Campus Open House Expects 15,000 Visitors

Cal Poly Country Fair Celebrates 31st Year

Poly Royal Observed Since 1933

By LYNNE PRINGLE

A little more than a giant turtle candle and a raffle of 50 turtles for those that purchase admittance tickets will be the only changes for this "turtle-nerd" year of Poly Royal. According to Reck, who will be the show's instructor, this is the first year that a turtle will take center stage. "It's a new twist on things," he said. "I'm trying to bring in some new ideas and try to keep the show fresh for the students." The event will take place on campus, with the show being held in the Student Union Building. Admission tickets will be sold for $2, and all proceeds will go to the Poly Royal scholarship fund.

Thespians Seek Awards

More than 50 high school students will participate in the Poly Royal Thespian Festival at the Poly Combiner High School at 1:30 p.m. on April 26. The first place winner will receive a trophy and a $500 scholarship. The competition will be judged by a panel of judges from the University of California, Los Angeles, and Southern California. The show will feature a variety of performances, including plays, musicals, and dance acts.

Math Champ Will Win Scholarship

In a city where a giant turtle is the centerpiece of the Poly Royal show, it's only fitting that the students will be able to win a scholarship for their math skills. The Poly Royal Math Champ will be awarded to the student who correctly answers the most math problems in the shortest amount of time. The competition will be held on campus, with the show being held in the Student Union Building. Admission tickets will be sold for $2, and all proceeds will go to the Poly Royal scholarship fund.

Carnival Time Tonight

Tonight is the first day of Poly Royal's fair, and the students are eagerly awaiting the start of the festivities. "I'm really excited about this year," said one student. "The fair is always a lot of fun, and I'm looking forward to seeing what they have planned for us this year." The fair will feature a variety of activities, including a carnival, a talent show, and a raffle. Admission tickets will be sold for $2, and all proceeds will go to the Poly Royal scholarship fund.
FRIDAY, APRIL 26

A COMPLETE SCHEDULE—HORSESHOE TO DANCE

10 a.m. Foods Demonstration (Mathematics and Home Economics Building)
4 p.m. in Noon Home nursing demonstration (Mathematics and Home Economics Building)

10 a.m. Drama Production—Paso Robles High School (Little Theater)
10 a.m. Polo Royal Water Show (Naturatorium)

EL MUSTANG

Does a man really take unfair advantage of women when he uses Mennen Skin Bracer?

All depends on why he uses it. Most men use Mennen Skin Bracer to help heal shaving nicks and scrapes. Because it helps heal shaving nicks and scrapes. It may just happen to affect women so remarkably? Because it help* heal shaving nicks and scrapes. So who can blame them if Bracer's crisp, long-lasting aroma when he uses Mennen Skin Bracer?

"Every Inch a Real Smoke!"

CAMEL

There's an cigarette like a Camel. Its taste is distinctive. Alert. All there. Camel is no wrapper—yet it's smooth. Get the bright, clear taste of Camels...with Camel. Every inch a real smoke... comfortably smooth, too.

GARY GOULD—Skilled wine sportman—deep-sea fisherman—Camel smoker.

College Rodeo Popular

By SUE STANLEY

Rodeo, one of the most exciting sports, will bring its spills and thrills to the campus this spring with the All-Santa Maria Poly Royal Rodeo.

Activities begin at 11 a.m. on Friday, April 26 in Cal Poly's Red Cell area, where a fair number of students will be attending the event. The students will be supplied with tickets which will be available to all those attending the event. The tickets will be sold for $1.50 each and will be accepted for admission.

There are three events which will be featured: bull riding, calf roping, and calf cutting.

Bull riding and calf roping will be held in the University's Memorial Stadium, while calf cutting will be held in the Poly Royal Rodeo arena.

The rodeo will feature performances by the All-Santa Maria Poly Royal Rodeo team and the All-Santa Maria Poly Alumni Rodeo team.

The All-Santa Maria Poly Royal Rodeo team will be comprised of the following members:

- Jack Dawson, a senior Animal Husbandry major from Danville, La.
- Jack Sparrow, a senior Animal Husbandry major from Santa Barbara.
- Terry Simpson, a senior Animal Husbandry major from Santa Barbara.
- Darryl Scruhak, an Animal Husbandry major from Santa Barbara.
- Allen Sipe, an Animal Husbandry major from Santa Barbara.
- Lynn Prindle, an Animal Husbandry major from Santa Barbara.
- Sue Lotts, a Music major from Santa Barbara.
- Mary Smith, a Music major from Santa Barbara.
- Frank Reisch, an Electrical Engineering major from Santa Barbara.
- McPherson, a Business major from Santa Barbara.
- Roger Bailey.

The All-Santa Maria Poly Alumni Rodeo team will consist of the following members:

- David Kivett, a Senior Animal Husbandry major from Santa Barbara.
- Charles Baker, a Senior Animal Husbandry major from Santa Barbara.
- A host committee headed by Don Baker.
- Cliff Okiop, a Senior Animal Husbandry major from Santa Barbara.

Pin-Point Engraver Sparks Exhibit

Fitness Whitney, head of the Machine Shop, announced that the Machine Shop will be open for business from 2 p.m. to 5 p.m. Monday to Thursday and from 9 a.m. to 5 p.m. Friday and Saturday.

