Engineers Pump Gas As Sunday Activity

Engineers named pump jockeys. That will be the story on Sunday for the next few months when members of the department will pump gas, change oil, wash windows and check tires. Through a transaction made between the Engineering Department and a local gas station, the station, "service the station each Sunday. The college will have new uniforms for pumpers, and a service station will be set up near campus.

The speakers are Robert A. Leamer, chairman of the Los Angeles Electric and Gas Engineers, and John Rollins, member of the Los Angeles Electric and Gas Engineers.

Poinsettia Project
Aimed For Yuletide

Nine varieties of the Poinsettia, also known as the Christmas flower, are being experimen-
ted with at Cal Poly. The plants contain the same chemical compound known as "brilliantine," which is responsible for the red color. The unchemicalized Poinsettia, known as the "Spanish Needle," will be exhibited at the university's Medical Hall on Tuesday. The plants were grown by Mollgaard in his greenhouse at Los Patos and will be displayed in the Medical Hall from 10 a.m. to 1 p.m. The plants will be for sale at 65 cents each.

Travel Insurance Bought
By State Trustee Board

College Radio has received a $5,000 insurance policy from The State Trustee Board. The policy will cover the station for one year and is a necessity for the operation of the station, as it is not covered under the present policy. The station is now working on the facilities and the board is grateful for the insurance, as it is a necessity for the operation of the station.

Brain Wave Tester...

EEG Machine for Brain Study

In Operation at Health Center

Campus Health Center has installed the first of its kind at Cal Poly. The EEG machine, the latest addition to the center's equipment, is designed to help students who have neurological disorders.

The electronic equipment, commonly referred to as an EEG, measures the electrical activity of the brain in terms of waveforms known as brain waves. These waves are detected by electrodes attached to the patient's scalp and are fed into a computer which analyzes and displays the information.

The EEG machine will be used primarily for diagnosing and treating conditions such as epilepsy, migraines, and other neurological disorders. It will also be used for research purposes.

Seventeen New Students

For Applied Arts Division

Twenty-two new students are registered in the Cal Poly Applied Arts Division. The Education Department is responsible for the administration of this division. The division is headed by Mrs. Emma Browning, who is also the director of the Technical Education department.

The Applied Arts Division offers a variety of courses in fields such as graphics, interior design, and photography. The division is housed in the newly constructed Applied Arts Building.

Poly Engineer Trio

Prove Successful At LA Conference

Three Cal Poly students won the first place in the annual competition held by the Chemical Engineering Society. The students were from the Communication, Engineering, and Political Science departments.

Each of the students was awarded a prize for their outstanding performance in the competition.

Like to write short stories for publication? Then you have a special opportunity right here at Cal Poly. The campus organization designed for writers is initiation this fall, "Poly Publications."
Lakers, Warriors Clash
Cal Poly Raps Valley, 38-7

A frocked-up Mustang squad, sporting an 18-pound-
man weight advantage, completely dominated the Sat-
surfs at the University of Southern California
State College for the third straight year.

Broiled by the fiery defense of
Pole Los and John Babcock, the Mustangs gav an in-
struction of a good offense which was
loosening the team's play. But Poly
sent the ball for 24 minutes and 10
seconds with the first of six Mustang touch-
downs in the first quarter of the
Cal Poly-Pole contest.

Lakers Win From Fumbling Fresno

The Cal Poly coach opened his 1962-
inning of quarterback Stan
Cross Country Spikers
Drop Opener To Fresno

The Cal Poly cross country team
opened its season on Saturday
in the annual meet at the University of
Southern California Stadium.

The meet was set to test the
speed of the Mustangs against the
speed of the Fresno State
Bulldogs. The always tough
Bulldogs had played well in the
past and were looking for a win.

The Mustangs were up to the
challenge and won with a score of
35-21.

Intramural Football
Program Starts;
Four Leagues Set

Intramural football
season started this week with
the opening of four divisions.

The first division, which is
open to all students, includes
nine teams. The second division
is open to all students except
freshmen and includes six teams.

The third division, which is
open to all students except
sophomores and juniors, includes
four teams. The fourth division,
which is open to all students
except seniors, includes three teams.

Chamberlain, Baylor
West Featured Stars
in NBA Exhibition

Two of the top basketball stars in
the nation, Wilt Chamberlain of
the University of
Southern California and
Bob West of the University of
California, will be featured in the
NBA exhibition game.

Chamberlain, who is consid-
ered one of the top players in
the country, will play for the
Cal Roly Colts.

West, who is also one of the
top players in the country,
will play for the Bay Area
Warriors.

Reflections of Telstar

Remember the picture above? It flashed across your
television screen on a half-night half job. Perhaps
you remember that it originated from France. And
that it reached the U.S. via Telstar, the world's first
private enterprise communications satellite.

Since that summer night, the Bell System's
Telstar has helped electronic signals of many types—televi-
sion broadcasts, telephone calls, news photographs,
and others.

But there's one Telstar reflection you might have
missed. Look into the faces of the Bell System people
before and you'll find it. It is the reflection of Telstar's
success that gleamed brightly on the faces of all who
shared in the project.

Bell Telephone Companies
