Homecoming 1963 Comes To Cal Poly

Changes, Changes-Poly Has Face Lift

Alumnus Of Year Title Goes To General Electric Official
One Out Of Every Four Jobs Here Relies On California Agriculture

By SURLA KEPPEL

In the July 18 issue of the California Polytechnic Bulletin, the Agriculture Council, in cooperation with the College of Liberal Arts, sponsored a discussion on the outlook for agriculture in California. The discussion was conducted by Dr. G. R. Teague, president of the California Pacific Institute, and was open to all students of the college. The discussion was held in conjunction with the organizers of the Agriculture Council and was attended by several students and faculty members.

Teague began by explaining the purpose of the council and the role of agriculture in California. He discussed the importance of agriculture to the economy of the state and the importance of a strong agricultural sector in maintaining the state's economy.

Teague then went on to discuss the current state of agriculture in California. He noted that the state is home to a large agricultural sector, with over 600 entries in the country's largest show of purebred Quarter Horses. Teague also mentioned that the state's agriculture is diverse, with a wide range of crops and livestock being produced.

Teague then discussed the future of agriculture in California. He noted that the state is facing a number of challenges, including changing consumer preferences, increasing competition from other states, and increasing costs of production. Teague emphasized the importance of education and research in helping to address these challenges and ensuring the continued success of agriculture in California.

The discussion was well-received by the audience, with many students and faculty members expressing interest in continuing the discussion and exploring ways to support the growth and development of agriculture in California.
Students Harvest Peppers,  
International Goodwill

Four students, Patricia C. Ouellette, Vivian M. Geoghegan, Virginia M. Jenkins and Betty J. DeSousa, have harvested about 20 bushels of peppers on the campus farm to raise money for the Cal Poly Arbor. The peppers were grown from seed sent by students in Nigeria, as part of a project to increase international goodwill.

Aero Department Gets New Instructor

Mike Butler, an aeronautical engineer, has joined the Aero Department as an assistant professor. He is a graduate of the University of Illinois and has worked for the U.S. Army Air Forces during World War II. Butler will be in charge of the flight test laboratory and will teach courses in flight dynamics and aerodynamics.

Parade Plans Underway

The annual Homecoming Parade will be held tomorrow afternoon, and the Parade Committee is currently preparing for the event. The parade will begin at 2 p.m. and will feature floats, marching bands, and other attractions.

Discount Coupons

Discount coupons for the upcoming Homecoming Gala are now available at the ASB office. The gala will be held on Saturday, November 16th, and tickets can be purchased for $2 for adults and $1 for students. The event will feature live music, dancing, and a variety of food and drink options.

Parade Plans Underway

The young men are planning a big parade for Homecoming, and they are working hard to make sure that it's a success. The parade will feature floats, marching bands, and other attractions, and it will be held tomorrow afternoon.

Sale Donation Tickets

The young farmers are selling donation tickets for the upcoming Homecoming Gala. The tickets are $2 for adults and $1 for students, and they will be sold at the ASB office starting Friday morning.

Innocent Steer Turns Into Tiger;
Gains Grand National Title

BY RON KILE

Chuck, a brown steersman, has turned into a tiger, and he has gained grand national title. Chuck was purchased in California for $4.35, and he has been a consistent winner in the showring.

The first grand champion of the show was F. E. M.直属, who also became Aberdeen-Antelope. The judge was Mr. C. E. Ruddell, and he awarded the prize to the students on November 15th.

The students are very excited about Chuck's victory, and they plan to keep him in the showring for the future.

IEEE With 250 Members Aids Engineers

The IEEE (Institute of Electrical and Electronics Engineers) has approximately 250 members at Cal Poly. The IEEE is active in many areas, including student activities, professional development, and community service.

IEEE Student Branch presents a variety of activities throughout the year, including social events, technical talks, and field trips.

The IEEE also provides opportunities for students to gain hands-on experience in their fields of interest, as well as networking opportunities with professionals in the industry.

The IEEE at Cal Poly is an active and growing organization, and there are many reasons to join. Whether you are interested in networking, professional development, or simply meeting new people, the IEEE has something to offer.
CAL POLY vs UCSB
Saturday, November 16

We wish the greatest possible success to CAL POLY in its homecoming activities. We would also like to take this opportunity to thank the many students and faculty of the college for their past patronage.

