Today's The Last!

Today is the last day to enroll for the winter quarter and add classes. All add slips must be turned in to the registrar's office by 8 P.M.

Shooting Accident Hospitalizes Cal Poly Student

Stuart I. Freedman, a Junior Agriculture Engineering student from Los Angeles was hospitalized last week after suffering severe injuries resulting from a firearms accident.

The accident took place in an apartment occupied by Abrams, also of Los Angeles, a friend of Freedman. The p.a.i. 1 returned from dinner earlier Thursday evening to Arabman's apartment building as an apartment building

While in the apartment, according to police reports, they had been "failing around" with a .38 caliber rifle, which when the accident occurred, Freedman was in the abdomen region, the bullet lodged itself in a bare muscle. Freedman was taken to the San Luis Hospital and it is premature to comment on his condition. It is safe to say that he is in the hospital with a broken leg. It is not yet known how the shot was fired.

Seniors Will Be Shot!

Senior pictures for the 1951 El Mustang staff will begin today through Jan. 21 in Aggiel. Individual appointments will be made in the mail boxes early next week. Senior Editor Sherrie Keller has announced.

Any senior who is graduating during the 1951-52 school year may have his picture taken at no cost. Additional pictures may be purchased from Dunlap-Turner, the photography firm handling the job.

Seniors who had their pictures taken during the winter quarter and who are still on campus may have their picture taken at no cost.

Any senior who is graduating during the 1951-52 school year may have his picture taken at no cost. Additional pictures may be purchased from Dunlap-Turner, the photography firm handling the job.

Poly Architects Win $1,000

In International Contest

Topping 86 American colleges entered in a recent international steel bridge design competition, three Cal Poly 1950 graduates have been awarded third place and $1,000. Coincidentally, all three Architectural Engineering students were from San Diego. They are James A. Wood, Jack A. Ber- ridges, now with Kaiser Aluminum and Chemical Company, and William O. Evers, now a San Diego Civil Engineer.

The Cal Poly trio was the U.S. leader in the college division of the contest which was sponsored by the American Institute of Steel Construction, the American Institute of Electrical Engineers, and the National Association of Architectural Students.

First and second place awards were given to University of Wisconsin students and to students at the University of Utah.

Budget Requests Due

Budget requests for the new year are due Jan. 11 and will continue to the 18th. The Finance Committee has authorized limited spending of $1,000, which begins Jan. 1. All 13 groups must present their budgets to the Finance Committee by the 18th. Any additional requests for money should be turned over to the Finance Committee by the 18th. Each group will be notified as to the time of their hearings.

It is estimated that the budget requests will be near $175,000.

Blue Key Starts Topping Tonight

Recognition for outstanding leadership and academic record will be given 27 upperclassmen in tapping ceremony beginning tonight through Thursday, Jan. 11. Candidates were nominated as the beginning of a tradition, tapping ceremonies by members will be held by Blue Key, National Honor Fraternity, will include 144 members who will become charter members of the new Cardinal Key, National Honor Society, to be established on campus, and 12 men who are prospective initiates of Blue Key.

Blue Key Charter members, will be distributed to tapping candidates, which prospectives include blue slip, which was given out that their records they have earned the right to membership in one of the two honor groups. Identity of these persons will remain unknown until they are tapped.

The reason given for tapping Blue Key Charter members is to receive recognition for honors earned or earned during their collegiate days. Membership in either of the two honor groups is regarded as a recognition for achievement.

Installation of officers in the new Cardinal Key chapter is scheduled for Jan. 17. At that time the winning Blue Key chapter will be instrumental in organizing the women's honor society, and will help in installing officers and aid the group in its activities.

The purpose of both Blue Key and Cardinal Key is to recognize outstanding leadership qualities and academic achievement, and to help members continue their activity in an organized manner to serve for the betterment of the college and community.

Parked Policy Changed

To Ease Space Problem

Faced with the task of easing resentment over the recent parking legislation, the Campus Parking Fee Legislation, the Campus Parking Fee Legislation, the Campus Parking Committee has initiated two major changes for this quarter.

With a main objective of utilizing parking space to optimum convenience, the committee has eliminated the staff reserved parking spaces and also removed any working one-pole system for student as well as staff members.

Dean Harold Haynes, Chairman of the Committee, said that parking spots have been eliminated because it was felt that many of the Committee, said the reserved part of the time and they could be better utilized by being open to all staff. Staff parking fees have been reduced accordingly and are set at $20 per quarter.

Dr. Walter Ferber, a Cal Poly student, I farm cars under the recent changes which were announced in parking Lot A. The fee will be $20 per quarter with $1 charge for each additional sticker. Each person who wishes to register.

