NO CENSORSHIP FOR EL MUSTANO

Chandler Urges 'Good Judgment' in Demonstrations

"Use good judgment," Dean of Students Everett Chandler emphatically stated with reference to reports that some students, both as individuals and in organizations, plan to demonstrate against the parking situation during Poly Reopens.

"Just as its members reflect an organization, in the public eye a group's actions are seen as those of its students," the dean added.

"People in the public eye naturally leave impressions of themselves. The students at Cal Poly are responsible for whatever impression they leave in the minds of the people who will be on this campus during Poly Reopens.

The parking conflict arose at the beginning of April when the administration, in a warning that receipt of these parking citations by a student could cause dismissal from the college, and that students might appeal to the judiciary, put on an extra precautionary production.

Dean Chandler also pointed out that one of the dangers involved in demonstrating was an accident that might result in a situation in which someone who is innocent might be caught up in the demonstration. This might in turn carry the demonstration way out of proportion, causing public inconvenience and damage and of conduct that ultimately could result in a court action.

"The thing about this," said Chandler, "is that if it appears that the parties which are in blame for the situation are getting out of control, then the administration will have to do something about it."

Four Administration Changes Made

In order to effect the work load in the office, President John Prentice announced that the following appointments were made to the college's administrative staff:

Julian A. McPhie as Director of Student Services.

Howard West, public relations coordinator, has been made Administrative Assistant to the president, replacing Charles Young.

Dr. McPhie, presented a member of the public relations staff of Los Angeles State College, has been named as the new public relations coordinator. He will assume this new position on Saturday, April 28.

Dean Andrews Explains Intent of Action, Admits 'Error' in Suppressing Newspaper

By WAYNE COX, Staff Writer

Cal Poly's "gathering storm" blew itself out Tuesday night when the Dean of the College told Student Affairs Council and an unusually large group of students that the administration was wrong in restricting El Mustang articles about parking regulations and penalties.

Dr. Dade Andrews said, "It is easy to see why some students don't understand the parking situation - neither do many of the college employees."

"The college wanted to enforce the parking regulations passed by the State Legislature with hope and compliance. But, something went wrong and the college didn't want to admit it."

The college had no choice but to admit it, Andrews added.

Dean Andrews asserted that the administration made every attempt to notify the students about the penalties, and that the registration time was given a statement of the regulations and penalties.

Also, the Dean of the College prepared and gave the El Mustang staff reporters April 13 a carefully worded statement explaining why the college made three decisions and the proper way to comply with the regulations. When the statement appeared in the paper, some essential parts of the explanation were omitted. A paragraph was cropped which pointed out the administration's regret in not appearing of parking regulations.

El Mustang's articles were again printed in the April 18 edition, but the administration indicated its regret in appearing parking regulations.

El Mustang says its articles, which were printed in the paper, were not articles about anything that concerns this campus. El Mustang had no desire to print any articles about things that concern the campus.

"There was no intention to prevent El Mustang from printing articles about any issue," continued the Dean. "It was felt that a temporary delay to calm inflammatory statements would benefit everyone involved."

"The college has no objection to a free press. The regulation of the college and its students is one of the most important jobs that graduate students have."

In summing up his remarks, Andrews announced that the college will grow out of something like this.

"The college's defense was not severe. The regulation of the college and its students is one of the most important jobs that graduate students have."

Money from Fines Goes to County

"Where does our parking fine money go?"

This question seems to be answered in a letter to Mustang editor Glenn E. Colledge from President Julian A. McFiee and Director of Police Julian McPhee.

In his letter McPhee said, "Our proposal was that fines be granted the privilege of handling the fines resulting from violations. At present these fines go into the county through the Justice Court. The County provides no service to us or the students except to reissue the ticket. "Our suggestion was that the fines be paid to the students themselves to provide them with some revenue which is now going to the County for which no service is being rendered. Fines levied by the student body should be collected and the revenue used by that group." McPhee added that the money was at least staying on the campus and not... in some other college.

Parking Citations Total Decreases on Campus

The number of parking tickets issued on campus has been slowly decreasing since the first week of the "clean-up" campaign when 1164 tickets were issued, according to George Couples, chief security officer.

County deputy sheriffs during their off-duty hours are still being employed by the college to help combat the parking problem.

