Class Attendance Falls; Rain Does Too

The 2.6 inches of rain that fell late last week and on Friday, Feb. 11, in downtown San Luis Obispo area is recorded in a slight damage to Cal Poly. The heavy rain also caused vehicles to skid on the roads and forced some students to seek shelter in the lobby of the library. The archaeologists studying this area by Van Gough, Royce, and Thompson, were unable to conduct further field work due to the rain, which made it impossible to conduct further analysis of the sites.

Famous Paintings On Display

At Campus Library

"Art suffers most from people who don't notice it," said Dr. Bertr Saunders, education instructor, during the recent informal reception, at which the art display in the library was unveiled. Dr. Saunders explained that the display consisted of paintings that were loaned to the library for a limited time.

The paintings were donated by a local art collector, who wished to remain anonymous. The collection includes works by well-known artists such as Van Gogh, Degas, and Picasso. The display will be open to the public for the month of March, and admission is free.

Collegeans Dance For Set 2. Feb 12

Jan Davidson, social chairman of the Cal Poly Cotillion Club, announced that a Cotillion Dance will be held at the Student Union on Friday, Feb. 12, 8:30 P.M. to 12:30 A.M.

A variety of activities will be scheduled for the evening, including a dance tournament, a Cotillion contest, and a Cotillion ball. The dance will feature music provided by the Cal Poly band, and refreshments will be served.

Campus Clinical Laboratory

Performs Important Functions

"Our Clinical Laboratory is a very important feature of the health service of the university," said Dr. John Thompson, department head of the new Cal Poly Health Laboratory.

"Little does Cal Poly realize how fortunate it is to have such a well-equipped and superbly staffed laboratory. The majority of students in the health science department will benefit from the services provided by our laboratory."
OUT OF THE DIN

Dear Editor:

I attended a very fine and thoroughly worthwhile program last Saturday evening, put on by our Student Affairs, and fully examined some of the results of the last effort in the activities that the male students in this university are putting on. I think that the value of their style of dress is the coming in college wear. Whether, for instance, boots, tight jeans, sunhats and accessories of this sort are things for doing the chores back on the ranch, but I can’t see any reason for wearing this sort of costume to a college function.

I often think it is quite possible that the recruiters from industrial firms that visit this campus take home the wrong impression. The student who is not wearing work clothes is putting himself on the list of people who want to work for large, progressive firms.

I wonder if the idea that a college campus creates a small drinking coffee in the El Corral with their umbrellas pushed in the back of their hand, have ever tried dressing in this dress code themselves. They should try it for a week. You might like it.

Sincerely,

Editor

--

SAC Recognizes Leading Seniors

Valuing are the outstanding seniors for this year as recognized by the Student Affairs Council. Seniors who have been outstanding in academic and co-curricular activities while attending Cal Poly and currently working toward the degree in the following academic fields were honored:

- Accounting
- Biology
- Business Administration
- Chemistry
- Communication Arts
- Computer Science
- Criminal Justice
- Economics
- Engineering
- English
- Environmental Science
- Fine Arts
- Geography
- History
- Human Development
- Mathematics
- Political Science
- Psychology
- Sociology
- Spanish

Mustangs Meet Matadors Tonight in Non-League Basketball Clash

After christening the new Men's Physical Education Building in the correct manner with an 84-45 victory over Occidental College Tuesday, Ed Jorgensen's Mustang roundballers plan to make it two in a row tonight when they meet the Matadors of San Fernando Valley State College in the new plant at 8:15 P.M.

Tuesday's contest saw the Mustangs sport off a comfortable 14-point halftime lead in the game staggers momentarily while the Toros boxed the Mustangs up to five points, then regained a 50-46 halftime lead.

Second half play saw Jorgensen, chief ball handler, affixing five assists to serve some exquisite leather under center, and Jerry Kuykendall and Jarrard Shackelford and Joe Rycraw were impressive in the last five minutes against the Dallas defense. We'll be seeing them together often.

Different, though as spacingly showed flashes of former greatness grabbing 11 points, most of which came in the second half.

Tonight's Mustang-Matador contest starts up as a carryover of the Oxy battle. The Valley State team has dreams of leading the L.A. State 108-93, Baldwin, 56-51, and Grand Canyon 87-61, while winning over Pomona 87-64, La Verne 86-83, and Cal Western 88-41.

Matador forward Jim Malkin will lead the State attack bringing a 18.4 points average, Joe Rycraw's 18.8 points, and a 18.8 average.