Concerning parking legislation as appearing to be permanent. Haynes indicated that the Parking Committee is still trying to make the best of what was given them and will continue to work with. Explaining that the parking fee legislation is by no means aimed at self sustaining itself, but that it is trying to give the State Colleges to collect the amount to contribute for the building projects in this in mind it is implied that it will not be a regular income of the school. It is doubtful that fees could be levied in the future and the committee is open to suggestions from any student or staff concerning improvements which might be necessary for the betterment of the campus.

The Parking Committee includes James Mereon, President of California State Employees Association, Tolbert, Assistant Dean of Students Staff C.S.I.; Leo Philip of the Research Committee, Student Body President.

Speakers Set

For Religion Week

Religion in Life Week is scheduled for Jan. 21-26, during which time several programs will be given to the students of the university. The annual period of spiritual emphasis is a necessary phase of our college citizenship, and helps to reawaken us to true spiritual values and to remind us that such values will find an ample and proper place in our society.

Reservations for the dinner honoring the Religion in Life Week speakers, Sunday, Jan. 17, may be made through the Student Life Council office.

The dinner following the week's activities will be held in the Hart Union Building, San Luis Obispo. The cost is 50 cents per person.

The speakers for Religion in Life Week are: Pastor Walter Ruh, Junior, Los Angeles; Dr. Roy Tuttle, Upperclassmen, Los Angeles; Dr. Philip T. Davidson, Junior, Los Angeles; Dr. Charles McClelland and Rev. William J. Barry, Upperclassmen, Los Angeles.

Blue Key members will serve as ushers, and is in the public practice of the Church.

Ralph Beeman is presently a student at San Luis Obispo. He is in the University of California at Los Angeles, and is in the public practice of the Church.

The speakers for Religion in Life Week are: Pastor Walter Ruh, Junior, Los Angeles; Dr. Roy Tuttle, Junior, Los Angeles; Dr. Philip T. Davidson, Junior, Los Angeles; Dr. Charles McClelland and Rev. William J. Barry, Upperclassmen, Los Angeles.

SMITH GEARS SUPPORT

Dear Editor:

I have, through fortuitous circumstance, come into possession of three of the Cal Poly paper, "El Mustang." These include a treatise on table tennis, chess, and a letter, by a Mr. Smith, occurring chessplaying and its inherant niceties.

As I am no expert on these interesting features of college life, I am sure Cal Poly do not appreciate Mr. Smith and the beneficial service he is trying to perform for his college and the many other colleges which have been left behind in high school. It is a worthy of respect and perhaps a bit of reflection, Can it be that Cal Poly is worthy of Mr. Smith? I can see no basis of the various letters which I have seen, of this particular decision. Such a letter as I have seen is too concerned with supporting his position.

I realize that you probably are not appreciative of an outsider apparently trying to meddle in your affairs, but the situation appears to be worthy of our consideration and I would not take the time to write this letter if I were not interested in matters concerning your college.

Yours sincerely,

R. B.

Bank College
Portland, Oregon

Flying Eats

Countless times throughout the year in the midst of the hustling, bustling student body the figure of a person clad in a cleaner's overalls has been seen. The man has his own position, a part of the college community, and a part of our lives. He is the janitor, the custodian who takes care of the school as a whole.

It is futile to attempt to squeeze the amount of work he performs into a neat, summary statement. It is a known fact that we are an innumerable mass who demand a clean environment. This established, let me air my point of view.

I think it is most degrading that the janitor of Cal Poly is considered, by the students, as an inferior being. He is no slouch in his ability. On the contrary, he is capable of reasoning the characteristics of these parts of our college. Are we not rational beings? If one is incapable of attempting to understand these facts, one is not a true student.

All ho nsks In return Is the parts cleaned by the janitour, the parts cleaned by the janitor. Honors are given to people who perform well in their jobs, why not the janitor? Why is it that our school track and field record board in the gymnasium, hallway is not kept up to date? The boys to whom many of these records now belong, many broken two years ago, yet mightily disgraces all as not having given recognition for their work.

I am sure janitor complaints have been voiced, but for two years nothing has been done. This simple and tragic injustice adds insult to the injury of the boys. It seems the team receiving little recognition for their work, and yet tickets go on sale to the next seating for $3.00.

All ho nsks In return Is the parts cleaned by the janitor, the parts cleaned by the janitor. Honors are given to people who perform well in their jobs, why not the janitor? Why is it that our school track and field record board in the gymnasium, hallway is not kept up to date? The boys to whom many of these records now belong, many broken two years ago, yet mightily disgraces all as not having given recognition for their work.

