No Change In College, Says Chancellor Dumke

Cal Poly will continue as a polytechnic college within the state college system. Without a heavy emphasis on the liberal arts, it has been judged a worthwhile institution.

The decision was announced by President Donald A. Dumke, who is expected to retire next July. He made it in a letter to President Julius T. McPhee, president of the state college system.

President Dumke said that his decision was based on the state college system's need for a polytechnic college that could provide a balanced education for students.

He added that the college's emphasis on practical, hands-on education was consistent with the goals of the state college system.

SAC Approves New Points Code

Student Affairs Council approved a new activity points code at its regular meeting Tuesday evening. The regulations are designed to encourage students to participate in activities on campus.

The code includes new categories for sports and student organizations, and modifications to existing categories for academic organizations, military organizations, and professional organizations.

The change in the code was prompted by the need to better reflect the diversity of student activities on campus.

Fee Raise Proposal Whipped At Polls

Revote Shelucked By 701 Margin

Some six weeks of debate and controversy were summed up in a crashing defeat of the badly crippled fee increase proposal here this week, in a campuswide election that was by far the largest in Cal Poly's history.

The proposition, supported by only 44 per cent of the student body, lost by a margin of 701 votes in the first election held last month.

Although tabulating took the student body 10,000 in the second balloting, the result was the same.

The fee structure was set to rise $18.25 per semester, $6.75 for each unit.

The full-time agriculture students have been selected to represent the college at the International Agriculture Congress in Mexico. The group will tour for two weeks.

The group includes: Mark Young, John Ford, Mike Lachner, Linda Kohler, Brenda Norris, Pat Arne and Karen Smith.

---

AC Awards, Officers Announced

Five award winners were announced Tuesday evening at the Achievement Award Dinner in the College Union.

The winners include: John T. Evers, William B. Sullivan, Michael J. Hagan, June A. Schuyler and Jennifer E. Miller.

Student Leaders To Gather At Annual Awards Banquet

Student Leaders To Gather At Annual Awards Banquet

The Student Leaders will meet for the annual awards banquet at 7 p.m. on Thursday night in the College Union.

The event will feature presentations of awards and scholarships.

---

Foreign Students Will TOUR Colony

A special tour of the state's tourist attractions will be arranged for foreign students at the annual awards banquet.

The tour will include visits to various tourist sites, including the state capital, San Francisco and the Yosemite National Park.

---

Revote Shelucked By 701 Margin

The fee increase proposal was put to the vote last month, but was defeated by a narrow margin.

The proposal, which was supported by the student government, was intended to help fund the purchase of new equipment and facilities.

The decision was met with mixed reactions, with some students expressing support for the increase, while others criticized it as unnecessary.

POLY SINGERS STAGE HIT

Folk Festival Has Standing Room Only

"These folk songs are not only a reflection of the times, but also a forecast of trends," said Professor of Music, Dr. James A. Cabell, who has been involved in folk singing since the 1930s. "Folk music has always been a means of communication for the people, and it is no different today."

Mailbag

Several letters have been turned in to express feelings on the fee increase proposal. The following are a few examples:

"I do not understand why the administration is raising the fees. We are already paying too much for our education."

"The fee increase is a necessity. The school needs funds to improve the facilities and maintain the current level of education.

Why The Whistle?

Reply: It is true that there is a good deal of uncertainty about the future, but it is also important to remember that the current situation is not unique. Previous years have faced similar challenges, and we have managed to overcome them. The key is to remain optimistic and work together to find solutions.

Accreditation

"As an accrediting agency, it is our responsibility to ensure that the education offered at Poly is of high quality. We have reviewed our standards and procedures and have determined that they meet the criteria set by the university."

WASHINGTON REPORT

Record Crops Pose Major Problem

The preliminary figure for the 1973 crop is now available. It shows a record harvest of 10,000,000 tons of wheat. This is a significant increase from the previous year's harvest of 8,000,000 tons. The increased crop is due to favorable weather conditions and the implementation of new farming techniques.

Advisor To Be Cited For Club Service

A member of the Cal Poly Poly Singers will be recognized for outstanding service to the club. This individual has been a valuable asset to the group, providing leadership and guidance. The club is proud to have such a dedicated and talented member. The award will be presented at a special ceremony to be held in the near future.

Student Outlines Iron's Ag Problems

"The iron industries are facing several challenges, including increased competition and changing consumer preferences. It is important for our students to understand these issues so they can be prepared to address them in their careers."

CAHPER Nears Fourth Intramural Crown

North Facility and CAHPER were scheduled to meet in a thrilling battle yesterday afternoon in the third round of the Intramural Football Playoffs. Both teams are the only undefeated undefeated teams in the competition.

Don Adams hurled the top-quality punts and passes, but the L.A. Rams pitcher of the Mustang Football Aquad. The Rams would give up three yards and a first down. John Brannon and Pat Tollner were teammates on the 1951 Mustang football squad. Darwin McGill and Fred Brown were players for the Alumni squad, but other former Mustangs had to be elsewhere due to conflicting jobs and other commitments.

Four TIME CHAMP... Don Adams, CAHPER pitcher, has the team that has always been successful in the Intramural competition. Adams is planning for his fourth title-season. The inflatable every pitch know is exactly one of 10 All-American players in the nation.

Armchair Athletes

Only one thing happening around here with more frequency than last year: Don Adams with softball games. The guy can't understand the fine more games than last pitchers that 46 revolve. He has kicked off before. Adams has had to adjust to the pitching. He is a good example of adaption to a new position.

Arm's length. The only pitcher I know who can throw more pitches than a clock and get less tired. For example, this guy can throw more than a clock, twice, then walk off with so many awards they had to include two trophies. Adams is a real pitcher. He's tough as he looks while you were in the on-deck circle.

The guy was not only a great pitcher but the winner of the 1951 state sectional. Mac's record-setting feat was magical. He's done more to take the "sissy" image out of baseball than any other. He's put the time. He's done more to take the "sissy" image out of baseball than a automatic pitching machine. He also throws more strikes. When you think he was forced to postpone his tournament due to wet grounds, he had to go against the best. He faces the best and side competition well be great.

The guy is unbelievable. He wins more games than most pitchers in the world and Fred Brown was a world-class hurler. He's done more to take the "sissy" image out of baseball than a automatic pitching machine. He also throws more strikes. When you think he was forced to postpone his tournament due to wet grounds, he had to go against the best. He faces the best and side competition well be great.

Two victories to far in the tourney, North Facility and I muskrats 7-1. Adams and LeMarr hurled the top-seeded (North Facility) and I muskrats 7-1.
