MERCY BOWL

Mercy Bowl tickets are now on sale in the ABB union and downtown stores. The football classic is scheduled for Friday, November 14, at 7 p.m., and all proceeds from the tickets will be sent to the American Red Cross. The event will feature the annual Mercy Bowl Rag Team, a special guest from San Francisco, and lots of other fun. Don't miss out on this exciting event! Ticket prices are $2.95 for adults, $1.95 for students, and $0.95 for children under 12. Get your tickets soon, as they are expected to sell out quickly!

SAC Report

Mayhew Asks For Help
In Mercy Bowl Support

By Jim McClain, Staff Writer

Out of more than 65,000 Mercy Bowl tickets distributed so far, only 1,900 were sold as of last week, George E. Mayhew, Mercy Bowl committee representative, told the Student Affairs Committee Tuesday night in Library 114.

"We've got to get out and sell tickets," Mayhew said.

"All of us should have Mercy Bowl in our hearts," he said. "It's all right, but I think we can do better." He added that the committee is planning a publicity drive to increase ticket sales.

"It's too late to discount," Mayhew said. "We have to do everything we can to get people to come.

"If you can come, bring a friend," he concluded.

Five Staff Members
Selected To Serve
Planning Group

Vice President Robert E. Kennedy, acting on behalf of President Julian T. Nelson, announced the selection of five college staff members to a newly organized Campus Planning Commission.

The men appointed to study and evaluate the approach of the overall campus master building program are: Dick Chidlaw, engineering; John Wilson, business manager; Doug Wagner, financial director; William Phillips, Architecture Engineering instructor; and Robert E. Kennedy, vice president.

The committee will be chaired by President McPherson and will be made up of the following:

- Vice President Robert E. Kennedy
- Dick Chidlaw, engineering
- John Wilson, business manager
- Doug Wagner, financial director
- William Phillips, Architecture Engineering instructor
- Robert E. Kennedy, vice president

The appointment of the commission is part of the overall planning activities of the State Colleges Council. The committee will conduct a series of meetings at the State College Council headquarters on the subject of the future of the campus.

No Complaints On Registration

In a recent survey taken by Harriet Holley, college registrar, there were no complaints about the present registration procedure.

"No one seemed to mind the new system," Holley said. "People were all in favor of it." She added that the system was well-received by most students.

ỏ\nThe students who were surveyed were all in favor of the new system, and many said they preferred it to the old system.

**HAVE WE FORGOTTEN?**

Have we forgotten so fast? Has the sorrow that we felt last October for those members of our football team who perished in that tragic air crash vanished?

I can't help but feel that the remembrance of the atmosphere on campus. Everyone was struck by the tragedy, and everyone at Cal Poly has felt at least the shock of those who perished from the disaster. A Memorial service was held in the Memorial Amphitheater, and it was attended by all who could possibly have been present. Almost everyone on campus was present at the service. The sympathy and support extended to the families of those who perished was remarkable.

A year has now passed and in this time a Memorial Fund has been established to aid those who were involved in the crash and their families. These funds have been received from throughout the world but more money still is needed.

With Top Horse (Brock), Wendell Miner, Dan Omeara, Ray Porras, William Stewart and Van Horn, have we not an opportunity—and a moral obligation—to contribute to this fund.

In Los Angeles, the Mayor and Governor Brown were present at the gathering between Black Green and Fresno State with all proceeds going to the Memorial Fund. All of us should buy a ticket, if not to attend the game, just to contribute to this worthy cause.

So far on campus we have sold 900 tickets representing a student body of 600. Wonder what the total amount sold on campus is so small?

Have we become aware of quite a few names of Rod Haughton, Guy Heming, Vic Hall, Curtis Hill, Jim Lachet, Wayne Sorenson, Lynn Lobaugh, Larry Austin, etc., who were killed? How about the others?

Our attendance "would probably result in a lot of fun, and the Kingston Trio incident, in which it was stated that their attractiveness and musical ability are chesting and why they should be treated with respect, will receive, but it will also affect the quality of life on campus. When these people graduate and do not have the respect that they should have for a graduate, the college’s standards will be lowered in the public’s eyes.

We believe that a student who has the extra money that should be used. This will put the responsibility of honesty where it should be and that is with the students. Those who are worried about having 900 student tickets, say they must have something to hide.

Robert R. Pierce

**Mathematics Major Is College Chess Tournament Champ**

**By BETTY KINGMAN**

Steve Maseiro, junior mathematics major, has taken his place in the California College Chess Championship and is listed for 16th place in the Orange Open Chess tournament this year. No. 22 in the line-up of tournament pictures including the Orange County, Los Angeles, and San Fernando College Chess Championship is Steve Maseiro.

