**Luckman to receive President’s Medal**

Renowned architect and businessman Charles Luckman will be honored during the morning Commencement ceremony on Saturday, Dec. 10, as the second recipient of the university’s President’s Medal of Excellence.

The award will recognize his services and contributions to Cal Poly, the California State University system, and the worlds of architecture and business. He helped guide the founding of the College of Architecture and Environmental Design, and his financial generosity, advice, and sharing of knowledge with Cal Poly’s students aided in building the excellence for which the college has come to be known.

Luckman served 22 years on the CSU Board of Trustees.

**Trustee Considine responds to Senate concerns**

CSU Trustee Chairman Jim Considine has replied to an Academic Senate letter stating concerns about statements Considine made at Fall Conference.

Those concerns were summarized in the Oct. 1 Cal Poly Report:

1. That under the suggested “one-third, one-third, one-third model” for funding (which would have the campuses raise one-third of their financial support from external sources), those non-state, non-fee resources could not be used for instructional costs. In addition, faculty time would be taken from instruction to assist in obtaining those funds.

2. That the transfer of information is a secondary role of higher education, its primary role being the teaching and learning of fundamental principles and critical thinking.

Considine’s response to these concerns is briefly quoted here:

1. “... To maintain the excellence in education that we have achieved, and ... to make that education accessible to the largest percentage of ... eligible students ... (we must) recognize the changing fiscal landscape ... In the absence of state funds, we are left with the choice of reducing quality, or serving fewer students, or seeking external sources of funds. I have made no presumption as to how those funds would be allocated, nor am I planning to let the state off the hook for providing sufficient support ... to fund quality education ...”

2. Regarding the role of higher education: “I fully concur ... that quality undergraduate education is about teaching and learning principles and how to think, but I also believe that a quality education requires students to learn how to access and utilize information and how to use the ‘technological tools’ that their chosen field of study demands.”

---

**New trustee appointed**

Stanley Wang, 48, has been appointed by Gov. Pete Wilson to the CSU Board of Trustees. His appointment must be confirmed by the State Senate.

The Los Altos Hills resident is a member of the Monte Jade Science and Technology Association and the Chinese Institute of Engineers.

Wang earned a bachelor’s degree in business/management from National Taiwan University in 1967 and a Master of Business Administration from Temple University in 1970.

---

**Forums set for head of Grants Development**

Candidates for the position of director of grants development will be on campus Tuesday and Wednesday, Dec. 13 and 14.

An opportunity to meet and visit with them will be provided in an open forum from 11 to noon in the rooms indicated.

- Dec. 13, Ag. Sciences 210 - Jeff Wright, director of sponsored projects at CSU Chico.
- Dec. 14, Adm. 301 - Michael Fish, coordinator of information services and technology transfer programs at George Mason University, Fairfax, Va.

Two other finalists have already been interviewed.

For more information, call Carol Brookshire at ext. 1508.

---

**United Way forms due**

Just a reminder: If you still have your State Employees/United Way Campaign form and would like to pledge, please turn it in to your unit captain. Captains should send completed forms (please be sure they’re filled out completely and signed) as soon as possible to Communications, Heron Hall 208.
Information Services to reorganize Dec. 15

Information Technology Services, formerly Information Systems, will reorganize Dec. 15. One of the biggest changes will be the expansion of what is now the Help Desk into a unit called User Support Services. Inexperienced users who need help with computing will be able to call ext. 7000 for answers to a wide range of questions. User Support Services staff members will help demystify procedures and equipment to help prospective users feel comfortable with computers.

Others on campus more familiar with computers and software will go through the User Support staff to reach technicians who deal with sophisticated problems and issues.

All faculty and staff members were sent a memo and roster that details the reorganization. The new organization is expected to evolve with the university's changing technology needs. With this in mind, observations and suggestions for improvement are invited.

Parking fines to go up beginning Jan. 1

The fines for parking illegally on campus will increase beginning Jan. 1. The new fees are intended to keep the campus parking fines more in line with those of the surrounding communities and similar institutions. The last general increase was in January 1987. The majority of the money collected goes toward alternative transportation programs for the campus. An example is Cal Poly's annual payment of $275,000 to subsidize city and regional buses, which allows Cal Poly employees and students to ride the city bus for free and regional buses at very low rates.

The fine increases will be:

<table>
<thead>
<tr>
<th>Old Fine</th>
<th>New Fine</th>
<th>Surrounding Communities</th>
</tr>
</thead>
<tbody>
<tr>
<td>No parking permit</td>
<td>$15</td>
<td>$20</td>
</tr>
<tr>
<td>Unauthorized parking</td>
<td>10</td>
<td>15</td>
</tr>
<tr>
<td>Bicycle lane</td>
<td>20</td>
<td>40</td>
</tr>
<tr>
<td>Bus zone</td>
<td>N/A</td>
<td>100</td>
</tr>
<tr>
<td>Blocking a disabled access ramp</td>
<td>N/A</td>
<td>30</td>
</tr>
<tr>
<td>Misuse of permit (stolen, forged)</td>
<td>36</td>
<td>100</td>
</tr>
</tbody>
</table>

The $250 fine for illegally parking in a disabled parking space and the $8 fine for parking overtime in a metered zone will remain the same. Those were increased in 1993.

