20,000 Expected For 24th Annual Poly Royal

Just What Is Cal Poly's Learn-By-Doing Method?

By Bob Norton

"Upside down" and "learn-by-doing are familiar terms to everyone. But, where did they originate? Sixty years ago a young lawyer, Myron Angel, was walking the streets of San Francisco, jobless! "Want a job?" was the query. Yes! said Angel, "Can you build a roof?" No! was Angel's reply. "Sorry, I need someone with experience." Then and there Angel was determined to form an institution where young men could learn to work with his hands as well as his mind. After many attempts to get appropriations through the legislature, Angel succeeded in establishing Cal Poly in 1903. In 1912 Cal Poly was a reality. The legislature was determined to do away with the little junior college on the coast of central California. A hard hitting Irish educator, Julian A. McPhee, then chief of the state bureau of Vocational Education, persuaded the legislature not to close down the little academy. Long a champion of vocational education, McPhee agreed to serve as president for nothing if they would allow him to develop a college-level occupational training program. Higher educators in California disagreed with McPhee's theories; he was forced to prove each year that Poly was doing a real job in higher education to get appropriations for building and expansion funds. McPhee believed that the hands as well as the mind should be educated; that too much time is wasted at most colleges before the dignity of real work that gets your hands dirty. Students at Cal Poly plunge into their majors right at the start, and in conditions similar to those they will face on the job.

Dr. Roy E. Simpson, state superintendent of Public Instruction, paid high tribute to the Cal Poly system of education when he said, "The success of Cal Poly's theories were originated by President McPhee, have been proved, as more and more manufactoring and industrial concerns, ranchers and allied agricultural service companies from not only the United States, but Canada, Hawaii, Central America and South America have sent executives to interview prospective employees. Cal Poly is a pilot school, maintains McPhee. "We are showing the way in a field of practice and method that eventually will be adopted by more and more colleges." Cal Poly is a pilot school, maintains McPhee. "We are showing the way in a field of practice and method that eventually will be adopted by more and more colleges."
Visitors Participate In ROTC Display
Poly Royal ROTC display will be featured. Exhibited will be a demonstration of aerial arms, wire communication, crew served weapons, cellular boards, radio communication network, map reading boards, other ROTC training aids. Attendees participating in field strapping of weapons.

Western Dance To Be Informal—That's One Word Podner!

How jeans and plaidshirts, boots and a big sombrero and you're ready for the Poly Royal Westerly dance. An hour after midnight, your Informal will meet with you in the "in formal" attire across yonder at the Coronation Hall.

Sponsored by the Men's club, the dance will feature presentation of awards to the top crew, where Informal will be supplied by Harry Whip and his boys. Charge is 81 per couple, or starts a dock and ladies free.

Speeding on U.S streets and highways last year killed 12,700 men, women and children.

Coronation Ball Adorned In True Royal Splendor
Over 9,000 square feet of5d displaying the purest of flowers. The Camp San Luis Obispo Alumni Association Poly Royal Coronation Ball will be held night, according to Cal Poly Alumni, and general chairman of the dance.

In RoTC Display, participants will feature the Poly Royal theme, "We're a Modern World", which will appear behind the bandstand where the Cal Poly Colleagues will be providing music.

To get a further idea of the vast amount of space available for this year's dance, there are thirteen booths occupying the dome floor, one thousand five hundred chairs may be accommodated.

This year's Coronation Ball is sponsored by the Poly Royal Engineering Council, which includes all engineering departments.

Electronic building, und Air Conditioning have the important job of designing and planning the decorating; and the Job of constructing the decorations and other props is being handled by Aerospace and Mechanical Engineers.

A beautiful throne for her highness, Mike Pate Bous, from San Jose State college, will be constructed by the Engineering Council.

The Camp and the Sports Center is located on Highway one, north of town. Guests are being provided to direct you.

Colonel Rine, Camp San Luis Obispo commander, has been a big help in obtaining the Sports Center for this year's dance. Without his help, we probably would not be at the Veterans Memorial, concludes Kulthoff.

Ticket to the affair are available today and tomorrow in the Student Activities Office and all "ama
desk" are invited to test their fast ball for speed. Men behind the construction of the speedometer are Dave Johnson, Dinner Adams, Eugene Blanken, Robert Simms, Fred Szechelski, and Dave Ananawa, all senior electronics majors.

An also featured will be a demonstration of an Electronic Analog Computer. Valued at $8,000, it has been under construction for the past two years, being the senior project of EL mustangs.

