**Blue Key Blood Drive Tomorrow;**

**Donors Needed for Campus Bank**

Nearly 60 students have signed to give blood tomorrow in the first of four blood drives planned by the Blue Key Blood Drive Committee. Blood will be taken Monday, Tuesday, Wednesday, and Thursday, from 8 a.m. to 1 p.m. at the ASB officer's desk.

**Birthday Cake**

El Mustang was the donor of the music for last night's Tente Show. Transportation will be provided for those who wish to attend the show and will pick up at the Mustang office 30 minutes after the show begins.

The actual taking of blood will be done after the show. Since the show will begin at 7 p.m. and end at 9 p.m., the blood will be taken at approximately 9:30 p.m. Donors can expect to spend 15 to 30 minutes in the blood room.

**Welcome Week' Designed For New Fall Students**

The real Cal Poly "howdy" is being planned under the title of "Welcome Week" for new students this fall. The Welcome Week Committee takes over the old Orientation Committee, said El Mustang editor El Fraschman from Wason. The entire series of events is being planned for Welcome Week.

**Chapel Committee**

Support for the Guidance Docs as a campus chapel has been assured by the Chapel Committee. A new room will be added to the current chapel structure on campus, and the chapel will be a 100-seat facility.

The chapel would be a social, educational, and recreational center for students. Estimated cost of the project is about $80,000, and the plan calls for on-campus construction.

**Yearbook 'Put to Bed'**

The Poly yearbook, "Eye Wide Open," was completed this week. The budget for the book was $20,000, and the final cost was $22,000. The yearbook is printed on 108 pages of text and 44 pages of advertisements.

**Finance, Council Consider $365 Campus Radio Grant**

Cal Poly may have its own official campus radio station in the near future if things work well with the decision of the finance committees according to campus radio proponents.

One of the most pressing problems facing the station, Robert Andrews of the English Department, comments: "We envision a campus radio station that would supply institutional possibilities for the AP Journalism, English, Audio Visual, and Elementary Education Departments, and unite the school and community in communications activities at will.

The effort to create a Poly's first station encountered an opposition reaction by students of three engineering majors, Don Blakeney, Phil Bicly, and a Garden Browning. With some of the engineering department committee, at present, will be able to pledge to their radio station.

According to the agreement, the proposed student broadcasting system, in the future a Federal Communications Commission-authorized low-power radio station, in the future a Federal Communications Commission-authorized low-power radio station, will be used for public service announcements, public affairs programs, and public service announcements, public affairs programs, and public service announcements.

"This thing which makes college life so popular; it will be like a radio-frequency (RF) station and a radio station.

The "Whitney Current" will serve as the student pastoral radio station, using student-owned equipment made available for the purpose. All stations will be available for student use, and the stations will be under student control.

The "Whitney Current" will provide student control over the station, and the station will be available for student use. The radio station will be controlled by student representatives of the student body election, and the station will be available for student use.

**Security Officer**

**Saffron Summers**

Thomas A. Laramy, Cal Poly senior security officer, has accepted a new job after he graduates from the Administration Building. The new position is in the Engineering Department.

Laramy, 50 years old, said: "I have to take over the position of the Fire Department where I worked for years. I was on the midnight shift, and I have been on the midnight shift for years. My job is to monitor the campus, to keep the campus secure."

He is survived by his widow, Joanne, and his daughter, Dona, and a daughter, Diane, and a daughter, Diane, who was born in Columbus, Ohio.

**Engineer's Unit Ready in September; Fisher, Will House $500,000 in Special Equipment**

By Gill Pelece

The new $1.5 million engineering building will be ready for occupancy in September, according to Dr. Clyde F. Fisher, Cal Poly's building program co-coordinator. The college's second largest permanent structure will house primarily the facilitics of the Electrical and Engineering Engineering Departments.

"The building is almost ready for occupancy, and the building is almost ready for occupancy," Dr. Fisher said. "The building is almost ready for occupancy, and the building is almost ready for occupancy."

