Five New Candidates Toss
Bonnets Into Queen Race

Five new candidates have thrown their proverbial bonnets into the ring for Poly Royal Queen. They are Val De Grace, student of the San Luis Obispo Native; Dorothy Holbrook, student of the Fresno County; Elmer San Diego; and Margaret Meade.

Engineers

PHYSICISTS - MATHEMATICIANS

Graduate to a LIFETIME CAREER with

SPERRY

Step from school into the satisfying kind of work that only an expanding, nationwide organization like Sperry can offer. You'll be able to choose from a variety of fascinating fields. You'll share the sentiment of contributing to the long list of Sperry engineering "firsts"—a list which has been growing faster than since 1912. You'll be with a side which values educated engineers and education. And, with new divisions of Sperry housed throughout the country, you will enjoy the unique advantage of "getting in on the ground floor" of a solid, 47-year-old organization!

Opportunities Available at These Locations:

BIRMINGHAM, ALABAMA - Electric Control Laboratory
BOSTON, MASS. - Physical Laboratory
BUFFALO, NEW YORK - Medical Equipment Center
CINCINNATI, OHIO - Sperry Gyroscope Co.
DALLAS, TEXAS - Sperry Electronics Division
DULLES, VIRGINIA - Sperry Plastics Co.

These are modern, air-conditioned plants with on-site recreation and facilities. Here are graduate-trained engineers and experienced personnel. You'll take the first step toward the careers of your life by talking to the Sperry Sperry Employment Manager who will be at your disposal.

Obstacle For RVOP

Dear Editor: I read with interest the article "Mara Armentrout Dies" in the Jan. 30 issue of El Mustang. I have had considerable experience in running restricted radio stations, and have authority to comment (can I say that with tact?)

I have been studying the Federal Communications Commission regulations regarding restricted radio activities, and have had considerable experience in keeping with a strict policy regarding restricted radio activities. Pomona College operates a FM station, KSPC, and I have been assisting this station in its efforts to operate stations employing "restricted" frequencies. The Commission usually requires that efforts to operate stations employing "restricted" frequencies be diverted to educational FM stations. Such an educational station can be an asset to the community and can be an added source of revenue for the Poly. However, I will be glad to discuss our experiences with you regarding restricted radio activities in general and restricted operations in particular. These rules are part of a general picture of priorities in relation to wartime law.

Mustang Boxers Host Strong San Jose State Ringmen Saturday Night

Returning to Chinatown with a
Chino State last week 4-1— Andrew.
Coach Tommy Lee was disappointed in the
showing of his boxers who
weren't too sharp and seemed to
tire early. Hoping to avoid this
same difficulty tomorrow night.
Lee has put his boys through the
hardest week of training this far.
Although the Mustangs were last
week's match, they took the top
man in the 135 lb. class, Don
Takayasu, who blasted his mouth
and suffered a slight
season. Finally disappointing was
the upset suffered by Poly's Frank
Stapleton surprised the Mustang
men in their outstanding boxing program.

Cal Poly RINGMEN

Cal Poly WIVES

Cal Poly has what is expected to be
San Jose State's strongest contingent
for either middleweight or 168.
San Jose State's highly rated
boxing team can be credited to
their outstanding boxing program.
This program is divided into
phases which allows Coach
Kishman a choice of several top
performances for every weight
division.

Assistant coach to Montana
Townsend is expected to
bring a large crowd.

While the Mustangs downed,

TRACING

Spring track! This was the
announcement made this week by
Coach Jim Jensen when he
issued a call for all interested
track men to
turn out for the track team.
In turning out for the track team,
the athletes are giving
finishing as one of the
most successful
seasons.

All ball players can get gloves
and chain to hand when the FIRST
match gate underway at 8 p.m. sharp.
Wives for you

WINSTON TASTES GOOD!

WINSTON gives you the break on flavor!

Time out for flavor — and what flavor! This filter cigarette
tastes rich and full. And its pure, snow-white filter does the job
so well the flavor really comes through. Winston is the
filter cigarette you enjoy — that's why it's America's favorite!

Smokes WINSTON... enjoy the snow-white filter in the cork-smooth tip!
Champ Bull Rider
Of 1954 Poly Royal
Returns to Campus

By George Pulman

Tony Araujo, champion bull rider of the 1954 Poly Royal, has returned to Cal Poly this quarter after a year in the Army. Tony, who is majoring in animal husbandry, has competed in many R.C.A. rodeos in the country, including those at the Sunset, Denver, and the Coliseum in Los Angeles. Being rather bashful, he doesn't readily admit his winnings, but they are known to include the championship of the 1953 Del Monte rodeo and nearly a half dozen trophy belt buckles.

When he returns to campus, Tony was a member of the rodeo team for two years and hopes to rejoin the group this spring. He has competed in all five of the team's events - bull riding, saddle bronc riding, bareback bronc riding, calf roping and steer roping.

Next home is the 80,000-acre Tejon Ranch near Bakersfield. He was ranked on this, the largest single-plant ranch in California, where his father is cattle superintendent.

Practical Value Is
Top Factor In
Student Motivation

What motivates students to do well in a class?

Finding the answer: Dr. Joseph Norman, professor of animal husbandry, has conducted a survey of 287 students, who were asked to indicate whether a questionnaire should be filled out to assign them to a discussion meeting of the quarter. For example, for the question: Are you interested in hearing about Teach? The students were asked to indicate whether they would be interested in hearing about the subject.

The most frequent response was that they were interested in hearing about the subject. The next most frequent response was that they were interested in hearing about the subject, but did not want to be in the same class as the teacher. The third most frequent response was that they were not interested in hearing about the subject.

Final Examinations

March 14-19 Inclusive

The hour and day each final examination takes place is determined by the hour and day which your class meets during the quarter. For example, if you have a class which meets on Monday, the examination will be held on Saturday, March 18 at 8 a.m. in the regular classroom.

The list of final examinations for this quarter is as follows, and the examination will be held on the indicated day at the time indicated.

Next name: the instructor's sympathy and understanding of the student and his problems, and his willingness to answer questions, 4 per cent; each student's knowledge of his progress, and grade, 25 per cent; each student's emphasis on fundamentals rather than details, 20 per cent; and each student's emphasis on his instructor's attitude, 20 per cent.

Total: 100 per cent.

The final examination is a test of the student's ability to apply the knowledge he has gained during the quarter. The students are required to hold final examinations on the last day of classes and at the time indicated.

Examination times for courses which have not been listed below, will be published at a later date.

Final exam schedule for class

Monday meeting: M-F 9-12; 1-4; 7-10.
Tuesday meeting: M-F 9-12; 1-4; 7-10.

Final exam schedule for class

Monday meeting: M-F 9-12; 1-4; 7-10.
Tuesday meeting: M-F 9-12; 1-4; 7-10.