Also featured will be a demonstration of the Space Station, a contraption built by Electronics students.

A micro-wave demonstration of electromagnetic waves will take place in the Electronics Lab. Builder of the apparatus is EL mustang, Greg Ochoy. Other displays will include demonstrations and displays of equipment built by students.

Intercollegiate Rodeo Will Offer Thrills To Visitors

Cal Poly visitors can see the first rodeo in the newly rebuilt Red Collett arena this afternoon, which starts the two-day Poly Royal Rodeo beginning at 6 p.m. Both afternoon, the show will include bronc riding, rodeo, horse show, and bull riding. Admission will be $1.50.

Seven teams will compete, representing many of the universities and colleges in the western region of the United States. They will be from the following institutions: Cal Poly at San Luis Obispo; Fresno State; San Jose State; Oregon State; Montana State; Idaho State; and Cal Poly (San Luis Obispo).

Outstanding individuals expected are Mickey Gilbert, riding and bulldogging specialist from Pierce Junior College; Jim Johnson, Fresno State's bronc rider; Mickey McCarty, U. of Idaho's bronc and bull rider; and Jerry Miller, Oregon's bronc trick contestant.

Four finalists from each of the morning horse show events, which start at 9 a.m., this morning and tomorrow morning, will compete for horseshow riding, reining, and cutting horse.

A Tigard rodeo specialist, the Curtain Riders from Tulare, will also perform. Comprised of 20 gals, they are recognized as one of the outstanding equestrian teams in California.

Bill Walton, last year's clown, will perform duties again this year. Radio Commentators Carson will furnish the radio show.

Harley quads will be presented at the Western Dance tomorrow night. A complete saddle will be given to the all-around cowboy. This was won last year by Levin Thomas from Pierce J.C. Poly's four horse show events will win a bell buckle, with second place winners.

Tulear Cowgirls
Feature Of Rodeo

Precision horsemanship will be a feature of the intercollegiate rodeo today and tomorrow with the performances of the Tulare Cowgirls, a group of 16 girls, ages 14-21.

Sponsored by the Tulare county Junior Livestock and Community Fair association, the Cowgirls will be accompanied by Miss Doris Kastandt of Porterville, leader.

Background Music
Background music for the rodeo is the project of Cal Poly's Music department.

Library rooms 113 rooms made up a sound system to produce music, engineering, building, and architectural buildings.

WHAT'S UP T.E.X. - A good rodeo shot, but we can't determine whether bronco bull is just unmanageable and won't or is équiped inлов of readiness. Could he be bull is playing bet that bronco won't stick on his back for required 10 seconds.

Carnival Tonight

Follow the searchlight to the Poly Rodeo Carnival tonight, across State Street. Carnival, set at 1 p.m. Boats will be set up in State Street near the Engineering auditorium.

"We're set up for the biggest and best show yet," says Peterson. Buckles will feature Turkish blends of coffee, fudge "wanted" posters, country store, dancing, games and other games of skill.

Adjacent to the midway will be the Carnival dance in Crandall gymnasium, where carnival-gala will be free to come and go between the two areas of attraction.

Plenty to set will be available from main selling hot dogs, ice cream, cotton candy, rides, popcorn and other treats.

Modern World Shown
By Social Scientists

In keeping with the theme of the 21th annual Poly Royal, "A Modern World," modern problems in the four areas of economics, sociology, history, and political science— all part of the social science field—will be presented to the public for the first time.

Mass-like partitions will separate the four categories being displayed in the library lounge and main reading room.

Chairmen of the exhibits are Norman Schanuel, sophomore from San Luis Obispo and James Ruwart, Deer Lodge, Mont.

WEISHAR'S

GARDEN"
College Crops, Livestock, Million Dollar Business

"A million dollar business, that's what it is," says Eugene Brinell, president, concerning the extensive production of farm products at Cal Poly last year.

The foundation last year grossed over $1,000,000 from projects other than those conducted by the students. The students bought animals from the foundation, raised and sold them, and grossed, approximately $900,000. The State added another $100,000 worth of farm products to the foundation's project.

Students earned $1,650 from their projects, with another $1,000 going to the foundation—their share of the profits. On top of that, the foundation paid $2,000 worth of interest.

Livestock Products, Largest

Livestock products grossed over $1,000,000 last year, with 190 students taking part in the project. The breakdown shows 850 head of livestock fed on and marketed. Cattle accounted for 460 head, sheep another 460 and swine 400.

