AIDS Memorial Quilt to be displayed May 17-19

The Names Project AIDS Memorial Quilt will be on display at the Recreation Center May 17-19. Public viewing will be 10 a.m.-9 p.m. May 17-18 and 10 a.m.-2 p.m. May 19.

The quilt, which began 15 years ago in San Francisco, is made up of 3-by-6-foot panels designed to remember those who have died from AIDS. Portions of the quilt are continually on display around the country, and more than 900 panels are expected at Cal Poly.

The theme, "Bringing the Quilt Close to Home," expresses the fact that local people are among those who have contributed to the quilt, and some of the names on the panels are those of local residents.

Since 1987, more than 12.5 million people have visited the quilt in thousands of displays worldwide. Five displays in Washington, D.C., are the only ones to have featured the quilt in its entirety, which now includes more than 34,000 names and would stretch across 16 football fields.

Funds available for proposal development

To stimulate research activity, the Research and Graduate Programs office will consider faculty requests for assigned time for the purpose of preparing grant or contract proposals.

The funds for assigned time are designed to give interested members more time to prepare proposals.

Submit written requests indicating the number of WTUs desired, the academic term for which the request is made, the agency or program for which the proposal is being prepared, and the application deadline, as well as any other information that supports the request, such as preliminary work accomplished or need for proposal development.

The request should be directed to the dean of research and graduate programs and signed by the respective department head/chair and dean.

Requests should include a current C.V. and a list of other university support received during the last five years. Special consideration will be given to requests that are matched with assigned time from the college, but that is not required. Since requests are limited to proposal deadlines, they may be submitted at any time during the academic year. Because funds are limited, priority will be given early in the academic year to have a greater likelihood of approval.

It is anticipated that three to six WTUs will be provided and will be reimbursed at the minimum faculty replacement level for an assistant professor.

For more information, call Research and Graduate Programs at ext. 6-1508.

CPR schedule

The Cal Poly Report is posted online at www.calpoly.org every Wednesday during the academic year. It can also be accessed from the “A-Z” index on the Cal Poly home page (click on “C”).