Ag Engineering sets surplus auction

The Agricultural Engineering Department is planning a sealed-bid auction of excess property. Items offered can be viewed from 8 am to 4:30 pm Tuesday through Thursday, Dec. 13-15, on the ramp behind the Agricultural Engineering labs. Everything is being sold "as is." Successful bidders will be notified after the bids are opened Friday, Dec. 16.

Some of the items set up for viewing and sale include a metal cutting band saw, pant-o-graph cutting torch, hydraulic 25-ton press, arc welders, wood band saw, wood joiners, wood belt/disc sander, wood planer, metal shaper, Cummins V-6 diesel engine and Cummins 6-cylinder diesel engine, spot welder, arbor press, pedestal grinders, propane BBQ grill, radial arm saw, portable air compressor/generator set, electric motors, hydraulic parts, solar panels, plate glass, and semi-trailer axles.

For more information, call Jim Matheny, ext. 2432.

Class materials needed for library project

The Kennedy Library is working on a new "electronic reserve room" project and would like to include winter quarter class materials. Faculty members are asked to submit non-copyrighted materials to be put on the library's gopher server, the MUSTANG. Such items as class syllabi, lecture notes, class assignments, study guides and exam questions are being sought.

Because budget problems restrict the library's ability to extend its hours, the electronic reserve room is being provided as an alternative for students. Faculty members who participate in this project can also place paper copies of the material in the library's Reserve Room.

Submit materials to Ilene Rockman in the Library Administration office. For more information, call her at ext. 5787 or e-mail ilene@library.
Who, What, Where, When

Reviews by Bianca Rosenthal, Foreign Languages and Literatures, of "Der Glühende Leetext: Anmerkungen An Paul Celans Dichtung" and "Paul Celen: Holograms of Darkness" were published in the fall 1994 issue of Germanic Notes and Reviews.

A textbook by Michael Marlow, Economics, "Public Finance: Theory and Practice" has been published by Dryden Press, Harcourt Brace.

Bill Johnson, Music, served as an evaluator and lecturer at the International Music Festival at the Opera House, Town Hall and Music Conservatorium in Sydney, Australia. He spoke at the Asian Pacific Band Directors Association conference held in Hamamatsu, Japan.

Diane Michelfelder, Philosophy, participated in a National Endowment for the Humanities Summer Institute on "Re-thinking Technology: Philosophical Reflection on Technology Since World War II," at Penn State.

Gloria Velasquez, Foreign Languages and Literatures, was a featured author in the Hispanic Performing Arts Series at the Museum of Fine Arts in Houston. Velasquez was also interviewed about her new book series during the KLAT La Tremenda radio talk show in Houston.

Alyson McLamore, Music, presented pre-concert lectures for the San Luis Obispo Mozart Festival. She also wrote program notes for selected concerts of the Da Camera Society in Los Angeles and for Cuesta Master Chorale concerts. McLamore also presented a paper, "No Pains or Expense Will Be Spared...: Women Concert Organizers in 18th Century London," at the national meeting of the College Music Society in Savannah, Ga., and at the American Musicological Society National Meeting, in Minneapolis.

Philipp Tong, Dairy Products Technology Center, presented a paper, "Genetic Polymorphism of Milk Proteins and Their Technological Significance for Cheese and Fermented Milk Products," at the 24th International Dairy Congress, in Melbourne, Australia.

Hany Khalil, Food Science and Nutrition, spent six weeks in Megri, Armenia, training refugees in solar drying of fruits. He also taught Russian farmers in Krymsk about tomato processing. The projects were sponsored by Volunteers Overseas Cooperative Assistance.

M. Zafar Iqbal, Accounting, has been awarded a Distinguished Service Certificate by the Institute of Management Accountants.

Tim O'Keefe, Natural Resources Management, was appointed to the state Forestry Committee for the Resource Conservation District. O'Keefe gave the opening talk, "Urban Forestry: Evolution or Revolution?" at the Urban Forestry/
Position vacancies

More information and applications for the following staff positions are available from the appropriate human resources office. Official application forms must be received by 4 pm of the closing date or be postmarked by the closing date. Faxed applications and resumes will not be accepted in lieu of official application.

**STATE** (Adm. 110, ext. 2236 or job line at ext. 1533)

**Closing Date:** Feb. 28, 1995, or until filled.

- **Director, Health and Psychological Services,** $60,000 - $95,028, commensurate with qualifications and experience.
