick up their copies of the 1958 Poly Student Directory, or polybook, may obtain them in the student body office.

Dan Nelson, sales manager, warns that all books purchased by that time will be sold to those on the waiting list, and now carry over 100 names.