**Happon Aftion**

Dr. Bruce Kennedy, head of Cal Poly's French Department, has announced that the department is offering a special course for the fall semester. "Much of agriculture's future is in France," Dr. Kennedy said, "and we feel it is important to prepare our students for the future in France."
The Gavel's Beat
By ABB President Ed Hively
Elections Upcoming
Again, the time has arrived for the
ABB elections. This time next
week, interested student govern-
ment members will get a big push and
everyone seems to be aware of the
good of the college. Sometimes you can
even add in that statement—the
college. But the one strange thin-
g is the whole “student govern-
ment” thing seems to not affect the
average student very much. Even
before the Student Council, a lot of
people were uninterested.
This year, your ABB officers are
hoping for a good turnout for the
students to come before the Council or their
secretary when important issues of anyone who you think would
want to run for a good turnout for the
week.

Do you want representation through the student.s, through
the ASH office and ask for the election of anyone who you think
would be a good office holder? These officers will
be brought out.

Poly Given Hand
At Whale Rock
Open Water Forum
Cal Poly received a verbal
round of applause today as the
Whale Rock Water Project
was discussed at a T.L. High
School with two sides agreeing-
ly that the campus of Cal Poly
will need much water in future years but
does not disagree on the necessity of
students being involved in the project.

L. F. Terrell, Chaparral opposition
leader to the Whale Rock project,
was especially ttlled on a phone call by the
April 8 San Luis Obispo Daily, enthusiastically told an political
organization of the project.

The final resolution was over-
whelming, and many times I've wished we had
enough time to talk in the future.

The College will receive, if the
project is approved, a two-
year lease of the campus
worth a year. San Luis Obispo is
to receive 3,500 feet, the Men's Colony for 1,500 feet.

‘Spring Fling’ Set April 13;
Student Teachers To Sponsor
'Spring Fling.' California
Student Teachers Association
sponsored dance, will be held from
6:30 p.m. to midnight, Sat., April
13 in Cranfill Gym. Music will be
played by the student council.
Poly Royal Queen Val DeJesus
will stage a contest over the
dance.

Bess Germann, Blue student
major from Tempe City is president of
CSTA. Val Morden, education
major from Fullerton, is refresh-
ment chairman. Business manager
is Barbara Lomas, animal husbandry
major from Fullerton, is refresh-
ment and decoration chairman.

Smug has been 'Viewpoint'
leader. In First California
supporting the damage in air pollution.

Proposed New Government
These past few weeks we have
heard much talk about the propo-
sed new form of government. It
seems most of the people I have
talked to are not very sure if this is the
right answer to our problem. I have
also been hearing at this govern-
ment and I am sorry to say, it appeals to me less each and every
time. There are some things which should be added and one
of the main things is...

Do you want representation through the
individual divisions of student.
your only representatives in the
student council.

EL MUSTANG

Four Mustang Mittmen
At National Ring Meet

Coach Tom Les and four
ring tapers are packing their
bags for the trip to Provo, Idaho, and the NCAA

Seeking national honors will be
four of the greatest Mustan
119: Bob Givens and 114: Don

Guasch.

Lakeland, with a 7-3 record, will be at the)
ring meet. However, the first day
was a close one for the first time this year. The

pitchers were a 13-2 victory.

Melvin, who faces the

W. M. Bartick, in the semi-

the 122-pound event

he had no bouts during the three days since there was no

competition.

Bob Givens, sporting a 10-2 record,

represents the Mustangs' main
candidate for a national winner. He

won the 147 pound division
crown in his first year under Coach Milt.

Don Adams, with a 6-1-1 record,

is the Mustang pitcher in the 195-pound

division. Former Mustang Mike Kehlman is the favorite in the

174-pound event.

Mustang Athletes
In Busy Weekend

Mustang athletes have an active
non-affected schedule of activities during the week. They

will participate in a variety of contests and keep their

athletic form sharp.

On the gridiron, the game of the night will be Coach Howie O'Daniel's

mustangs will face their toughest opponent of the season in the shape of the

Bears from the University of California. It will be the first time in Poly's

history that Poly will be playing a dual

The Poly team under the guid-

ance of Coach Rick Jorgensen will have its 12-man roster

on hand at home Friday, the Bulldogs of Fresno State will arrive to face the Mustangs.

After the Poly-Tulane game of the season, Coach Jim Sears will travel to the

West Coast to take part in the annual Cal Poly Athletic Club

Banquet. He had his best performance of the season last year.

Finally getting a break in the weather...
Interviews Listed for March, April

Since a calendar of job interviews are placed on most engineering department bulletin boards and at other locations on campus, the regular Placement Calendar will no longer appear in each issue of El Mustang. Below is a list of organizations planning to interview. Other departments will also list their placement needs. The Placement Office may be contacted for details and appointments.