Records Need Change

Before we launch into the activities of the janitor, let us see what is going on in the activities of the janitor. The janitor's main activities seem to be the cleaning of the buildings to which we belong, or the cleaning of the buildings to which we belong.

These Include a treasure trove of knowledge, treating with a group of students concerning present day concerns. They are capable individuals, the janitors, and they are worthy of the respect we as students should extend to them.

Changes in the activities of the janitor are needed. The janitor could be placed in other positions, the janitor could be given more responsibility, the janitor could be given a chance to perform in a more significant way.

Insect Invasion Set For College Hour

The campus grocery, "El Mustang," will be introduced by Mr. and Mrs. W. G. Nord, who are still a part of our college environment. From 9 to 11 A.M. in the Science Building the jellies will be in the bag. They will display 48 cases of rare insects from all over the world. The veteran collector, who describe themselves as natural scientists rather than entomologist, have collected their own insects, dried them, and placed them in the cases.

Home Economics Alum

At Work In Europe

Pauline Katherine Stark, a 1909 graduate of Cal Poly, has been selected for overseas employment by the U. S. Army Special Service. Miss Stark, a native of San Jose, was Cal Poly College dean during the second year of her assignment when she left for the last part of 1942.

While overseas, she will act as a recreation leader for two years in Germany, Italy and France. After her assignment, she will return to the U. S. Army Special Service.

"During the War II activity of Cal Poly, included national defense and war production training, the college's student body grew in size and gained maturity, according to the U. S. Army Special Service.

"Cal Poly has demonstrated the value of specialized training through its agricultural program and the Peace Corps. But there are other possibilities in the development of new and other specialized fields."

Quickly moves into the Cal Paly sports scene finds Internals Chairman Carlos Gonzalez putting up the call for intramural basketball participants with a newsletter. The Gauchos have entered a team in the forthcoming intramural league, which, according to Coach Carlos' basement, should start on (or around) Jan. 6.

Initial meeting for team captains or managers is scheduled for Friday noon in Cronland Gymnasium. Lists or open the new Man's Physical Education for placement purposes on Jan. 18-19 are in the office.

Word from Baseball Coach Bill Hink's office finds a meeting of all baseball prospects, both freshmen and variety, scheduled in Library 114 at 8:30 p.m. tomorrow, with a special call to returning lettermen. Baseball practices begins Monday Feb. 1 at 4:30, with daily two hour practices Monday through Friday.

Football Coach Chuck Hanks, who is blessed with five feet and ten inches of height and 185 pounds of weight, says the Gauchos are just in time. Currently looking for an experienced guard to fill out his six-man squad for the forthcoming season. Hanks likes his team 70 percent complete, but Economics Building on Thursday at 4:30 for a tryout with potential squad members.

Mustang wrestlers, Pat Lovell at 187 and Jim Blake at 180 pounds, will represent the Mustangs in the recent San Jose College Open Wrestling Tournament.

Due to the financial stress of the college, this column returns to El Mustang with a brief report. It's probably against the editor's latest judgment too, but she will not be denied. Thank you, Mother.

Now that registrations and related difficulties are nearly ended, we'd like to sound like readers early in November reminding you that Poly Roya is less than 30 days hence. Sound like plenty of notice, but the last month slips past.

Contemporary to popular belief, Californians are being asked to live dangerously. From an obscure corner comes the encouragement to "smoke in bed, California's third largest state in property through."

The Union."

Although most senior projects don't seem to register in the afternoon, here are some peeves of students:

Donald B. Allison, R.R., junior Architecture Center is in the college library. It provides audio-viual business materials and equipment to the entire college.

"Man, Time, and Environment" was the theme of a four and one-half hour talk emphasizing the future of higher education! Fuller, one of the world's most distinguished and controversial architects, spoke in the Engineering Auditorium last Friday to 260 persons.

It was held in an area where more than 15 per cent of all traveling was done on foot, Fuller said. "We must be ready for the time when man will eat breakfast, go to work, go around the world to work and be home in time for dinner.

Ed Karnin, ASB president here in '66-'67, studied in and was later employed by the COFB Foundation and is now working on the "Neison for President" campaign. Back on campus recently, he tells this one on himself. During the COFB solicitation assigned to help Secret Service men guard President Eisenhower during a speech, it occurred to him that he was better suited to the job of"Organization of the Idaho Dome was guest of the Soviets at the Moscow Fair this summer, and is generally recognized as "a visionary of the 20th century."

The short course was well received on the Kellogg-Voorhis campus. The second of these was held on the KooVoorhis campus.