Parking Fees Outlined In "Documents" Report

Students interested in facts pertaining to parking laws at the California State College in general, and Cal Poly in particular, are urged to read the "Documents Outlining the History of the State College Parking Fees," now available on two-hour reserve at the reserve desk in the Library. The book is also available in the Mustang office, Graphic Arts, Room 85.

Music Department Sparks In Home Concert Performance

By BETSY KINGMAN, Staff Writer

The 51st annual Home Concert was presented to a record-breaking audience of more than 3500 Friday night in the Men's Gym. Leading off the show was the Men's Glee Club with the traditional "Roll, High You Mustangs," followed by "My Loret, What a Beautiful Morning." Members of the Women's Glee Club, Davidson's, performed "Our Theme and Song," that sang three numbers. Their rendition was consummate but briefly soloed.

Next was the Men's Quartet with some of their favorites. The Women's Glee Club, lacking somewhat in long power, stepped up the program with "Secrets It U.S. Table." After several other numbers, they concluded with the traditions "Poly Memories," joined by the Women's Glee Club alumni.

Poly's Majors and Minors, who gained fame and recognition for their sales car tickets during the recent San Francisco tour, picked up the tempo with their songs "Drum Major," and "Moonstruck Ramble.

The Men's Glee Club returned with a stirring performance of "Five Times Eleven" and "The Fox," featuring Walter Harris. The traditional "Carnival Song," was done in fine style. The audience was kept entranced at the third verse of the song was hummed entirely in one breath-an effect-ive trick.

In the second part of the program, the Collegians offered their own show. Enthusiastically accepted by the audience was a rendition of "The Grapes of Wrath." "Chocolate Caliente," the Collegians' theme song, and "Trees," mental arrangement proved to be the highlight of the evening.

Two audiences-capturing stunts, "The Andrew Sisters" and "Carol Miranda," although the greatest stunts, were not as great as the audience's "69c and up"

Mrs. Jeanet Tucker, Ornamental Horticulture instructor, demonstrated flower arranging at the Cal Poly Women's Club meeting, Tuesday in Science Building B-8.

**Students' Forum**

**EDITOR'S NOTE:** The following articles were written by students who represent various organizations of the campus, as well as newspaper entitled "Pegasus." Believing that any student has the right to promote his ideas in the open space for airing of these views. Writers, however, should allow their names to accompany their articles.

**It Is A Right**

**Editor:**

The right to dissent is the most valuable civil, liberty, and one of the greatest. In our complex, multi-ethnic, and pluralistic society, the right to dissent is the chief instrument the individual has to protect himself. Though it is the right to dissent that this nation will not swing into complete decadence through orthodoxy, complacency and conformity.

A college which encourages students to express their ideas in the mind of the individual is a type of education produces completeness in the minds of individuals and a society based on excellence. It leads to the realization of the power of mass behavior which is as frightening as any type of education produces completeness in the minds of individuals and a society based on mediocrity. From the lowliest point of view in which the average student is not capable of choosing his own candidate. I wish to thank Dean Andrews for his announcement concerning the admission of student candidates to the student government. Our Constitution guarantees us the right to the selection of an institution of higher learning. It is not the right of students to attack in our college. Let our reaction be definite, deliberate, and determined. It is so shaped that while achieving freedom in the press it sets an example of student citizenship which we may as future adult citizens continue.

Tony Babb

**Thank You**

**EDITOR:**

It is with great pride and appreciation that I write this note of thanks to El Mustang and the staff. Had they not informed me how a right-thinking person should have made the grave mistake of otherwaise, It might be more difficult for me to represent Poly at the annual Intercollegiate Turtle Championships at stake.

The call has gone out from the Rotary Committee for a new turtle to represent Poly at the annual Turtle Trudge, and to uphold the precedent set last year by "Poly Pace.

The Trudge is held in Michigan, sponsored by the University of Detroit. Competitors represent colleges and universities from all parts of the globe. Turtles come from as far away as Hesfashire, Germany, Edinburgh, Scotland and Adelaide, Australia.

Last year the Poly entry edged in the other contestants to place first with a record run of 46 seconds, seven minutes ahead of the next closest time. This year the Turtle Trudge is to be held at the University of Kentucky, Los Angeles City College's entry placed third.

The ceremony and eliminations will be held during the Poly Royal Carlton.

**Turtle Trudge Just Won't Budge Without Poly Nudge**

Poly title of "International Intercollegiate Turtle Champions" is at stake.
