Carl "Gus" Beck To Retire; Will End 31 Years At Poly

Carl "Gus" Beck, "Father of Poly Rock," will retire July 1, after 31 years of service to the college. Beck started Poly Rock in 1962: "a country fair on a college campus" and in 1971 when he originated a campus-oriented records show on KAYS, could possibly claim to have been the first college disc jockey. Beck has always been a favorite of the general public, general admission and for $2.00, choice admission and for $2.00, choice of any three records of his own choosing. The atmosphere was much lighter than the usual fire and smoke of the rock and roll world. "It promises to be the lighter side," says Beck. "The starting in high school, I always had a talent for music, I was a member of the orchestra, band and chorus. My main interest has always been music, the guitar was always my favorite instrument."

Director Says Peace Corps Grads Face Changing Times

"Today, Monday, williams," said the president of the Peace Corps, Williams in Malpass, "is a great day for the Peace Corps and the country. The Peace Corps has been a vital part of our foreign policy and has helped to improve our image abroad." Williams also said that the Peace Corps would continue to be a key part of the US foreign policy. "The Peace Corps has been a success and we will continue to support it," said Williams.

Folk Trio To Play Next Week

By: BOB NOCIELLA

Embedded in the program will be folk music that includes such songs as "The Leaves Are Falling," "We Shall Overcome," and "The Great Moment." Many people question if there is a place for folk music in today's world, but Williams believes that folk music is here to stay. "Folk music is a part of our heritage and it will continue to be popular," said Williams.

Mountain-Climbing Duo Scales Mt. Bishop's 200-Foot Face

Jim McDill

Mountain climbing is an adventurous activity. The mountain climbing duo of Beck and McMillan have scaled the 200-foot face of Mount Bishop. Beck and McMillan have been climbing for six years and have climbed over 100 mountains. They have climbed in the United States, Canada, and Mexico. They have climbed in the Sierra Nevada, the Cascades, and the White Mountains. They have climbed in the summer and in the winter. They have climbed in the day and in the night. They have climbed in the heat and in the cold. They have climbed in the rain and in the snow. They have climbed in the mountains and in the valleys. They have climbed in the woods and in the deserts. They have climbed in the mountains and in the mountains.

Military Ball Is Saturday: Miller Plays

The Military Ball is to be held in the Student Center on Saturday, November 10. The theme of the ball is "The Old West." The bands for the ball will be the Poly orchestra, the Poly jazz band, and the Poly rock band. The Military Ball is for Poly students, staff, and faculty. The Military Ball is for Poly students, staff, and faculty. The Military Ball is for Poly students, staff, and faculty.

Livestock Judges Take Top Honors In Texas Contest

The Poly livestock judging team did a good job at the contest in Texas. The team had the highest score of all the teams. The team was composed of Jim McMillan, Bob Williams, and Piers. The team was coached by Mr. McCollum. The team won the grand champion award. The team was composed of Jim McMillan, Bob Williams, and Piers. The team was coached by Mr. McCollum. The team won the grand champion award.

Director Says Peace Corps Grads Face Changing Times

As they received their diplomas, the Peace Corps graduates said that they may face new challenges in their future careers. "We will face new challenges," said Williams. "We will face new challenges."

3 Students Enter Photo Exhibition

Three Poly students entered a photo exhibition at the San Francisco Symphony Orchestra. The students were Bob Williams, Bob McMillan, and Piers Beck. The students had photographed the orchestra in action. The students had photographed the orchestra in action. The students had photographed the orchestra in action.

APPOE, PERGEE

**Satellite Expert Tells Complexities Of Orbits**

By DARRYL KARRAS

Apoe and perigee may have different meanings, but the words are used in describing a path of a satellite. At last week's meeting of the American Rocket-Society, Capt. Edward Schafholz, Director of the Patholo-Group at the Space Station, explained how satellites pass through the earth's atmosphere and how they can be kept on orbit.

The earth's atmosphere is divided into three main layers: the troposphere, where winds speed up; the stratosphere, where winds cool; and the mesosphere, where winds are still.

**APOGEE**

The apogee is the furthest distance a satellite can be from the earth. In the past, this was a point where the satellite was traveling at its slowest speed. However, with the development of modern technology, it is now possible to keep satellites on orbit for a much longer period of time.

**PERIGEE**

The perigee is the closest distance a satellite can be from the earth. This is important because it determines the amount of force that will be exerted on the satellite. If a satellite is too close to the earth, it may be pulled into the atmosphere and burned up.

The apogee and perigee are determined by the satellite's orbit, which is influenced by the satellite's mass, the earth's gravity, and the position of the sun. Scientists have developed mathematical formulas to calculate the apogee and perigee, and they use these formulas to control the orbit of a satellite.

However, there are other factors that can affect the orbit of a satellite. For example, the earth's atmosphere is not completely smooth, and it can cause a satellite to change its orbit slightly. Scientists must take these factors into account when they design a satellite.

In conclusion, the apogee and perigee are important concepts in describing the path of a satellite. Scientists use these concepts to control the orbit of a satellite and to ensure its safety.

**Wrestlers Nip 49ers; Still Have Clean Slate**

Coach Vaughn Hillcock's Mustang grapplers proved that they are going to be tough in the face for the California Collegiate Athletic Association championship with a split 15-18 win over Long Beach State ever last Friday in the Men's Gym.

Several Mustangs were thrown for big jumps in both of the matches. Larry DePuy, the Mustang's lightweight, showed tremendous improvement, as he took a big lead and won his game.
