**Mock Disaster on Campus Will Stress Real Situations**

Disaster strikes Cal Poly. Perhaps a building explodes, a bus crashes, fire guts a classroom. Could you help? Would you?

At 11 a.m. Thursday a mock disaster will hit the campus for Cal Poly's first exercise in facing this type of situation.

More than 250 mock patients will be treated for shock, burns, frostbite, and other injuries at the football stadium.

The training program will include the San Luis Obispo County Hospital and San Luis Obispo police to be alerted for possible assistance.

Dr. Earl Lovett, Health Center medical officer, stressed realism in the makeshift and success of the exercise. Throughout the day, as many patients are cared for at the stadium treatment site, patients and students observing may be needed to help medical officials.

Wounds will be authentic looking and nurses will be members of the Drama Club applying gruesome, realistic make-up to the patients.

Although about 100 persons will participate officially, Dr. Lovett explained that anyone might be used to help in an actual situation.

"The exercise will be good training and good experience for everyone on campus," said Dr. Lovett.

**SAC Eyes Long Talks**

Student Affairs Council members anticipate another long session tonight in the Little Theater in an attempt to conclude the SAC's reorganization plan. The executive committee has asked that the meeting plan be discussed:

1. Election of Interfraternity Council chairmen
2. Election of Residence Hall council chairman
3. Election of representatives to the student council.

Additional recommendations of the council include a foreign student council, an off-campus fraternities group council, SAC representation on the Executive Committee, and committees for continuation of study and three branch systems for the council.

During the four and one-half hour session, SAC reorganized committees of the council's 10 major committees, including student affairs, finance, public relations, recreation, student life, recognition, and oral.
FROM THE EDITOR’S DESK

Compliments Today

This is to be something different.
While we may raise a little rain with those students who would rather see editors in the student newspaper only when something is to be criticized, we have decided to do a complimentary today.

After hearing the Music Department’s Home Concert recording, we wonder if the student body realizes how fortunate it is in having such talent as the Men’s and Women’s Glee Clubs, and the Collegians as readily available. The Collegians, for instance, are probably one of the best college dance bands in the country. Their music comes very favorably with that of many of the nation’s leading dance bands.

The above organizations are a tribute to themselves, to the Department, and the student body. For taking up the ASD Reorganization Committee’s plan for a revised student government and giving it a complete hearing, even though discussion sometimes ran in circles.

We also thank the Grounds Department for finishing the landscaping of the Graphic Arts Building. It looks as though we’re in here to stay now. Incidentally, the Grounds workers do a great job every where on the campus which is a showplace for visitors.

Lastly, we wish to read this before you did deserve a word. These are the students who do the production work on El Mustang. Printing is a big job, and as far as we are concerned, the Printing Engineering and Management Department handles it well.

Was this wasted space? We don’t think so... — JMc.
Articulation Team Counsels Jaycees

An Articulation team traveled throughout the northern part of the state last week giving counseling and guidance about Cal Poly's four-year curriculums to students at seven junior colleges.

Members of the team were Curriculum Coordinator J. Philip Strong, Animal Husbandry Instructor Emmett A. Bloom and Ray E. Anderson, head of the Business Department.

The team conferred with staff members and students at Sacramento City College, Yuba College in Marysville, Chico State College in Redding, College of the North in Weed, Lassen JC at Susanville, Sierra College at Rocklin, and American River JC at Sacramento.

Varsity-Grads Tilt Scheduled Saturday

The second annual Varsity-Alumni game is scheduled Saturday at Mustang Stadium, with many of Poly's all-time football greats set to return to the field in 1963.

Muslin Award In New Home; Trinity Tops Spring Sing

By MITCH HIDER, Staff Writer

A colorful and fast-moving, Broadway-styled song and dance medley by 43 Trinity Hall coeds brought down the house and brought home the Muslin Trophy at Cal Poly's 1962 Spring Sing, Friday in the Men's Gym.

Entries in the song and dance medley this year involved nine clubs and dormitories and nearly 600 participating students. An audience of about 600 watched division awards given by Trinity, with division winners receiving gold, silver and bronze trophies with the Muslin Fellowships, first; Hill, second; specialty, third.

Student Body President Lee Foreman announced the winners as College Union Chairman Craig presented the trophies.

Pat Palmer, Trinity's director of dance, was the workhorse of the competition, accepting the two trophies for the residence halls.

As the program began, master-of-ceremonies Paul Jacob introduced each entry with a snappy refrain from back-stage. Sequate Hall began the competition with a glisteninggy performance of "The Shining Light of the Mississippi River" and "After the Storm.

Bob Bachard, Claude Turner, Willy Studack, Bob Max, John Allen and John Menden from Poly CC, a championship team of 1961-62, and 1962 will begin. Cox was a star performer in 1962.

Bob Chapa of the 1961-62, and Jim McColl of 64 and 65 will be back. Cox was a star performer in 1962.

Two Welders Win $100 Scholarships

Two students of the Welding and Metallurgical Engineering Department have been awarded $100 scholarships by the American Welding Society and the American Welding Society of Metals. Cecil Kettler and Dennis Davis were selected as the recipients of the scholarships which were based on academic work and scholarship achievement.

Members of the American Welding Society and the American Society of Metals will meet May 80 at the County Fair for a ballroom dance.

At the American Society of Metals conference in Santa Barbara, Bob Fairbanks and Larry Ethier will represent Cal Poly.

Printing Students View 'Cold Type' Composition

Twenty-five members of the Printing Department made a field trip to the Bay Area last week to observe cold type composition, hot type reproduction process, and printing.

The group visited General Composing and Lithographing Co., the Standard Register Co. in Oakland, Security Lithograph, and the San Rafael Independent. A combination banquet and seminar with Poly Printing alumni in the Bay Area concluded the two-day specifications.

Draft Boards Need Class Rank Records Office Urges Deferees

All male students with draft deferments who want to end-of-the-year draft rank and standing (Form 881 100) sent to their local draft board should contact the Records Office before May 81. The Records Office emphasized that deferments are granted on class standing and students should keep their draft board up to date.

Six Electronic Students Awarded $1310

In Scholarships by Engineering Groups

Six Electronic Engineering students have been presented scholarships by the electronic industry totaling $1310. Awards were made at the tenth annual IRE banquet last Wednesday.

The scholarships were awarded on the basis of scholastic achievement, need and participation in campus activities.

The banquet, which was held in the staff dining room adjacent to 150 REC rooms, was open to all Electronic Engineering students.

The banquet was made possible by donations from the Western Electronic Manufacturers Association (WEMA), was speaker. His topic was "Personal Pioneering." Victor Wallace, president of the Western Electronics Manufacturers Association, was guest speaker. The banquet will be held in Administration 214 at 7:30 p.m.

Paul Dougherty Revises Crops Book

Paul Dougherty, former head of the Crops Department, has completed the revised edition of his text, "Field Crops in California." Dougherty recently presented the first copy of the revised edition to H.C. Huyck, head of Agricultural Education and Teacher Training.

The text was first published by Dougherty in 1935 when he was head of the Cal Poly Crops Department and was based on his experience with California crops.

Officers Elected for Two New Councils

Effective next Fall, the Arts and Sciences Council will be split into two separate councils.

For both councils.

Elected for the 1951-52 administration.

Ronald Milam, president; Julius L. Bence, vice-president; Frank W. Pinkston, secretary-treasurer; and Will Stringer, recording secretary.