In the rebound department, Rycraw has amassed a fantastic total of 190 against the 157 for the contest at a 11.6 average. McCormick again follows with 180.

Joe Rycraw leads the Mustang scoring parade with 88 points in 18 games, for a 15.6 average, followed by Jarrard Shackelford's 88 points and a 18.8 average.

In the second department, Rycraw has amassed a fantastic total of 190 against 157 for the contest at a 11.6 average. McCormick again follows with 180.

McCormick leads in the free-throwing department, hitting 18 of 20 attempts, to date, for 90 per cent average, followed by Joe Rycraw's 19 of 28 attempts for 68 per cent showcasing.

BS CANDIDATES
Choose specialized training program, graduate study or direct assignment!

... As an RCA Engineer

Receive your BS in Electrical Engineering, Mechanical Engineering or Physics at RCA's expense, through the RCA Graduate Study Program. At the same time, you're beginning your RCA career as an engineer on a fully professional level, getting a head start in the job you prefer. RCA pays the full cost of your tuition, fees and approved tests while you take graduate study classes at the University of Pennsylvania, Rutgers University or the University of California at Los Angeles.

Or, you may prefer a different path aboard RCA Design and Development Specialized Training. Here is another of RCA's programs for engineers, in which you begin by working full-time on planned technical assignments. Experienced engineers and engineering management guide your progress. You may receive assignments in design and development of radar, aircraft electronics, computers, electronic equipment, radio and other equipment. As well as to electronics, semiconductors, material and devices, space electronics.

Your experience or advanced education may point your way to direct assignment. Degree of RCA engineering fields is open to the man who's thoroughly acquainted with the direction he wants to take and whose qualifications point this path to him.

There's a lot more that's extremely interesting about an RCA engineering career. You should have three or four courses in science and mathematics. You should plan on a career in the electronics field. You should be interested in a long time, physical or electronic engineering. You should like working with a team of engineers and management.

Leadership, Responsibility Stressed at Ag Ed Banquet

"Man to Match our Mountains" was the title of the address given at the Annual Cal Poly Agriculture Club Banquet held at the Veteran's Memorial Auditorium Saturday night.

Presenting the address was Howard B. Dickson, supervisor of agriculture at Kern County Union High School. Dickson stressed that leadership, responsibility, enthusiasm, and the daily implanting of fresh ideas are essential for developing youth to meet the challenge of California's rapidly changing agriculture. He said that these concepts can be created through Future Farmer clubs and through daily agriculture teaching for every individual, and the developmental effort of active minded agriculture teachers.

Rounding out the program was the presentation to outgoing president Charles Armstrong by H. H. Burlington, head of the Agriculture Teacher Trainer Department, and the installation of new officers.

The following are the AG-ED Club officers for the Spring semester: President, Leo Lamb; Vice-President, Logan Wilson; Secretary, Leo Schrauber; Treasurer, Tom Bowman; Sentinel, Donald Kuts.

Comedy Slated For CU Movie

Paul Newman and Joanne Woodward are the stars in the College Union movie, "Rally Bound the Flag Boys" to be shown Saturday, Feb. 16, at 7:35 P.M. in the AC Auditorium.

Roller Skating Party Scheduled for Feb. 12

Ralph Oppelt of the College Union Outing Committee has announced plans for a Roller Skating Party scheduled for Sunday, Feb. 14, at 7:35 P.M. in the AC Auditorium.

IBM WILL INTERVIEW FEB. 18 & 19

IBM invites candidates for Bachelor’s or Master’s Degrees to discuss opportunities in Manufacturing and Product Development... positions throughout the United States.

Laboratories and manufacturing facilities are located in Endicott, Kingsport, Owego, Waverly, Yorktown, N. Y.; Burlington, Vt.; San Jose, Calif.; Lexington, Ky.; and Rochester, Minn. Corporate headquarters is located in New York, with 198 branch offices in cities throughout the United States. The IBM representative will be glad to discuss with you the type of career of particular interest to you. IBM offers:

- Leadership in the development of information-handling systems.
- New applications for data processing and advances in computer technology.
- Favorable climate for continued career growth.
- Opportunities for a wide range of academic backgrounds and talents.

Contact your College Placement Officer to arrange an appointment with the IBM representative.

If you cannot attend the interview, call or write:

Mr. A. A. Baggott, Jr., Branch Manager
IBM Corporation, Dept. 644
S-285 Whitney Blvd.
Santa Monica, Calif.
Telephone 677-7010
