Annual Royal Court is Crowned at Poly Royal
The "Progress Corps" comes to the Fair

General Electric men and women have been gathered at the New York World's Fair, bringing to life the wonderful vistas from the world of electronics. They've made their pavilion—Progressland—enthralling. It's a bright show, enhanced by the master showmanship of Walter Disney.

But, more than that, it's their chance to show, in no other way, the tremendous opportunities offered up by the electrical industry. Here, under one huge dome, is assembled a full range of the electrical products and services, helping millions of people throughout the world progress toward a better life. Ideas that come from the people of General Electric, who form a real "Progress Gaggle."

There are new electronic ideas for medicine that promise better patient care in our hospitals. Ideas for more efficient factories, less-congested and more comfortable living at home.

Electrical — the energy process of the sun.

Agricultural Engineers
Plan Annual Banquet

C P Kelly, assistant director of the California Agricultural Engineering Station, will address the students in the Agricultural Engineering Department at the annual banquet held today in the Great Aile Buildings.

In addition to the students, the Agricultural Engineering Department will have several displays on exhibit in the Agricultural Building from 2 p.m. to 3 p.m. when the Kelly will be on hand to give a display of the new metal plow and to talk about the material being used.

There will be a display of almost all groups of people interested in the subject, including people from the department, students, and farmers.

Ag Expert To Speak At Press Banquet

Guest speaker at the twelfth annual Roy Royal California State Banquet tomorrow night is one of California's best informed agriculturalists. This year's banquet will start at 8 p.m. in the banquet room of the Hotel Mandarin. It is the fourth annual event of the Agricultural Engineering Department.

In addition to the students, the Agricultural Engineering Department will have several displays on exhibit in the Agricultural Building from 2 p.m. to 3 p.m. when the Kelly will be on hand to give a display of the new metal plow and to talk about the material being used.

Pro's, Novices Compete In Livestock Contests

Friday morning will find both experienced and novice competitors in sheep, beef, and swine judging, with each class on the athletic field. The judging will begin at 8 a.m. in the arena.

A contest winner will be the one that shows the most skill in spotting the finest qualities of the animals, with the judge's decision based on the animal's conformation and finish. The winner will receive prizes in accordance with the rules of the contest.

The California Public Speaking Contest, held in the Student Union, will feature a variety of speeches. The contestants will be judged according to their ability to deliver the material in an interesting and informative manner. The winner will receive prizes as determined by the judging panel.

ABM To Distribute 3000 Free Orchids

Three thousand orchids are being distributed to students in order to celebrate the opening of the new academic year. The orchids will be given to students in classes in the Biological Sciences, Agriculture, and Animal Science. All students in these classes will receive an orchid as a gift.

The orchids are being distributed by the Agricultural Business Management Department, which is responsible for the distribution of the orchids. The orchids will be distributed on a first-come, first-served basis, and students must present their student ID to receive an orchid.

Study Of Living Things Theme Of Biologists

The ecology of the study of living things and their environment, the activities being carried out in the Poly Royal Botanical Garden, and the potential of developing a living lab for teaching students in mathematics.

The Poly Royal Botanical Garden, located in the Valley, will be the site of the study of living things theme. The garden will be the first of its kind in California, and will be open to the public. The garden will be open to the public every day from 9 a.m. to 5 p.m., and will be closed on Sundays.

The garden will be devoted to the study of living things and their environment, and will provide a unique opportunity for students to learn about the natural world.

Rocky Rodeo is a basic, growth-oriented sport. Any fan can enjoy the action and gain an appreciation for the difficult techniques. The results of the event go to the competitors, and the winners receive their due. Rocky Rodeo is not a spectator sport, but a sport that can be enjoyed by anyone. The events include, but are not limited to:

1. **Bull Riding**: The cowboy must stay on the bull for 8 seconds. The bull is not controlled, and the cowboy must use his own skills to stay on. The rider must dismount before the bull's back, or he is deemed to have fallen off.

2. **Steer Wrestling**: The cowboy must catch the steer with a lasso and then throw it to the ground. The timer stops when the steer is down. The cowboy must get off the horse and tie the steer's legs. The cowboy is not allowed to use a riding crop or a stick.

3. **Bucking Bronc**: The cowboy must stay on the bucking bronc for 8 seconds. The timer stops when the cowboy is thrown off. The rider must dismount before the bronc kicks or bucks. The rider is not allowed to use a riding crop or a stick.

4. **Calf Roping**: The cowboy must catch the calf with a lasso and then throw it to the ground. The timer stops when the calf is down. The rider must then rope the calf's front legs. The rider is not allowed to use a riding crop or a stick.

These events are designed to test the skills of the riders and the animals. The events are also designed to be entertaining for the spectators. The thrill of the fight and the excitement of the outcome make these events a popular choice for fans of all ages.
