Poly Crash Brings Action of Congress

By DIANA YODA

At SAC last Tuesday, Graduate Director Robert L. Robinson, chairman of the Senate Committees on Interstate and Foreign Commerce, for reasons from the AAB control the Board.

"This bill, now pending in the Senate, would authorize the Civilian Aeronautics Board to operate in the Civilian Aeronautics Board (CAB) certificate. These are good for either two or three years. The Senate is not in session due to the air traffic. These will be of little value in case of an accident, or if they are so serious, the Senate will be converted.

"The bill has the support of Cal Poly, because of the great change it will bring. I say that no one can change his way of doing things until he understands what he is doing. The Senate is in session next week, which means that we will be forced to do something.

"As the debates continue, I hope to see the Senate pass the bill, so that we can look toward a more efficient way of doing things. It is a difficult task, but I am sure we can do it.

"I say this because I have been in the Senate for many years, and I have seen the way things are done. I am sure we can do it, and I hope we will do it.

"I will not say that the Senate is not in session. I say that we are not in session. We are in session next week, and we will have to do something.

"I say this because I have been in the Senate for many years, and I have seen the way things are done. I am sure we can do it, and I hope we will do it.

Athletic Insurance "Mistake" Costs ASB $600, SAC Hears

By WAYNE COX, Staff Writer

The wheels of Student Affairs Council on Tuesday finally caught hold as student legislators decided to buy a $4800 photograting machine, approved the revised finance code, turned down an engagement offer from the local television station, and heard about a $600 mistake.

A stifling tension as to whether or not to go to a meeting with some SAC members earlier in the week over $600 the ASB Student Body was enlisted to pay for the photograting machine because of student concern over the money was all that was formally on the agenda as the Senate of student members of the ASB met in the Board of Publications' room to buy the machine.

"That is a mistake," said Bplnk, "giving per­

Engineering Week Closes After Six Days of Events

Engineering Week concludes on campus today after six days of special activities and exhibits. Mrs. Joyce Terra, Mrs. Engineering Head of delegate, formally started Engineering Week on campus Monday by attending the showing of two movies, "The American Look" and "The American Engineer." The first activity of Engineering Week was attended by 50 people despite the rain.

Governor Edmund G. "Pat" Brown issued a special proclamation in observance of Cal Poly's Engineering Week. In part, it read: "To the men and women of the many branches who lab in this observation, the engineers who achieve these ideals and prac­

Sloop Wins $15 Prize in Button Contest

Conrad Sloop, senior ME major from Groveville submitted the winning design for this year's official Poly Royal button. Sloop's design wins $15 prize for his design, it was announced Tuesday by the Poly Royal board.

More than 10 students submitted designs for the contest, which was sponsored by the Poly Royal board.

To qualify for consideration by the board, each entry had to include the 1962 Poly Royal words: "Poly Royal to the Highest." The best designs from the four divisions, the Poly Royal board.

Friday Flick Presents "Love in the Afternoon"

Tonight's movie presentation in the Little Theatre features "Love in the Afternoon," starring Audrey Hepburn and Maurice Ronet. As an additional attraction, Vanishing Point, a jeu d'esprit, is planned. The release date is for the Poly Royal dates, April 28 and 29.

Sloop's button design will be slightly modified and sent to an eastern manufacturer where it will be made. The student's design will then be mass produced and will be sold to raise money for the Poly Royal board.

---

At the conclusion of the week, thePoly Royal Queen was chosen.

Poly Royal Queen to be Chosen As Students Fete Next Week

"Miss Cal Poly, Queen of the Poly Royal" will be selected by the Associated Student Body Wednesday and Thursday, Feb. 28 and March 1, when a special Poly Royal queen election will be held.

After Sloop's talk, a reception followed in the Student Center. The participants included the Poly Royal Queen, candidates, their candidates and a large group of people interested in the election. The Poly Royal and the Poly Royal Queen's election took place in the Student Center. Worldscope
CUB Building Plan Ready

Tentative plans for a new College Union building will be submitted to the State College Board of Trustees finance section by the end of February, Dean of Students Everett Chandler said this week.

Although Chandler said there is "small chance" of getting the money needed to get the project underway, it still is worth taking the chance," he explained.

He explained how Senate Bill 2013 gives the Trustees authority to set upon plans and to authorize funds for activities under it. The show will be given piano performances by students of the university.

Men Trail Women In GPA ‘Race’

Women are smarter than men at Cal Poly. At least they were in the Fall quarter when women scored a 2.3 grade point average compared to a 2.1 GPA for the men.

The student body averaged 2.8. Age and experience won out when the seniors proved to be the smartest class, with an average of 3.4. Juniors followed closely with 3.3, sophomores had 2.8, and the freshmen trailed with 2.1.

A total of 1448 students representing 17 percent of the entire student body did not make the required requirements for passing.

“This is not as bad as it appears,” said Registrar Jerald Holway. “There are many factors which entice into students receiving below average grades.

Many seniors have received W’s (incomplete) on their senior projects because they are not completed and won’t receive definite grades until they have been submitted.

‘Freshmen are naturally going through a period of adjustment and need time to become familiar with college life,’ he added.

