Local Ticket Sales For Mercy Classic
Set To Close With Only Fraction Sold

Ticket sales for the Mercy Bowl football classic have soared to more than 4,000 in the San Luis Obispo area, with less than 50 days remaining before the game on Nov. 25, according to the organizer. If all goes as planned, the game will be a success, with the proceeds from ticket sales to benefit local charities.

Most local employers shipped in this week and sold out, with three Cal Poly student, Dave Harper, Rich Hudson and Bob Rosende, being three local businesses who have shown over 100 per cent response. The next 20-30 days will be孔雀ing the last two hours of the game

The host, Anderson High, and the visitors, the Poly Eagles, have a number of local businesses that have donated $250 each and many other local businesses.

Large donations have poured into the Mercy Bowl fund from anonymous donors. In a report from the local individual donated $500 while another gave $1,000.

Ticket sales have increased in campus also. More than 1,000 tickets have been sold to students. Today will be the last day to purchase tickets. They are on sale at the ABC store, manager of the FAO-Fremont theater, and at the Santa Maria to a ticket sales outlet.

The Mercy Bowl Express, a special train to Los Angeles will run as exhibition prior to the game. The train will leave on Thursday and will arrive in Los Angeles on Friday.

On Friday, November 25, the train will leave San Luis Obispo at 8 a.m. on the CA Poly Express, a special train to Los Angeles.

Campus Movie Stay
Film Agreement Reached
With Downtown Theaters

College officials and the managers of the downtown theaters came to a meeting of the minds late Tuesday afternoon, and as a result the campus-theater movie problem was solved. Everett Chandler, dean of students, Mrs. Arlene Voluntary, activities advisor; and Dave Hattings, ASB vice president, met with Vaughn Taylor, manager of the FAO-Fremont theater, and Bill Taylor, manager of the Ophelia Theaters, last Tuesday's office, and came to the understanding that the college and the theaters would continue their agreements.

"The solution was completely satisfactory to all concerned," Chandler said. "I am happy that the problem is solved.

"It was agreed that the college would pay a fair price for the privilege of showing college movies, and that the college would continue to give the privilege of showing college movies to the college."

A Week Makes A Difference

One of the top popular songs in the nation last year was entitled, "What a Difference A Day Makes." With some wise words change this could be the theme song of Vaughn Taylor, manager of the Fox-Fremont and Sid Taylor of the Oakland Theater met with members of our administration and reviewed the issue.

At the meeting two main discrepancies were ironed out: (a) That we would not run movies on campus before the downtown theaters had the first opportunity. (b) That the movies would only be publicized one week in advance instead of announcing the schedule for the whole year as it is now in the ABB Activities Calendar.

We can voice no complaint against these changes as they have good reason to be put into effect. EL MUSTANG took a stand on the issue as we saw no reason why the movie programs on weekends should be suspended. It is now evident that with a little more investigation of the situation a friendly solution was possible.

We commend Mr. Vaughn Taylor on reconsidering his actions in the past and taking a more objective view of the situation.

Why We Charge

Last year, the Student Affairs Council was faced with the problem of raising a sum of money in order to provide the best student activities program to date. The solution was to increase the Student Body Fee to $60 per year. The College President, Mr. McPhee, requested that the student body be given the opportunity to take a vote to increase the Student Body Fee to $80 per year. The Finance Committee and the ABB Activities Committee reviewed the issue.

We want the students to vote on this issue. This is a democratic process that we believe is the best way to decide such important matters. We encourage all students to vote in the upcoming election.

Editorial Opening

Applications are now being accepted for the position of editor-in-chief of EL MUSTANG for Winter Quarter. The application blanks may be obtained from Vince Oates, adviser of the Student Body. Applications are now being accepted. The application blanks may be obtained from Vince Oates, adviser of the Student Body.

Editorial Notes:

The letter written by Bert Underwood in the Nov. 10 issue of the Trojan was never received by BL MUSTANG. There was not even a rebuttal telling me I was wrong. It is not fair to a student to have a letter written and then not receive it.

In conclusion I must go along with the recommendation of student body fee, that they must, therefore, be in favor of charging for events offered. The request was made that two-thirds of the students in this matter. The motion showed that although a majority of the students on campus were in favor of the Fee increase, the required two-thirds was not and the proposal was defeated. At times suggestions were made that the program be cut in particular areas. For example, a student pulled out in the year proved that the students wanted to attend the program with the program that was being presented. The proposal was defeated.

The student body president stated that "If the Student Body votes against this proposal, it is a defeat for the Student Body president. The Finance Committee and the ABB Activities Committee. We do not condone the fact that they wanted any program out. They wanted a program in which they could make attendance to all classes. We do not condone the fact that they wanted any program out. They wanted a program in which they could make attendance to all classes.