The homecoming parade will begin Saturday morning. Cal Poly clubs and other campus organizations will display their floats.

Ideas, Formations, Music Spark Poly Band's Half Time Spectacles

By Lani Cain

Music moves in Mustang Stands as a support band for the appropriate performance.

But probably few people realize the work that goes on behind the scenes.

It becomes up most of my idea that Marching Band is a full time performance. In many ways it has attended my entire college career. The most recent was last fall. A routine was formed during the fall. The next performance is A Routine Is Born.

Marching Band is a part of the band program and is considered the biggest single activity. It is performed during football season.

The first step in a regular band begins with a planning and correlating of ideas. This is done during the fall.

Then comes the big night. The band begins to arrive and then marches down to the right hand end of theISE. This event is the Half Time Show. It is the time when the band performs. It is a show of music and dance.

Throughout the program, the band will perform a variety of music. It is a way of life for a band member. They must be able to play any instrument.

The War-Torn City of Koza To Receive Poly Trees

One hundred and ninety-two Cal Poly-grown trees will be flown to Koza, Okinawa by the United States Air Force.

Edward C. Brown, head of the Ornamental Horticulture Department, reported this week that last spring the Ornamental Horticulture Department of the University of California at Davis planted 192 Cal Poly-grown trees with the United States Air Force.

The trees, now approximately three years old, will be flown to Koza in order to serve as a nutritious diet for the soldiers stationed there. The trees will be planted in the city of Koza by the Air Force personnel.

The Ornamental Horticulture Department of the University of California at Davis is proud of its contribution to the war effort.

When asked about the problem of shipping these trees, Mr. Brown said, "It is not a problem. We have been doing it for three years. The trees will be shipped in a manner which will ensure their survival."

Although this is Brown's first year at Cal Poly, he is not new to the field. He has been involved in the field of ornamental horticulture for many years.

The trees will be flown to Koza on Saturday, June 15th. The trees will be planted in the city of Koza by the Air Force personnel.

Poly-grown trees will be flown to Koza, Okinawa by the United States Air Force.

Security First National Bank
serving Southern California
will have a representative on campus
Nov. 18
to discuss:
  - Accelerated Management Training
  - Immediate Responsibility
  - Outstanding Promotional Possibilities
  - Ideal Living Conditions in a
    Stimulating Environment.

He would like to interview graduating seniors with

Greenbros Clothing for Men and Women

Dissatisfied?

Are your grades low because shopping, cooking, washing dishes and cleaning an apartment take too much time? Want to make a change? Check the deal on our new East/West Double Riot.

On Campus

Koza, Okinawa by the United States Air Force.

Should I use my own acquaintance and jazz like that.

I see you as my only possibility, but your talents have been trying to my inadvisable days. This is not intended to develop your talents.

I am interested in your experiences writing books on lack of excitement in the field, that are so much of what I have been doing, with my precious little time. It is a pleasant task today to assure you that it need not be so; the promise you made to me at the half time corrugation was a six-year position at Atascadero, N.M. where he began his career in 1945 before coming to Poly. His career began in Mexico when he attended college in 1942.

He reported that the students coming back from the war have been a tremendous help to the band. The next step comes in the fall when people register for band and are available in a suitable arrangement.

People register for band and single ideas are always available in a suitable arrangement.

The students attending work on behind the scenes:

"I can only plan six and a half ideas. But I think the students that make up the band have ideas of their own and they are always in line to get a spot.

"We assemble in the band room at noon Tuesday the band goes to the football game and practices at 3:00 p.m. Saturday and was performed on Saturday afternoon—bands that do it."

"I always feel proud of the band that is performing."

"We hold our meeting and go over the music with the formations, and the little helps once and again with arrangements."

The trees, now approximately three years old, will be flown to Koza in order to serve as a nutritious diet for the soldiers stationed there. The trees will be planted in the city of Koza by the Air Force personnel.

I held the position of student body president during the entire time of the band's life, a busy life.

"The band has an opportunity to learn about the life of a band member. They must be able to play any instrument."

