Controversial Fee Raise Decided Today, Tomorrow

The Associated Student Body membership for increase "will be put to a vote today and tomorrow when the student body decides whether or not to pay an additional $1 a year.

The proposed fee hike will increase ASB card expense by $1.50 for Fall Quarter and $1.25 for Winter and Spring Quarters.

Polls for the special election will be open between 8 a.m. and 5 p.m. today and 8 a.m. to 1 p.m. tomorrow and will be posted in front of the student center, in the SF Council at the intersection of Campus Way and Upper Parking Basin.

One of the main election issues appears to be the affection of fee hikes if the increase becomes a definite vote. Student Affairs Council debated the issue for almost three hours last week resulting in the proposal to vote it was officially stated.

If approved, $244 of the current increase will go towards reduction of fees for alev and the remaining $1,154 will be distributed through the year.

Election ballots will be signed by the list of special election candidates. According to Tom Clark, ASB vice-president and chairman of Election Committee, voters will have to fill in the bubble on the card indicating yes or no by using a special pencil.

Student ballot counters will verify the process but judges will check for void or irregular votes. Results will be known Wednesday morning.

Student feelings towards the election are varied. One unofficial roll of 390 students indicated 181 affirmative votes, 145 against the increase, and 64 didn't know what their feelings were.

Many of the polled students favored the increase because they would reduce and eliminate admission price to some events, provide a definite budget for SAC to work with, and possibly encourage more spirit by lowering prices.

On the other hand, those who opposed the increase felt that the issue being "framed down their throats, money wasn't being properly allocated, and not everyone attends ASB events to justify having to pay for them.

The fee increase was defeated in the April 16-election by only 64 votes. A total of 2,282 students voted with 1,182 votes for and 1,100 votes against. There were 100 invalid ballots.

The polling of the ballot was a controversial issue for the last election. Voting in part, "...and thought that being asked to pay an extra $20 a year, not realizing that they already paid $15."

On election day, a "white shawl" attacking the "MS Mus­tant" for illegally printing fake information, was circulated in the AS Corral since that. The statement falsely charged the college newspaper with telling students the increase was only $5. Five dollars in correct.

Because the College Campus approved the fee increase with the majority of the students voting for it, campus will not hold a second election. If the proposal is passed for the campus, President of the College, Dr. McPhee, will then recommend the increase to the state college trustees.

HELP SHAPE POLICY
38 Representatives Meet In State Academic Senate

Thirty-eight representatives of the College State Polytechnic College were elected to the State Academic Senate. The College State Polytechnic College is recognized as the representative body of the American University, to be elected through the year.

The Academic Senate is the highest body in the college's system. It is responsible for the general policy of the college and serves as the mouthpiece of the college to the outside world. The Senate has the power to make decisions that affect the lives of students, faculty, and staff.

The Senate meets once a month to discuss various issues and make decisions that affect the college. It is made up of representatives from all departments and divisions of the college, including faculty, staff, and students.

The Senate plays a key role in shaping the policies and decisions that affect the college. It is an important body for students to get involved in and make a difference in their college experience.

Students who are interested in serving on the Senate can contact their respective departments or the Senate office to learn more about how to get involved and make a difference in their college experience.

Industrial Speaker Urges Creativity

Great Grey, Dean of the College and a leader in the field of industrial relations, urges creativity in the development of new ideas and approaches to problem-solving.

Dean Grey emphasizes the importance of creative thinking in the workplace and encourages individuals to think outside the box and come up with innovative solutions to challenges.

The College has a reputation for fostering a culture of creativity and innovation, and Dean Grey's message aligns with this mission. The College is committed to encouraging students and faculty to think critically and develop new ideas that can make a positive impact in their careers and the world at large.
Braves, Squaws, Chiefs
On Wampum Warpath;
Want Five More Skins

Once upon a time there were 24 little Indians. They lived peacefully in a village inhabited by many other Indians. The annual outbreak of fighting fever when the braves donned their leathers and war painted around the village was a common event.

The tribe had elected a war council of 24 chiefs who met weekly to discuss the problems of the villagers to try to avoid difficulties by having bidders in one another's biddings. But these bidders worked hard in the streets and the streets and in being peace within the village, for their absence

One day in the lodge, the war chief of the White Wing Indians, Santa Lucia, the braves and squaws will once again vote on whether the skins will go to enhance the hunting and trapping program or go to admission to the games, and all braves and squaws that this assessment is necessary for the survival of their program of activities and athletics.

Chief of Naval Operations

Loses Job Over TFX

The highest ranking officer in the United States Navy an active duty admiral, was forced to resign last night after losing a vote of no confidence in the Congress on Capitol Hill. The admiral, Mr. Harkness, will continue to hold the post of chief of naval operations, but his retirement has been accelerated in the wake of a report that Congress investigators found fault with his management of the TFX project.

The report, released today, found that the admiral had mismanaged the project, which is intended to replace the aging fleet of naval aircraft with new, more advanced models. The investigation also revealed that the admiral had failed to follow proper procedures and had allowed the project to proceed without adequate funding.

The admiral has repeatedly denied the charges, claiming that the project was being carried out properly and that the criticism was based on political motives. However, the report's findings have convinced many members of Congress that the admiral's leadership is no longer appropriate for the project.

In a letter to the secretary of defense, the admiral stated that he would resign immediately to allow for a smooth transition of power. The secretary of defense accepted the admiral's resignation and announced that he would appoint a new chief of naval operations in the coming weeks.

The admiral's resignation is a significant blow to the navy, which has been struggling to maintain the nation's naval strength in the face of budget cuts and increased international tensions. The admiral was a highly respected officer who had served in a number of key positions, including chief of Naval Operations and director of naval intelligence.

His resignation is expected to be met with mixed reactions, with some expressing concern about the impact on military operations, while others see it as a necessary step to ensure the success of the TFX project. The admiral's successor will face a number of challenges in trying to restore public confidence in the project and in ensuring that it is managed in a more effective and accountable manner.
**Rodeo Team Wins**

The Cal Poly rodeo team won the points title at the Cal Poly Rodeo, held in the central California coastal counties. The team members included Jack Dawson, 1st place in the saddle bronc, while Dave Collier took 2nd in the all-around. In addition to these, there were also awards in other events.

The gutty runner slowly re-tied his shoes and crawled on his hands and knees to the finish line in the time of 171 feet. He was third in the event. Hon's teammate Gary Walker was fifth in the hammer throw when he got off a toss of 165 and Deuel Hall held second place with a total of 176, Carnegie leading with 19, and Poly Phase nine at CCAC.

Deuel tied for second place with a score of 181 followed by Wood tied for second place with 165 strokes for the M holes. Although no Intramural points were played on the putting greens, people entered the two tourney divisions. "I think the course was set lower this year instead of the usual average of 114,000 veteran," said the manager. The game was individual medal play. The game was played on the putting greens with a score of 78 strokes for the M holes. The remainder of the competition was played in individual medal play.

Don Fields, entered in the University of California School of Medicine, placed second in the triple jump and tied for first place in the discus. He led Fort Williams with 220 points. The remainder of the intramural standings as first place, when his legs gave out three mile run, gave Coach Fields a fourth in the event. Hon's team was third in the event. The double elimination tournament was staged on the course and was won by Wildcat with 220 points, two ahead of Poly Phase.