New microtome equipment for making tissue slides and preparing for rapid examination of plant and animal cultures, will be shown visitors to the Biological department, with Frank Hambrick, Cusna

Students Will Judge

An annual livestock judging contest, crop and equipment display, and a general project displaying the crops grown on the Cal Poly farm, will be held at the end of the spring term. There will be five entries, with about 60 entries. Final

Air Time Holders In Hangar Display

Exhibited in a variety of ways, airplanes will be displayed by the Aeronautical Engineering department. Visitors will be conducted through the hangar, engine shop, and drafting lab by Aero students who will explain the exhibits and point out actual classroom being done with the equipment shown.

A new attraction is the Douglas Skyrocket jet, formerly in the hands of the world's absolute speed record holder, now in the hands of the Cal Poly Aero department. Eightsighters can see a limited edition of the Skyrocket by walking up the ramp provided. The Skyrocket is a World War II fighter plane, manufactured by Consolidated Aircraft Company.

Several plane models are being built in the United States. The hangar also contains a helicopter, guided missiles, an atom glider and several bare aircraft structures, along with repairs, maintenance, and instruction equipment for aircraft.

Weekend crashes accounted for 15,500,000 burns and 768,000 hurt during 1960.

"I feel like a Coca-Cola. Do you?"
Creamery Is Open

Cal Poly creamery will be in operation during Poly Royal. Students will be processing milk and making cheese. Also on display is an illustration of the complete process of making and selling dairy equipment used in dairy manufacturing plant.

Poly Royal Offers Variety In Sports

Sports fans will be entertained in multiple ways, during Poly Royal's two event-filled days, according to athletic officials.

Hunting at 3:00 p.m., Friday, the Mustang horseriders will meet Fort Ord on the Cal Poly diamond. And at 4:00 p.m., in the college's new stadium, the locals will meet Whittier college in a swimming meet.

Another sport, inter-collegiate rodeoing will occupy the Interests of numerous Poly Royal visitors, both Friday and Saturday. Opening time, both days, is 2:30 p.m. in the Red Collet arena.

And if by chance, you miss Friday's baseball game another is slated to get underway at 2:00 p.m., Saturday, between the Mustangs and Pasadena.

New Teaching Methods Shown To Visitors

"Modern Methods for a Modern Education" is the theme of the Poly Royal booth exhibit sponsored by the Education and Psychology departments in cooperation with the Audio Visual department. These departments will show visitors some of the equipment used in schools today and yesterday and a look at future possibilities of instruction.

1200 Future Farmers Invade Poly Campus May 4-10

Delegates representing the state's more than 13,000 member Future Farmers of America organization will gather May 4 to participate in the 36th annual convention of the California State Polytechnic College.

Farm boys, in whose hands sits the future of California farming, will number 1,800 in all. A number of these young men will participate in other events preceding the convention, including state final parliamentary procedure competition, May 4; state-final judging contests, May 5; and state final talent contesting, May 6, with the Audio Visual department.

Dr. Gay Melend of Stanford University, the convention's keynote speaker, will address theFFA convention May 6. Other convention participants will include Doris Brown, Lakeview, Ore., National FFA President, and Lynn Lamb, Ashby, Idaho, National Vice President, representing the Pacific region.

On the 5,000-acre estate of Cal Poly, the convention will feature Future Farmer degrees and state Future Farmer awards. Honors are conferred final convention night, at the annual banquet. Election of state officers is slated for final day of the state gathering.

The state's best parliamentary procedure teams will vie for the coveted first place position starting at 3:30 p.m. on May 4. These contests will be run simultaneously with the four best groups competing for the first place position. Competition will start at 2:30 p.m., with the public invited.

Included among early entrants in state final judging are a unique Bishop chorus from Bishop High School's FFA chapter. During the convention, Joe Fiero, Porterville, former state president, will show fellow FFA member pictures of his recent exchanges with the prime minister of Japan and the governor of the state of California. Another film taken of California's delegation to the last National FFA convention will be on the jam-packed agenda.

Farm Shop Installs New Engine Tester

Keeping in step with latest trends in modern machinery, the Agricultural Engineering department has installed a hydraulic engine dynamometer to be used as a classroom aid in engine instruction. It will check efficiency and horsepower of tractor stationary engines up to 500 HP. Purchased from the Clayton Manufacturing Company of San Leandro, California, the machine was set up over spring vacation.

Final adjustments have been made by senior classmen providing opportunity to learn by doing.

