Eleven New Instructors Appointed To Faculty

As part of the continual growth of Cal Poly, another wave of highly qualified instructors has been added to the engineering faculty, Cal Poly officials recently announced. This latest appointment at 11 new faculty members.

Five are in engineering, two are in business and finance, and four in liberal arts— one of the latter to replace an instructor who is taking a sabbatical leave for the summer. Cal Poly is the California State Polytechnic College.

John B. Rockey, a specialist in plant breeding, will be teaching at the University of California, Riverside, and will join the faculty of the University of Southern California. He will join Poly's other faculty members at the University of Wisconsin and the University of Oregon.

Another new assistant, Dr. Wilma T. Cline, will be the only new assistant in the department of engineering. She is a specialist in plant breeding. She comes to the University of California, Riverside, and will join the faculty of the University of Southern California. She will also join Poly's other faculty members at the University of Wisconsin and the University of Oregon.

For Campus Appetites

"Learn-by-doing" is an old story to Herbert Wlllech, who will be head baker at the campus bakery which will be housed in the former mathematics building at Cal Poly.

"I think it's a great opportunity," he said. "It's the same kind of work as I've been doing for the past 20 years."

Wlllech, who has been baking for 20 years, said he was looking forward to the opportunity to work in Cal Poly's new facility.

Wlllech said he would be responsible for baking bread, cakes, and pastries, as well as preparing for special events.

Record Budget of $96,000 Approved

A record budget of $96,000 for the fiscal year of 1966-67 has been approved by the Board of Trustees.

The budget includes $35,000 for the construction of a new engineering building, $25,000 for the purchase of a new computer, and $40,000 for the acquisition of new equipment.

The budget also includes $5,000 for the purchase of new furniture, $2,000 for the purchase of new equipment, and $3,000 for the purchase of new supplies.

The budget is balanced by a $20,000 loan from the state of California.

**LEGISLATORS TOUR CAL POLY CAMPUS** - Senator Joaquin Aguiar, Democrat of San Luis Obispo, and Assemblyman John A. McCardy, Republican of Huntington Beach, Thursday, toured the Kellogg-Voorhts branch of Cal Poly as part of a legislative tour to review eight minor construction projects at Cal Poly, sponsored by the Department of Finance. The legislators were accompanied by Representative John A. Murdy, Jr., Huntington Beach, and representatives of the Department of Finance and the Legislative Auditor's office. The group was scheduled to visit Cal Poly's Lompoc campus on Thursday night.

**Watch That Sun-Burn, That Is** - When you get sunburned, report immediately to the health center for treatment. "The main idea is not to let it get sunburned," said Dr. Eugene C. Jones, new area chief. He said that there have been not many cases reported.

Electronics Head Plans
Study Of Microwaves

To keep up with the latest technical advances in fast moving electronics, Electronic Engineering students at Cal Poly have been granted a substantial leave for the 1962-63 school year. It was officially disclosed this week.

Radius plans to attend the Polytechnic Institute of Brooklyn to study microwaves, electronic systems and engineering. It is one of the largest graduate electrical engineering schools in the nation. PEP is oriented to the development of electronics and the Mathematics Development Corporation, specializing in the field of microwaves. New York is Center

"Not only is this perhaps the foremost college on the subject of microwaves in this country, but New York is still the center in the broader field of electronics," Radius stated.

"There are about 10 Cal Poly electronics graduates in the New York area at present, as well as many others in the area and observing engineering opportunity to visit firms in the area and observe engineering practices and diverse matters of engineering education." Radius

"Another reason for my choosing the New York area is that the national I. R. E. convention will be held there in March. This next year, the convention is expected to play host to as many as 20,000 engineers. In the past, there have been about 10 Cal Poly alumni at the convention, but there are likely to be many more this year."

Richard Costa, EE: "The only change I've noticed so far is that the coffee line moves slower now than it did before."

"It's lovely here, especially in the spring, when they start attending classes and observing some of the major companies in the future. They seem to enjoy the environment and plan to throw in a shave or two extra a week."

"I don't think women are spending much. They will improve the class average because women are smarter than men." Richard Costa, EE: "The only change I've noticed so far is that the coffee line moves slower now than it did before."