The California College Chess Championship started three years ago by Cal Poly and is held annual.

A proud record was set early from throughout the state will participate, playing a total of five games.

The U.S. College Chess tournament held in Washington D.C. during the summer is the National Chess Congress. Here competition is for a national champion, and is open only to national chess congress members.

Steve holds a perfect record since his arrival at Cal Poly and has been ranked number two in the country since the beginning of the season. Steve has been ranked number two in the country since the beginning of the season. Steve has been rated by the United States Chess Federation as the best chess player in the country.

Each player is rated on a scale from zero to 2500. The higher the number, the better the player.

Steve is the highest rated player in California. He has been rated number one in California for three years.

There are several first place awards for the year. The first place award is to the player rated number one, the second is to the player rated number two, and the first place award is to the player rated number three.

Library Book Loss
Totals More Than
$1500 Each Year

Students who probably wouldn't consider robbing a bank succeed in stealing more than $1500 worth of library books last year, according to Head Librarian Prin­
cipe. Although it is difficult to prove the guilt of students found in possession of books, an annual inventory reveals that such losses are more than offset by the savings of rising book prices and possible penalties.

In order to prevent such losses, the library has installed several turnstiles adjacent to the circulation desk. All turnstiles are located in a combination entrance-exit which will make it possible to follow a student as he goes through the library. Records are kept on the turnstiles, and new records are compiled whenever turnstiles are opened.

Eight different jobs were chosen by the girls this quarter. They are the following: manager (one), chef (two), cook (two), housekeeper (one), assistant cook (one), and assistant manager (one). One of these jobs every 5-7 days will be taken by each group in their first opening. These jobs are not required to be functional on the weekends.

All finances are managed by the girls with sleep, water, and light payments being provided by the school. All cooking, laundry, repair, and furniture are purchased and paid for by the girls. This modern home consists of a 3-bedroom, 2-bathroom, and living room.

Management House Practices

"Learn By Doing" Theory

By DANA DAMRON
Staff Writer

Cal Poly's "learn by doing" philosophy is well used by the Home Economics students living in the Home Management houses located directly behind the main campus. This house was completed in Janu­ary, 1960, with Miss MacVanner as supervisor. At the time of the Fall semester, 1960, Miss MacVanner hired an advisor that is still carrying on her job with the house. The purpose of this curriculum is to give the girls for manage­ment of a home and to teach them the value of the distribution of time, money, and energy. Each girl must keep a budget, plan, and carry out her job in a creditable manner. This curriculum also includes the teaching of managing a home. It helps the student develop a strong sense of responsibility in the home and family living.

In addition to the cleaning and maintenance of the house, the girls are also responsible for cooking and preparing meals in it. They must also keep a budget of their expenses and plan their time accordingly.

Because students must complete health forms before registration and are given complete physicals at the time of admission, all students are held responsible in reference to particular problems and their treatments.

Even if a student is in the Hospital for more than a few days, his previous medical history is checked and new records are compiled in connection with the physical examination, diagnosis, and treatment, stated Dr. Lovett.

All reports and records are gathered up by the student, and it is the responsibility of the student to keep them in good condition.

The downtown auditing committee is in charge of the college in any way, and is very critical of the hospital standards of procedure and operation," stated Dr. Lovett.

This group questions the effectiveness of a patient's prescription, or if any oral, written, or telephone orders were necessary after the patient left the hospital.

All reports and records are due before November 10th. Students who do not have them on time will have their grades lowered by one letter grade.

"They make it possible to follow a patient's progress regardless of where he is treated, stated Dr. Lovett.

Mac Vanner Says...

"As you may know, the girls who were chosen to live in the Home Management houses are required to perform a variety of tasks.

Because students must complete health forms before registration and are given complete physicals at the time of admission, all students are held responsible in reference to particular problems and their treatments.

Even if a student is in the Hospital for more than a few days, his previous medical history is checked and new records are compiled in connection with the physical examination, diagnosis, and treatment, stated Dr. Lovett.

Adams Indians To Invade Mustang Stadium Tomorrow

The Cal Poly Mustangs, who ruined the Los Angeles State homecoming with a 40-18 victory over the Dlablos last Saturday, will host the Adams State Indians in a non-conference tilt tomorrow night. The Indians, from Colorado, are members of the Rocky Mountain Conference, and hold a 6-2 record for the season. Champions of their league last year, the Indians figure to repeat as they are undefeated in league play so far this season.

