To Discuss Argentina

ARGENTINA — The Argentine government has decided to present an international exposition in the United States in 1964. This decision was made by the government of Argentina, which has decided to participate in the World's Fair in New York City. The fair will be open from April 30 to October 31, and it is expected that more than 150 countries will participate.

The Argentine pavilion will be located in the area designated for Latin American countries. It is expected that the pavilion will be one of the largest and most spectacular in the fair. The Argentine government has already begun negotiations with the United States government to ensure that the pavilion will be adequately represented.

It is hoped that the fair will give the Argentine people an opportunity to show the world the achievements of their country. The fair will be an opportunity to promote Argentine culture and to foster international cooperation.

The Argentine government has decided to invite 500 people to participate in the fair, including Cabinet members, ministerial personnel, and foreign correspondents. The fair will be a platform for the Argentine government to showcase the achievements of the country.

ERASE WITHOUT A TRACE.
ON EATOON'S CORRASABLE BOND

We can't be without brand new floors, but trying never to make your floor or tile look like a Gospel according to Matthew, Mark, Luke, or John, and a few other books, we need to say when we use it on a floor that is not to be trusted, and that it has been a special kind of paste that can be used on the tile to protect it from wear and tear.

Some sort of service was being performed at the El Mustang garage. We do not know what it was, but it was apparently something important.

The Mustangs will play their next game at home against the Bulldogs. The Bulldogs are currently 9-0 on the season and are the favorite to win the game.