Engines that will be overhauled in the shops will be run on the dynamometer for performance on fuel, ignition and exhaust as well as horsepower.

Engines being tested turn a shaft with which pushes water in a pump. The force of the water is measured as torque, fuel, pounds, and multiplied by the revolutions per minute of the shaft to give horsepower.

The dynamometer is the second one on campus. The other, in the Mechanical Engineering department, is testing car engines. "Practically the department wants more than pay for the cost," says instructor E.H. Gerow.

**DAY NURSERY**

Poly Royal has everything! A day nursery! Yes, and it is free, too.

A day nursery has been in operation in room 113 of the administration building since March 1. The nursery has been in charge. The nursery is under the direction of the Cal Poly Student Wives club.

Three out of four traffic accidents happen, in clear weather, on dry roads.

Eighty-five per cent of the vehicles involved in accidents were passenger cars.
Eggs, Poultry And Colored Chicks Set For Poultry Units

Egg and poultry shows and displays are being featured by Cal Poly Poultry club.

Poultry: A h w co-chairman Charles Delamater and George Venema presided at the chick show trials and three classes of hatching eggs and chicks and three classes of fertile eggs. The exhibit is in the old farm shop.

Judging the events are Jim McPhail of the California Turf Marketing association, San Francisco; and Dale Walker of Glenn Egg Company.

Co-chairman of the club's egg show are Paul Beal and John Fallows. Other activity chairmen are Bob Olesen and George Livingstone, feature exhibitor; John Martin and Herbert Bums, special host; and Paul Hansen, refreshments.

Colored baby chicks will again be part of the Poultry club's feature displays. Vegetable dyes are being injected into the unhatched eggs to produce the hatch birds.

Coffee Being Served by the English Dept.

Just a good place to relax and enjoy a cup of coffee is the English department's contribution to the "Country Fair on a College Campus."

Coffee will be served in Lib, 118 during the two day event with exhibits of visual aids and a 40 minute movie tracing the growth of the movie industry. "Members of the English department faculty will be on hand all day to discuss the new curricula to be offered fall with the advent of co-eds," stated Dr. David Grant, department head.

Flower Show Opens Today at Ag. Engineering Building

The Ornamental Horticulture club's ever-popular Poly Royal flower show opens at noon today in room 7 of the new agricultural mechanics building.

Judging begins at 10 a.m. accordance to student chairman John Martin. The students were received from agronomy and poultry club.

Neville Gillespie, well-known garden writer, and Walter Barrows of the California Association of Nurserymen are judging potted plants and cut-flower classes. Barrows is a graduate of Cal Poly at San Dimas.

Arrangements are being scored by Mrs. Theodore Mauze of the Big Lots Olive Button club.

Flowering chrysanthemums, necessarily grown under laboratory conditions, will be part of the open house display at the new ornamental horticulture unit on upper campus. Nuns are ordinarily sold full-bloom, and were raised by students using controlled lighting and shading.

The OH open house is on the hayride tour and students will guide visitors through the new facilities.

Football In Air; Spring Grid Drills Start Next Monday

Fifteen lettermen are expected to turn out April 80 for the first day of spring football drills at Cal Poly.

Head Coach Roy Wagner is predicting one of the largest turnouts in history. Spring drills will last for 60 days with an intersquad game planned for late in May. The "Silver Fox" will have on hand more than 15 junior college transfers who registered for classes in March.

Edward M. Rodger*, Mil Chorre It, Olso Bennett, Bruce Fisterfield, Sheldon Williams, guards, Charles Austin, three kickers; center, Dennis Wickstrom; halfbacks, Jim Antolone, Dan Delgado, Buddy Brown; quarterbacks, Verne, Valette, Jerry Dunnam and Jack Beal, Williams and Cofkin, were lettermen on the 1954 undefeated team. They were recently discharged from military service.

anniversary unit.
Fruits accounted for 2,900 boxes of peaches. The breakdown yields 500 boxes of cranberries, 300 cases of oranges, 300 boxes of apples, 400 boxes of peaches, 600 boxes of lemons and oranges, 400 boxes of plums, and 800 boxes of apricots. Nuts included between 800 and 1000 pounds.

State, 800 Acres

In addition to these figures, that is to say, about the department, there is one. This is evidenced by the fact that we sent in 200 following the California College Dance Orchestra this year.

Committee, such as "a very nice assembly," and "This has been a better organization or program at this school during the last four years," were received from principals of high schools where the groups performed. President McPherson termed the music tour, "one of the best public relations activities Cal Poly has had.