The Adams Indians are paced by Bob Hello, who leads the Rocky Mountain Conference in passing with 28 completions in 51 attempts and six touchdowns. Hello, the quarterback guides the Indians multiple options that also features the running of Walt Weaver, a 6-1, 197-pound man. Weaver, a 199-pound halfback, teams with Jim Edwards to give the Indians a potent running attack.

Foul deep in every position, the Indians bring the scowl of each school at Arizona State, Colorado State and Wyoming to Mustang Stadium. Over the past three years, the Indians have compiled a 58-3-1 record.

The game could very well turn into a passing duel between Hello and Mustang's Ted Tullar, who leads the NCAA in passing and the Indians' rushing.

The two teams were to meet for the first time in the game's history, but plans were to be in good shape for the upcoming game with their Mustang'sTD Tullar, who leads the NCAA in passing and the Indians' rushing.

The Mustangs upset Long Beach State last week with a 40-18 victory over the now Morley State. The Mustangs now have a 6-2 league record.

Men’s Glee Club Prepares For Tour, Home Concert

BY MITCH RIDER, Staff Writer

Twenty-five years ago, when Roosevelt’s New Deal was still new and "The Way You Look Tonight" was a hit tune, 88 Cal Poly students who had enjoyed singing formed the first Men’s Glee Club. The 1961 counterpart, totaling 86 voices, is well-known at high schools, colleges, hospitals and concert halls from Redding to the north to San Diego to the south. Glee club members come from four countries, five states and represent 60 majors of study.

Among with the "international" flavor is one on its members wearing the glee club in its 60th season, tours, and specially recitals.

Harold F. Davidson, Music Department head since its origin in 1961, directed the group.

Student president is Chris George, senior science major. Thereby has studied music in Stickley’s department and is an alumnus of Utah, Boy lettuce, glee club members besides Hurley for ten years, and are also listed among the 170 musicians who appear frequently at school stage, concert halls and other activities on campus.

The well-known glee club also has members in various states, and represent 83 majors of the College of Arts and Letters. Four states, and represent 83 majors of the College of Arts and Letters. Four states, and represent 83 majors of the College of Arts and Letters.

The Men’s Glee Club has sung in groups since he was in the fourth grade. Harold F. Davidson, Music Department head since its origin in 1961, directed the group.

Dirk Hon chophop group. Both groups have sung in groups since he was in the fourth grade.

David Barker, freshman form Hurley, makes singing with the Men’s Glee Club because many of his friends and fellow students have also sung in choruses.

Committee members are: Charles H. Robinson, freshman from Urbana, Ohio; David R. H. Robinson, freshman from California; Dick C. Beetle, band director; and Dave Holdsworth, drum major.

The Men’s Glee Club will be the first to perform the College's 15-piece dance band, for 50 performances in the San Francisco Bay area.

Cal Poly band, are scheduled to perform on the 12th of November at the Staff Dining Hall, General Telephone, the 170 musicians in playing, Mathematics, Physics, Business Administration, the Liberal Arts or the Social Sciences. Ask him for a copy of the brochure today.

Banquet Planned Nov. 12

By Music Department

More than 600 members of Cal Poly’s vocal and instrumental music groups, and guests, will gather for the first time this fall at their annual Music club Banquet, November 12, at the Staff Dining Hall.

TYPING FORM... The Letter Girls, the newest addition to the Music department, smile before a recent practice. Wearing uniforms made by the Home Economics department, the eight girls spell out Cal Poly, Left to right are Darlene Giordano, Luana Allan, Judy Brokaway, Nancy Millikan, Taffy Raves, Ann Egerlewine, Doreen Tavornak, and Janet Field.

Newly Formed Letter Girls Boost Student Morale

A newly-organized music boosting group made its debut at the Homecoming football game. The Letter Girls, eight women with a flair for manufacturing, will join the band at future football games in precision drumming and half-time activities.

Under the supervision of George C. Beatin, band director, and Dave Holdsworth, drum major, the Letter Girls will march in front of the band with flags on the front of their uniforms spelling "Cal Poly."

Elementary Education major Doreo Giordano organized the Letter Girls: to "prostitute more in the band’s spirit."

The other Letter Girls include: Luana Allan, Taffy Raves, Nancy Millikan, Ann Egerlewine, Doreen Tavornak, and Janet Field.

They did a beautiful job for the first time. He hopes to keep the girls a permanent fixture with the band and will take them to the next home game for a performance.

An invitation to shape your own future...
The Move Is On...

EVERYBODY HELPS ... Although the picture above is superimposed, A. M. "Bart" Fellows, Printing department head, is announcing the Printing department's moving plans. The big move will be made to the latter part of November from the hamlet of the Administration building to the new Graphic Arts building.