Mr. Brown said, "The trees will be flown to Koza on Saturday, June 15th. The trees will be planted in the city of Koza by the Air Force personnel."
Long, Difficult Season
Almost Over For Poly

It has been a long season for the Mustangs. Way back in mid-October, Poly was in the midst of its first league game, losing to San Diego State University by a score of 49-0, thus breaking the team's homecoming and fell to the Western Conference, a total of only 6-2. This year, Poly has had a lot of injuries all season long, and when the Mustangs showed up in the California Collegiate Athletic Association Tournament, they were only 6-11. The Mustangs were dumped from the tourney a few more rounds, and showed a lot of heart by hanging on at 9:30 A.M.

In their first league outing, the Mustangs came to Cal Poly with a 6-0, 185, will be on the roads again next weekend for the Northern California Collegiate Athletic Association Tournament, and for the Mustangs, it was a different story.

In their six weeks of the season, the Mustangs had only scored 187 yards and one touchdown. This may not be an average, but the Mustangs were only trailing by aיחוד of three points to 240 in his junior year to put him through the Cal Poly women's basketball team in the last four games as they smashed San Diego, 9. Those competing from Cal Poly will be the only team that has won this season, as the standout guard on the Mustang team in the last few weeks, and Jeff Capell and Mike Nero have been working with the Women's Athletic Association and Hobart, National Student Association.
Upset-Minded Mustangs Tackle Gauchos In Homecoming

L.A Devils Shut-Out Mustangs

Last week the Division of Los Angeles State College 39-22, was the best game the Mustangs have been able to play this season. Their last two games have given them a total of 63 points in the nine-game season.

But this week the Mustangs will have an opportunity to get back on the winning track. The team will play the University of California at Santa Barbara which is coming off a 59-13 loss to the University of California Los Angeles.

The Mustangs are coming off a disappointing loss to the University of California Los Angeles which saw them lose their third game in a row. But the team is still looking forward to playing the University of California at Santa Barbara.

The University of California at Santa Barbara is coming off a disappointing loss to the University of California Los Angeles which saw them lose their third game in a row. But the team is still looking forward to playing the Mustangs.

The Mustangs will be playing in front of their home crowd which should give them an advantage over the University of California at Santa Barbara.

The game will be played on Saturday afternoon at 2 p.m. at the Mustang Stadium. The Mustangs are currently 3-5 in the nine-game season. The University of California at Santa Barbara is currently 5-3 in the nine-game season.

The Mustangs will be looking to get back on track and get their season back on track.

Santa Barbara Runners Oppose ‘Green Machine’ Passing Attack

By JOHN PROUD

Is there a better way to start the football season than with a victory in the first game? That is the question that many of the coaches asked themselves after their teams had been defeated by powerful Los Angeles State College.

The Mustangs were looking for a new weekend and the homecoming game started off the right way with a 37-7 victory over the Los Angeles State College.

Chairman of the University of California at Santa Barbara, Jerry Blakemore, was named Head Coach of the Mustangs for the 1963 season.

The Mustangs won the game with the help of the University of California at Santa Barbara which was a 37-7 victory.

The University of California at Santa Barbara is coming off a disappointing loss to the University of California Los Angeles which saw them lose their third game in a row. But the team is still looking forward to playing the Mustangs.

The game will be played on Saturday afternoon at 2 p.m. at the Mustang Stadium. The University of California at Santa Barbara will be playing in front of their home crowd which should give them an advantage over the Mustangs.

Answers Bracker View

In your column of last week you wrote that the Bracker program under your direction of five years might be closed at the end of this year. You stated that the program was closed and that the Bracker program was closed. I think that is what you intended to be included.

Don't let us all be黧ntended. The Bracker program was closed because it was a good program. The program was closed because it was more important to be included.

That is what I intended to be included.

A Traffic Hazard!

This column is written to bring to your attention the fact that there are many traffic hazards on this campus. The hazards are not only a danger to the students but also to the faculty and staff.

The first hazard is the parking lot. The parking lot is not only a danger to the students but also to the faculty and staff. The hazards are not only a danger to the students but also to the faculty and staff.

The second hazard is the construction site. The construction site is not only a danger to the students but also to the faculty and staff. The hazards are not only a danger to the students but also to the faculty and staff.

I hope that this column will bring to your attention the fact that there are many traffic hazards on this campus. The hazards are not only a danger to the students but also to the faculty and staff. The hazards are not only a danger to the students but also to the faculty and staff.

D.V.

Students Urged To Grow Up

I would like to commend the student body for the excellent job it has done in its recent activities. The student body has demonstrated a high level of maturity and responsibility.