Music Department Head H. P. Harrison credits the success of the "beautiful price and superb de corps in the pit" as well as the wonderful student leadership. During the tour this year, a group of Cal Poly alumni sponsored the student member's night program in Madison. While the Elks club was performing, the band played for an hour and a half.

So good to your taste because of L&M's superior tobaccos. Richer, tastier—superior to filter and cigger for the flavor you want, here's the filter you need.

Poly Musicians Are Very Busy People

For a school that offers no major in music, Cal Poly has a large and extensive music department. Besides the several music courses listed, there is a dance, marching band, and dance orchestra.

Lee Named Proxy

Tom Lee, highly popular coach of the Mustang boxing squad has been named President of the National Collegiate Boxing Coaches Association.

Elected at the recent finals in Wisconsin, Lee will act in many capacities, including aiding in selection of US Olympic representatives from college ranks.

Mustang hats are off to Tom Lee!

El Rodeo Offers
Prizes For Photos

El Rodeo's photo contest is well under way, revealed Nick Monteleon, editor.

"Many students have already dropped their pictures in the box for that purpose in the Journalism section," said Monteleon, and the Photography Club has promised representations.

He also asks that camera fans stop down from their houses down Poly Royal to go into the campus life section. All pictures should be turned in as soon as possible to compete for the $17.00 prize money.

Rodeo should have the owners name and box number attached as they may be returned after the engraver is through with them.

McPhee Family Reduced To Three

What used to be the largest family, at Poly, now number three in number of family members.

President McPhee and wife, Mra. McPhee, and their youngest daughter, Carol, are the McPhees in residence. Their eldest daughter, Carol, is attending classes at Cal Poly.

The McPhee family activities have decreased in number since 1948 when Mr. McPhee was farm advisor for Merced county. He was required to do much traveling in the county, but took his wife and children along whenever possible.

President in 1948, he later became Chief of the Bureau of Agriculture Education in California. Becoming president in 1951, he continues until 1961, when he resigned from the Bureau of Agriculture Education and became state Director of Vocational Education. It was not until 1948 that he resigned from this post to full concentrate on the duties of President.

President McPhee is especially interested in the completion of three projects before he retires: (1) Construction of adequate housing for single and married students on the San Luis Obispo campus; (2) completion of the college union; and (3) development of the present dormitories into one of the most complete and beautiful campuses in southern California.

Rags Individual

Time for Mr. McPhee is a rare thing for President McPhee, since one-third of his time is taken up by business trips, mainly to Kansas and the College campuses at San Francisco. Mrs. McPhee usually makes it a point to accompany him on these trips. As for family hobbies, Mrs. McPhee said, "Mr. McPhee doesn't have much time for hobbies. He could say his hobby is Cal Poly. As far as I'm concerned," she continued, "my hobby is my children.

When the children were young and lived at home, the McPhees would try to deviate time to some form of outing like picnics. Now, a free time together is usually spent quietly at home, either reading or watching television.

Three of the six McPhees offsprings hold teaching credentials.

Students Hail From All Parts of World

Among the 8,000 students, Cal Poly proudly boasts of 150 foreign students who come from 41 nations around the world.

Van has the largest representation with 27. France is next with 13. Others include: 12, Italy; 10, Holland; 8, Greece; 7, Peru; Belgium; 5, Ecuador; 4, Belgium; 3, Turkey; 4, China; 4, Chile; 4, Syria; 3, Nicaragua; 2, Ethiopia; 2, India; 2, Indonesia; 2, Russia; 2, Mexico; 2, Germany; 2, Greece; 2, Honduras; 2, Lebanon; 2, Panama; and Thailand.

Five students each comes from Afghanistan, Costa Rica, Egypt, Fiji, Indonesia, France, Holland, India, Liberia, Malaya, Nigeria, Pakistan, Paraguay, Portugal, Brazil, and Venezuela.
For all of us, something to cheer about

AC & R Students Bring Outdoors Inside, Show Air Freshening, Cooling Methods

A student cheerleader Allan Green, a sophomore in the College of Letters, Arts, and Sciences of the University of Southern California, has been named one of the youngest of the 46,175 people who own shares in Union Oil, the 40th largest industrial company in the country. His 55 shares entitle him to a report on our 65th year of business. In 1955 our customers paid us the record amount of $368,760,900, and 95,261,200 of this amount, or 16.1%, was paid to our 8,839 employees as wages and for benefits to protect them and their families.