SP Union Copies
Welding Program
by GERALD BEARDS

Forty arc welding lab stations, a $4,000 student and instructor project, went two years ago and recently finished, according to R. B. Banga, welding instructor, will be moved to the new Computer and Printing department's new project for an industrialized training program.

Prefabricated and welded during the arc welding class lab time, the stations were designed by the instructors and built by students. Besides the time and labor required to build the stations, over $8,000 worth of steel was used. It was a practical "learn-by-doing" arc welding project.

Union men visiting the school will see the stations on display at the Western States Fair. "Students and welders state excellent each year," says Banga.

Your placement office will make an appointment for you. The IBM representative will be interviewing on your campus this year. He will be glad to discuss with you all the responsibility he is able to handle. New ideas and new ways of doing things are not only welcome but encouraged.

HE'S MAPPING NEW WAYS TO BEAT TRAFFIC JAMS IN LOGICAL SYSTEMS

Paul Farbanish analyzed the widely varied loads placed on computer systems by different applications. One of his assignments was to design new and alternate ways for data to move from unit to unit with the greatest speed and reliability.

To do his job he had to become familiar with many challenging areas of electronics. Within the 1401 system alone he dealt with circuits, data flow control, input-output, storage, etc.

If a young engineer wants to move rapidly into the most advanced areas of electronics, he would do well to consider IBM. In the fast-expanding world of data systems and its many peripheral fields, a man is given all the responsibility he is able to handle. New ideas and new ways of doing things are not only welcome but encouraged.

Hamid Alabamis Arrives For Short Campus Stay

By BETTY KINGMAN, Staff Writer

He isn’t listed in this foreign student directory, but Hamid Alabamis arrived on the campus of Cal Poly, the first Muslim student ever to enroll at the college. He is a native of Berkshire County, England, and is the newest center of interest in Agriculture Economics.

He has been here only a short time to familiarize himself with the college, but he has already been a great help to the college community. He has shown his interest in helping others by donating his time and energy to various campus organizations.

He is a member of the Inter-Faith Council and has contributed to the success of the Muslim Student Association by providing special assistance to all college students from throughout the world.

He is a member of the Freshman Union and has been instrumental in organizing various activities for the Freshman Union. He has also been involved in the College Union and has helped to plan and organize various events.

Hamid Alabamis has shown his commitment to the college by attending all campus events and activities. He has become a source of inspiration for other students and has played a significant role in promoting the diversity of the campus community.

Hamid Alabamis is an example of how one student can make a difference in promoting diversity and unity on campus. His contributions to the college community are greatly appreciated and he is a valuable asset to the campus.

Veteran Enrollment Down 61 Per Cent

Enrollment of veterans shows a drop of 61 per cent from last year in the college. This drop is due to the reduction in the number of veterans returning to college after the war.

The few veterans who are still enrolled are those who have been granted re-entrance into college by the government. These veterans are working hard to complete their education and many are expected to graduate soon.

For more information on veterans and their enrollment at Cal Poly, please contact the Veterans Affairs Office. They can provide you with the latest information on veterans and their enrollment at the college.

Coach Tom Lee, Busy Man On Mustang Campus Scene

BY CHUCK YOKUM, Sports Editor

Coach Tom Lee, in his ninth year as a Mustang mentor, is one of the most diversified men on campus. Lee, who has been called the "quiet man," is also one of the busiest men. Lee came to the Mustang fold in 1962 as a baseball coach. The same year he took over the boxing team as well as physical education.

For the last five years, Lee has been head coach of the Cal Poly Freshman squad. While his 1967新鲜man team was not as successful as the 1966 version, which finished second in the conference, he gave the Mustangs a good showing. The Freshman team continued to improve under the guidance of Coach Hughes. Lee does the spotting and scouting for the Mustangs, and can be seen most every fall Saturday night, notebook in hand.

The Freshman squad, While not too far behind the seniors, is proving to be a fine team. The Mustangs have been selected to represent the CCAA in the National and PCI honors. In 1968 season, we lost the first three games and bounced back to win the remaining seven games. The greatest thrill, says Hughes, "is when the Mustangs won the CCAA championship for the first time in history. In that 1968 season, we had three stops and broke back to win the conference games."

Hughes' overall season came in 1968 when his charges went undefeated in nine games and led the nation in scoring with more than four hundred pounds.

Another high point in Hughes' career came in January of 1968 when he was one of two small college coaches invited to speak at the 80th Annual American Football Coaches association convention in Cincinnati. Ohio. This was the first time in history that college coaches were added to the agenda of the convention. Hughes' speech at the convention was titled, "California State Polytechnic College Offense."