The exhibit, which will be presented by the department, will follow in preparation for the 50th anniversary of the Plant Operation Department.

The exhibit will feature a variety of tools and equipment, including a lathe, a milling machine, and a drill press.

Down the Scale Once More

May be a common word in the dictionary, but to students, faculty, and alumni, it means a new beginning. For the Poly Students Satisfied Since Turn of the Century, it means a new beginning.

The Poly Student Satisfied Since Turn of the Century is a club that was formed in 1913 to provide a social outlet for students.

The club has been active for over 50 years and has provided a place for students to socialize and enjoy each other's company.

The club has hosted a variety of events, including dances, picnics, and other social gatherings.

The club is open to all students and is a great way to get to know other students and have fun while doing so.

Congratulations Cal Poly

on your 31st year of SHOWMANSHIP

FILLING A WELL-NEEDED GAP

Although my son is a college freshman, I am glad to say that he is still a credit to the family. He has always been a hard worker and has learned to avoid the temptation to buy things on credit. However, I have noticed that he is starting to save money for the future. I think this is a good step and I am proud of him.

I have been considering the idea of a college savings plan, as I believe it is important to teach the next generation the value of saving and investing. I have done some research on different options and I am considering opening a 529 plan.

If you're looking to make a smart investment, consider the 529 plan. This plan allows you to invest in a variety of stocks, bonds, and mutual funds, which can help your money grow over time.

However, I want to hear your thoughts on this matter. What do you think? Have you considered a college savings plan for your children? What factors do you consider when choosing an investment option?

I would love to hear your insights and ideas on this topic. Thank you for taking the time to read and respond to this message.

Best regards,

[Your Name]

PAST REFLECTIONS

FRIDAY, APRIL 26, 1963

**406 International Students Enrolled**

Each college and dormitory has a list of international students, which is compiled by the registrar's office. A list of international students is also compiled by the international students' council, which is made up of representatives from each dormitory.

Many international students are attending the university for the first time. They come from all over the world, and they bring with them a variety of experiences and perspectives.

**Telstar Satellite Is Attraction Of Electronics Department**

The Telstar satellite, which was launched into orbit by the United States, was displayed in the Electronics Department. The satellite was on display for the first time in the United States, and it was a major attraction for students and visitors alike.

**Horses Lament**

The horses were sad to see their home. The students who lived in the dormitories where the horses were kept were sad to see their friends leave.

**Students Enrolled World. Fifty-six students from the world.**

The international students were distributed evenly throughout the school. The students were distributed evenly throughout the school, but they were also distributed according to their majors.

**Education Department Shows Communications In Learning**

The Education Department showed a model of the satellite that was launched into orbit by the United States. The model was displayed in the Science Building.

**Soil Science Shows Erosion In Action**

The soil science students showed a model of the erosion that occurs when land is not properly cared for. The model was displayed in the Science Building.

**Fishes, Flowers In Science Display**

The biological science department showed a display of fishes and flowers. The display was displayed in the Science Building.

**AE Will Display Power Machines Latest Electronic Methods**

The AE department will display the latest electronic methods used in power machines. The display will be held in Science Building C-11.

**FARM BUSINESS MANAGEMENT CLUB To Host Opening Day**

The Farm Business Management Club will host opening day on the campus. The opening day will be held in the Science Building.

**ROTC Will Host Mighty Army Missile**

The ROTC will host a Mighty Army Missile display. The display will be held in the Science Building.

**Agriculture Students Vie For Trophies**

The Agriculture Department will host a trophy competition. The competition will be held in the Science Building.

**Food Processing Displays Modern Canning Methods**

The Food Processing Department will display modern canning methods. The display will be held in the Science Building.

Dick Anderson is Acting PE Head

Richard A. Anderson, who has been on the faculty of the university, has been assigned by the Athletic Council to succeed Marjorie Dike as assistant director of the Physical Education, Recreation and Athletics Department and will be known as acting PE head.

Anderson, 46, has served as assistant PE head for the past three years and has been chairman of the department's personnel committee. He has served as assistant director of the department since 1960. Anderson was head coach of the men's tennis team for two years until 1956. He has also served as assistant coach of the varsity basketball and track teams.

Anderson was graduated from the university in 1933 and received his master's degree in education in 1936. He received his doctorate in physical education from the University of Chicago in London in 1954.

LOTs OF BASEBALL

San Diego State Here For 3-Game Series
After being out of California the last 100 or so games, West is prepared to take on San Diego State when the Aztecs arrive this week for a three-game series.

The Aztecs have been ranked most of the season and are still on top despite a 4-5 record. However, San Diego State has only two losses and is still expected to have a winning record when the series is over.

ATHLETIC TEAMS FACE FULL SCHEDULE

Cal Poly's athletic teams will face a full schedule this week as the track team travels to Mt. SAC, the women's basketball team travels to Northridge, and the baseball team travels to Fresno.

The track team will compete in the Mt. SAC Relays, which will be held at the university's new stadium. The women's basketball team will compete in the Cal Poly Women's Basketball Invitational, and the baseball team will travel to Fresno State for a three-game series.
