Music Duo To Present College Hour Program

First in a series of programs planned to feature notable musicians from the area, The Mustangs, a band consisting of students, will present the second College Hour program of the semester. The program will be under the direction of Dr. Carl W. McIntosh, director of music at Cal Poly.

The Mustangs, as a group, are primarily an educational one, with members of the band selected from both the music and non-music students. The members of the band are: Donald Bot, guitar; Richard Bot, drums; Charles W. Mitchell, trumpet; and Dr. Carl W. McIntosh, conductor.

Music Head Feels There Is Room For Both; Band Aims To Please

BY LANE CAIN

The Mustangs band, under the direction of Dr. Carl W. McIntosh, have been playing for the past few months. They have been invited to perform at several concerts and have recently won first place in a local music contest. The band is made up of both music and non-music students and is being directed by Dr. Carl W. McIntosh, the director of music at Cal Poly.

American Funerals is Review Topic

Dr. Martin Brown, an English Department professor, will present a talk on American funerals this Thursday in the Classroom Building. The talk will be held at 3 p.m. and will cover the history and tradition of American funerals.
Parking Problems? Only for the Lazy

By LYNNE FRINKLE

Three years ago, cars were taking their way through Cal Poly's Daily Parking Lot. Now, many of the cars are finding their way to the four parking lots on the college campus.

The lots, according to a national study conducted recently by the California State College, have been designated the fourth most crowded of the nation's colleges.

The biggest problem facing students and staff alike, according to a national study conducted recently by the Santa Barbara Institute for Traffic and Safety, is the lack of parking facilities. This lack of facilities is due to the increasing number of students and staff members on campus.

According to the study, 44 percent of the nation's colleges are plagued by vehicular detraction of the lot. A recent survey conducted at Cal Poly indicated that 80 percent of the students and staff members on campus are in the parking lot at one time.

The survey further showed that the parking facilities are virtually nonexistent at many colleges in the nation. Only one car of any pool of cars was observed in the parking lot for students and staff members at Cal Poly.

Doug Gerard, Cal Poly building inspector and parking facilities coordinator, said that the parking facility was virtually nonexistent because the students and staff members were not allowed on campus with cars.

There are two-color maps and parking facilities. Only one car of any pool of cars was observed in the parking lot for students and staff members at Cal Poly.

The building coordinator said that the parking facilities were virtually nonexistent because the students and staff members were not allowed on campus with cars.

Only one car of any pool of cars was observed in the parking lot for students and staff members at Cal Poly.

The building coordinator said that the parking facilities were virtually nonexistent because the students and staff members were not allowed on campus with cars.

Doug Gerard said that it was unfair for the college parking facilities to be nonexistent.
Powerful Bulldogs Shut Out Mustangs, 28-0

Colt Balanced Attack
Upends Fresno, 34-6

At least one Cal Poly football fan spent Tuesday night caressing the poster in which the Mustangs' nemesis is portrayed as a 280-pound California Bulldog.

Fullbacks, ends and guards are portrayed as cashing money, dropping the dynamo and getting on a train.

Fresno State was expected to be No. 1 and San Jose State was expected to be No. 2.

But what happened to the Mustangs?

"The Bulldogs are the best team we've played this year," said Coach John LaCost. "They'll wind up on top of your little pyramid." No.

Fresno State is the No. 9 team in the nation, as reported in Coach John Davis' statisti-cal pyramid.

In other words, Coach John LaCost wants a part in scientific progress.

"That's all I know," he says, and then he quickly changes the subject—another scientific concept like television.

"When a Subscriber is needed," he says, "we can put six tables together and load them with a small number of fans."

Bird Watchers Beware

With today's debut of the all-important Liberation volunteer program, it is reported that all potential birds are on notice to be on the lookout for regulation nippers.

Anybody who is not in the spot personnel list will be barred from the school's athletic activities, regardless of whether the bird is a registered, paid-up member of the athletic association.

The expectation is that all present birds will be on notice to be on the lookout for regulation nippers.

"That's all I know," he says, and then he quickly changes the subject—as he always does. He is influenced by his athletic skill—picking up beebees with his toes—and this, alas, is not playing football.

Joe Farris, starting defensive end for the Mustangs, captivated a crowd from Fresno by his performance against the Bulldogs.

In the first five minutes of play, Fresno State was already down 14-0.

"The Bulldog fullbacks gained more than 40 yards," said Coach John LaCost. "The team was defeated by the Bulldog fullback's running ability, score-ling abilities, and their overall abilities to score points."

Fresno State went into halftime with the Mustangs leading, 14-0.

Merlmen Win Pair

Getting back on the winning track for the first time in two weeks, the Merlmen prevailed over the visiting Bulldogs, 28-0.

The Merlmen won the first of the two contests, 14-0, and then went on to win the second, 14-0.

Coach Robert Green was very pleased with his team's performance.

"The Merlmen are a strong team," he said. "They have a good defense and a good offense."

The first game of the two was played in a week of perfect weather.

"The weather is perfect for this type of game," said Coach Robert Green.

"The Merlmen are a strong team,

"They have a good defense and a good offense."

The second game of the two was played in a week of perfect weather.

"The weather is perfect for this type of game," said Coach Robert Green.

"The Merlmen are a strong team,

"They have a good defense and a good offense."

"That's all I know," he says, and then he quickly changes the subject as he always does. He is influenced by his athletic skill—picking up beebees with his toes—and this, alas, is not playing football.

He has it at Western Electric

John LaCost received the BEEF from the University of Arizona Checkman, March 1963. One of the factors which influenced him to join Western Electric was the quick manner in which new engineers become oriented to the company's communications.

And with his future development in mind, John obtained one of our Graduate Engineer Training Centers where he studied the technical aspect of the company. He is currently working in a systems engineer group in such projects as traffic systems.

Joining the company at a time when the Bell System was entering a new era, John quickly became one of the company's key men in the field.

During the short time John has been with us, he has worked on a number of projects which are vital to the company's communications operations. And with his future development in mind, John obtained one of our Graduate Engineer Training Centers where he studied the technical aspect of the company. He is currently working in a systems engineer group in such projects as traffic systems.

His career at Western Electric took promising trends. He hopes, for the overall improvement of the company and the country, to help establish the overall trends.

Stalwart Fresno Defense
Provides Key To Victory

The Fresno State Bulldogs beat the Cal Poly Mustangs' 28-0. Fresno State's defense was the key to victory.

The Bulldogs defeated the Mustangs in the first half, 14-0, and then put up 14 more points in the second half.

The Mustangs led 20-14 at halftime, but Fresno State scored the final 14 points of the game.

"The Bulldogs are a good team," said Coach John LaCost. "They are a good team and they are tough."

"That's all I know," he says, and then he quickly changes the subject as he always does. He is influenced by his athletic skill—picking up beebees with his toes—and this, alas, is not playing football.

He doesn't need a tuition loan—fuel a little fire.

"That's all I know," he says, and then he quickly changes the subject as he always does. He is influenced by his athletic skill—picking up beebees with his toes—and this, alas, is not playing football.
