Poly's Rose-Parade Entry Captures First For Them

"Which came first, the chicken or the egg?" combined entry of the Cal Poly campuses at Kellogg-Voobis and San Luis Obispo, was awarded the theme prize in the Tournament of Roses parade judging.

More than 100,000 blooming flowers were required to dress the float which depicted a large hanging garden in a large box and another one, with 1900 tulips. Blinding in the hazy morning background was a smiling rose bush with top hat and cane.

Most of the flowers were grown on the Pomona campus. They consisted of violets-colored stock, roses, crocus blooms and maiden head ferns. Containers for the cozy had been grown earlier in the ornamental horticulture department, here, and shipped to Pomona.

The float was the first done by students of the southern campus, and the 1000 bloom was furnished partly from the student funds also.

This was the first time that a Cal Poly float has won a major prize in 10 years' competition. In the past, southern students have won first place trophies. There is also an educational division, and one award of merit.

Oxide Cutting Tool Subject of Expert's Talk Next Week

A unique talk on oxide cutting will be given by the Agricultural Engineering building, 11:30 a.m., Jan. 14. The talk will be given on the application of Tungsten Carbide as a cutting tool.

Exhibit is manager of Stupelo Industries, 12th and Laetura, Pix, the manufacturer of the Tungsten Carbide cutting tool, as advertised in the university's Student Directory, will be the speaker. He will talk of the successful introduce of the tool.

His talk will consist of a brief history of the tool, the advantages of using them, an explanation of their application in many fields of industry, and the importance of the tool in the field of cuttingly.

In the history of the tool, he will talk about his invention, the operation of the tool, and the application of the tool in various industries.

Lick Back After Polio Attack; 1093 Students Get Salk Shots

A familiar face has returned to Cal Poly after a forced four month's leave of absence. Larry Lichett, Polichio's first polio victim, returned at the beginning of the Winter quarter to continue his formal education.

Litch was stricken with polio at the beginning of the Fall quarter. He spent the majority of his winter in Loma Linda and San Bernardino.

Litch was stricken with the disease in January and returned to class in March.

In fact, only ten or so colleges in the entire United States have attempted to do this.

Musings on Your Life

Girls! Get Your Oldsters!

Women are making excellent progress in entering the colleges teaching field according to Dr. Harold P. Hayes, a professor of engineering.

In the past, women engineers are very few. Hayes explained this by saying that the shortage of women engineers is probably great in the states of Cal Poly's ten engineering departments. With the shortage of women engineers, the nation has given women more than a hearing. Women have chances of all times to become established in the field now.

We believe that women can be equal engineers and just as competent engineers, added Hayes.

He said that teaching opportunities were especially good in these states of Cal Poly's ten engineering departments. Agricultural Engineering, Agricultural Engineering, Animal Engineering, Mechanical Engineering, Electrical Engineering, and Mechanical Engineering.

Lichett is manager of Stupelo Industries, 12th and Laetura, Pix, the manufacturer of the Tungsten Carbide cutting tool, as advertised in the university's Student Directory, will be the speaker. He will talk of the successful introduce of the tool.

It is a fact that the tool is being used in various industries, and that it is being used in the field of cuttingly.

Enrollment Reaches 3798; Rain Dampens Moneyline

"This is the first time, in the 15 years that I have been at Poly, that we have held registration in the rain," commented C. Paul Winnar, assistant registrar. "The enrollment of 3798 full-time students is a record.

Two hundred and forty-four new students were registered on January 7. The total number of new students was found to be an even number of 8708. "Calculation shows that there are 13798 students enrolled in Poly," he added. Another hundred and thirty students will probably register on the evening of January 16th.

Cal Poly student, Larry Holm, a junior from San Luis Obispo, is also an animal husbandman student.

As the registrar announced the enrollment, the students were greeted by the Poly president, Julian A. Morris, who said that there will be about a 1500 increase in enrollment before registration closes.