The nearly one-third of the student body represented in the below 2.0 GPA is not technically an improving if they improve their GPA’s to 2.0 in the Winter quarter it was meant out.

A GPA of 2.0 is a “C” average. Twenty, thirty, and decent rank high substantially among the residence halls.

Trinity led the south mountain forms with a 2.8 overall GPA. Diablo was high among the North Mountain dorms with a 2.8 average.

Poly was in the univer­

Three-Act Play
Slated for March 1

"The Male Animal," a three-act play by James Thurber, will be presented in the XEAC Auditorium during March 1. The three-day run will be the result of time-consuming rehearsal that has been in progress for the last nine months.

The cast for the typical Thurber comedy includes Jack Tinney, Tommy Tupper, Martha Pace as Alice Yarmur, but the parts are not cast. Joe Fassman and Gary Walsh as Michael Barnes. Also cast in the cast are Karen Grant as Pat, Robert Baer as George, J. Fred Franke as Benjamin, realizing, Millie Stansell as Miss Tiny, Jay and Ed Keller, Billee Davis as Dorothy, Ray Kliger, Sally for Bonnie, and Mary Dodder as "Nasty" Maria, 

Directing the play is J. Murray Budd, with Karl R. Anderson as technical director. Both are of the English and speech staff. "Mr. Williams is coming to the Arctic-Pacific Airlines very soon, and he wants to make sure that the FAA is going to do this through his contact with the Senate."

"Mr. Harris is coming to the Senate, and he has CABS to insure in a greater degree that no further occurrences of this kind will happen," said Mr. Williams.

"We must have assurance as to what the FAA is going to do. It is going to do this through legislation, through his contact with the Senate."

New cost-low luxury in two just-out Chevy II Nova sedans

• Luxury and low-cost have never been more beautifully blended than in these two newest additions to the Chevy II line! Like their running mates—the Nova 400 Sport Coupe, Convertible and Station Wagon—they have the same low-for-your-money features that have made Chevy II the winner of Car Life magazine’s Engineering Excellence Award for 1962. Soft-folding rear Monte-Paks rear seats, proved in the equivalent of 2,000,000-plus test miles. Thirly-six-cylinder engine that gets more "gi" out of a gallon of regular. Body by Fisher reinforces that the big families and small parking places. An easy selling occasion—and look, new ideas that save on upkeep. Plus trim, tasteful styling, inside and out. See the smart, easy, saving Chevy II Nova and the other totally sound, totally priced Chevy II mid-size—at your Chevrolet dealer’s.

POLY ROYAL 400 — This is what the official Poly Royal button will look like when it goes on sale early next month. The design was submitted by Conrad Bloom, senior ME major from Oroville, who won a $10 prize from the AG Ed club for the project.

Young Stage Stars Entertain for CSEA

Cal Poly Chapter 97 were entertained by young people in a night club atmosphere, Thursday night in the Staff Dining room. Many sons and daughters of faculty members were of the guests. Bessie and Dr. Laurence B. Miller, Ann and Jack B. Wempe, were present for the evening. Karl Bloom, female soloist, and daughter of Emil and Mrs. "Big" Bloom, A.H. instructor, later did a duet with young son.

Leroy Winans, son of G. Paul Winans, Dean of Admissions, played the piano accompanied by Bessie and Karin. 

Jana Hellenkamp played guitar and gave renditions of modern folk songs.

**Computers Lure Freshmen To Special Saturday Class**

By HEIL NOVUS

Surrendering a good portion of Saturdays to study computer science is not everyone's idea of a relaxing weekend. But at Cal Poly a portion of the freshmen in the operations research department is happy to accept the challenge and learn about computer science.

The freshmen in this class were introduced to the department's computer scientist, Professor Kent D. Smith, by William A. Roark, assistant professor of operations research. Professor Smith explained some of the basic principles of computer science and how the computer can be of assistance to students in their studies.

According to Professor Smith, students who take this course will learn the basic principles of computer science and how the computer can be used to solve complex problems.

The course will cover topics such as programming, data analysis, and computer design. Students will also learn how to use computer software and hardware to solve problems.

This course is designed to provide students with a solid foundation in computer science, which is becoming an increasingly important field in today's society.

For more information about this course, please contact Professor Smith at his office in the Operations Research Department.
Donation from the Heart

Long-time Physics Department head, Paul Dougherty is shown presenting a $500 check to Corps Club president, Robert Campbell. Dougherty's gift will make the future plans for the active club possible. Seniors and Junior to Leave Gift

Friday, February 28, 1962

SonioriT0 Leave Gift

A contact was held to allocate the future space for the new campus. What is now the Physics Science building will be opened to the public in a few weeks. The building will be named in honor of Paul Dougherty's gift to the college.

Of Pendulum to College

Claron Brown, Building administrator, is shown presenting a model of a pendulum to the college. The model is a gift from an elderly gentleman who wishes to leave a gift to the college.

Hoop League

At Midpoint

Jim Clark's Intramural Basketball Tournament at Cal Poly is in its mid-way point. The tournament is divided into two categories—junior and senior. The senior league is undefeated with two or three games left to play in the respective league.

The senior league is the most competitive, and the playoffs will be held on April 4th. The tournament is open to all Cal Poly students, and anyone is eligible to play.
