New irrigation center to be dedicated today

A newly remodeled 9,000-square-foot teaching and office unit for the Irrigation Training and Research Center will be dedicated today (Feb. 28).

Guests invited to the event include Jonas Minton, chief of the Office of Water Conservation for the California Department of Water Resources. Also invited are representatives of the state’s agriculture industry and other water and resource agencies.

The dedication ceremony at 11:45 am will be preceded by tours of the new facilities in the Agricultural Engineering Building. A luncheon and meeting of the Irrigation Training and Research Center’s statewide advisory board will follow.

-contained on the first floor of the newly developed facility are administrative offices, a laboratory and teaching room for university courses in irrigation and water management, and a teacher preparation room. The second floor includes a classroom/laboratory for short courses and offices for faculty and staff of the ITRC.

Dr. Charles Burt, director of the center and a member of the Agricultural Engineering Department faculty, said the new teaching and office unit complements extensive field facilities for irrigation teaching and research that have been developed over the past five years.

These include a water delivery automation facility with canals for demonstrating upstream and downstream controls, a separate 200-meter scale model canal, a pump teaching facility, a pipeline design area, and computer-controlled operating systems.

Major contributions to support the development of the Cal Poly center and its programs have come from both Pacific Gas and Electric Co. and the state Department of Water Resources.

Other significant contributions have been received from Southern California Edison Co., Waterman Industries, the U.S. Geologic Survey, and John L. Merriam, an emeritus member of the agricultural engineering faculty.

Burt said the main purpose of the Cal Poly ITRC is to provide multi-disciplinary opportunities for research and training in water conservation and irrigation through education, technology transfer, and applied research.

The Waverly Consort, a group with the reputation of being America’s foremost purveyor of Renaissance music, will present the next concert for the Cal Poly Arts Quintessence Series at 8 pm on Wednesday, March 6, in the Cal Poly Theatre.

“Sing We and Chant It” will feature ten outstanding singers and players performing on authentic reproductions of early instruments the Italian and Elizabethan music that was popular in England toward the end of the 16th century.

The concert will celebrate a brilliant, brief era of Anglo-Italian cultural exchange, when an Italian vogue invaded England and left its mark on English culture.

This invasion came in the form of Italian manuscripts and books, Italian court manners and humanistic philosophy, Italian poetry, and Italian music and musicians.

With music, it took the form of Italian music with an English style infused upon it.

‘Citizen Kane’ to be screened March 9

Lovers of the film classic “Citizen Kane” are in for a treat on Saturday, March 9. This year is the golden anniversary of the release of the film, and the author of a new book, “Citizen Kane: The Fifty Anniversary Album,” will be at Cal Poly to describe the creation of the controversial movie.

Harlan Lebo, director of communications for UCLA’s College of Letters and Science, will be at the Theatre at 7 pm to present a slide presentation. The Orson Welles classic will follow his talk. The event is sponsored by the Cal Poly Library Associates. Tickets will be $7 each and will be available at the door.

From the moment “Citizen Kane” was released in 1941, it has been hailed by many as the greatest motion picture ever made. Lebo’s book examines the uproar over the film spurred by some of Hollywood’s most powerful figures, and the efforts of William Randolph Hearst to suppress the film — a plan which nearly compelled RKO Pictures to destroy the film.

The controversy was followed by the virtual disappearance of “Citizen Kane” for years and its eventual rise to the pinnacle of success.

The screening of “Citizen Kane” and the talk by Lebo on March 9 is just one of a series of programs and events sponsored by The Library Associates.

Library Associates’ membership is open to all, including university faculty, staff, students, and members of the community. Annual dues start at $15.
