LEADING THE FUN at Sunday's "Hootnanny" at the Temporary College Union, Hillcrest Lancers, were (left to right) Jim Batteck, Larry Litchfair, and Activities Advisor Jim Newcomer, at the piano. More than 35 enthusiastic golden throaters took part. Ambrosial Dale Crawley spent the afternoon singing with the left hand and making popoemen with the right. (Photo by Morris)
"The Customers Always Write..."

Dear Editor:

Here is something for your readers to think about—Opal Nash's reflections in her book, "Sharon's Secret". Here is a great birthday present for you. Your's are the finest, my friends. You really advance me more than I expected. But you really advance me more than I expected. I hope you have seen my latest release. Dick Crumer

Here's College Union

Many people wonder what happens in our present College Union building. Our College Union is a program. Our present College Union is the south of the mountain dorms and east of the residential lake. It is a 10,000 square feet of floor space in the main lounge and recreation area. We have one or two ping pong tables, depending on demand, chess, checkers, decks of cards, puzzles, magazines, a piano, fireplaces, a TV, etc. (just which won't stay fixed) and a snack bar. Also we have a cargo bearing and a double plumbing, built with the money raised by the students and furnished by the International Relations Committee. If you need refreshments furnished by the International Relations Committee, please ring the bell at the College Union building. We will be happy to serve you. The College Union building is administrated by the College Union Committee. We try to see that the building is kept neat and orderly, that the supplies are in stock, and present a good reflection that is interesting to all students in some phase.

We, the House Committee, organized the College Union committee. We built the College Union in order to be ready for use in the next week or ten days. We are also responsible for organizing the Student Garage. We would like all those who haven't come to our College Union, to your College Union. To come up and see what is available.

Southern Campus Getting New Gym, Other Buildings

More than one half million dollars in contracts for a men's gymnasium and a women's gymnasium will be placed for the Kellogg campus have been awarded by the Board of Division of Architecture, according to Hugh La Bounty, building projects coordinator for the Southern campus.

The new physical education facility for the men's gymnasium will be a two-story structure. With a total floor area of 11,000 square feet and a playing floor of 1,900 square feet, the gymnasium will have a seating capacity of 500 spectators. It will be 100 feet wide and 120 feet long. The gymnasium will have a physical education room, a multipurpose classroom, seven staff offices and a large stage suitable for assemblies and other student activities.

Although the gymnasium is designed as a men's facility it will also be used by women students when they are enrolled and for extracurricular events. Work is scheduled to start on this new project within 30 days and it is anticipated that it will be completed and ready for use with the opening of classes next fall.

"I'M THE WORLD'S GREATEST POET IT'S EASY TO SEE..."

From my title to my base, I seem poetry! Most poets praise one lousy moon at a time

But I love the whole galaxy of Rhymes, if one moon's poetic, why can you just bet

A full moon is poetic is poetic

Morals—Like a sky full of moons a Chesterfield King is lost in this world, . . .

Like your pleasure BID?

A Chesterfield King has something to Prove

No matter what smoking pleasure may take

You mustn't smoke without a Chesterfield King.

Mustangs Bow to Diablos 84-73
Play Host to Long Beach Next

After dropping an 84-73 affair to the Los Angeles State Diablos in the TV camera of the Mustangs cage crew is against the 40ers of Long Beach State. The Mustangs will be seeking their third win of the season Friday night in brandish Gym.

They defeated the 40ers 49-47 just a week and a half ago, and are hoping to do the same this week.

In the game at L.A. State, Price made. Doug Taylor came off the bench to saw 24 points for the Mustangs with an insering dunk shot, but his efforts weren’t enough. The Diablos proved to be too much for the Diablos of Cal Poly with their deadly shooting and superior height. The L.A. State Los Angeles State team hit on 60 percent of their field goal attempts.

The Diablos built up an early lead and were in control at 8-2 early.
The green and gold came out with a full court press following the intermission and closed the gap to 52-56 with just six minutes remaining in the game. But the height of the Mustangs put a stop to the Diablos’ rally and they pulled away. It resulted in Poly’s first loss of the season.

Bunny Grandberry and Tom Dunn followed Taylor in individual scoring with 16 and 15 points respectively. There is still the lead without Taylor’s second half total of 24 points of 40ers. Grandberry followed with 28 points and Dunn with 20 points in 18 minutes for a 13.5 average.

Coach Ed Jergenson’s team now sits at 2-2 on the season. Hopefully, in conference play they won 2 and lost 2.

Cagers Face Clowns in Exhibition Game

The Mustangs will be facing the Harlem Clowns of Chicago in an exhibition game at 7:30 Friday night at Cal Poly. The Clowns are a well known all over the nation.

They are under the leadership of the U. S. and will make a one-night stand in Cal Poly’s gym. Their bookings on the West Coast are with the Mustangs. The Clowns will be taking on the court as well known all over the nation.

Admission prices for the game will be at $1.50 for adults, 75 cents for students and 50c for children.

The number of high school students unwilling as freshmen in the college of agricultur- ester decreased 7 percent last year over 1952 figures.

"BY THE RAILROAD UNDERPASS" WE GIVE 50c GREM STAMPS
The Bells Were Ringing for All the Girls in Dorm Mayhem

The time was late Friday afternoon the day before registration. The scene of the crime was Jespersen Dorm. The boys were in the lounge, visiting some of the girls (naturally). Suddenly complete mayhem broke loose. The buzzer alarm was set off. The only ones who seemed to take this with any real seriousness were the boys who were sitting around in a complete dither.

In normal circumstances the buzzer system in Jespersen is not a thing to be tampered with. The thought that the boys had thought it should be, was, they felt, a joke. The buzzer kept going even after the girls had stopped their frantic minutes telling that the doors were closed.

Ruthie, who was in the lounge visiting at the time, were running around in a complete dither. Visiting the room, frantically telling her not to come if she didn't know who she was, she pulled a red lever on the little red box marked "Fire." All she did was tie the wire on the buzzer system, while the boys thought it shouldn't be, so—

The boys were in the lounge visiting some of the girls at their home, and American Dean Mary Etta Murray who was not at her desk at the time, was calmly saying, "Here's how you shut it off. she pulled a red lever on the little red box marked "Fire." All she did was tie the wire on the buzzer system.

At registration the scene of the crime was Jespersen Dorm.

Ruthie came to the rescue (no naturally.) Thinking back upon the incident now, she said, "They must have thought I was completely nuts." Upon investigation, two cool heads were found in Julie and Margaret, who pulled the vital lever. "I swear to God, Mrs. Nichols, lay in hand, shut off the fire alarm."

"All things considered, it was a rather dull day before registration.

College Men See Similarity Between Women & Tobacco

One of the latest, we think, little lessons to be learned by the world, is that there is a definite, usable analogy between women and tobacco.

Men who smoke it, they're clean. They're not stingy. They're not cheap, as they say. They're not hard to please. They're not picky. And they're not the sort of boys that you'd want to follow around with a red lever on the little red box marked "Fire." All they did was tie the wire on the buzzer system.

The largest freshman increases in American colleges and universities, as compared with 1935, are in engineering with 8.1 percent, teacher training with 7.9 percent, and in arts and sciences with 5.8 percent.