In conclusion I must agree that the students have a right to attend the program. We do not condone the fact that they wanted any program out. They wanted a program in which they could make attendance to all classes. We do not condone the fact that they wanted any program out. They wanted a program in which they could make attendance to all classes. We do not condone the fact that they wanted any program out. They wanted a program in which they could make attendance to all classes.

**COMMENT CORRAL CONTINUED**

long time being given to veterans. It isn't easy to get out of the service and start school right off the bat without a bit of rest age, I know, I just got out of the service. Anyway, I entered the service Jan. 1, 1966 and was eligible for GI benefits.

Senator Ralph W. Varnerbough of Texas has been devoting a great deal of time to the last five years to give educational benefits to those who have served our country after Jan. 1, 1966. The bill which Senator Varnerbough is working on is entitled "Veterans Reeducation Assistance Act of 1961." It fails it is in the name of Senator MacClarenden for Jan. 10, 1968. I have just received a letter from Senator Thomas H. Kukel of California in which he states that he is for the bill 100%.

I have spoken with a great many veterans here on campus who would benefit from this legislation. They are 100% for the bill but they ask me "What can I do, just little old me?" Well, you men are forgetting they don't know what you want until you tell them. I am sure that Senator Engele and Senator Kukel would like to hear from you on this matter.

Let's get more veterans here at Cal Poly and keep the guns we have.

Kay Thorne Honored
By Mustang Award

Kathleen Thorne, junior Biology major from San Luis Obispo, has been awarded the Mustang Award for her efforts and service to fellow students.

Kay spent many hours this spring preparing and coordinating the Welcome Weeks activities, and was very active during the Welcome Week. Kay has also been a member of the ASB Card Committee. Kay was nominated by Tom Capan, ASB Card and Re-frigeration major.

**Movies Issue**

(Continued from page 1)

Reinstatement should be no problem.

In commenting on the theaters asking that some of the films be switched to different dates, Taylor said, "We are not trying to dictate to the colleges what it can show and what it can't and we only want to be sure that the colleges does not show movies important of the same material. This is a reasonable request, and we will be happy to let the colleges show movies after we have shown them.

The chicken barbecue will be under the sponsorship of the American Legion Post 95.

**Kay's Answer**

**EDITOR:**

(Continued from last issue, you stated that veteran enrollment is down since 1965. One reason for this drop may be the fact that the educational benefits are no longer being given to veterans. It isn't easy to get out of the service and start school right off the bat without a bit of rest age, I know, I just got out of the service. Anyway, I entered the service Jan. 1, 1966 and was eligible for GI benefits.

Mustangs, Gauchos Clash
In Final Game Tonight

The Cal Poly Mustangs have one more chance to even their record at the 300-stor high tonight when they host the Santa Barbara Gauchos in Mustang Stadium. The Mustangs now hold a 4-3 mark for the season, but are 2-2 in CCAA play. The Gauchos are 1st in the conference. The Gauchos come into town with a dlamtl 8-7 record, but their record is very deceiving. While their only win was over non-conference opponent, Pepperdine and UC Davis, they have lost several of the CCAA opponents. Pepperdine State went into the fourth meeting against the Mustangs 14-0 and only managed to squeak out a 1-3 loss. Long Beach State had to dump the Gauchos 1-5 in the final minute of play to defeat the Gauchos the following week 18-12.

The Gauchos are led by the scoring of Stuart Ball and receiving of Curt Curtis. Fullback Larry Calvinson has been one of the leading ground-gainers for the Gauchos all season. The Gauchos backfield is also bolstered by Tim Chapman, Don Piel and Roy Stepanian.

The Mustangs have shown superiority over the Gauchos in seven years with the last Gauchos win coming in 1980. In 1977, the Mustangs held a 4-3 mark in the last four meetings against the Gauchos. The two squads did not meet last year as a result of the Ohio State game cancelation.

The Mustang attack in tonight's game will aim center around the expertise of Jack Tollner one of the CCAA's leading passers. Quarterback Tongue has been led by Paul Brown. The Mustangs also feature a strong backfield attack with Jim Faber, Paul Scott and Wendel Long. The Mustangs carry the brunt of the attack.

Poly Thincldas Run
At UCSB Tomorrow

The University of California at Santa Barbara campus will host Polytechnic Collegiate Athletic Association Thincldas for its most tempest starting at 11 a.m. tomorrow afternoon. Thincldas will be in on UCSB tomorrow, the Poly will be entered in the most competitive event of the meet. The meet will bring the best from the United States to walk off the track.

Mustang coach Jack Wofford will direct the Mustangs for the season. He will direct the Mustangs and the Poly to sully the Mustang team. In last week's dual meet, James took over the Mustangs down UCSB 19-16.

The only other CCAA team that the Mustangs have faced is Fresno, who dumped the local barbarians twice in convincing margins.