Taxes took 3.6%. This does not include the $65,875,000 we also collected from customers as fuel taxes for governmental agencies. We spent 72% with more than fifteen thousand other companies and individuals with whom we do business. This left 8.3% of the $368,760,900 as net profit. Slightly more than half of these earnings were paid in cash dividends to Allan Green and our other 46,174 share owners, who also received one additional share of stock for each ten held.

The department's private patio will be tastefully furnished and adorned with shade and portable plants to promote comfort and relaxation. It will be "take time" there and freshly buttered popcorn will be available, plus fountains and coolers.

Continually keeping aware of modern innovations, the air conditioning and refrigeration department's applications extend from simple home essentials to complex industrial processes.

These departments are among the foremost essential industries. All exhibits are in the Mechanical engineering building, convenient to large parking areas, which are reserved for Mr. and Mrs. Poly Royal Viatuer and family.

Announcements Made

Gal Poly's Audio Visual department will make announcements during Poly Royal over the chime tower, announces Marcus Hold. Any organization which wishes to have an announcement during Poly Royal should try up the announcement and have it approved by Carl Back, C. G., or John E. Jones, Admin. 186, visitors to the Poly Royal booth.

**Printers On Run**

**During Royal Days**

Cal Poly's Printing Engineering department is operating in full swing during Poly Royal, with what is expected to be the department's best Poly Royal exhibit yet.  

For the first time, the department's offset room will be open in order that the guests may see the progress being made in that division of printing.  

All of the presses and machines will be working during the even, prevents the regular scheduling of the department, and novelty printing. Guests may receive personalized programs of Poly Royal events printed by students in the shop.  

The college's printing services are  

Other things going on in the shop will include demonstrations of typesetting, commercial work, book work, and newspaper printing.  

**Stereotyping will also be demonstrated in the shop.**  

A formal gathering and dinner of students, alumni and employers of the department will be held at the Anderson hotel in San Luis Obispo for all Poly Royal students and staff.  

"We expect this to be one of the department's biggest and best ever," said Robert Houghton, chairman of the 50th Poly Poly Royal committee.  

**Wax Always A Scapegoat Till**

J. Paul Sh...* Was Always A Scrooge But Till Wildroot *sam-Oil Gave Him Confidence  

"BIG TOP" SPECIAL ON MEN'S  
WASH 'N WEAR JERSEY KNIT POLOS  
That's right... fine 100% Orlon jersey... machine wash it, dry it without special fuss, and wear it again without any ironing at all. Man, that's real Wash 'N Wear... makes these Penney shirts worth shouting about even without that special Anniversary price!  

Plenty of style, color and comfort, too, for smart summer-long casual wear.  

**Wax Alway's A Scapegoat Till**

It set Shandy's geat the war everyone kidded him about his messy hair. Even his girl friend in "Shandy, you slugby stinker, you talk confidence," or something.  

Well, I had to admit I'd always sneered a bit at being wild. Wildroot Cream-Oil. Now he has confidence in every situation because he knows his hair looks bally and handsome, the way Nature intended... just neat for green. Wildroot Cream-Oil contains the secret of hair, the very best part of Nature's finest hair and only conditions. Try it yourself. Shatter gets a bottle or two of wildroot Cream-Oil now. With Wildroot on your hair, the girl will go on any lengths for a date with you.

Coeds ‘Assured’ For Fall Quarter; Old Timers Take ‘Showme’ Attitude

We’re not disappointed (best you know now), but just a bit ahead of ourselves on this coordination thing. But this is the first time they’re feeding us. Aided in years, for it was just a year (or so) ago the administration once again “promised” girls for the 1960 campaign—and we believed it, mentally noting we should “stick around to see it.” We believed it, too, (gullible as we were), when we were informed in 1950 to watch for coeds in ’58, but told later not to expect them before ’54. And, we alll it, mentally noting we should “stick around to see it.” We believed it, too, (gullible as we used to float humorously about that used to float humorously about ourselves), when we were informed in 1960 to watch for coeds in ’68, but told Inter not to expect ‘em before ’54. And, we alll it, mentally noting we should “stick around to see it.” We believed it, too, (gullible as we used to float humorously about that used to float humorously about ourselves), when we were informed in 1960 to watch for coeds in ’68, but told Inter not to expect ‘em before ’54. And, we alll it, mentally noting we should “stick around to see it.” We believed it, too, (gullible as we used to float humorously about that used to float humorously about ourselves), when we were informed in 1960 to watch for coeds in ’68, but told Inter not to expect ‘em before ’54.