FARM ADVISOR HAS RANGE LAND PLAN

Rehabilitation of brush cover on California ranges occupied major attention of speakers at the recent meeting of the American Section of the National Range Society, held at Cal Poly campus last Thursday.

"Much of our country responds to proper burning," he said. "The American section of the United States, the U.S. Office of Education in cooperation with the U.S. Department of State, has been under the supervision of the National Range Society. The President of this organization is Julian A. Morris, who is the President of Cal Poly and the Head of the School of Agriculture."

SPORTSCAPS

Former El Mustang sports editor and Pacific Coast Intercollegiate basketball playing champ, Francis Teers, has taken the big step. Ward has been retained and has been named the Mustangs' new basketball coach.

Big Stan Shariff, former Mustang center and Little ALL-American, is also planning on taking the big step in the near future. Ward has it that Stan, now with the San Francisco 49ers, gave his girl friend a football for Christmas. Inside the pigskin was a diamond ring.

Mustang quarterback Jerry Dunn, who played his last season of football for the Green and Gold this year, has signed with the Vancouver Lions in the Canadian Professional Football League. Recent reports indicate that Jerry signed with the Lions for $5000 with a $1000 bonus. The men who make a living from playing top notch professional teams seem to think quite a bit of Jerry’s ability. Some local fans are the top notch professional teams seem to think quite a bit of Jerry’s ability. Some local fans.

Basketball (continued from page 1)

Teamwork was evident in the Mustangs’ 72-17 victory over the San Diego State Aztecs. Jerry Dunn led the Mustangs to a 72-47 win over the高等学校 from the Border city scoring 21 points.

ANNOUNCEMENTS

Any gymnast who has had some experience in desire to come out and help Poly win some meets this year. If you are interested, come to the gymnasium Monday and Thursday at 4 p.m.

Discount to Poly Students and Faculty

Ten percent off all goods — 10% discount on all groceries, drugs and toiletries. Any parts bought through this avenue.

Who will be the first in the history of this college to reign over Poly Royal April 2A-27, when some 20,000 people are expected to visit the campus to celebrate the Silver Anniversary of a college founded on a college campus? Just prior to Poly Royal, a county fair on a collage campus to help celebrate the history of this college to roll on! Poly Royal Queen Pat Base reminds students interested in having in-gord material to scan the horizons for their hats into the ring. Here is the procedure:

- Secure a petition from the ABB office by no later than Friday, Feb. 1.
- Those on the reviewing board will include Haydn Loo, general manager; Gordon Kennedy, director of special events; Joan Newcomer, assistant activities officer; Mary Elba Murray, associate dean of student affairs; Etta Murray, associate dean of student affairs; Gordon Kennedy, director of special events; Joan Newcomer, assistant activities officer; Mary Elba Murray, associate dean of student affairs; Etta Murray, associate dean of student affairs; and John Valentine, freshman class president.

Drumm Appointed As Official Judge

George Drumm, head of the college dairy husbandry department, has been appointed an official judge of Guernseys for the United States by the American Guernsey Cattle Club. Drumm is one of the few judges in the Western states to be recognized as an official judge by the four dairy cattle associations. He previously was named an official judge for the Holstein-Friesian Association of America, the American Jersey Cattle Club, and the Aryshires Breeders Association.

ENGINEERING STUDENTS TO DISCUSS INDUSTRY CAREERS

Students majoring in chemical, mechanical, or electrical engineering are now scheduling appointments to obtain information on Food Machinery and Chemical Corporation, a major national producer of diversified machinery and chemicals. Company representatives will visit the campus on January 24 and 25. Arrangements for individual interviews may be made through the local college placement office.

WINSTON has the answer on flavor!

No guesswork here! Your first puff will tell you, this filter cigarette tastes like a cigarette! There's rich, full flavor here.

And a pure, snow-white filter that does its job so well the flavor really comes through to you. That's why Winston is America's favorite filter smoke. Make it yours!

Smoke WINSTON...enjoy the snow-white filter in the cork-smooth tip!
